Section I Listening

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear a weather forecast for some major cities in the world. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only 1 word or number*** *in each numbered box. You will hear the recording twice.*

International Weather Report				
City	High	Low	Weather	
Athens	80	70	_____	1.
Beijing	_____	64	cloudy	2.
Cairo	93	73	_____	3.
Istanbul	86	_____	clear	4.
New Delhi	_____	80	cloudy	5.

Part B

Directions:

For Questions 6 ~ 10, you will hear a passage about the change in American marriages. While you listen, complete the sentences and answer the question. Use ***not more than 3 words*** *for each answer. You will hear the recording twice.*

The divorce rate in America has reached		6.
In the 21st century, most Americans will marry three or four times		7.
Alvin Toffler published a book named		8.
The percentage of remarriage among divorced Americans is		9.
One of the reasons for the change in Americans marriages is		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece ***only once****.*

Questions 11 ~ 13 are based on the following passage about Emily Dickinson—a well-known American poet.

11. How long did Emily Dickinson live in the house where she was born?

[A] Almost all her life. [B] Less than half her life.

[C] Until 1830. [D] Before 1872.

12. Which of the following is TRUE of Emily Dickinson?

[A] She was not a productive poet. [B] She saw many of her poems published.

[C] She was not a sociable person. [D] She had contact only with a few poets.

13. When was Emily Dickinson widely recognized?

[A] After Henry James referred highly to her.

[B] After seven of her poems were published.

[C] After her poems became known to others.

[D] After she had been dead for many years.

Questions 14 ~ 16 are based on the following dialogue.

14. What is the woman doing when the man interrupts her?

[A] Taping some music. [B] Watching a film.

[C]Making a video recording. [D]Writing a letter.

15. Why is the woman so excited?

[A]She is going to study in another country.

[B]She received a letter from a Japanese friend.

[C]She just returned from a trip to Japan.

[D]She got a job at a travel agency.

16. Why does the woman feel grateful to Professer Mercheno?

[A]He helped her get into the program.

[B]He recorded some tapes especially for her.

[C]He gave her a good grade in her Japanese class.

[D]He told her about an interesting movie to watch.

Questions 17 ~ 20 are based on the following passage about the history of newspapers.

17. How long is it since the first newspaper was printed?

[A]700 years. [B]Over 2,000 years.

[C]About 1,300 years. [D]About 380 years.

18. According to the passage, which of the following newspapers have the largest circulation?

[A]English language newspapers. [B]Chinese language newspapers.

[C]Japanese language newspapers. [D]German language newspapers.

19. Which of the following is NOT mentioned in the passage?

[A]The earliest printed newspaper was developed in Europe.

[B]It took hundreds of years for newspapers to be developed into their present form.

[C]Boston is the place where American newspapers were first printed.

[D]The first American newspaper carried news from both home and abroad.

20. Which of the following can NOT be inferred from the passage?

[A]China developed advanced technology in printing long before any other country in the world.

[B]More people read newspapers in English than in any other languages.

[C]Japan is the country where people read more newspapers.

[D]Newspapers have developed quickly in the U. S. since the beginning of the 18th century.

Section Ⅱ Reading

(75 minutes)

Part A

Directions:

Read the following text and fill each of the numbered spaces with ONE suitable word. Write your answers on the ANSWER SHEET.

In the years after World War Ⅱ, Americans typically assumed the full responsibilities of adulthood by their late teens or early 20s. Most young men had(21)_____ school and were working

fulltime, and most young women were (22) _____ and raising children. People who grew (23) _____ in this era of growing affluence were economically self-sufficient and able to take care of others by the time they had weathered adolescence. Today, adulthood no longer (24) _____ when adolescence ends.

Social scientists are beginning to recognize a new phase of life: early adulthood. Some features of this stage resemble coining of age (25) _____ the late 19th and early 20th centuries, (26) _____ youth lingered in a state of semi-autonomy, waiting (27) _____ they were sufficiently well-off to marry, have children and establish an independent (28) _____. However, there are important differences (29) _____ how young people today define and achieve adulthood from those of both the recent and the more distant past.

This new stage is not merely an extension of adolescence, (30) _____ has been maintained in the mass media. Young adults are physically mature and often (31) _____ impressive intellectual, social and psychological skills. Nor are young people today reluctant to accept adult responsibilities. Instead, they are busy (32) _____ up their educational credentials and practical skills in an ever more demanding labor market. Yet, many have not become fully adult, (33) _____ they are not ready, or perhaps not permitted, to do (34) _____. For a growing number, this will not happen until their late 20s or even early 30s. In (35) _____, American society will have to revise upward the "normal" age of full adulthood, and develop ways to assist young people through the ever-lengthening transition.

Part B

Directions:

Read the following three texts. Answer the questions below each text by choosing [A], [B], [C] *or* [D]. *Mark your answers on the ANSWER SHEET.*

Text 1

In the last 30 years, science and technology have had a truly dramatic impact on sports. There are three major reasons for this. First, new artificial materials have appeared and been used in many sports—sometimes to revolutionary effect. Second, our design expertise has improved, partly through the development of computers and other technical tools. We know more and can plan and predict more accurately in many critical areas. The third reason why science and technology have had an increasing impact is that there is now the money and the motivation for them to do so. In a variety of ways, sport has become very big business, and in the matter of winning or losing, very large amounts of money may be at stake.

Technology has influenced specific sports in many ways. Wherever a commercial mass market is involved, technical change may be promoted largely for the sake of change, to make this season's product seem different from that of last season. An example of this trend is in the endless search for the perfect sports shoe. Anatomically precise support for the heel and ankle, air sacs for extra spring and comfort each year bring apparent new refinements. Even in retirement, basketball's Michael Jor-

dan remains one of sport's biggest earners because of the deal he signed endorsing the Air Jordan shoe; and one of the richest sportspeople of all, though his winnings these days are minimal, is the veteran golfer Arnold Palmer, thanks to his endorsements of the latest in golf technology.

More significant still in modern sports have been more general effects of technological advance. It has provided the means for timing athletes to thousandths of a second—and the means of replaying an event to check who won or to see if a break-rule occurred. It has put sport on television, so millions can watch without moving from their own homes. It has provided the means for testing for illegal drugs. It has also, for better or worse, given sportsmen and women a new attitude towards their own bodies—encouraged also by the high stakes, the sponsorship and the fevered media attention. Technology helps them plan the best diet and exercise regimes; it has created heart and lung monitors that measure stress and oxygen intake; and it allows athletes to keep a constant check on their own physical problems and progress. In terms of nutrition (fuel) and training (maintenance), the modern sportsperson is treated—and treats himself or herself—like a machine.

36. According to the author, sport has become very big business in the sense that _____.

[A] it needs high-tech materials [B] it requires business management

[C] it involves the wide use of computers [D] it seems a matter of big money

37. The example of sports shoes suggests that the technological advances in modern sports are _____.

[A] encouraged by commercial interests [B] supported by famous sportspeople

[C] attributed to basketball performance [D] subjected to computer technology

38. The text suggests that some of the rich sportsmen _____.

[A] cooperate with companies to develop high-tech sports products

[B] are interested in promoting the development of science and technology

[C] are selfishly earning money by promoting new sports products

[D] play a positive role in promoting high-tech sports products

39. By saying "the modern sportsperson is... like a machine", the author emphasizes the sense of _____.

[A] rigidity [B] inhumanity [C] preciseness [D] automation

40. The statement that best summarizes the text is _____.

[A] sportspeople seek high-tech products for better performance

[B] science and technology have played a significant role in sports

[C] science and technology have helped improve the sports environment

[D] some sportspeople have benefited financially from new technology

Text 2

Most of us Americans have a vague, uneasy sense of wicked wastefulness. We throw out the never-opened pack of food that's past its sell-by date before answering a call on the fourth mobile phone we have had in five years. We gaze around our living space groaning at the sheer quantity of little-

used clothing, blocking it up like a blood clot in an arterial vein.

Our despair is genuine at the way we are running out of the earth's resources and at the fact that we have so much when two-thirds of the world's population only just get enough to eat and drink. Yet we feel completely powerless to do anything about it, too busy, irritable and tired to focus on practical steps.

For the problem goes even deeper than material wastefulness: We know we are wasting our time, our being, our lives. We have compromised in our choice of career, lovers, friends; we put on a face to meet the faces that we meet. Trapped in marketing characters, not only in our office politics but in our intimate relationships, too, we play too many games.

Deep down, we know that it's time to "get a life", to stop being distracted by pointless consumerism, unreal relationships, and "Affluenza-infected" career ambitions.

The first step to salvation is to understand how much it is not your fault. If you read Vance Packard's 1958 book about the advertising industry, *The Hidden Persuaders*, it proves that long ago retailers were devising ways to deliberately deceive us into confusing mixed wants with true needs in order to keep the consumption bandwagon rolling. In recent years, manufacturers have intentionally speeded up the rate at which electronic goods become obsolescent and instead of the proper repair customer services that used to exist, there are merely expensive help-lines. When your toaster or printer or MP3 music device breaks down after only a year, it is no accident that there is no one who will repair them—"it'd cost more than buying a new one, love".

So this is a selfish capitalist system which is designed to maximize profits through rapid turnover of "newer, better" goods that break down sooner and are designed to be irreparable. It's not your fault!

What you can do is withdraw as much as possible from the consumption game. Every time you are about to buy something ask yourself, "do I need this, or do I just want it?"

41. Most Americans, according to the author, feel uneasy about _____.

[A] depending too much on modern technology

[B] failing to solve problems in their lives

[C] having too little living space

[D] wasting too many resources

42. By saying "we play too many games", the author wants to show _____.

[A] we are wasting our lives

[B] we make too many mistakes

[C] we do not take our life seriously

[D] we are too busy enjoying ourselves

43. To make ourselves feel better, we should first _____.

[A] figure out whom to blame for our excessive consumption

[B] avoid making unnecessary purchases in our daily life

[C] pick out misleading messages in the advertisement

[D] exercise caution when making a big purchase

44. We learn from Paragraph 5 that _____.

[A] the quality of goods is getting worse recently

[B] customers are more often misled nowadays

[C] we are deceived into making a purchase

[D] advertisers have become very clever

45. The author advises us to buy _____.

[A] more than we need　　[B] only what we want

[C] more than we want　　[D] only what we need

Text 3

Susan Baroness Greenfield is a British institution. In a country that perceives its scientists as white-coated eccentrics, and probably male, Lady Greenfield is fashionable, extravagant, and female. At least, that is the image she has sought to project as a populariser of science. She is accused, though, of bringing another British institution, the Royal Institution (RI), to the verge of bankruptcy. The RI, of which she was director from 1998 until last Friday (January 8th), has made her job redundant. She says she plans to respond with a suit for sexual discrimination.

Lady Greenfield, a neuroscientist at Oxford University, was recruited to shake up the two-century-old institution because she had made a name for herself, particularly on television, as one of the popular faces of science. The RI is, in part, a members' club famous for its Christmas lectures "adapted to a juvenile audience", which are broadcast on television every year, and its Friday evening discourses (black ties, please, gentlemen), in which prominent scientists chat about their work for precisely an hour—no more and no less—before everyone is served tea and chocolate cake. But it is also a serious research laboratory (one of the longest-established in the world), looking into things like the medical applications of nanotechnology.

Lady Greenfield's offence, if offence it be, was to modernize the RI's headquarters in Mayfair, one of the most stylish parts of London, without proper cost control. The redecoration included a high-class bar and restaurant that are open to the general public. Sadly, these opened for business in October 2008—the least favorable moment imaginable for such a venture.

The redecoration, which cost £ 22m, much of which was raised by selling the institution's shares of property, has left the RI £ 3m in debt, and the trustees have decided that one way to cut costs is to cut the job of director. Lady Greenfield, the first female director in a line that stretches back through Michael Faraday to Humphry Davy, seems to suspect that financial considerations were not the only ones when this decision was made.

Instead of a director, the RI is to be led by a newly-invented chief executive officer, in the person of Chris Rofe. Mr. Rofe, who was appointed in April 2009, has a degree in business administration, not science. Given the debt, though, perhaps an alchemist, a person who devotes himself to turning ordinary metals into gold, would be the most appropriate person for the job.

46. By saying Lady Greenfield is"a British institution", the author means _____.

[A] she is well-known in Britain [B] she owns a British association

[C] she is suing a British institution [D] she is accused by a British institution

47. Which of the following is true of the RI?

[A] It provides one-hour-long club activities for famous scientists.

[B] It offers special annual Christmas lectures for young people.

[C] It enjoys a long history of scientific research in medicine.

[D] It makes a name for popularizing science on television.

48. Lady Greenfield was blamed for _____.

[A] misunderstanding the significance of the RI's modernization

[B] misjudging the RI's business opportunities in London

[C] mismanaging the costs for the RI's redecoration

[D] mistiming the opening of the redecorated RI

49. It can be learned from Paragraph 4 that _____.

[A] the RI has sold all its property for redecoration

[B] the redecoration has undermined the RI's reputation

[C] the RI fired Lady Greenfield to cut redecoration costs

[D] Lady Greenfield thought her dismissal unfair

50. How does the author feel about the prospects of the RI's getting _____.

[A] Confident [B] Suspicious [C] Optimistic [D] Cautious

Part C

Directions:

In the following text, some sentences have been removed. For Questions 51 ~ 55, choose the most suitable one from the list [A] – [G] to fit into each of the numbered blanks. There are two extra choices, which do not fit in any of the blanks. Mark your answers on the ANSWER SHEET.

The Internet and mobile phones have transformed our connections to people around the world. This technology has also, however, led to a widening gender gap in poorer countries. For it is largely men who control the information revolution that helps to educate, inform and empower.

In low- and middle-income countries, a woman is 21 percent less likely than a man to own a mobile phone, according to research done by GSMA. In Africa, women are 23 percent less likely than a man to own a cell phone. In the Middle East the figure is 24 percent and in South Asia, 37 percent.

The factors driving women's lack of connectivity vary from community to community. But the end result is always the same: disempowerment. (51) _____

This disturbing finding is highlighted by the United Nations/Overseas Development Instituteled My World survey, a major, inclusive global poll. Respondents were asked to rank their priorities—including political freedoms, better healthcare, protection from violence and crime—in making the world better. They could vote paper, online or by mobile phone. (52) _____

The survey has already gathered 1.5 million votes. Women are just as keen as men to have their views heard—engagement offline is a 50-50 split between women and men, online women have voted more than men, with a 52-48 split.

(53)_____ Consider Yemen, where 121,000 people voted on their mobile phones. Of those, 81,000 were men.

Overall, women respondents picked education, healthcare and better job opportunities as their top priorities in making the world better. (54)_____

Getting more mobile phones into the hands of women in low- and middle-income countries will not be easy because the reasons behind their lack of ownership are so varied. But there are some solutions.

In these countries there are typically three key barriers: Mobile phones are too expensive, the monthly bills are too high or there is no urgent need to own one. Governments should help lower these barriers. They should set up transparent regulatory systems that would encourage more mobile phone providers to enter the market. More competition means lower prices and more affordable plans.

(55)_____ Governments should also subsidize computer and smartphone ownership for low-income people.

[A] A mobile phone can bring benefits to women, and many of these we in the West take for granted: personal safety, reliable connection to friends and family and access to commerce and job opportunities.

[B] Most important for a world dominated by Facebook and Twitter and e-polls, a mobile phone gives women a voice.

[C] But mobile voting has told a different story. The difference in response rates between the sexes is obvious. Of the roughly 380,000 respondents who took the survey via mobile, only 25 percent were women.

[D] But if you saw only the mobile vote, their views would have been diluted because men dominated. If women owned mobile phones in equal numbers, their access to education, healthcare and better jobs would indeed be improved.

[E] Women are not just missing out on educational and economic opportunities because they don't own mobile phones. They are losing a voice.

[F] The results will help world leaders as they deliberate on the post-2015 global development agenda this week, during the conference of the U. N. Commission on the Status of Women.

[G] In addition, governments should ensure that women have access to microfinance plans to help purchase phones. They should strive to make equal access to mobile connectivity part of their development plans.

Part D

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write

your translation clearly on the ANSWER SHEET.

We have known the elephants, the greatest land mammal of them all—highly sensitive, intelligent, family-oriented, big-toothed creatures—for a very long time, and they have known us. It has been a tortuous relationship, and one that is still evolving. (56) We have looked up to elephants as gods, but killed them for their ivory, and captured and enslaved them to be our beasts of burden in work and war, and for our entertainment.

Earlier this month, Ringling Brothers and Barnum & Bailey Circus announced that it had decided to phase elephants out of its public spectacles, retiring its remaining forty-three working elephants to a park it owns in Florida, where twenty-nine elephants already live. (57) The decision follows years of pressure from animal-rights groups, and is part of a trend that has been gathering strength for years. Most other circuses in the United States and Western Europe have stopped using the animals because the routine use of prods, cages, and chains, both to transport elephants and to force their obedience, has come to be seen by growing numbers of people, including circus goers, as cruel.

The Ringling news is striking. (58) In our gradual awakening to the idea that we must protect the elephant from enslavement and cruelty, it may be possible to hear echoes of other dawnings of conscience. As someone born at a time of widespread consensus that human slavery was one of history's most despicable and shameful practices, (59) I've always been intrigued by the realization that, during the life of my great-great-grandfather, there were a significant number of otherwise intelligent and sensitive white Americans and Europeans who apparently did not see it that way.

And then I recall the excitement that I felt at going to the circus as a child. There were at least flashes of discomfort when I watched as trainers used prods to make elephants hold each other's tails with their trunks and sway back and forth to music, or shouted commands for them to kneel, to put their bottoms in the air. But, in the end, (60) the spectacle, the noisy excitement of the crowds, and the presence of grownups all signaled an acceptance of things as they were, and one's awareness of the elephants' humiliation became somehow less acute. As an adult, it has been easier to perceive the treatment of circus elephants for what it is: cruel.

Section Ⅲ Writing

(40 minutes)

Directions:

61. *Read the following text and write an essay to*

1) summarize the main points of the text,

2) make clear your own viewpoint, and

3) justify your stand.

In your essay, make full use of the information provided in the text. If you use more than three consecutive words from the text, use quotation marks ("").

You should write 160 – 200 words on the ANSWER SHEET.

Sunlight is free. Turning it into electricity produces no greenhouse gases and the process is getting cheaper every year. These facts suggest solar power ought soon to be a big part of the world's energy mix. However, it is unavailable at night and is most efficiently generated in deserts. Can these problems be overcome? Or is solar power forever destined to be financially aided greenwash that is applied superficially to fossil-fuel-based economies to make them seem more environmentally friendly than they really are?

This motion depends on whether the world needs saving, and if so, from what?

There are two conventional answers to the second question. One is, "from the effects of climate change brought about by man-made global warming". The other is, "from dependence on fossil fuels that are, by definition, a finite resource".

Both of these answers are challengeable. Few informed people doubt that humanity's outpourings of greenhouse gases, particularly carbon dioxide, are altering the climate. But there is doubt over both how big that effect will be and whether the response should be to try to stop the change or to adapt to it. The former would certainly require an approach to alternative energy, in which solar power would play an important and probably eventually dominant role. The latter would argue for business as usual, with access to the cheapest energy sources (ie, at the moment, fossil fuels) to help bring about the economic growth that will help pay for adaptation to an altered climate.

全国英语等级考试第四级真题试卷(二)

Section I Listening Comprehension

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear a radio program about resources on the Internet. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only*** *1* ***word or number*** *in each numbered box. You will hear the recording twice.*

Resources on the Internet		
The reporter searches the Internet for	books	1.
The number of the bookstores in North American linked to this Canadian website is more than		2.
The number of books sold per day through the website is		3.
To link to the Canadian site, one can visit the website named	. com	4.

续表

Resources on the Internet		
As the reporter says, George Washington University provides educational opportunities to meet global		5.

Part B

Directions:

For Questions 6 ~ 10, you will hear a brief talk about the popularity of coffee. While you listen, complete the sentences or answer the questions. Use ***not more than*** *3* ***words*** *for each answer. You will hear the recording twice.*

How many tons of coffee do Americans consume each year?		6.
Each year the coffee a Swede drinks reaches an average of		7.
King Gustav Ⅲ believed that coffee was		8.
Who died first in the King's experiment?		9.
People drink coffee because it makes them feel		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece ***once only.***

Questions 11 ~ 13 are based on a talk about World AIDS Day.

11. World AIDS Day is a day to _____.

[A] consider the treatment of individuals with the AIDS virus

[B] show the importance of the AIDS Association

[C] call on doctors to place more importance on AIDS patients

[D] celebrate the achievements in the control of AIDS

12. What is the theme for the next year's AIDS campaign?

[A] Development of a cure for AIDS. [B] Fair treatment of AIDS patients.

[C] Progress in AIDS research. [D] Courage to live with AIDS.

13. How many women were infected with the AIDS virus last year?

[A] 2 million. [B] 4 million. [C] 19 million. [D] 39 million.

Questions 14 ~ 16 are based on the the biography of Stephen Biko, a South African political leader for the Black Consciousness Movement.

14. What did Biko study in the university?

[A] Politics. [B] Black nationalism.

[C] Medicine. [D] Government policies.

15. When did Biko become the honorary president of the Black People's Convention?

[A] 1968. [B] 1972. [C] 1973. [D] 1977.

16. What did the South African Government do with the Black Consciousness Movement at the beginning?

[A] Put up with it. [B] Restricted its activities.

[C] Arrested its leaders. [D] Granted limited approval.

Questions 17 ~ 20 are based on a talk about left-handers.

17. What is the purpose of Left-handers International?

[A] To help left-handers find better jobs.

[B] To change public attitudes towards left-handers.

[C] To rid left-handers of their prejudices.

[D] To show the public the talents of left-handers.

18. What have researchers found in their studies of hand preference?

[A] Children don't show strong hand preference until six.

[B] Children under three tend to have a favorite eye and ear.

[C] There are as many male left-handers as female ones.

[D] Left-handers are more interesting than right-handers.

19. Left-handers seem more athletic because they _____.

[A] are more energetic [B] persist in physical training

[C] possess a creative impulse [D] have a better sense of space

20. What is the problem some left-handers might suffer from?

[A] Slowness in communication. [B] Awkwardness in action.

[C] Speech defect. [D] Difficulty in writing.

You now have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

This is the end of Listening Comprehension.

Read the following text. Choose the best word or phrase for each numbered blank and mark [A], [B], [C] or [D] on ANSWER SHEET 1.

Pragmatism is a philosophical movement that has had a major impact on American culture from

the late 19th century to the present. Pragmatism calls __21__ ideas and theories to be tested in practice, by __22__ whether acting upon the idea or theory produces desirable or undesirable results.

The ideas of the pragmatists were considered __23__ when they first appeared. To some critics, pragmatism's __24__ to affirm any absolute standards carried negative implications for society. __25__, pragmatists do not believe that a single absolute idea of goodness or justice exists, but __26__ that these concepts are changeable and depend on the __27__ in which they are being discussed. The __28__ of these absolutes, critics feared, could result in a(n) __29__ in moral standards. The pragmatists' denial of absolutes, __30__, challenged the foundations of religion, government, and schools of thought. __31__, pragmatism influenced developments in psychology, sociology, and many other schools and movements. __32__ political groups have also drawn __33__ the assumptions of pragmatism, from the progressive movements of the early 20th century to later experiments in social reform.

Pragmatism is best __34__ in its historical and cultural context. It arose during the late 19th century, a period of rapid scientific advancement __35__ by the theories of British biologist Charles Darwin, whose theories __36__ to many thinkers that humanity and society are in a __37__ state of progress. During this same period, a decline in __38__ religious beliefs and values accompanied the industrialization and material progress of the time. In __39__, it became necessary to rethink __40__ ideas about values, religion, science, community, and individuality.

21. [A] for [B] in [C] out [D] off
22. [A] discussing [B] predicting [C] assessing [D] questioning
23. [A] reasonable [B] credible [C] revolutionary [D] attractive
24. [A] effort [B] refusal [C] intention [D] hesitation
25. [A] In turn [B] Above all [C] For example [D] In addition
26. [A] rather [B] also [C] still [D] even
27. [A] domain [B] vicinity [C] context [D] surrounding
28. [A] subject [B] defect [C] existence [D] absence
29. [A] change [B] decline [C] correction [D] interest
30. [A] therefore [B] nevertheless [C] anyway [D] moreover
31. [A] As a rule [B] On the contrary [C] As a result [D] On average
32. [A] Particular [B] Various [C] Significant [D] Few
33. [A] on [B] in [C] up [D] forth
34. [A] simulated [B] handled [C] practiced [D] understood
35. [A] typified [B] systemized [C] generalized [D] justified
36. [A] supposed [B] contributed [C] implied [D] suggested
37. [A] perpetual [B] consistent [C] prosperous [D] temporary
38. [A] universal [B] prevalent [C] traditional [D] representative
39. [A] consequence [B] reality [C] essence [D] contrast
40. [A] confusing [B] fundamental [C] controversial [D] dominant

Section Ⅲ Reading Comprehension

(60 minutes)

Part A

Directions:

Read the following four texts. Answer the questions below each text by choosing[*A*],[*B*],[*C*] *or* [*D*]. *Mark your answers on ANSWER SHEET 1.*

Text 1

A Food and Drug Administration(FDA) advisory committee has concluded that a novel new treatment can greatly help rheumatoid arthritis patients.

The panel recommended approving Enbrel for use alone in patients who haven't responded to other drugs or in combination with methotrexate, a cancer drug that has been the main treatment for rheumatoid arthritis.

The FDA must make a final decision by early November, and the drug's maker says it could be on the market by year's end.

In rheumatoid arthritis, which affects 2.1 million Americans, the immune system attacks healthy joints. A major wrongdoer in this process is a protein called "tumor killing factor", or TNF, which interacts with a special molecule, or TNF receptor, on cells' surfaces.

To keep inflammation in check, cells normally release some receptors to mop up excess TNF, rendering it inactive. Apparently, rheumatoid arthritis patients don't have enough free-floating TNF receptors.

Enbrel consists of genetically engineered TNF receptors. In a six-month study, 234 patients with advanced rheumatoid arthritis received one of two doses of Enbrel or a placebo (harmless substance given as if it were medicine) in twice-a-week injections. They took injections for six months. By the end, 40% of patients on the larger Enbrel dose saw symptoms, such as swelling and joint pain, cut in half. Only 5% on the placebo did that well. The main side effect was minor irritation at the injection site.

Because some TNF is needed for a normal immune response, there is at least a theoretical risk of infections or even cancer in patients who take Enbrel, so the FDA panel urged long-term safety studies.

Last week, the FDA approved Arava, an oral treatment for rheumatoid arthritis that is similar to methotrexate. While calling both Enbrel and Arava "potentially very important", Brian Butcher, vice president for research at the Arthritis Foundation, notes they have been tested in relatively few patients.

Butcher says their safety should be closely monitored once they're widely available.

41. Enbrel as recommended by FDA advisory committee _____.

[A] could be a substitute for methotrexate in the near future

[B] might bring hope to rheumatoid arthritis patients

[C] should be administered to all rheumatoid arthritis patients alike

[D] would distinguish itself for its cancer-killing effect

42. Which of the following is responsible for the inflammation of the joints?

[A] A special molecule on cell's surface. [B] A free-floating receptor.

[C] A tumor-killing protein. [D] Inactive TNF.

43. We learn from Paragraph 6 that _____.

[A] Enbrel treatment in large doses could reduce the patients' symptoms

[B] arthritis patients presented symptoms after Enbrel treatment

[C] arthritis patients with treatment of a placebo were rid of symptoms

[D] only 5% on the placebo got symptoms such as swelling and joint pain

44. The wide use of the new drug Enbrel relies much on _____.

[A] justification of the new treatment [B] a new monitoring system

[C] mass production of the drug [D] long-term safety studies

45. Which of the following might be an appropriate title for the text?

[A] TNF and Immune System [B] Enbrel versus Methotrexate

[C] Arthritis Drug on Path to Approval [D] Study on Rheumatoid Arthritis

Text 2

How far away you are from retirement plays a large part in how you should invest your retirement money. According to Leslie Wright of Westminster Portfolio Services Ltd., there are three stages to a long-term regular savings plan for retirement: capitalization, consolidation and conservation. In the first stage, people should be most concerned with building up their retirement savings investment. According to Wright, these investors can "take as aggressive an outlook as their nerves can stand," because at this point there is little capital to risk. The second step, consolidation, makes up the bulk of your savings plan; balance the aggressive investments with some tamer ones, to better protect your existing possessions. The final change, from consolidation to conservation, when your investments should aim to preserve the capital you have, should take place one to three years before you retire. The exact timing of all these should take current market conditions into account, although Wright warns against risky betting on future growth. "Greed must not be allowed to blind prudence," he says.

Whatever vehicles you choose for your retirement share-holding, be sure to take advantage of dollar-cost averaging. By investing a fixed amount at regular intervals, you'll be able to avoid the risk of poorly timed investments by averaging out the peaks and valleys of the market. Plus, regular contributions will let you avoid the temptation to drop out when the market falls, and to buy too much when prices are high.

Those who are well along the road to retirement may have cause for concern these days. The plunging stock and property markets have shrunk savings, for retirement and otherwise; and some people have not planned for their retirement at all.

You won't be that rash, of course, but what if you're already in mid-career and don't have a retirement plan in place? If you don't make some serious cuts in your spending and save heavily now, you'll have to sacrifice in your golden years.

Of course, it's better still to get off on the right foot by starting your planning early. "No one should have to compromise his living standards when he retires," says Wright. "Retirement is a time to really enjoy life. We have all worked so hard." And one of the things you should be working hard on right now is planning for those days of enjoyment.

46. In the first stage of saving for retirement, people can take an aggressive investment strategy because _____.

[A] they have a long-term regular savings plan in view

[B] they can well stand losses that might occur

[C] there is no risk in long-term investment

[D] chances can balance possible risks

47. To avoid the risk of poorly timed investments, one should _____.

[A] adopt dollar-cost averaging strategy

[B] set a limit to his investment at regular intervals

[C] suppress the temptation to drop out untimely

[D] stop buying shares when the prices are too high

48. What does the phrase "in your golden years" (Line 3, Paragraph 4) mean?

[A] Youth. [B] Middle age. [C] Mid-career. [D] Old age.

49. The author might agree to the argument that _____.

[A] one will have to change his spending habits when growing old

[B] it's far better to end up with too much money than not enough

[C] it's advisable to open a savings account instead of buying stock shares

[D] people should spend less on living after their retirement

50. Which of the following might be an appropriate title for the text?

[A] Savings Strategy [B] Enjoy Your Later Years

[C] Plan for Retirement [D] Risky Stock Market

Text 3

In the 400s BC, the Sophists, a group of wandering teachers, began to teach in Athens. The Sophists claimed that they could teach any subject or skill to anyone who wished to learn it. They specialized in teaching grammar, logic, and rhetoric, subjects that eventually formed the core of the liberal arts. The Sophists were more interested in preparing their students to argue persuasively and win arguments than in teaching principles of truth and morality.

Unlike the Sophists, the Greek philosopher Socrates sought to discover and teach universal principles of truth, beauty, and goodness. Socrates, who died in 399 BC, claimed that true knowledge existed within everyone and needed to be brought to consciousness. His educational method, called the So-

cratic method, consisted of asking probing questions that forced his students to think deeply about the meaning of life, truth, and justice.

In 387 BC Plato, who had studied under Socrates, established a school in Athens called the Academy. Plato believed in an unchanging world of perfect ideas or universal concepts. He asserted that since true knowledge is the same in every place at every time, education, like truth, should be unchanging. Plato described his educational ideal in *The Republic*, one of the most notable works of Western philosophy. Plato's *Republic* describes a model society, or republic, ruled by highly intelligent philosopher-kings. Warriors make up the republic's second class of people. The lowest class, the workers, provide food and other products for all the people of the republic. In Plato's ideal educational system, each class would receive a different kind of instruction to prepare for their various roles in society.

In 335 BC Plato's student, Aristotle, founded his own school in Athens called the Lyceum. Believing that human beings are essentially rational, Aristotle thought people could discover natural laws that governed the universe and then follow these laws in their lives. He also concluded that educated people who used reason to make decisions would lead a life of moderation in which they avoided dangerous extremes.

In the 4th century BC Greek orator Isocrates developed a method of education designed to prepare students to be competent orators who could serve as government officials. Isocrates's students studied rhetoric, politics, ethics, and history. They examined model orations and practiced public speaking. Isocrates's methods of education directly influenced such Roman educational theorists as Cicero and Quintilian.

51. Which of the following is true of the Sophists?

[A] Their teaching turned out to be persuasive.

[B] Their schools were located mostly in Athens.

[C] They undermined the morality of the society of their time.

[D] They exerted considerable influence over later generations.

52. Plato held that a perfect society should be one marked, among other things, by _____.

[A] equality and freedom [B] democracy and liberality

[C] intellect and hierarchy [D] evolution and flexibility

53. Which of the following would have been one of Plato's dislikes?

[A] Challenge to class divisions. [B] Maintenance of political order.

[C] Obedience to the rulers. [D] Acceptance to their social roles.

54. The followers of Isocrates might have shown little interest in _____.

[A] morality [B] historical events

[C] principles of a government [D] comedies

55. Who might share a similar teaching focus to the Sophists?

[A] Aristotle. [B] Isocrates. [C] Plato. [D] Socrates.

Text 4

Overshadowed by rows over Nigeria and Lockerbie, the Commonwealth's attempts to refocus on trade and investment—the main theme of the Edinburgh heads of government meeting—attracted little attention and even less praise.

Hopes were high that the summit's economic statement would be of similar weight to the Harare Declaration, issued in 1991 to map out a political agenda for the ex-colonial club after the end of its preoccupation with the struggle against separateness. But the publication of the statement did little to divert attention from rows over the trial of two Lockerbie bomb suspects and over the decision by the Commonwealth Ministerial Action Group(CMAG) not to impose new sanctions against Nigeria. CMAG chose to ignore calls for Nigeria's expulsion and the imposition of an oil embargo. They concluded that the situation would be reassessed if General Sani Abacha failed to honor his promise to hold fully democratic elections next October.

The Prime Minister, Tony Blair, was delighted with the six-page document, entitled Promoting Shared Prosperity. "It signals the end of ideology and reflects basic principles of economic and social justice," Downing Street said. "It would have been unthinkable only a short time ago." But the declaration produced few surprises and many boring repetitions of statements based on affirmation of free market principles in the global economy.

It was never going to be easy to bridge gaps between the Commonwealth's 54 members, which include both wealthy countries, such as Britain, and some of the world's poorest, such as Bangladesh. So Edinburgh stayed on safe ground, establishing four key principles: 1) The world economy should be geared towards promoting universal growth and prosperity for all; 2) There must be effective participation by all countries in economic decision-making; 3) The removal of obstacles that prevent developing countries from playing a full part in shaping the global economy; 4) International regimes affecting economic relations among nations should provide benefits for all.

Caribbean members insisted on a reference to their troubles over banana exports threatened by a new World Trade Organization ruling, and won recognition of their "legitimate interests" and the need for help to diversify their economies.

Practical measures included a decision to establish a Commonwealth Trade and Investment Access Facility to help developing countries take advantage of globalization.

One additional source of revenue was opened up with the creation of a new fund for development in South Asian member countries.

The Worldwide Fund for Nature said the Commonwealth had not matched its rhetoric about the dangers of globalisation by failing to promise higher-quality investment, protection for the environment and labour rights.

56. The word "rows" (Line 1, Paragraph 1) most probably refers to _____.

[A] groups of people
[B] noisy arguments
[C] subsequent events
[D] tragic happenings

57. It can be learned from the first two paragraphs that _____.

[A] the Edinburgh summit failed to handle the issue of trade and investments

[B] the Edinburgh summit strive to avoid public attention

[C] the meeting in Edinburgh has intended to settle the issue of Nigeria

[D] the efforts in Edinburgh harvested as much as those in Harare

58. The six-page document Promoting Shared Prosperity _____.

[A] accorded with free market principles in the global economy

[B] justified its ideology with basic principles of economic and social justice

[C] surprised the world with its boring repetitions of statements

[D] paved the way for all member states to bridge gaps between them

59. The Edinburgh meeting established four key principles including _____.

[A] all nations should evenly benefit from the world economic growth

[B] all developing countries should have full participation in shaping the global economy

[C] wealthy countries should take the lead in developing the world economy

[D] international regimes should be abolished in case they affect economic relations

60. The Worldwide Fund for Nature's comment on the Commonwealth's behavior is _____.

[A] approving [B] puzzled [C] neutral [D] critical

Part B

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write your translation clearly on ANSWER SHEET 2.

Three common ways of remembering are: repetition, association, and exaggeration.

Repetition is the key to long term memory. (61) Physiologically, when brain cells are activated by the memory process, the nerve cell coating becomes thicker and thicker with each repetition, strengthening the electrical pathway in brain that constitutes memory. In addition, when associations between parts of a thing remembered are formed, the nerve cell body sends out axon runners to other associated memory cells. These runners from one cell connect to runners on other cells. (62) As the pathway is used repetitiously, the surrounding cells become larger and more tightly wrapped around the electrically conductive pathways, thereby transforming the memory from a short-term memory to a long-term memory.

Memories of similar objects reside in nearby regions of the brain, while memories of exotic or exaggerated objects are farther away. (63) By forming memories with creative and unusual associations, many more pathways are established, much like a spider weaving an ever bigger web, in which each part leads to the center by many interconnected pathways.

Memory links are also established when a variety of sensations and muscular activity are engaged. (64) Indeed, some people seem to be more proficient at learning by either seeing, hearing or writing, but no one method can provide the more numerous pathways provided by all three in combination.

Memory is enhanced not only by repetition, but also by association and exaggeration of certain features of the object. Many memories are recalled as series of objects. For instance, a memory device to remember four common logical fallacies is a picture of the Earth, with the green continents and blue oceans, viewed from outer space with a flight of white geese circling around it. This image is used to recall the statement "geese circle every continent." The first letters of that statement stand for the logic fallacies of generalization, circularities, either/or, and cause and effect.

Size, also, seems to play a role in memorization. During the Middle Ages, memory contests were held annually. In one, the winner remembered one hundred thousand sequential items. A time-proven memory method from the Middle Ages is association of abstract ideas to large objects. (65) The objects used for trigger recall seem to need to be about the size of a human, so that, if we were blind, we could identify the object by touch. Large objects in the memory seem to engage muscular memory areas as well as sight memory areas in the brain and expand the memory web. For instance, remembering the points of a speech about a military battle might involving walking from one room to another in a familiar house.

Section Ⅳ Writing

(35 minutes)

Directions:

66. *Study the following picture carefully and write an essay on it. In your essay, you should*

1) describe the picture briefly,

2) analyze this situation, and

3) give your comments.

You should write 160 – 200 words neatly on ANSWER SHEET 2.

压力与动力

全国英语等级考试第四级真题试卷(三)

Section I Listening Comprehension

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear a talk about Buckingham Palace and Queen Elizabeth who lives in it. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only*** *1* ***word or number*** *in each numbered box. You will hear the recording twice.*

Buckingham Palace and Queen Elizabeth		
the year when Buckingham Palace was built	1705	
the year when Elizabeth came to the throne		1.
the floor on which the royal family live	2nd floor	
the season when garden parties are held		2.
number of guests at each party	9,000	
number of people taking care of Queen Elizabeth		3.

续表

Buckingham Palace and Queen Elizabeth		
the meal during which Scottish music is played		4.
places Queen Elizabeth often visits after lunch		5.
	schools	

Part B

Directions:

For Questions 6 ~ 10, you will hear the life story of Alexander the Great. While you listen, complete the sentences or answer the questions. Use ***no more than 3 words*** *for each answer. You will hear the recording twice.*

Alexander was called a god because he was		6.
In which year did Alexander become king?		7.
In which country did Alexander found a new city?		8.
What kind of people did Alexander recruit to live in the cities he built?		9.
At what age did Alexander die?		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece ***once only****.*

Questions 11 ~ 13 are based on the following conversation between a driver and a police officer.

11. Why did the police officer stop the driver?

[A] The driver exceeded the speed limit.

[B] The driver didn't stop at the zebra crossing.

[C] The officer was conducting a routine check.

[D] The officer found the car's brake lights were out.

12. Why did the driver mention his wife's cousin's husband?

[A] To prove his connection with the officer. [B] To show himself as an influential man.

[C] To influence the police officer. [D] To establish a new friendship.

13. What did the police officer threaten to do?

[A]Give the driver a ticket. [B]Take the driver to court.

[C]Retain the driver's car. [D]Take the driver to the police station.

Questions 14 ~ 16 are based on the following talk on Kwanzaa, an African American cultural holiday.

14. What is the origin of Kwanzaa related to?

[A]Religion. [B]Family life. [C]Agriculture. [D]Community.

15. Which of the following colors is used for decoration in Kwanzaa?

[A]Yellow. [B]Green. [C]White. [D]Blue.

16. What do the seven candles stand for?

[A]Principles. [B]Cultures. [C]Tribes. [D]Colors.

Questions 17 ~ 20 are based on the following talk about the World Bank.

17. When was the World Bank officially founded?

[A]In 1944. [B]In 1946. [C]In 1949. [D]In 2000.

18. The World Bank dreams of a world without _____.

[A]inequality [B]poverty [C]oppression [D]conflicts

19. What do we know about the World Bank member countries?

[A]They have equal say. [B]They decide on the bank's work.

[C]They are the board members. [D]They are its shareholders.

20. How many leading contributors does the World Bank have?

[A]24. [B]19. [C]5. [D]3.

You now have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

This is the end of Listening Comprehension.

Section Ⅱ Use of English

(15 minutes)

Directions:

Read the following text. Choose the best word or phrase for each numbered blank and mark [A], [B], [C] or [D] on ANSWER SHEET 1.

Humans like to regard themselves as exceptional. Many philosophers believe humans are the only __21__ which understands that others have their own personal thoughts. That understanding is known in the __22__ as having a "theory of mind," and it is considered the __23__ to such cherished human __24__ as sympathy and deception.

Biologists have learned to treat such __25__ with caution. Bernd Heinrich and Thomas Bugnyar describe an experiment they have carried out __26__ ravens.

__27__ to gaze is reckoned to be a good __28__ of the development of theory of mind in human children. __29__ about 18 months, most children are able to follow the gaze of another person, and __30__ things about the gazer from it. Failure to __31__ this trick is an early symptom of autism, a syndrome

whose main underlying feature is a(n) __32__ to understand that other people have __33__, too.

To __34__ whether ravens could follow gaze, Dr Heinrich used six six-month-old hand-reared ravens. The birds were set, one at a time, on a perch on one side of a room divided by a barrier. An experimenter in front of the barrier __35__ his head and eyes in a particular __36__ and gazed for 30 seconds before looking __37__. Dr Heinrich found that all the birds were able to follow the gaze of the experimenters, even __38__ the barrier. In the __39__ case, the curious birds either jumped down from the perch and walked around the barrier to have a __40__ or leapt on top of it and peered over.

21. [A] category	[B] group	[C] race	[D] species
22. [A] perspective	[B] trade	[C] business	[D] skill
23. [A] secret	[B] attribution	[C] alternative	[D] gateway
24. [A] qualifies	[B] operations	[C] habits	[D] values
25. [A] comparisons	[B] findings	[C] assertions	[D] studies
26. [A] on	[B] to	[C] against	[D] for
27. [A] Indifference	[B] Response	[C] Resistance	[D] Instinct
28. [A] call	[B] reason	[C] hint	[D] measure
29. [A] With	[B] In	[C] By	[D] At
30. [A] imagine	[B] infer	[C] locate	[D] confer
31. [A] develop	[B] find	[C] plan	[D] conceal
32. [A] resent	[B] tendency	[C] attempt	[D] inability
33. [A] senses	[B] minds	[C] beliefs	[D] faculties
34. [A] argue	[B] prove	[C] test	[D] confirm
35. [A] moved	[B] hid	[C] revealed	[D] adjusted
36. [A] manner	[B] direction	[C] type	[D] circle
37. [A] down	[B] up	[C] away	[D] inside
38. [A] into	[B] within	[C] beyond	[D] from
39. [A] former	[B] latter	[C] ordinary	[D] unusual
40. [A] look	[B] rest	[C] try	[D] taste

Section Ⅲ Reading Comprehension

(60 minutes)

Part A

Directions:

Read the following four texts. Answer the questions below each text by choosing [A], [B], [C] or [D]. Mark your answers on ANSWER SHEET 1.

Text 1

Conventional wisdom has long held that mammals stayed millions of years on earth. As long as dinosaurs roamed the lands, our distant ancestors never got to be much more than chicken-hearted

creatures that sneaked out at night to grab bits of plants when the terrible dinosaurs were asleep. Only when they were wiped out did mammals begin to earn a little evolutionary respect.

But that picture changed dramatically with the announcement in *Nature* of two impressive fossils. One of a brand-new species named *R. giganticus*, broke apart the notion that most dinosaur-age mammals were never larger than squirrels. The animal had the dimensions of a midsize dog by far the biggest dinosaur-age mammal ever found. And the second, a new specimen of a previously discovered species called *R. robustus*, refuted the notion that it was always the mammals that got eaten. Inside the skeleton where the animal's stomach would have been are the fossilized remains of a baby dinosaur. "This discovery was the chance of a lifetime," says Meng Jin, scientist and coauthor of the paper.

Indeed, Meng didn't expect to find things like this at all. The smaller skeleton was discovered about two years ago by villagers in China's Liaoning province, site of some of the richest fossil beds in the world. They brought it to the attention of scientists, who took it to an institute for examination. "We didn't see the stomach contents at first," says Meng.

After they did, however, it didn't take them long to realize they had struck scientific gold. On closer examination, the scientists determined that the remains were those of a juvenile dinosaur. Some of the arm and leg bones were still attached to each other, suggesting that *R. robustus* didn't chew its food thoroughly but wolfed it down in large chunks.

Taken together, the finds overturn the already eroded idea that early mammals were tiny and timid. Now paleontologists can stop cooking up theories to explain why mammals were so little—that they had to be small to avoid being found, for example, or they couldn't grow larger because dinosaurs already occupied those ecological spaces.

But it's now clear that mammals did fill some of the spaces reserved for larger animals. "It's quite possible," says paleontologist Anne Weil, "that they competed with dinosaurs for the same prey." And because they ate dinosaurs, they may even have had an influence on dinosaur evolution. What sort of influence? "We don't know," she says. "That's how it is with the best finds. They leave you with more questions than answers."

41. Mammals in the dinosaur age used to be described as _____.

[A] fierce and dangerous
[B] shrewd and swift
[C] doglike and sneaky
[D] small and cowardly

42. The fossil of a baby dinosaur in the skeleton of *R. robustus* indicates that _____.

[A] *R. robustus* must have died in its pregnancy
[B] this mammal could have died while fighting with dinosaurs
[C] *R. robustus* swallowed the baby dinosaur as its food
[D] mammals would eat their young when starved

43. By saying "they had struck scientific gold" (Line 1, Paragraph 4), the author means that _____.

[A] their discovery earned them great fame

[B] their findings enjoyed enormous market value

[C] they acquired valuable resources for their studies

[D] they had made a significant discovery in their research

44. The expression "cooking up" (Line 2, Paragraph 5) indicates that the author _____.

[A] doubts the validity of the previous scientific explanations

[B] thinks the new discoveries have practical significance

[C] regards previous ecological studies as simply story-making

[D] considers those new discoveries no longer hold water

45. What is the possible connection between mammals and dinosaurs?

[A] Mammals were under dinosaurs' rule most of the time.

[B] Mammals might have contributed to the evolution of dinosaurs.

[C] Dinosaurs failed in the competition with mammals for food.

[D] Baby dinosaurs were the main source of food for mammals.

Text 2

Schools of education have long been objects of criticism. From James Koerner's 1963 book, *The Miseducation of America's Teachers*, up through two recent reports by national commissions, critics have complained about the intellectual emptiness of the curriculum at education schools and the lack of connection between what is taught and the realities teachers face in the classroom. A recent survey of teachers about their graduate-school training drew comments like "the shabbiest psychobabble imaginable" and "a waste of time."

With an estimated 2 million new teachers needed over the next decade, the shortcomings in education schools are a practical concern. In what is a generally bleak landscape, a small number of schools stand out as innovators. Two key qualities distinguish these exemplars. First, they require that students master the subjects they will be teaching and structure their curricula accordingly. Second, these programs put a premium on hands-on experience. While traditional ed-school curricula are filled with courses on theory, the new approach places much greater emphasis on learning by doing.

At Ohio State University in Columbus, students in the one-year master's program spend half their time teaching in one of 55 Franklin County public schools, where they are paired with experienced teachers.

"You are immersed from Day 1," says OSU graduate student Kelley Crockett, a 37-year-old former businesswoman who does practical training at Gables Elementary School. "And that forces you to be intimately involved."

In New York City, the Bank Street College of Education—a two-year program—runs its own junior high. "That keeps us honest," says the school's president, Augusta Kappner. "We are encouraging students to see how they function in school settings so they can constantly improve."

Comparable programs exist at some other institutions, including the University of Virginia and Trinity University in San Antonio. But Linda Darling-Hamond, a professor at Columbia University's

Teachers College who is an expert on teacher training, estimates that only 40 percent of the 1,200 teacher-education programs in the country have met national accreditation standards. Most education schools, she says, "have operated bureaucratically, assuming that teachers didn't need to know many things, 'Just give them a textbook and send them on.'"

46. By saying "intellectual emptiness of the curriculum" (Line 3, Paragraph 1) the critics mean to argue that _____.

[A] there were not sufficient items in the curriculum

[B] the curriculum was poorly designed academically

[C] the training based on the curriculum was hardly imaginable

[D] the curriculum did not sufficiently address learners' needs

47. According to the author, the concern over the current situation in ed schools is _____.

[A] well-grounded [B] unnecessary

[C] widespread [D] ill-founded

48. The word "premium" (Line 5, Paragraph 2) probably means _____.

[A] difficulty [B] emphasis [C] limitation [D] reward

49. It can be inferred from Linda Darling-Hammond's comment that _____.

[A] most education schools should undergo fundamental reform

[B] it is too difficult for education schools to overcome bureaucracy

[C] teachers at education schools emphasize too much the value of a textbook

[D] most education school teachers are unwilling to participate in the innovations

50. Which of the following would be the best title for the text?

[A] A Bird's Eye View on Teacher Training Programs.

[B] Traditional versus Modern Schools of Education.

[C] Innovation at Some Schools of Education.

[D] Comparison between Teacher Training Programs.

Text 3

It's almost an article of faith: your best ally in the fight against cancer is a doggedly optimistic outlook. And it would seem that mounting evidence of the links between emotional and physical well-being would support that view. The only problem is that there is no good evidence to support that belief when it comes to cancer. Moreover, the "*tyranny*" of positive thinking often becomes just one more burden for the sick.

It was research in the 1970s and 1980s that first popularized the idea that attitude might affect cancer outcomes. Such research led doctors to encourage patients to think happy thoughts and visualize their immune system blasting away cancer cells. But most of those studies have been dismissed as either flawed or inconclusive. A review of 37 studies that was published in the *British Medical Journal* in 2002 found that although a positive outlook does correlate with the perception of less pain by patients—a real benefit—there is "little consistent evidence that coping styles play an important part in

survival from or recurrence of cancer."

Still, the optimism theory remains attractive. One reason is that Americans live in a culture that desires control. We want to believe that we can beat cancer by imposing our will on the disease. A better reason is that mental states like depression and chronic anxiety have been shown to have physical consequences that affect the progression of such illnesses as heart disease and diabetes. While a similar connection is biologically plausible for cancer, it is far from proven.

Even researchers who believe that studies will ultimately establish links between stress and the progression of cancer, like Stanford's Dr. David Spiegel, know the picture is complex. "It isn't a matter of 'Fix it in your mind, and you fix it in your body,'" he says, "but it would be strange if what goes on in our minds didn't affect how our bodies deal with illness."

So where does that leave cancer patients? Doctors know that individuals will always bring their own disposition—sunny, sour or sarcastic—to bear on their illness and treatment. Pressuring them to be models of positive thinking is useless. Worse, it could cause them to hide their fears and reject support. But clinicians must remain alert for signs of depression, which can affect the outcome of any disease if it interferes with treatment. And many patients will also need—and welcome—help to improve poor coping skills. Spiegel says, "Having worked with people with life-threatening illnesses for 30 years, it's clear that there are better and worse ways to deal with these things." False optimism isn't helpful, but neither is despair.

51. By saying "the '*tyranny*' of positive thinking" (Line 4, Paragraph 1), the author probably means _____.

[A] people cannot but think optimistically

[B] it is unfair to force people to think positively

[C] people are advised to assume an optimistic outlook in life

[D] it is positive thinking that prevails

52. What is found to be the real benefit of taking an optimistic attitude toward cancer?

[A] Strengthening the immune system. [B] Reducing the pain felt by patients.

[C] Improving patients, coping styles. [D] Heightening the effect of medication.

53. The author thinks that the optimism theory is derived from _____.

[A] Americans' cultural pride in overcoming everything

[B] the biological plausibility of willful control of cancer

[C] the assumed connection of mood with some illnesses

[D] the scientific researches in the 1970s and 1980s

54. What does the sentence "the picture is complex" (Line 2, Paragraph 4) mean?

[A] Researchers differ in views on the cure of illnesses.

[B] The human body is still beyond our understanding.

[C] Doctors are unable to handle cancers effectively.

[D] Various factors function in the treatment of cancers.

55. An appropriate title for the text would be _____

[A] Can Sunny Thoughts Halt Cancer?

[B] Fix Your Mind, and Your Body Will be Fixed.

[C] Optimism—Another Burden for Patients.

[D] Smiles Surely Smooth Sentiment.

Text 4

Advances in interfaces—the physical way we react with computers—and other techniques of controlling computers will supplement the role of the traditional keyboard and mouse. Technologies in development include surfaces that allow fingertip control of on-screen objects and devices that sense—and react to—movement.

But we should assess human-computer interaction (HCI) to ensure that we retain control of key decision-making processes, one report suggests.

Display technologies will soon allow us to fix screens of all sizes in a variety of fabrics. In the near future we will still be reading paper books and magazines; but we'll also be using paper-like digital screens to distribute content.

Cheap and easily-accessed digital storage allows consumers to electronically record and store more aspects of our lives—allowing us to share information and interact with people across the globe. This hyper-connectivity liberates us from fixed telephone lines, desks and offices, while advances in robotics develop the computer's ability to learn and make decisions.

"New computing technology is tremendously exciting," said Tom Rodden, Professor at the University of Nottingham. "But the interaction between humans and computers is evolving into a complex ecosystem where small changes can have far-reaching consequences. While new interfaces and hyper-connectivity mean we are increasingly mobile, we can see that they are obscuring the line between work and personal space.

"Huge storage capabilities raise fundamental privacy issues around what we should be recording and what we should not. The potential of machine learning might well result in computers increasingly making decisions on our behalf. It is imperative that we combine technological innovations with an understanding of their impact on people."

The report argues that without proper monitoring and assessment it is possible that we may no longer be in control of ourselves or the world around us. This potentially places the computer on a collision course with basic human values and concepts such as personal space, society, identity, independence, perception, intelligence and privacy.

The report gives recommendations for the HCI community to adopt to ensure that human values inform future development. These include educating young people so that they understand HCI and the impact of computer advances early on and engaging with governments, policy-makers and society as a whole to provide counsel and give advance warning of the emerging implications of new computing ecosystems.

"Computing has the potential to enhance the lives of billions of people around the world. We

believe that if technology is to truly bring benefit to humanity, then human values and the impact of technology must be considered at the earliest possible opportunity in the technology design process." said Abigail Sellen, one of the editors of the report.

56. New technologies will make a computer _____.

[A] less complex in structure [B] less varied in appearance

[C] more automatic in operation [D] more user friendly in future

57. Tom Rodden is worried that new interfaces and hyper-connectivity will _____.

[A] result in greater interest in machine learning

[B] impose more interference on our privacy

[C] disturb our existing ecological system

[D] lead to the need of huge storage

58. The word "imperative" (Line 3, Paragraph 6) is closest in meaning to _____.

[A] urgent [B] difficult [C] appropriate [D] extraordinary

59. When left unmonitored, technological innovations may bring about _____.

[A] collision in human society [B] decrease in working efficiency

[C] threat to human values [D] poorer governmental administration

60. The text focuses on _____.

[A] the complex ecosystem of humans and computers

[B] the potentials of new computer technology

[C] the improvement of technology on computers

[D] the individualized function of computer technology

Part B

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write your translation clearly on ANSWER SHEET 2.

Ecological economics recognizes that humans and their economies are parts of larger natural ecosystems and co-evolve with those natural systems. (61) There is a material and energy basis for the relations between human economies and their ecosystems, defining not only economic, but social, structures and processes. Economies possess general ecosystem properties, such as dynamism, evolution, integrity, stability and sustenance. Economies are embedded in larger natural ecosystems, and exchange flows of materials and energy with natural systems.

(62) What makes humans and their economies unique as a sub-ecosystem is their ability, through willful effort, ignorance and human designed tools, to dramatically restructure and reform processes in ecosystems of which they are a part; The ability is to such a magnitude that human welfare can be diminished or enhanced by those original actions. Some types of economic activities, and the welfare that originates from them, would not be sustainable if they substantially adversely impact natural systems.

(63) The willful effort to extract useful things from natural systems is motivated by the satisfaction

of basic biological needs and the seemingly limitless search for pleasure through consumption of goods and through social associations. The magnitude of potential impact on their own welfare through effects on natural systems requires that human decisions be guided by some notion of the value of their actions and the value of their impacts on ecosystems, either in terms of benefits of use or costs of abuse. Some concept of value is required for rational activities of human economies within their natural systems.

Both the structures and processes of natural systems have identifiable instrumental value to the human economy. These narrow use values may be reflected by the summation of individual values, to the extent they are private. However, natural systems also have aesthetic, moral and cultural values. These values are more intrinsic and unmeasurable using traditional human preferences.

(64) Valuation is made more complicated by the fact that our natural environment is highly likely to shape values through establishing social and economic relations, aesthetic standards and culture. If so, our decisions now about the natural environment will shape future value systems, making values endogenous and, therefore, a poor guide to behavior. (65) A way out of this dilemma is to make valuations of natural systems based on "What we would like to see society become" rather than to ask what current valuations are. The value of natural systems is then based on their ability to assist us in becoming what we wish to be.

Section Ⅳ Writing

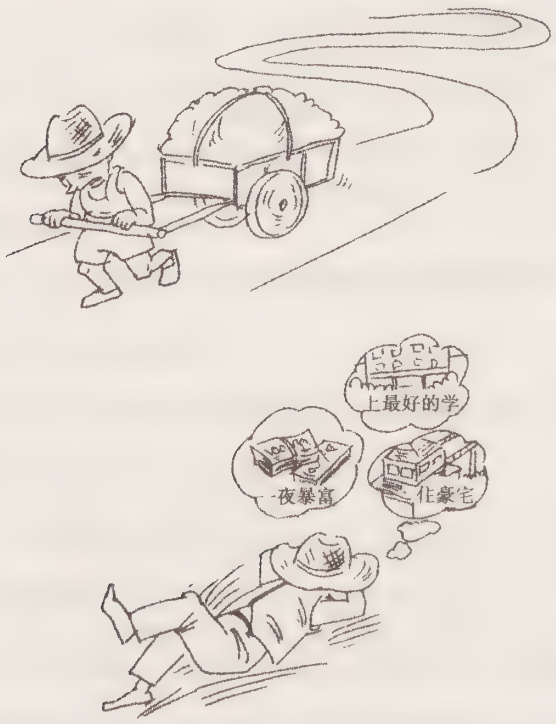
(35 minutes)

Directions:

66. *Study the following two pictures carefully and write an essay on them. In your essay, you should (1) describe the pictures briefly, (2) analyze this situation, and (3) give your comments.*

You should write 160 – 200 words neatly on ANSWER SHEET 2.

Nobody can live happily without dreams,
and nobody can live happily only with dreams.



全国英语等级考试第四级真题试卷(四)

Section I Listening Comprehension

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear a TV program—Cooking Capers. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only 1 word or number*** *in each numbered box. You will hear the recording twice.*

Ginger		
The ginger is a spicy-tasting root with an aromatic flavor.		
The ginger is related to the bamboo family and has a hundred different uses in the		1.
The Chinese have cultivated it for years, particularly to use in		2.
Ginger originated in the southern provinces of China and in		3.
Ginger became extremely popular because of its exotic, aromatic properties.		

续表

Ginger		
It was highly valued by spice		4.
It can be sold for a very good price in Europe.		
It wasn't grown in Australia until the early century of		5.

Part B

Directions:

For Questions 6 ~ 10, you will hear a recording of a lecture about poetry. While you listen, complete the sentences or answer the questions. Use ***not more than*** *3* ***words*** *for each answer. You will hear the recording twice.*

The two poems were written between		6.
Traditionally, it's believed that the author is		7.
The Analysts argued that the poems were written by		8.
According to the Unitarian, the consistency of the character in the poems proved that the Iliad and the Odyssey could have been the work of a single poetic		9.
Milman Parry first presented his ideas about Homer in the		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece ***only once****.*

Questions 11 ~ 13 are based on a lecture on human language.

11. Why is the study important to human?

[A] Because people have an interest in children's learning.

[B] Because it leads to greater understanding of language.

[C] Because it encourages the researchers to work hard.

[D] Because it is good to children's health.

12. How many periods of time do the researchers study on children's language development?

[A] Two. [B] Three. [C] Four. [D] Five.

13. Which of the following is true about children under five?

[A] They begin to make linguistic analysis.

[B] They begin to develop both phonological and grammatical competence.

[C] They begin to have semantic competence.

[D] A and B.

Questions 14 ~ 16 are based on the following monologue about balanced diet.

14. According to the talk, how did vitamins lose in one's body?

[A] Through cooking and improper use of them.

[B] Through sweating.

[C] Through eating unhealthy foods.

[D] Through taking in much meat.

15. In a healthy diet, what kind of food should be mostly avoided?

[A] Fish and meat.

[B] Sugar, salt and butter.

[C] Bread and rice.

[D] Fruit and vegetables.

16. How can people get enough vitamins?

[A] Cut down fat-soluble vitamins and obtain water-soluble vitamins.

[B] Take more vitamin pills.

[C] Read the magazines on health.

[D] Eat a variety of foods.

Questions 17 ~ 20 are based on the following dialogue between husband and wife about their unpleasant trip.

17. What did Mr. Smith decide to do when they returned home?

[A] He decided to go to the travel agency for complaints.

[B] He wrote to the manager of the agency.

[C] He'd like to consult with his wife for complaints.

[D] He did nothing but complain with his wife.

18. What did Mr. Smith complain about in his letter?

[A] The food and the transport means.

[B] The manager of the travel agency.

[C] The hotel and travel arrangements.

[D] The journey home.

19. What is true about the service offered by the hotel?

[A] The majority of the staff couldn't speak or understand English.

[B] Most of the staff are natives, but they have no training.

[C] Hotel is comfortable, though the food is not so good.

[D] Hotel is located with a magnificent view of the sea.

20. What will the Smiths do in the future?

[A] They will ask for compensation for their tour.

[B] They will wait for a reply.

[C] They will never go traveling to that island.

[D]They will never book any holidays through that agency.

Section Ⅱ Use of English

(15 minutes)

Directions:

Read the following text. Choose the best word or phrase for each numbered blank and mark[A], [B],[C] or [D] on ANSWER SHEET 1.

In the past decade, new scientific developments in communications have changed the way many people gather information about politics. The most important of these new __21__ is the Internet. Recent research suggests the use of the Internet for political information increases the __22__ of participation.

While a(n) __23__ relationship between Internet news and political participation has been found, a theoretical link as to why the Internet is __24__ from other media forms is largely __25__. This research is an attempt to __26__ the"black-box"linking the Internet and political participation by building on two theoretical __27__. The first, surge and decline theory, comes out of political science and the second, media systems dependency theory, __28__ from communications. Both explanations focus on individual costs and benefits of political participation. The media can __29__ the"costs"by providing sufficient information to make __30__ decisions about voting. Previous research __31__ that the Internet benefits the public through the cost side of the equation. One of the media's greatest __32__ is information and the public __33__ on media to provide them with the information they need. __34__ the Internet is capable of providing information __35__, and from a multitude of sources, one would expect it to __36__ political action through lowering the cost of information.

Besides lowering participation costs, the media can __37__ increase the benefits of participation. Intense media __38__ of an event such as an election can __39__ excitement that increases the perceived"benefit"of participating. The Internet may encourage a unique participation benefit __40__ increased mobilization efforts.

21. [A]technologies [B]materials [C]concepts [D]devices
22. [A]practicability [B]feasibility [C]probability [D]stability
23. [A]critical [B]analytical [C]empirical [D]technical
24. [A]specific [B]unique [C]particular [D]peculiar
25. [A]built [B]losing [C]missing [D]connected
26. [A]unpack [B]unroll [C]untie [D]unfold
27. [A]experiments [B]comments [C]approaches [D]investigations
28. [A]orientates [B]initiates [C]correlates [D]originates
29. [A]alter [B]decrease [C]induce [D]cover
30. [A]informed [B]accepted [C]understood [D]diversified
31. [A]declares [B]denies [C]promises [D]argues
32. [A]databanks [B]resources [C]sources [D]costs

33. [A] base	[B] act	[C] rely	[D] live
34. [A] Because	[B] While	[C] If	[D] Although
35. [A] casually	[B] objectively	[C] readily	[D] skillfully
36. [A] advertise	[B] popularize	[C] manage	[D] encourage
37. [A] also	[B] yet	[C] only	[D] just
38. [A] interference	[B] statement	[C] coverage	[D] image
39. [A] generate	[B] promote	[C] install	[D] expose
40. [A] for	[B] via	[C] at	[D] from

Section Ⅲ Reading Comprehension

(60 minutes)

Part A

Directions:

Read the following four texts. Answer the questions below each text by choosing [A], [B], [C] *or* [D]. *Mark your answers on ANSWER SHEET 1.*

Text 1

Paul Johnson's *A History Of The American People* is what we have come to expect from this productive writer—clear, colorful narrative, vivid character sketches, marvelous research, sweeping, confident statements, and an insistent conservative viewpoint which tempts him into serious omissions. He will not conceal his opinions, he tells us. Good. Then we can judge his history free of pretenses to objectivity—his or ours.

Almost at start, we notice something interesting: Johnson passes quickly over a defining moment in American history—the Columbus story—important because it is the first lesson every American schoolchild learns. How you treat that story—what you choose to tell of it—signals your view of the longer American experience, reaching to our time.

In school textbooks, Columbus has always been presented as a hero. Only recently has a new set of facts—always available but ignored—begun to get into public attention: that Columbus, on landing, and desperate for gold, encountered native Americans who were peaceful and generous (by his own admission) and tortured them, kidnapped them, enslaved them, murdered them. Johnson, who goes into much detail about other matters (like Ronald Reagan's jokes) is silent on this. Among his numerous references there is none to Bartolome de las Casas, an eyewitness, who described in detail the horrifying evils committed by Columbus and his fellowmen against the Indians, which resulted in the native population of Hispaniola being wiped out—genocide is an appropriate term—by the year 1550.

I suggest this is not an innocent omission. Johnson wants us to look positively on the history of the United States. Yes, he says, there were "severe wrongs" committed in "the dispossession of a native people" and in the institution of slavery. But has the US, he asks at the start of his book, "made up for its organic sins"? His whole book suggests that it has, and that in doing so it has become (he says at

the end) "a human achievement without parallel... the first, best hope for the human race".

Since Johnson has decided that the US is "the first, best hope for the human race", he has shaped its history accordingly. If we prefer to see that history as a complex and unfinished struggle of Americans for justice, against militarism, for economic, racial and sexual equality, we are badly served by a flattering admiration of those in power, pretending to be a history of "the people".

41. The first paragraph shows that the author's opinion of the book *A History Of The American People* is _____.

[A] critical [B] objective [C] defensive [D] admiring

42. The way people have been treating Columbus story indicates their view of _____.

[A] the American school education [B] great heroes in American history

[C] the development of American history [D] the American society at present

43. The book makes no reference to Bartolome de las Casas probably because Paul Johnson _____.

[A] is a writer fond of omissions

[B] isn't tempted to make references

[C] bears an inborn hatred for horrifying evils

[D] doesn't want to see the image of the US stained

44. The word "genocide" (Line 8, Paragraph 3) most probably means _____.

[A] killing of people of a particular race [B] driving-out of native inhabitants

[C] extinction of a whole generation [D] assimilation of ethnic groups

45. The author would agree with the statement that the US _____.

[A] has compensated the natives for their earlier sufferings

[B] has never committed serious evils to the natives in history

[C] has not undone the wrongs committed in history

[D] has become the best hope for the human race

Text 2

In the 21st century there's no doubt that frightening new infectious diseases will appear. Today new viruses are coming out of nature and "discovering" the human species. Just since 1994, at least 30 new viruses have appeared.

Viruses are moving into the human species because there are more of us all the time. From a virus' point of view, we look like a free lunch that's getting bigger. In nature viral diseases tend to break out when populations increase rapidly and become densely packed. Then many deaths occur and the population drops. This is nature's population-control mechanism. There is no reason to think the human race is free from the laws of nature.

Giving these laws an extra push will be the rise of megacities—huge densely packed cities in less developed nations. A United Nations study predicts that by the year 2015, there will be 26 extremely big cities on the planet. By then, some megacities could have 30 million or more people. That is ap-

proximately the total population of California. Imagine all the people in California crowded together tightly into one vast city. Then remove most doctors and medical care, take away basic sanitation and hygiene, and you have a biological "time bomb". Now make eight or ten such "bombs" and plant them around the world.

Also consider the biological weapons the world will be capable of producing in the future. The 20th century saw the creation of great and terrible weapons based on the principles of nuclear physics. The 21st century will see great and terrible weapons based on the knowledge of DNA and the genetic code. As biotechnology becomes more sophisticated and powerful, biologists will learn how to mix genes of different microbes to create unnatural strains that can be turned into deadly, effective weapons.

Biological weapons are a disgrace to biology. Most biologists haven't wanted to talk or even think about them. The physicists lost their innocence when the first nuclear bomb went off in 1945. The biologists will lose their innocence when the first biological weapon spreads through the human species.

Yet the 20th century survived despite the existence of the nuclear bomb. There was great economic and scientific progress and much human happiness. The same can be true in the next century. We may not completely win the 21st century microbe war, but I am confident that we won't lose it.

46. Infectious diseases are more likely to occur where _____.

[A] different human races are mixed in living

[B] many people live in crowded communities

[C] population drops due to nature's control mechanism

[D] new viruses appear for the first time

47. It can be seen from the text that the author views extremely large cities as a(n) _____.

[A] possible control mechanism of the nature

[B] terrible burden in terms of public sanitation and hygiene

[C] potential biological threat to human health

[D] inevitable outcome of the law of nature

48. The author implies in the text that _____.

[A] weapons now fall into quite different categories

[B] biological war may break out any time

[C] most scientists are against nuclear weapons

[D] science is liable to be used to create great evils

49. As to the solution of the problems in the future, the author appears to be _____.

[A] somewhat doubtful　　[B] much skeptical

[C] moderately optimistic　　[D] extremely desperate

50. What does the text mainly discuss?

[A] Threats from the new microbes in the next century.

[B] How new viruses affect the human society.

[C] What megacities may bring to human species.

[D] The disastrous effect of nuclear and biological weapons.

Text 3

Given the fact that each person is only one of approximately 90 million voters in this country, does it make sense to believe that one person's participation, one vote, will have any impact on a major election? Simply to raise the question "What if everyone felt the same way?" does not remove the lingering impression that a single person is made to feel insignificant by the enormous number of people who do go to the polls, especially in a national election.

Supporters of the ruling elite theory insist that even though voters are given a choice among candidates, their choice is restricted to a narrow range of similar-minded individuals approved by the ruling elite. Elections do not express what most people want or need, nor do they provide guidance for politicians (even if they want it) on what policies to enact. In this view, elections are primarily just rituals that perform a symbolic function for society.

Still, since most people continue to show faces at the polls at one time or another, what arguments can be made in favor of voting? One argument is that voting does have significance, if not in individual impact, then in group pressure. Because citizens collectively have the power to give or withhold votes, they directly control the term in office of elected officials. Even if the choice is between Tweedledee and Tweedledum, Tweedledee knows that one must be accountable and this is fixed by law, and that minimally he or she must strive to avoid displeasing the constituents to lose the job.

But perhaps political effectiveness and impact in voting are not the only consideration anyway. People do not vote only to influence policy. Millions go to the effort to register and vote for a variety of other reasons as well. Some people may participate just to avoid feeling guilty about not voting. They may have been taught that is their patriotic duty to vote and that they have no right to complain about the outcome if they stay at home. Still others may vote to derive satisfaction from feeling that they are somehow participants, not just spectators, in an exciting electoral contest.

Even if their one vote may not be crucial to the outcome, it nevertheless affirms their role in and support for the political process. Indeed, perhaps it is this final need that fuels the desire for full democratic participation among people in many nations of the world.

51. What is the true nature of elections according to the ruling elite theory?

[A] They are routine practices in a modern society.

[B] They are political gathering for a small number of people.

[C] They are deceptive schemes manipulated by the ruling party.

[D] They are chances for those who want to utter their wishes.

52. According to Paragraph 3, people go to the polls because they _____.

[A] believe it's their responsibility to vote

[B] believe their collective power makes a difference

[C] want to show the strength and impact of each individual

[D] don't want to risk losing their jobs

53. "Tweedledee and Tweedledum" (Line 5, Paragraph 3) is used to refer to _____.

[A] two voting individuals in an election [B] whatever parties in office

[C] whichever candidates in an election [D] supporters in different constituencies

54. What can be learnt from the last two paragraphs?

[A] The end result is decided by every step in the process.

[B] Democracy is more of a practice than of a theory.

[C] Participation will rid voters of any guilty conscience.

[D] Supporting the winner may bring great excitement.

55. Which of the following is the best title for the text?

[A] Why Vote? [B] How to Vote?

[C] Whom to Vote for? [D] Do Elections Work?

Text 4

As time goes on, how to do good critical thinking is increasingly marginalized or even left out of the modern educational process. Critical thinking involves a mental process that is highly disciplined and therefore requires most practitioners to be trained in it. This training is best begun in the formative years, and it is best taught by energetic, motivated teachers who continually challenge, and debate, and demand increasingly rigorous thinking of their young students. However, as in all things, it is never too late to begin.

Critical thinking is the process of evaluating and analyzing a proposition or an argument that has been offered to the thinker, for criticism, as being true. There follows a process of reasoning, evaluation of the offered evidence, and reflection, always begun from a point of skepticism. A proper critique of the offered argument involves more than direct observation. Besides reasoning, cognition and experience, proper critical thinking also involves intellectual values that go beyond the specific argument or object being critically examined.

These intellectual values involve objective truth. Objective truth is that truth which comes from somewhere outside of our minds. Subjective truth is that truth which comes from within us; that which we feel, or sense, or believe to be true. Objective truth stands alone, and does not depend upon us to remain true; it's completely independent of the mind of man. No matter what we think about it, how we think about it, or even if we think about it, objective truth remains objective truth, unchanged, and impervious. Objective truth must always be taken into consideration in order to do good critical thinking.

There are different forms of objective truth, ranging from solid to ephemeral. In the "hard science" fields, such as mathematics, physics and chemistry, the most recognized objective truths involve proven mathematical formulae, or recognized scientific laws, or widely recognized and as yet unrefuted scientific theories. These "hard" objective truths are taken by the critical thinker to be axioms or givens, and thus, useful tools to help in the critical thinking process. The process thereby builds upon a

foundation of previously proven truth. No matter how technically advanced we ever become, we are all, individually and collectively, called to think about things. It is our human nature.

56. It is suggested that the training of critical thinking in the formative years is best conducted by teachers _____.

[A] because it requires well-organized mental activity

[B] because it has been stressed in modern education

[C] who marginalize the traditional idea of education

[D] who can direct students towards rigorous thinking

57. A good critical thinker always _____.

[A] involves more direct observations than pure reasoning

[B] takes an argument for granted at the beginning

[C] begins with a skeptical attitude towards an argument

[D] puts more emphasis on intellectual values

58. Objective truth is regarded as _____.

[A] indispensable in the critical thinking process

[B] unchanged human beliefs

[C] unrefuted in scientific theories

[D] outcomes of "hard science"

59. What can be inferred from the last paragraph?

[A] Technology has little to do with critical thinking.

[B] Critical thinking is a process of trial and error.

[C] Scientific theories are developed from scientific laws.

[D] Scientific truth is a foundation for critical thinking.

60. Which of the following best summarizes the text?

[A] Patterns of critical thinking. [B] Essence of critical thinking.

[C] Methods of critical thinking. [D] Criteria of critical thinking.

Part B

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write your translation clearly on ANSWER SHEET 2.

In his lectures at the Lyceum, a school that remained for centuries one of the great centers of learning in Greece, Aristotle defined the basic concepts and principles of many of the sciences.

(61) In the first place, Aristotle criticized Plato's theory of Forms by arguing that forms could not exist by themselves but existed only in particular things, which are composed of both form and matter. He understood substances as matter organized by a particular form.

Nature, for Aristotle, is an organic system of things whose forms make it possible to arrange them into classes comprising species and genera. Each species, he believed, has a form, purpose, and mode

of development in terms of which it can be defined. (62) The aim of science is to define the essential forms, purposes, and modes of development of all species and to arrange them in their natural order in accordance with their complexities of form. The main levels are the inanimate, the vegetative, the animal, and the rational. (63) The soul is the form of the body, and humans, whose rational soul is a higher form than the souls of other species on earth, are the highest species of perishable things. The heavenly bodies, composed of an imperishable substance, or ether, and moved eternally in perfect circular motion by God, are still higher in the order of nature.

Aristotle's political and ethical philosophy similarly developed out of a critical examination of Plato's principles. (64) The standards of personal and social behavior, according to Aristotle, must be found in the scientific study of the natural tendencies of individuals and societies rather than in abstract realm of pure forms. Less insistent therefore than Plato on a rigorous conformity to absolute principles, Aristotle regarded ethical rules as practical guides to a happy and well-rounded life. His emphasis on happiness, as the active fulfillment of natural capacities, expressed the attitude toward life held by cultivated Greeks of his time. In political theory, Aristotle agreed with Plato that a monarchy ruled by a wise king would be the ideal political structure, but he also recognized that societies differ in their needs and traditions and believed that a limited democracy is usually the best compromise. (65) In his theory of knowledge, Aristotle rejected the Platonic doctrine that knowledge is innate and insisted that it can be acquired only by generalization from experience. He interpreted art as a means of pleasure and intellectual enlightenment rather than an instrument of moral education.

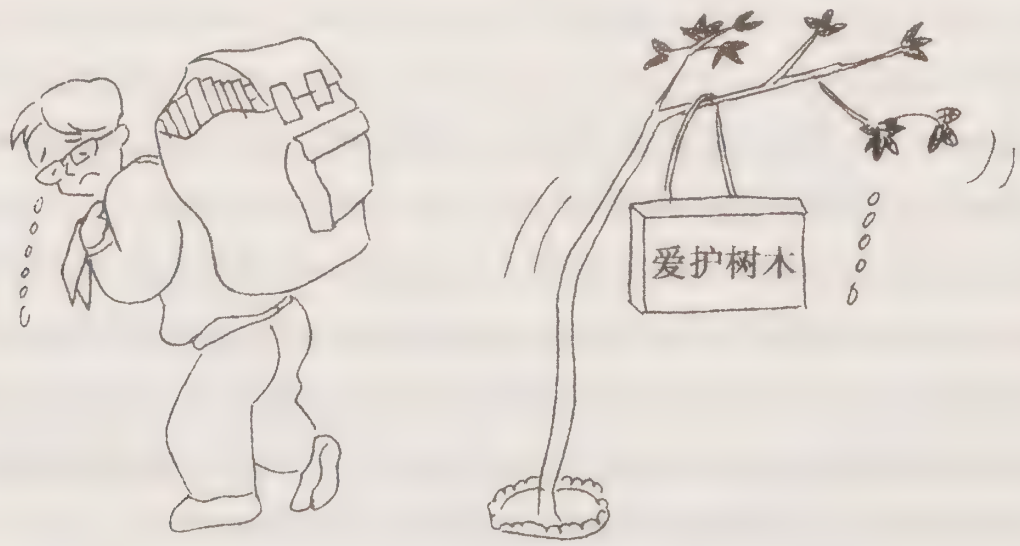
Section Ⅳ Writing

(35 minutes)

Directions:

66. *Study the following picture carefully and write an essay on it. In your essay, you should (1) describe the picture briefly, (2) analyze this situation, and (3) give your comments.*

You should write 160 – 200 words neatly on ANSWER SHEET 2.



同病相怜

全国英语等级考试第四级真题试卷(五)

Section I Listening

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear a radio program about resources on the Internet. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only 1 word or number*** *in each numbered box. You will hear the recording twice.*

Difference Between Japan and England			
	Japan		England
People		1.	Leisurely
Weather in summer		2.	Cooler
Mountains		3.	
Cities		4.	
Houses		5.	

Part B

Directions:

For Questions 6 ~ 10, you will hear a brief talk about the popularity of coffee. While you listen, complete the sentences or answer the questions. Use ***not more than*** *3* ***words*** *for each answer. You will hear the recording twice.*

Who is introducing the exhibit of Native American pottery?		6.
The Hohokam people used to live in what is now		7.
All of the pottery was made from new		8.
The pottery was made by the Hohokam people for purpose of either		9.
What is the typical color of the decoration of the pottery?		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece ***once only****.*

Questions 11 ~ 13 are based on the following monologue introducing the development of vaccines.

11. What was the first step in fighting against infectious disease?

[A] The discovery of a vaccine. [B] A powerful injection.

[C] The help of a milkmaid. [D] The help from government.

12. Who first showed that germs caused disease?

[A] Edward Jenner. [B] Lady Montague.

[C] Louis Pasteur. [D] Robert Koch.

13. When was a rabies vaccine developed?

[A] In 1976. [B] In 1867.

[C] In 1881. [D] In 1882.

Questions 14 ~ 16 are based on the following monologue introducing a nature tendency of plants.

14. Trees in rain forests have broad leaves. The advantage is _____.

[A] to accept more sun light

[B] to encourage the heavy rain to run off the leaves

[C] to shade their roots

[D] to hide their trunk

15. If we see some plants close their leaf pores, we can deduce that they are living in _____.

[A] rainy area [B] hot area [C] drought area [D] windy area

16. In this monologue, we can learn plants may develop mechanisms and adaptations _____.

[A] to protect themselves from disasters [B] to avoid being hurt by human being

[C] to fight against the hostile environment [D] to benefit the environment

Questions 17 ~ 20 are based on the following dialogue between friends about their family.

17. What's Tom's purpose of speaking to Mr. Clinton?

[A] Asking for housing. [B] Asking for a promotion.

[C] Asking for a raise. [D] Asking for some help for work.

18. What's Mr. Clinton's comment on his work?

[A] He does his job enthusiastically, though he has not much efficiency.

[B] He didn't want to persist on his job from the beginning.

[C] He does his job adequately, but he doesn't do it well enough to deserve a raise.

[D] He should be dismissed anyway.

19. What does Mr. Clinton suggest that Tom should do?

[A] Take more initiative and show more enthusiasm for the job.

[B] Don't neglect the duty any more.

[C] Wait for some time patiently.

[D] Study more knowledge about his subject.

20. What does Tom threaten to do if he can't get what he wants?

[A] To shout out in front of the others. [B] Not to leave the boss's office.

[C] To accuse the company. [D] To quit his job.

Section Ⅱ Use of English

(15 minutes)

Directions:

Read the following text. Choose the best word or phrase for each numbered blank and mark [A], [B], [C] or [D] on ANSWER SHEET 1.

In 1942, the HMS Edinburgh was sunk in the Barents Sea. It was on its __21__ back to Britain with ninety-one boxes of Russian gold. __22__ thirty-nine years it lay there, too deep for divers to __23__. No one was allowed to explode it, either, since the bodies of sixty of the crew also lay in the __24__. Then, in 1981, an ex-diver called Jessop decided to try using new diving techniques. __25__ he could not afford to finance the __26__ which was going to cost four million pounds, he had to look for people who were __27__ to take the risk. __28__, they were not even sure the gold was going to be there! First a Scottish diving company, then a German shipping company agreed to join in the retrieval __29__. Not long after that, Jessop __30__ a fourth company to take a __31__. Since the gold was the __32__ of the British and the Soviet governments, they both hoped to make a __33__, too! The

biggest problem was how to get __34__ the gold. Fortunately, they were able to examine the Edinburgh's sister ship, the HMS Belfast, to __35__ out the exact location of the bomb room, __36__ the gold was stored.

They knew it was to be an extremely difficult and dangerous undertaking. To reach the gold, they would have to cut a large square __37__ the body of the ship, go through the empty fuel tank and down to the bomb room. After twenty-eight dives, they __38__ to find the first bar. Everyone worked __39__ the clock, helping to clean and stack the gold, __40__ as to finish the job as quickly as possible.

21. [A] road	[B] path	[C] way	[D] passage
22. [A] During	[B] For	[C] At	[D] Since
23. [A] find	[B] discover	[C] dive	[D] reach
24. [A] wreck	[B] ruin	[C] relic	[D] waste
25. [A] Although	[B] Unless	[C] As	[D] If
26. [A] research	[B] operation	[C] movement	[D] search
27. [A] willing	[B] lucky	[C] committed	[D] engaged
28. [A] All in all	[B] In addition	[C] In case	[D] After all
29. [A] assignment	[B] temptation	[C] attempt	[D] commission
30. [A] introduced	[B] persuaded	[C] associated	[D] stimulated
31. [A] chance	[B] look	[C] measure	[D] choice
32. [A] business	[B] estate	[C] obligation	[D] property
33. [A] profit	[B] benefit	[C] success	[D] welfare
34. [A] about	[B] around	[C] to	[D] from
35. [A] get	[B] take	[C] work	[D] try
36. [A] which	[B] where	[C] here	[D] there
37. [A] on	[B] in	[C] among	[D] along
38. [A] managed	[B] achieved	[C] succeeded	[D] fulfilled
39. [A] before	[B] by	[C] with	[D] round
40. [A] that	[B] much	[C] far	[D] so

Section Ⅲ Reading Comprehension

(60 minutes)

Part A

Directions:

Read the following four texts. Answer the questions below each text by choosing [A], [B], [C] or [D]. Mark your answers on ANSWER SHEET 1.

Text 1

Competition for admission to the country's top private schools has always been tough, but this year Elisabeth realized it had reached a new level. Her wake-up call came when a man called the

Dalton School in Manhattan, where Elisabeth is admissions director, and inquired about the age cutoff for their kindergarten program. After providing the information, she asked about the age of his child. The man paused for an uncomfortably long time before answering. "Well, we don't have a child yet. We're trying to figure out when to conceive a child so the birthday is not a problem."

Worries are spreading from Manhattan to the rest of the country. Precise current data on private schools are unavailable, but interviews with representatives of independent schools all told the same story: an oversupply of applicants, higher rejection rates. "We have people calling us for spots two years down the road," said Marilyn of the Seven Hills School in Cincinnati. "We have grandparents calling for pregnant daughters." Public opinion polls indicate that Americans' No. 1 concern is education. Now that the long economic boom has given parents more disposable income, many are turning to private schools, even at price tags of well over $10,000 a year. "We're getting applicants from a broader area geographically than we ever have in the past," said Betsy of the Latin School of Chicago, which experienced a 20 percent increase in applications this year.

The problem for the applicants is that while demand has increased, supply has not. "Every year, there are a few children who do not find places, but this year, for the first time that I know of, there are a significant number without places," said Elisabeth.

So what can parents do to give their 4-year-old an edge? Schools know there is no easy way to pick a class when children are so young. Many schools give preference to children of their graduates. Some make the choice by drawing lots. But most rely on a mix of subjective and objective measures: tests that at best identify developmental maturity and cognitive potential, interviews with parents and observation of applicants in classroom settings. They also want a diverse mix. Children may end up on a waiting list simply because their birthdays fall at the wrong time of year, or because too many applicants were boys.

The worst thing a parent can do is to pressure preschoolers to perform—for example, by pushing them to read or do math exercises before they're ready. Instead, the experts say, parents should take a breath and look for alternatives. Another year in preschool may be all that's needed.

41. From this text we learn that it is _____.

[A] harder to make a choice between public and private schools

[B] harder to go to private schools this year than before

[C] more difficult to go to public schools than to private schools

[D] as difficult to go to private schools this year as before

42. The sentence "We have people ... down the road" (Lines 3-4, Paragraph 2) probably means _____.

[A] we have people calling us for parking space two years ahead of time

[B] people called us for permission to use the places two years ago

[C] we received calls from people down the road two years ago

[D] people called us for school vacancies two years in advance

43. The text indicates that private schools are very selective because they _____.

[A] have no reliable methods to pick students for a class

[B] want a good mixture of boys and girls for classes

[C] encounter more demand than they can cope with

[D] prefer to enroll children of their relatives

44. From the text, we can infer that the author _____.

[A] favors the idea of putting children on a waiting list

[B] agrees to test preschooler's cognitive potentials

[C] thinks children should be better prepared academically

[D] disapproves of the undue pressure on preschoolers

45. Which of the following can serve as a title of this text?

[A] Hard Time for the Preschoolers

[B] Prosperity of Private Schools

[C] The Problem for Public Schools

[D] Americans' No. 1 Concern

Text 2

William Shakespeare described old age as "second childishness"—no teeth, no eyes, no taste. In the case of taste he may, musically speaking, have been more perceptive than he realised. A paper in Neurology by Giovanni Frisoni and his colleagues at the National Centre for Research and Care of Alzheimer's Disease in Italy, shows that frontotemporal dementia can affect musical desires in ways that suggest a regression, if not to infancy, then at least to a patient's teens.

Frontotemporal dementia, a disease usually found with old people, is caused, as its name suggests, by damage to the front and sides of the brain. These regions are concerned with speech, and with such "higher" functions as abstract thinking and judgment.

Two of such patients intrigued Dr Frisoni. One was a 68-year-old lawyer, the other a 73-year-old housewife. Both had undamaged memories, but displayed the sorts of defect associated with frontotemporal dementia—a diagnosis that was confirmed by brain scanning.

About two years after he was first diagnosed, the lawyer, once a classical music lover who referred to pop music as "mere noise", started listening to the Italian pop band "883". As his command of language and his emotional attachments to friends and family deteriorated, he continued to listen to the band at full volume for many hours a day. The housewife had not even had the lawyer's love of classical music, having never enjoyed music of any sort in the past. But about a year after her diagnosis she became very interested in the songs that her 11-year-old granddaughter was listening to.

This kind of change in musical taste was not seen in any of the Alzheimer's patients, and thus appears to be specific to those with frontotemporal dementia. And other studies have remarked on how frontotemporal-dementia patients sometimes gain new talents. Five sufferers who developed artistic abilities are known. And in another case, one woman with the disease suddenly started composing and singing country and western songs.

Dr Frisoni speculates that the illness is causing people to develop a new attitude towards new

experiences. Previous studies of novelty-seeking behaviour suggest that it is managed by the brain's right frontal lobe. A predominance of the right over the left frontal lobe, caused by damage to the latter, might thus lead to a quest for new experience. Alternatively, the damage may have affected some specific nervous system that is needed to appreciate certain kinds of music. Whether that is a gain or a loss is a different matter. As Dr Frisoni puts it in his article, there is no accounting for taste.

46. The writer quotes Shakespeare mainly to _____.

[A] praise the keen perception of the great English writer

[B] support Dr Frisoni's theory about a disease

[C] start the discussion on a brain disease

[D] show the long history of the disease

47. The word "regression" in the 1st paragraph is best replaced by _____.

[A] backward movement [B] uncontrolled inclination

[C] rapid advancement [D] unexpected restoration

48. After contracting frontotemporal dementia, the 68-year-old lawyer _____.

[A] became more dependent on his family [B] grew fond of classical music

[C] recovered from language incompetence [D] enjoyed loud Italian popular music

49. Frontotemporal dementia is a disease _____.

[A] identified with loss of memory

[B] causing damage to certain parts of the brain

[C] whose patients may develop new talents

[D] whose symptoms are similar to those of Alzheimer's patients

50. Dr Frisoni attributed the patients' changing music taste to _____.

[A] man's desire to seek novel experience

[B] the damage to the left part of the brain

[C] the shift of predominance from the right lobe to the left

[D] the weakening of some part of the nervous system

Text 3

Who's to blame? The trail of responsibility goes beyond poor maintenance of British railways, say industry critics. Stingy governments—both Labor and Tory—have cut down on investments in trains and rails. In the mid-1990s a Conservative government pushed through the sale of the entire subsidy-guzzling rail network. Operating franchises were parceled out among private companies and a separate firm, Railtrack, was awarded ownership of the tracks and stations. In the future, the theory ran back then, the private sector could pay for any improvements—with a little help from the state—and take the blame for any failings.

Today surveys show that travelers believe privatization is one of the reasons for the railways' failures. They ask whether the pursuit of profits is compatible with guaranteeing safety. Worse, splitting the network between companies has made coordination nearly impossible. "The railway was torn apart

at privatization and the structure that was put in place was...designed, if we are honest, to maximize the proceeds to the Treasury," said Railtrack boss Gerald Corbett before resigning last month in the wake of the Hatfield crash.

Generally, the contrasts with mainland Europe are stark. Over the past few decades the Germans, French and Italians have invested 50 percent more than the British in transportation infrastructure. As a result, a web of high-speed trains now crisscross the Continent, funded by governments willing to commit state funds to major capital projects. Spain is currently planning 1,000 miles of new high-speed track. In France superfast trains already shuttle between all major cities, often on dedicated lines. And in Britain? When the Eurostar trains that link Paris, London and Brussels emerge from the Channel Tunnel onto British soil and join the crowded local network, they must slow down from 186 mph to a maximum of 100 mph—and they usually have to go even slower.

For once, the government is listening. After all, commuters are voters, too. In a pre-vote spending spree, the government has committed itself to huge investment in transportation, as well as education and the public health service. Over the next 10 years, the railways should get an extra £60 billion, partly through higher subsidies to the private companies. As Blair acknowledged last month, "Britain has been underinvested in and investment is central to Britain's future." You don't have to tell the 3 million passengers who use the railways every day. Last week trains to Darlington were an hour late—and crawling at Locomotion No. 1 speeds.

51. In the first paragraph, the author tries to _____.

[A] trace the tragedy to its defective origin

[B] remind people of Britain's glorious past

[C] explain the failure of Britain's rail network

[D] call for impartiality in assessing the situation

52. Travelers now believe that the root cause for failures of British railway is _____.

[A] the pursuit of profit

[B] its inefficient network

[C] the lack of safety guarantees

[D] the lack of safety guarantees

53. According to Gerald Corbett, British railway is structured _____.

[A] for the benefit of commuters

[B] to the advantage of the government

[C] for the effect of better coordination

[D] as a replacement of the private system

54. Comparing British railway with those of Europe, the author thinks _____.

[A] trains in Britain can run at 100 mph at least

[B] Britain should build more express lines

[C] rails in Britain need further privatization

[D] British railway is left a long way behind

55. What does the author think of Blair's acknowledgement?

[A] It's too late to improve the situation quickly enough.

[B] It's a welcomed declaration of commitment.

[C]Blair should preach it to other travelers.

[D]Empty words can't solve the problem.

Text 4

No man has been more harshly judged than Machiavelli, especially in the two centuries following his death. But he has since found many able champions and the tide has turned. The *Prince* has been termed a manual for tyrants, the effect of which has been most harmful. But were Machiavelli's doctrines really new? Did he discover them? He merely had the frankness and courage to write down what everybody was thinking and what everybody knew. He merely gives us the impressions he had received from a long and intimate intercourse with princes and the affairs of state. It was Lord Bacon who said that Machiavelli tells us what princes do, not what they ought to do. When Machiavelli takes Caesar Borgia as a model, he does not praise him as a hero at all, but merely as a prince who was capable of attaining the end in view. The life of the state was the primary object. It must be maintained. And Machiavelli has laid down the principles, based upon his study and wide experience, by which this may be accomplished. He wrote from the view-point of the politician—not of the moralist. What is good politics may be bad morals, and in fact, by a strange fatality, where morals and politics clash, the latter generally gets the upper hand. And will anyone contend that the principles set forth by Machiavelli in his *Prince* or his *Discourses* have entirely perished from the earth? Has diplomacy been entirely stripped of fraud and duplicity? Let anyone read the famous eighteenth chapter of *The Prince*: "In what Manner Princes should Keep their Faith," and he will be convinced that what was true nearly four hundred years ago, is quite as true today.

Of the remaining works of Machiavelli the most important is the *History of Florence* written between 1521 and 1525, and dedicated to Clement Ⅶ. This book is merely a rapid review of the Middle Ages, and as part of it the history of Florence. Machiavelli's method has been criticized for adhering at times too closely to the chroniclers of his time, and at others rejecting their testimony without apparent reason, while in its details the authority of his History is often questionable. It is the straightforward, logical narrative, which always holds the interest of the reader, that is the greatest charm of the History.

56. It can be inferred from the beginning of the text that _____.

[A]many people used to think highly of Machiavelli

[B]Machiavelli had been very influential among the rulers

[C]Machiavelli was widely read among his contemporaries

[D]Machiavelli has been a target of criticism throughout history

57. Lord Bacon's remarks on Machiavelli is quoted as _____.

[A]a support for the author's viewpoint

[B]one of the mainstream views on him

[C]a judgment in support of most critics

[D]a modification of the author's previous stand

58. In the case of Caesar Borgia, the author holds that _____.

[A] Machiavelli has been objective [B] Machiavelli revealed his personality

[C] Caesar Borgia was a deserved model [D] Machiavelli overvalued Caesar Borgia

59. According to the author, a politician's morality _____.

[A] is no match for his political ambition

[B] has been undervalued by Machiavelli and his likes

[C] is usually of secondary importance

[D] should be taken as a yardstick of his capability

60. The author's opinion on Machiavelli's *History of Florence* is that _____.

[A] history has much to do with the person who records it

[B] the charm lies in the style rather than in the content

[C] most people failed to read Machiavelli's intention in it

[D] any history of this kind should be written in this way

Part B

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write your translation clearly on ANSWER SHEET 2.

In the 16th and 17th centuries, two persons helped lay the foundation of modern education. Comenius, a Czech humanist, greatly influenced both educational and psycho-educational thought. He wrote texts that were based on a developmental theory and in them introduced the use of visual aids in instruction. Media and instructional research, a vital part of contemporary educational psychology, has its origins in the writing and textbook design of Comenius. (61) He recommended that instruction start with the general and then move to the particular and that nothing in books be accepted unless checked by a demonstration to the senses. He taught that understanding, not memory, is the goal of instruction; that we learn best that which we have an opportunity to teach; and that parents have a role to play in the schooling of their children.

The contributions of one of our many ancestors often are overlooked, yet Juan Luis Vives wrote very much as a contemporary educational psychologist might in the first part of the 16th century. (62) He stated to teachers and others with educational responsibilities, such as those in government and commerce, that there should be an orderly presentation of the facts to be learned, and in this way he anticipated Herbart and the 19th-century psychologists. He noted that what is to be learned must be practiced, and in this way he anticipated Thorndike's Law of Exercise. He wrote on practical knowledge and the need to engage student interest, anticipating Dewey. (63) He wrote about individual differences and about the need to adjust instruction for all students, and anticipated the work of educational and school psychologists in the area of special education. He discussed the schools' role in moral growth, anticipating the work of Dewey, Piaget, Kohlberg, and Gilligan. He wrote about learning being dependent on self-activity, a precursor to contemporary research on meta-cognition, where the

ways in which the self monitors its own activities are studied. Finally, (64) Vives anticipated both the contemporary motivational theorists who avoid social comparisons and those researchers who find the harmful elements of norm-referenced testing to outweigh their advantages, by writing about the need for students to be evaluated on the basis of their own past accomplishments and not in comparison with other students. (65) Thus, long before we claimed our professional identity, there were individuals thinking intelligently about what we would eventually call educational psychology, preparing the way for the scientific study of education.

16 - 20ACAAC

听力部分录音材料:

Questions 1 ~ 5

It's a pleasant 73 degrees here. For those of you travelling tomorrow, here is a quick look at the weather for cities around the world. In Amsterdam, it should be clear tomorrow with a high of 82 and a low of 70. Athens is also expected to be clear with a high of 80 and a low of 70. We also expect Beijing to be cloudy with a high of 96 and a low of 64. It will also rain in Cairo but much warmer with a high of 93 and a low of 73. Dublin will be cloudy, as it often is at this time of the year, with a high of 75 and a low of 55. Istanbul will be clear with a high of 86 and a low of 70 while in Moscow the weather will be cloudy and on the cool side with temperatures only reaching a high of 66 and going down to 48 at night. If you don't want hot weather, stay away from New Delhi, where the temperature is expected to reach a high of 112 under cloudy skies and go down to a not very comfortable low of 80. And that's it for weather around the world.

Questions 6 ~ 10

Marriage is still a popular social practice in America, but divorce is becoming almost as "popular". Most Americans get married, but at the same time, fifty percent of their marriages end up in divorce. However, four out of five divorced people do not stay single. They get married for the second time to new partners. Sociologists tell us that in the 21st century, most American people will marry three or four times in one lifetime. Alvin Toffler, an American sociologist, calls this new social form social marriages. In his book *Future Shock*, Toffler gives many reasons for this change in American marriage. In modern society, people's lives don't stay the same for very long. Americans frequently change their jobs, their homes, and their circle of friends. So the person who was a good husband or wife ten years ago is sometimes not as good ten years later. After being married for some years, a husband or wife can feel that their lives have become very different, and they don't have the same interests any more. Because of this, Toffler says, people in the 21st century will not plan to marry only one person for an entire lifetime. They will plan to stay married to one person for perhaps five or ten years, and then marry another. Most Americans will expect to have a "marriage career" that includes three or four marriages.

Questions 11 ~ 13

Emily Dickinson is one of the greatest American poets. She was born in a typical New England village in Massachusetts on December 10, 1830. She was the second child of the family. She had lived in the same house for fifty-six years when she died. During her life time she

never left her native land. She left her home state only once, she left her village very few times. And after 1872 she rarely left her house and yard. In the later years of her life she retreated to a smaller and smaller circle of family and friends. In those later years she dressed in white, avoided strangers, and communicated chiefly through notes and poems even with intimates. The doctor who attended her illness was allowed to "examine" her in another room, seeing her walk by an opened door. People in her home village thought of her as a "strange" figure. When she died on May 15, 1886, she was unknown to the rest of the world. Only seven of her poems had appeared in print.

But to think of Emily Dickinson only as a strange figure is a serious mistake. She lived simply and deliberately. She faced the essential facts of life. According to Henry James, a famous American novelist, she was one of those on whom nothing was lost. Only by thus living could Dickinson manage both to fulfill her obligations as a daughter, a sister, and a housekeeper and to write on the average one poem a day.

She read only a few books but knew them deeply. Her poems are simple but remarkably rich. Not until 1950s was she recognized as one of the greatest American poets.

Questions 14 ~ 16

M: Say, Rason, what are you watching?

W: An old Japanese film. I wonder if I'm going to spend all my next year there, I'd better start familiarizing myself with the culture.

M: You mean you are accepted into the program?

W: Yes.

M: That's wonderful. You must be excited.

W: Excited and nervous. You know I owe a lot to Professor Mercheno. He wrote a letter of recommendation for me and he bought me a set of practice tapes and a book which goes with them. Just so I can work on my basic conversation skills.

M: How much Japanese can you understand?

W: Not a lot at present. But I signed up for intensive Japanese this semester.

M: I wish I were talented as you are in foreign languages. I'd like to study abroad.

W: Then why don't you? The university has lots of overseas programs that don't require mastery of a foreign language. The tuition is about the same. You just have to be the kind of person who is receptive to new ways of looking at things and willing to a different kind of life style.

M: I had assumed that all programs require you to know a foreign language. I might check into this.

W: You won't regret it.

Questions 17 ~ 20

The first newspapers were handwritten sheets which were posted in public places. The earliest recorded newspaper was started in Rome in 59 B. C. In the 700s, the world's first printed newspaper was developed in China. The paper was printed from carved wooden blocks and distributed among the citizens. Europe didn't have a regularly published newspaper until 1609, when one was started in Germany.

The first regularly published newspaper in the English language was printed in Amsterdam in 1620. In 1621, an English newspaper was started in London and was published weekly. The first daily English newspaper was the *Daily Courant* (current), which didn't appear until March 1702.

In 1690, Benjamin Harris printed the first American newspaper in Boston. The paper was called *Publick* (public) *Occurrences*, both Forreign (foreign) and Domestick (domestic). The local government, however, didn't approve of the paper and stopped its publication after the first issue. In 1704, John Campbell started *The Boston Newsletter*, the first newspaper to be published daily in the American colonies. By 1760, the colonies had more than thirty daily newspapers. There are now about 1,800 daily papers in America.

Today, as a group, English language newspapers have the largest circulation all over the world. The largest circulation for an individual newspaper, however, is that of the Japanese newspaper *Asahi Shimbun*, which sells more than eleven million copies each day.

第二部分　阅读

Part A

参考译文

第二次世界大战后，美国人通常在二十岁左右就完全承担起成年人的责任了。大多数的年轻男性已经完成学业，开始工作，大部分的年轻女性已经结婚并抚养孩子。这个黄金发展时代的人们在经济上能自给自足，青春期结束后就能够承担起照顾他人的责任。而如今，成年期却不再是随着青春期的结束而开始了。

社会科学家开始认识到一个新的人生阶段：早期成年期。这个阶段的特征与在十九世纪末二十世纪初的成年过程有些相似，那时，青年在一种半独立的状态中徘徊，等到他们足够富有了才结婚生子，建立独立的家庭。然而，在青年人如何定义成年期、如何真正步入成年的问题上，如今的人与近代以及更遥远过去的人有着重要的区别。

这个新阶段并不像大众媒体所认为的那样仅仅是青少年时期的延伸。年轻的成年人在生理发育上是成熟的，常常拥有惊人的智慧、社交技能和心理承受技能。并不是说如今的年轻人不愿意接受成年人的责任。相反，在竞争日益激烈的劳动市场上，他们忙于加强他们的教育背景，提升实践技能。很多年轻人还没有完全成年是因为他们还没有准备好，或者说，各方面的条件还不允许他们这样做。对于越来越多的年轻人来说，直到三十岁左右才会完全成年。实际上，美国社会将不得不提高完全成年的“正常”年龄，找到一些方法来帮助年轻人度过这延长的过渡期。

21. completed/finished

【解析】联系上下文可知，这句话表达的意思是大多数年轻男性在二十岁左右已经完成学业并且开始工作了，故填 completed/finished 均可。

22. married

【解析】由后文的 raising children 可知，这句话要表达的是多数年轻女性已结婚生子，故填 married。

23. up

【解析】根据句意不难理解，这句话的主语是这个黄金发展时代成长起来的人们，grow up 意为“成长，长大”，故填 up。

24. begins/starts/commences

【解析】句中将“成年期”与“青年期”对照，后半句说的是青年期的结束，由此可以推测，前半句应为成年期的开始。这句话所表达的是，成年期并不随着青春期的结束而开始，故填 begins/starts/commences 均可。

25. in

【解析】在十九世纪末二十世纪初，用介词 in，故填 in。

26. when

【解析】这句话为 when 引导的非限制性定语从句，修饰前面表示时间的先行词“十九世纪末二十世纪初”，故填 when。

27. until/till

【解析】联系上下文得知，这句话表达的意思是年轻人要等到足够富有了才结婚生子，故填 until/till 均可。

28. family/household/home

【解析】联系上下文可推断，此处要表达的意思是建立一个独立的家庭，故填 family/household/home 均可。

29. in

【解析】这句话要表达的是如今的青年人在定义与实现成年期的问题上与过去的人相比有很大的不同。表达“在……方面”应用介词 in，故填 in。

30. which

【解析】前面主句中的“an extension of adolescence”为先行词。这句话意思为“这个新阶段并不像大众媒体所坚持认为的那样是青少年时期的延伸”，故填 which。

31. have/own/possess

【解析】这句话由 and 连接两个并列谓语，意为“年轻的成年人生理发育成熟，常常拥有惊人的智慧、社交技能和心理承受技能”，故填 have/own/possess 均可。

32. building/strengthening

【解析】这句话意思为“年轻人忙于加强他们的教育背景，提升实践技能”。build up/strengthen up 意为“建立，增进，加强”，be busy(in doing)为固定搭配，故填 building/strengthening 均可。

33. because/for/since

【解析】这句话意思为“很多年轻人还没有完全成年是因为他们还没有准备好”，故填 because/for/

since 均可。

34. so/this

【解析】很多年轻人没有完全成年因为他们还没有准备好这样做。so/this 指代前面的“become fully adult”,故填 so/this 均可。

35. fact/reality

【解析】in fact/in reality 意为“事实上,实际上”,故填 fact/reality 均可。

Part B

Text 1

参考译文

在过去的三十年里,科学技术对运动领域已经产生了非常戏剧性的影响。这么说主要有三个原因。首先,新型人工材料已经出现并被应用于很多运动中——有时候起到了革命性的效果。其次,我们的设计技术有所改进,部分原因是计算机以及其他技术工具的发展。我们了解得更多,可以在许多关键领域更精确地规划和预测。科学技术的影响日益深远的第三个原因是,现在他们有资金和动力去这样做。在许多方面,运动已经成为了规模很大的商业活动。成败之际,大笔的资金成为赌注。

技术在很多方面影响了某些具体的运动。任何一个商业性的大众市场都涉及技术的变化,主要是为了改变,使这个季节的产品和上个季度的产品有所不同。这种趋势的一个例子就是人们对于完美运动鞋的不懈追求。鞋跟要能从人体结构上给予脚跟和脚踝准确的支撑,气垫的设计是为鞋的弹跳力和舒适度着想。每年,这两个方面都能催生出新款的改良鞋。篮球界的迈克尔·乔丹即使退休了,他仍然是运动界最大的赢家,因为他签署并代言了“空气乔丹”鞋;资深高尔夫球手阿诺德·帕尔默代言了最新的高尔夫球技术,尽管他现在赢得的比赛寥寥无几,但他仍然是所有运动界人士中最富有的一位。

在现代运动领域中,技术进步带来了更为广泛的影响,意义重大。给运动员的计时能够精确到千分之一秒,还能够回放以确认谁赢了或者是否有人犯规。运动场面通过电视播放出来,因此数百万的观众足不出户就能观看到比赛。它还能进行违禁药物测试。除此之外,不论好坏,它使运动员们以新的态度看待自己的身体——这也是受高风险、赞助商及狂热媒体共同作用的结果。技术帮助他们规划最好的饮食和运动制度;已经发明出了心肺监测器来检测血压和氧气摄入量;运动员可以随时检查他们的身体问题和代谢过程。就营养(燃料)和训练(维修)来说,现代运动员被视为了——他们也是这样看待自己的——机器。

36. D 【解析】由第一段的最后一句“In a variety of ways, sport has become very big business, and in the matter of winning or losing, very large amounts of money may be at stake.”可知,运动成为规模很大的商业活动是由于涉及到大笔的资金投入与产出,涉及到盈利与亏损,故选 D。

37. A 【解析】由第二段的第二句“Wherever a commercial mass market is involved, technical change may be promoted...to make this season's product seem different from that of last season.”可知,在市场上,为了体现变化,技术变革会被当做一大卖点,以此来促进销售,获取商业利益。下文中关于运动鞋的例子正是为了证明这一论点,故选 A。

38. D 【解析】由文中第二段 Michael Jordan 和 Arnold Palmer 的例子可以看出,这些体育界的名人在代言体育产品的时候拥有一定的号召力,推广与促进了产品的销售。A 项“和公司合作研发高科技运动产品”,体育名人只是代言,说参与研发不合适;B 项“对促进科技的发展感兴趣”和 C 项“通过推广新产品为自己赚钱”都不恰当,故选 D。

39. C 【解析】这句话的意思是,现代运动员被视为了——他们也是这样看待自己的——机器。根据前文内容可知,运动员在科技的帮助下规划最合理的饮食和运动制度,运用心肺监测器来检测血压和氧气摄入量,随时检查身体问题和代谢过程等,这使运动员看起来像被程序设置好的、精确运转的机器。A 项“严格、刻板”,B 项“非人性”和 D 项“自动化”都不能完全概括运动员的这种状态,故选 C。

40. B 【解析】文章主要讲述了科学与技术对运动领域产生的革命性影响,使各项运动更加细致与精确,同时促进了比赛的商业化运营。B 选项最为准确地概括了文章大意,选项 A、C、D 的表述都过于片面,故选 B。

Text 2

参考译文

我们大多数美国人会隐约地感觉到自己是个缺德的浪费者,并为此感到不安。我们五年之内换了四部手机,在接电话之前扔掉从未开封的过期食品。环

顾四周,我们抱怨无用衣物数量之多,像动脉血管里的血块一样将空间堵塞。

想到我们在浪费地球的资源,想到世界上三分之二的人口只够基本的吃喝而我们却拥有很多资源的事实,我们真的感到很沮丧。然而,我们却完全没有能力为此做些什么,我们太忙、太急躁、太疲倦,无法付诸具体措施。

因为有比物质浪费还要严重的问题:我们知道我们在浪费时间、浪费生命、浪费生活。我们在选择事业、爱人、朋友的时候已做了妥协;我们戴上面具面对那些我们要面对的人。不仅在办公室体制中,就连在我们亲密朋友的面前,我们都为市场性格所圈囿,我们玩了太多游戏了。

在内心深处,我们知道,是时候"过一种真正的生活"了,不要再被无意义的消费、不真实的人际关系和像"流感"似的事业心所分散注意力。

救赎的第一步是要明白有多少过错不在于你。如果你读过万斯·帕卡德1958年出版的关于广告产业的著作《隐藏的说服者》,你会发现,很早以前,零售商们就在想各种方法故意误导我们将想要的与真正需要的(东西)混淆,使得消费行为能够持续进行。近年来,制造商们故意加快了电子产品更新换代的速度,过去为顾客提供的合理维修服务不复存在,有的只是昂贵的热线服务电话。当你的烤面包机、打印机或MP3音乐设备只用了一年就坏掉的时候,没有人愿意修理它们,这绝非偶然——"亲爱的,买一个新的还便宜些呢。"

所以,这是一个自私的资本主义制度,通过"更新、更好"产品的快速更新换代来谋取最大化的利益,而这些所谓的"更新、更好"产品很快就会报废,并且不可维修。这不是你的错!

你能做的就是尽可能地从消费游戏中退出。每次你要买东西的时候,问问自己,"我真需要它吗,还是我只是想买它?"

41. D 【解析】由第一段的第一句"Most of us Americans have a vague, uneasy sense of wicked wastefulness."以及第二段的第一句"Our despair is genuine at the way we are running out of the earth's resources and...only just get enough to eat and drink."都可以得出,大多数的美国人因为浪费了太多资源而感到不安,故选D。

42. A 【解析】第三段的第一句"For the problem goes even deeper than material wastefulness: We know we are wasting our time, our being, our lives."指出了比物质浪费更为严重的问题:我们在浪费时间、浪费生命、浪费生活。文章接下来列举了我们浪费生命的表现。所以该段结尾"we play too many games."指的是我们在浪费生命,A项符合题意。

43. A 【解析】由第五段第一句话"The first step to salvation is to understand how much it is not your fault."可以知道,实现救赎的第一步是要明白有多少过错不在于你。也就是说,缓解我们内心不安的第一步是弄清楚造成我们过度消费、浪费资源的主要原因是什么。该题的题干和选项A的内容是对这句话的变相表述,故选A。

44. B 【解析】第五段以万斯·帕卡德的《隐藏的说服者》为例,指出了很早以前零售商就在想方设法诱使消费者购买更多,而今天生产商更是故意加快商品更新换代的速度,以扩大消费。由此可知,如今的消费者多半是被误导了。故选B。

45. D 【解析】由文章最后一段的最后一句话"Every time you are about to buy something ask yourself, 'do I need this, or do I just want it?'"可知,作者将购物的动机分为两种:需要的和想要的。而作者所赞成的消费观念是买自己真正需要的,故选D。

Text 3

参考译文

苏珊·格林菲尔德男爵夫人是英国人尽皆知的人物。在这个国度,科学家的形象是穿着白大褂、怪人、主要为男性,而格林菲尔德夫人时尚、华贵,而且是女性。至少这是她作为一名科学普及者希望给大众留下的印象。不过,她却被指控几乎整垮了英国皇家科学院。从1998年起直至上周五(1月8号),她一直担任皇家科学院的主管一职,而如今,这个机构解雇了她。她说对此她打算提请性别歧视的诉讼。

格林菲尔德夫人是牛津大学的神经科学家,她通过电视等手段使自己成为了家喻户晓的科学家之一,颇有名气,因此受聘改组这个有着200年悠久历史的机构。一方面,皇家科学院是一个会员俱乐部,因其名为"青少年讲堂"的圣诞讲座和周五晚课(绅士们请打黑领带)而闻名;圣诞讲座一年一度,在电视上播出,而在周五晚课上,著名的科学家们用刚好一个小时的时间谈论他们的研究内容——不多也不少——然后大家一起喝茶、吃巧克力蛋糕。但另一方面,皇

家科学院也是个严肃的研究实验室(世界上历史最悠久的研究院之一),研究诸如纳米技术在医学上的应用等课题。

格林菲尔德夫人的罪名,如果称得上是罪名的话,是在没有恰当控制成本的情况下对皇家科学院在梅菲尔区的总部进行现代化改组,梅菲尔区是伦敦最奢华的地区之一。重新装修包括一间高级酒吧和餐馆,都向公众开放。遗憾的是,这些新店面在2008年10月开门营业——而此时对于这种风险投资来说是最不利的时候。

这次的重新装修花费了2200万英镑,其中多数通过出售科学院的财产份额筹集,最终皇家科学院负债300万英镑,因此科学院理事决定,削减成本的一条途径就是撤销主管的职位。回顾历届主管,从迈克尔·法拉第到汉弗莱·戴维,格林菲尔德夫人是第一位女主管,她怀疑财政问题可能不是导致这个决定的唯一原因。

以后皇家研究院由首席执行官领导,而不是主管。第一位首席执行官是克里斯·洛夫,他于2009年4月被任命,拥有工商管理学位而不是科学学位。鉴于皇家研究院现在的负债情况,或许一个炼金术士会是最适合这个工作的人选。

46. A 【解析】定位到第一段的第三句,由"At least, that is the image she has sought to project as a populariser of science."和第二段的第一句"...because she had made a name for herself, particularly on television, as one of the popular faces of science."可知,格林菲尔德夫人是英国很有名的一个人物,经常出现在电视屏幕上。B、C、D项都与原文不符,故选A。

47. B 【解析】由文中第二段中"The RI is, in part, a members' club famous for its Christmas lectures 'adapted to a juvenile audience', which are broadcast on television every year..."可知,皇家科学院每年都会为青少年举办圣诞讲座,B项符合。

48. C 【解析】定位到第三段,由第三段第一句"Lady Greenfield's offence, if offence it be, was to... without proper cost control."可知,格林菲尔德夫人被指控的罪名是在对皇家科学院总部进行现代化改组时没有恰当地控制成本,C项"没能掌控好皇家学院重新装修的成本"符合题意,故选C。

49. D 【解析】由第四段最后一句"Lady Greenfield, the first female director... seems to suspect that financial considerations were not the only ones when this decision was made."可知,格林菲尔德夫人对于做出这个决定的原因感到怀疑,联系上下文可知,她认为,财政问题不是唯一的原因,其中可能还涉及到性别歧视的问题,D项"格林菲尔德夫人认为这次撤职对她不公平",符合题意。

50. B 【解析】定位到文章最后一段,由最后一句可知,作者认为,除非任用有点石成金能力的炼金术士,否则很难改善皇家科学院的经济困境。言语中有淡淡的讽刺意味,可见作者对于皇家科学院的前景是持怀疑态度的,故选B。

Part C

参考译文

互联网与移动电话的使用已经改变了我们与世界上其他人的联系方式。然而,这同时也扩大了贫困国家的性别差距,因为男性在这场信息革命中发挥着主导作用,引导着教育发展、信息变革以及权势变化。

根据GSMA协会的调查结果,在中低收入国家中,女性拥有手机的概率比男性低了21%。在非洲,这一比率是23%;中东地区比率是24%;南亚比率是37%。

女性较少使用手机通信,不同的社区有不同的原因。但最终的结果都是一样的:消权。(51)因为没有手机,女性所失去的不仅仅是接受教育和经济独立的机会。她们正在失去话语权。

联合国或海外发展研究所发起的"我的世界"的调查更加证实了这一令人不安的发现,这项调查是一场大型的、全球范围内的投票活动。按照要求,受访者须选出他/她们认为能改善世界的几项内容,选项包括政治自由、更好的医疗保健制度、远离暴力与犯罪等。他/她们可以选择纸质投票、网上投票或手机投票。(52)投票结果将有助于世界领导人本周在联合国妇女地位委员会的会议上商讨"后2015时代"的全球发展议程。

这次调查已经收集到了150万张投票。女性和男性一样,积极地表达她们的观点——线下的投票参与率女性与男性持平,都是50%;网络上,女性的投票率比男性还高,比率分别是52%和48%。

(53)但是手机投票的情况就完全不一样了。投票参与者的性别差异显而易见。在大概38万名手机投票者中,女性只占25%。以也门为例,有12.1万人

通过手机投票。其中,男性投票者有8.1万名。

总体而言,女性参与者认为,改善世界的前几位因素是教育、医疗保健和更好的工作机会。(54)但是,如果你只看手机投票结果的话,她们的观点就会被湮没,因为男性主导着这个结果。如果女性的手机拥有率和男性一样,她们接受教育、享受医疗保健和找到好工作的机会将会得到真正的提高。

要增加中低收入国家女性的手机拥有率不是件容易的事,因为造成这种现象的原因多种多样。但是有一些解决办法

在这些国家,主要有三个方面的障碍降低了女性的手机拥有率:手机价格太贵,每月的账单花销太高,或者是没有买手机的迫切需要。政府应该帮助他们消除这些障碍。他们应当建立透明的调控制度,鼓励更多的手机供应商进入市场。更激烈的竞争意味着更实惠的价格和更有保障的政策。

(55)另外,政府应该保证,女性能够用小额信贷的方式购买手机,应将男女等同的手机拥有率纳入他们的发展计划中。政府还应该为低收入人群提供一些财政补贴,支助他/她们购买电脑和智能手机。

51. E 【解析】前一句指出,女性手机拥有率低的最终结果是消权,即她们的很多权利被剥夺了。下一段的第一句即指出"This disturbing finding",可知横线上填的应是与消权等负面现象相关的语句。B项和E项都与话语权相关,但B项是从正面影响的角度分析的,与文意不符,故选E。

52. F 【解析】该段主要讲述了美国海外发展研究所发起的这场投票的内容、投票方式等,下面的几段文字才开始分析投票结果及其问题,因此横线上仍应填与投票活动的准备和预设有关的内容。综观几个选项,选项F是讲述这项调查活动的目的和作用的,符合文意,故选F。

53. C 【解析】前一段讲述了该次调查的结果,女性和男性都积极地参与投票,线下参与比例女性和男性等同,网上投票率女性甚至还超过男性,而从该段第二句可以看出,投票男女比例发生了变化,男性参与者大大超过女性,因此,横线上所填内容与前文是转折关系,C项和D项都有转折意味,再根据文意是否衔接,排除选项D,故选C。

54. D 【解析】该段首句讲述了女性参与者对此次投票话题的观点,认为教育、医疗和更好的工作机会对改善社会很重要,这主要是通过纸质投票和网络投票收集到的。其中,女性的观点是重要的衔接词,综观几个选项,D项中的"their views"与前句中女性的观点相照应,而且在逻辑上将手机投票结果与其他方式得到的结果相对比,有转折关系,符合语意,故选D。

55. G 【解析】文章最后两段主要讨论了面对女性手机拥有率低的问题政府应该如何作为。综观各个选项,只有G选项是讲述政府作为的,故选G。

Part D

56. 我们一方面崇敬大象,将它们视为神,另一方面却杀害它们,夺取象牙,捕获并奴役它们,将它们变成替我们干活和打仗的牲畜,还要供我们娱乐。

57. 这项决定是动物权益组织多年来施压的结果,也反映了近年来力量渐盛的一种趋势。

58. 在我们逐渐觉醒,认识到必须保护大象,使它们免于奴役和虐待的时候,或许我们也能听到源于良心的其他叩问。

59. 我一直对一个问题感到很好奇,那就是,我发觉,在我高曾祖父生活的时代,为数众多的美国白人和欧洲白人聪慧而又善解人意,却唯独在这件事情上明显不这样认为。

60. 整个场面、拥挤人群发出的欢呼以及在场成年人的表现都说明,人们认可事情这样的存在方式,不知怎么,他们对于大象所受到的耻辱没有那么敏感了。

第三部分 写作

61. 范文

What Is the Likely Future of Solar Power?

The given text talks about the use and development of solar power and fossil fuels. Their merits and demerits are discussed. Solar power is considered a renewable resource, while fossil fuels are "a finite resource" and may cause environmental pollution. Nevertheless, the use of sunlight also has its limitations, depending on weather condition and whether it is day or night. The world economy and environment may take on different appearances by choosing different energy resources.

From my point of view, solar power should be the main source of energy supply, with fossil fuels playing a complementary role in this process. For this, I have two reasons. For one hand, belonging to non-renewable re-

sources, fossil fuels are one of the motivations for which some countries launched wars, for example, Mideast Asia War, in the course of human history. If there are some substitutes for fossil fuels, this kind of threat would be largely lessened. For another hand, the use of solar energy is good way to achieve sustainable development, by making the best of sunlight's renewable nature.

All in all, people should grant solar power the future as the main source of energy supply, which will surely do good to the whole human society.

听力部分录音材料:

Questions 1 ~ 5

I love books and I love bookstores too, but I don't always have the time to explore them. That's why I turn to the Internet to find rare books I seek. I'm Charles Bourne, reporting to the Internet News. Today's report is on Dan's book exchange. Book lovers flock to this Canadian website and they do so with good reason. It links to more than 6,540 bookstores in North America, listing up to 21 million rare copies, used books and out-of-print volumes. This guy sells up to as many as 8,000 books a day. You can usually buy a book from the site or deal directly with the bookstores. Your time is precious. Spend it reading your book instead of hunting for it. To link directly to this Canadian site, visit the Internet news on *Netnews. com* on the World Wide Web. The Internet news is a service of George Washington University in Washington, D. C. It's an international center of higher learning, providing educational opportunities to meet today's global challenges. This is Charles Bourne for CBC. We will be happy to mail you a CBC frequency schedule if you just send us a...

Questions 6 ~ 10

Each morning, millions of Americans stumble out of bed and head for the kitchen. The reason is to get a steaming cup of fresh black coffee. Many people say they can not live without it. And most coffee drinkers do not stop at one cup. Get down coffee all day. Americans even have a special time of day to drink coffee—the coffee break. This break is even required by law. All in all, Americans use about 1.25 million tons of coffee each year. That is two and a half cups daily for each person. Americans are not the world's only coffee drinkers. All around the world, people drink more coffee than any other beverage. Swedes consume the most, an average of 30 pounds each year per person. The people of Sweden have not always drunk coffee. In the 18th century, King Gustav Ⅲ of Sweden believed the coffee was poisonous. He decided to prove that his belief was correct. He sentenced a murderer to drink coffee every day until he died. By comparison, another murderer was sentenced to drink tea every day. Two doctors watched the two men to see who will die first. The doctors died first, then the King died. Finally, after many years, one of the murderers died at the age of 83. He was the tea drinker. Coffee may or may not give long life, but it certainly gives energy. Coffee contains caffeine. This drug makes people feel awake and alive. This is one reason people drink coffee.

Questions 11 ~ 13

Sunday is World AIDS Day. World AIDS Day was first declared in the conference in 1988. Each year, the observance gives governments, other organizations and in-

dividuals a chance to show the importance of the fight against AIDS. It also is a day to celebrate progress in efforts to stop the spread of the disease. The message for World AIDS Day this year is living let live. Peach Pile is the head of the United Nations AIDS program. He says the world AIDS campaign for the next year is about the way people infected with the AIDS virus are treated. He says those infected can be treated on healing school, ward places and religious centers. He is urging everyone to fight these unfair treatment wherever it is found. He says that would help clear the way to progress in fighting AIDS itself. This week, UN officials reported that about half of those infected worldwide are women. Until now, more men were infected. The UN's new report estimates that 42 million people are infected with the AIDS virus, also called HIV. Nearly 39 million of those infected are adults. More than 19 million of them are women. Last year, more than 4 million adults became infected. 2 million of them are women. UN officials say many women were infected through sex with infected men. Studies have found HIV passes more easily from men to women than from women to men.

Questions 14 ~ 16

Stephen Biko, a South African political leader of the late 1960s, became known as a hero for Black Nationalism upon his death in prison. Biko was born in King William's Town in what is now the province of Easten Cape. He entered the university of Natal in 1966 to study Medicine. In 1972, Biko was expelled for his political activities which were directed at the white minority government of South Africa and its restrictive racial policies. Biko thought to liberate the minds of Americans and was one of the founders of the Black Consciousness Movement in the late 1960s. Students were in the forefront of the Black Consciousness Movement and in 1968 they also founded the South American students, organization which operated as a black group, separate from the white national union of South African students. Biko served as the black organization's first president. He also was important in starting other black groups. In 1972, a union of more than 70 black organizations established the Black People's Convention and Biko was named the honorary president. The South African Government initially tolerated the Black Consciousness Movement and some of the other black organizations, but it began cracking down on them in the early 1970s. Biko was banned from many activities in 1973 and arrested several times. In August 1977, Biko was arrested again and was severely beaten by the police while in prison. He died within a month of his arrest.

Questions 17 ~ 20

There are millions of left-handed people in the world, 25 million in the United States. A number of them got together in 1975 to form an association called Left-handers International. The purpose of the organization is to fight discrimination, particularly in jobs and to inform the public. The members want everybody to understand that left-handers are neither strange nor sick nor dangerous. Many studies have been made recently about hand preference in humans. They have brought interesting results. It's been found, for instance, that many more men than women are left-handed, that all children use both hands about equally until they are 3 years old and that hand preference is not clearly marked until age 6. Above that age, most people not only favor one particular hand but they also have a favorite eye, a favorite ear and foot. We know that the left side of the body is controlled by the right side of the brain. It seems that this particular half is the seat of emotions, imagination and of the sense of space. And indeed, lefties seem to be more creative than their right-handed fellow humans. They also seem to be more athletic and to do better in some professions, which like sports, require a good sense of space. In a large school of architecture, it was found in 1977 that 29% of the professors and 23% of the graduating students were left-handed while lefties represent less than 10% of the general population. Finally, left-handers may be more stubborn than right-handers and they're more likely to suffer from problems such as difficulty in reading and inability to speak normally. The problems are more serious in left-handed people who have been forced to favor their right hand. Doctors insist that one should never try to change a child's hand preference.

第二部分　英语知识运用

参考译文

实用主义是自19世纪晚期以来至今对美国文化影响至深的哲学思潮。实用主义倡导通过评估运用某些观点和理论是否能够产生理想或不理想的结果，在实践中检验观点和理论的正确性。

实用主义者的观念最初出现的时候，被人们视为具有革命性。在一些批评者看来，实用主义拒绝确信任何绝对的标准，会对社会产生负面作用。例如，实用主义者认为，不存在一个绝对的善或正义的标准，这些概念是可以改变的，取决于它们被讨论的语境。批评者担心，如果没有绝对的标准，会造成道德标准的下降。不过，实用主义者对绝对标准的否认，对宗教、政府、思想流派的基础提出了质疑。因此，实用主义对心理学、社会学和许多其他流派和思潮产生了影响。从20世纪初期的进步运动到后来社会改革中的实验，许多政治团体也借鉴了实用主义的假设。

了解实用主义所产生的历史文化背景最利于对它的理解。实用主义产生于19世纪晚期，那个时期经历了迅速的科学进步，英国生物学家查尔斯·达尔文的理论论证了这一进步。他的理论使许多思想家认识到，人类和社会处于永久的进步当中。同时，随着工业化和物质进步，传统的宗教信仰和价值观逐渐衰落。于是，重新思考关于价值、宗教、科学、社会和个人的基本观念变得非常有必要。

21. A　【解析】根据前后文对实用主义的解释可知，这句话所表达的意思是实用主义的基本内涵，即实用主义这一思潮所倡导的观点和理念，故选A。

22. C　【解析】由前半句话可知，实用主义倡导在实践中检验观念和理论，因此可推知，要想检验观念和理论的正确性，就必须通过评估依据某些观点和理论是否能够产生理想或不理想的结果，故选C。

23. C　【解析】由后文提到的批评者的观点可知，人们对于实用主义的理念提出了质疑。由后文"The pragmatists denial... challenged the foundations of religion, government, and schools of thought."可知，实用主义对于传统观念提出了挑战，由此可推知，它是一股具有革命性的思潮，故选C。

24. B　【解析】由后文可知，实用主义者认为不存在一个绝对的善或正义的标准，这些概念是可以改变的，取决于它们被讨论的语境。实用主义对于绝对标准持否定态度，他们否认绝对标准的存在，故选B。

25. C　【解析】由前文中absolute standards和后文中的absolute idea of goodness or justice可知，后文是对前文的进一步举例论证，故选C。

26. A　【解析】由后文的"这些概念是可以改变的，取决于它们被讨论的语境"可知，这句话的前半句表达的是实用主义者反对的观点，而后半句则表达实用主义者认同的观点，but rather表示转折，符合文意，故选A。

27. C　【解析】由原文可知，这句话所表达的意思是各种概念被讨论的语境、背景，是一个抽象而非实质的含义，选项中只有context可以表示抽象的背景，其他三个词都是指具体的物理概念，与原文意思不符合，故选C。

28. D　【解析】由前文中"pragmatists do not believe that a single absolute idea of goodness or justice exists"可知，实用主义者认为，不存在一个绝对的善良或正义的标准。因此可推知，批评者担心的是有可能导致道德标准下降的原因正是实用主义者对绝对的善良或正义标准存在的否定，即不存在这些绝对，故选D。

29. B　【解析】由前文中"To some critics...carried negative implications for society."可知，批评者认为实用主义思潮会对社会产生负面影响。此处进一步解释批评者的观点，他们认为实用主义对绝对标准的否认会造成道德标准的下降，故选B。

30. B　【解析】根据上文提到的批评者对实用主义的批评，以及下文描述实用主义的积极意义可知，此处需要填入一个表示转折的词，故选B。

31. C　【解析】由前文可知，实用主义者对绝对标准的否认对宗教、政府、思想流派的基础提出了质疑，后文又进而提到实用主义对心理学、社会学和许多其他流派和思潮产生了影响。因此，此处需要填上一个表示因果关系的短语，故选C。

32. B　【解析】由后文中的"from the progressive... to later experiments in social reform"可知，实用主义思潮对很多政治团体都有借鉴意义，故选B。

33. A　【解析】由文中also后面的内容可知，实用主义对政治团体产生了与心理学、社会学和许多其他流派类似的作用，反过来说，政治团体吸收借鉴了实用主义的理念，故选A。

34. D　【解析】根据后文中解释实用主义思潮产

生的历史背景可知，这句话表达的意思是，实用主义置于它所产生的历史文化背景当中最好理解，故选 D。

35. D 【解析】根据后文中的达尔文的理论可知，达尔文的理论认为人类和社会处于不断的进步当中，这一理论能够为科学的迅速进步提供理论支撑或证明，故选 D。

36. D 【解析】这句话描述达尔文的理论对当时的文化和思想界产生的影响，它向许多思想家表明了这样的理论，即人类和社会处于不断进步的状态中，故选 D。

37. A 【解析】由常识可知，作为生物学家的达尔文，最著名的理论是进化论，即人类和社会处于不断的进步当中，故选 A。

38. C 【解析】这句话所表达的意思是，随着工业化和物质进步，宗教信仰和价值观逐渐衰落，工业化是新兴事物，物质进步是向前发展的，因此可推断，此处表达的是一个与这两者相对应的含义，即传统的宗教信仰和价值观，故选 C。

39. A 【解析】根据后文中的“重新思考关于价值、宗教、科学、社会和个人的基本观念”可知，导致出现重新思考的原因是前面提到的传统的宗教信仰和价值观的逐渐衰落，两者之间构成因果关系，故选 A。

40. B 【解析】根据前文内容可知，伴随着工业化和物质进步，传统的宗教信仰和价值观逐渐衰落，因此有必要重新思考关于价值、宗教、科学、社会和个人观念，因此可知，此处表示的意思是“最基本的”，故选 B。

第三部分 阅读理解

Part A

Text 1

参考译文

食品药品管理局的一个咨询委员会称，一种新的治疗方法可以极大地帮助治疗风湿性关节炎患者。

委员会建议当病人对其他药物无反应时才同意对其单独使用恩利，或者与甲氨蝶呤配合使用，后者是一种抗癌药物，也是治疗风湿性关节炎的主要手段。

食品药品管理局必须在 11 月初做出最终决定，制药商说药品可能在年底上市。

约 210 万美国人患有风湿性关节炎，患者的免疫系统攻击健康的关节。在这个过程中背后的始作俑者是一种叫作“肿瘤杀死因子”的蛋白质，或称肿瘤坏死因子，它与一个特殊的分子——肿瘤坏死因子受体——互相作用于细胞表面。

为了控制炎症，细胞通常会释放出一些受体来清除过量的肿瘤坏死因子，降低它的活性。显然，风湿性关节炎患者没有足够多的自由漂浮的肿瘤坏死因子受体。

恩利包含经基因工程改造过的肿瘤坏死因子受体。在一项为期 6 个月的研究中，234 名患有晚期风湿性关节炎的患者每周接受两次一个单位剂量的恩利或者安慰剂（当作药物服用的无害物质）注射。他们接受了 6 个月的注射。在 6 个月末的时候，40% 接受较大剂量恩利注射的患者症状（肿胀或者关节疼痛）减轻了一半。而只有 5% 接受安慰剂注射的患者达到了这样的效果。主要的副作用是接受注射时的轻微的刺激。

因为一些肿瘤坏死因子对正常的免疫反应是必需的，使用恩利的患者至少在理论上会遭受感染甚至癌症的风险，因此，食品药品管理局专门小组敦促进行长期的安全性研究。

上周，食品药品管理局批准使用一种类似甲氨蝶呤的治疗风湿性关节炎的口服药物爱若华。关节炎基金会的研究副总裁布莱恩·布彻称，虽然恩利和爱若华都有潜在的重要意义，但二者仅对相对较少的患者进行过测试。

布彻说，一旦它们被广泛使用，它们的安全性应要严密监测。

41. B 【解析】由第一段“A Food and Drug Administration... can greatly help rheumatoid arthritis patients.”可知，食品药品管理局的一个咨询委员会称，一种新的治疗方法可以极大地帮助治疗风湿性关节炎。纵观后文可知，第一段提到的新药物是恩利，B 项“可能给风湿性关节炎患者带来希望”，与文中表述一致，故选 B。

42. C 【解析】由第四段中第二句“A major wrongdoer in this process is a protein called ‘tumor killing factor’, or TNF...”可知，在免疫系统攻击健康关节的过程当中，主犯是一种叫作“肿瘤杀死因子”的蛋白质，它与一种特殊的分子相互作用，因此，造成关节发炎的物质是“肿瘤坏死因子”，一种杀死肿瘤的蛋白质，故选 C。

43. A 【解析】由第六段中第四句“By the end, 40% of patients on the larger Enbrel dose saw symptoms, such as swelling and joint pain, cut in half.”可知，40%接受较大剂量恩利注射的患者症状，例如肿胀或者关节疼痛，减轻了一半。B 项称关节炎患者在接受恩利治疗之后表现出了症状，C 项称关节炎患者在注射安慰剂之后症状消失，D 项称只有 5%接受安慰剂注射的患者表现出诸如肿胀和关节疼痛的症状，都与原文意思不符合，故选 A。

44. D 【解析】由第七段中“Because some TNF... so the FDA panel urged long-term safety studies.”可知，因为一些肿瘤坏死因子对正常的免疫反应是必需的，使用恩利的患者至少在理论上会遭受感染或者甚至癌症的风险，因此，食品药品管理局专门小组敦促进行长期的安全性研究。根据最后一段“Butcher says their safety should be closely monitored once they' re widely available”可知，一旦它们被广泛使用，它们的安全性应得到严密监测。因此可推断，恩利的广泛应用取决于长期的安全性研究，故选 D。

45. C 【解析】全篇文章介绍一种治疗风湿性关节炎的新药恩利的药理作用以及可能造成的风险，并说明由于新药的风险，食品药品管理局对于审批十分谨慎，敦促进行长期的安全性研究。C 项“关节炎药物的审批之路”涵盖了文章的主要内容，为正确选项。

Text 2

参考译文

距离退休还有多久对投资退休金的方式有很大影响。根据威斯敏斯特投资服务有限公司的莱斯利·怀特的说法，为退休制定的长期定期储蓄计划可以分为三个阶段：资本化、整合和保守阶段。在第一阶段，人们最应该关注的是积累退休金储蓄投资。根据怀特所述，这些投资者可以“采取他们心理能够承受的激进的态度，”因为在这一阶段，几乎没有资金风险。第二步，整合，这是构成储蓄计划的绝大部分；用抑制的投资平衡激进投资，更好的保护现有资金。最后的转变是从整合到保守，你投资的目标要变成保护现有资金，这一步应该在退休前一至三年的时候进行。具体定在什么时间应当结合当前的市场条件考虑，不过怀特警告人们不要冒险将赌注押在未来资金的增长上面。“不能因贪婪而变得盲目，失去谨慎，”他说。

不论你为退休股权选择何种投资方式，请一定要利用成本平均策略。通过定期投资定量资金，你将能够在市场的高峰和低谷中达到平衡，避免时机不佳的投资风险。另外，定期投资能够让你避免市场下跌时退出，市场上涨时买入太多的冲动。

临近退休的人们最近会有所担心。暴跌的股市和房地产市场导致为退休或其他原因准备的储蓄缩水，而有些人还完全没有为退休制定计划。

当然，你不会那么鲁莽行事，但如果你已经处于职业生涯的中期，却还没有制定退休计划，该怎么办？如果你现在没有大幅削减开支，重视储蓄，可能就不得不牺牲掉你的退休时期了。

当然，尽早开始你的计划是更好的选择。“我们不应该在退休的时候降低生活水平，”怀特说。“退休时期是真正享受生活的时光。我们已经非常努力地工作过。”而现在应该花点心思的事情之一就是为享受退休生活作出计划。

46. C 【解析】由第一段中第四句“According to Wright, these investors can' take as aggressive an outlook as their nerves can stand, ' because at this point there is little capital to risk.”可知，怀特建议投资者可以“采取他们心理能够承受的激进的态度，”因为在这一阶段，几乎没有资金风险，也就是说，长期投资不存在风险，故选 C。

47. B 【解析】由第二段中第 1、2 句“Whatever vehicles you choose...be sure to take advantage of dollar-cost averaging... you' ll be able to avoid the risk of poorly timed investments by averaging out the peaks and valleys of the market.”可知，成本平均策略通过定期投资固定的数量，能够在市场的高峰和低谷中达到平衡，避免时机不佳的投资，故选 B。

48. D 【解析】文章提倡人们在职业生涯时期为退休时期做好储蓄和投资计划，由文章最后一句“And one of the things you should be working hard on right now is planning for those days of enjoyment.”可知，现在应该为退休阶段享受生活的时光作好准备，因此，如果现在不作准备，就无异于牺牲了享受生活的时期，即晚年，故选 D。

49. B 【解析】全篇文章强调尽早为退休时期做出投资计划的重要性，并提出投资建议，表明作者重视储蓄、投资，重视退休时期的资金保障，B 项所表达的意思是拥有大量金钱远比钱不够花要好，与文章主旨一致，故选 B。

50. B 【解析】全篇文章介绍了为退休时期做出投资计划的策略，并强调尽早制定计划，以保障退休时期有享受生活的资金保障。B项最大程度地概括了全文意思，故选B。

Text 3

参考译文

在公元前5世纪，一群流浪教师——诡辩家，开始在雅典教授课程。诡辩家们声称他们能向任何希望听课的人教授任何课程或技能。他们专门教授语法、逻辑学和修辞学，这些学科后来形成了人文学科的核心。相对于教授真理和道德原则而言，诡辩家们更感兴趣的是帮助学生准备有力的辩论，并赢得辩论。

与诡辩家们不同，希腊哲学家苏格拉底试图发现并教授真、美、善的普遍原则。苏格拉底于公元前399年去世。他声称，真正的知识存在于每个人心中，需要被良知激发出来。他的授课方法被称为苏格拉底式教学法，这种方法通过提出探索性的问题，来激发学生深入思考人生、真理和正义的意义。

公元前387年，柏拉图，作为苏格拉底的门生，在希腊创建了一所学校，名为“学院”。柏拉图相信存在一个包含完美观念或普遍适用的概念的永恒世界。他认为，既然真正的知识在每时每刻、每个角落都是一样的，那么教育就像真理一样，应该是永恒不变的。柏拉图在《理想国》中描述了自己的教育理想，这本书是西方哲学最著名的著作之一。柏拉图的《理想国》描述了一个由极具智慧的哲学王统治的理想社会，或者国家。战士们构成了国家的第二等阶层。最底层是工人，他们为国民提供食物和其他产品。在柏拉图的理想教育系统中，每个阶层都会接受其独特的教育，以便为他们各自的社会角色做好准备。

公元前335年，柏拉图的学生亚里士多德在雅典创办了自己的学校，称为学园。亚里士多德认为人类本质上是理性的，因此人们能够发现统治宇宙的自然法则，并在生活中遵循这些法则。他还认为有教养的人运用理智做出决定，并过着有节制的生活，避免危险的极端。

公元前4世纪，希腊雄辩家伊索克拉底创造了一种新的教育方法，这种方法旨在让学生成为有能力的演说家，并能够成为政府官员。伊索克拉底的学生学习修辞法、政治、道德和历史。他们研究演说范例，练习公共演讲。伊索克拉底的教育方法直接影响了诸如西塞罗和昆体良等罗马教育理论家。

51. D 【解析】由第一段的第三句“They specialized in teaching grammar, logic, and rhetoric, subjects that eventually formed the core the of liberal arts.”可知，诡辩家教授的课程后来形成了人文学科的核心，D项“他们对后世产生了可观的影响”，与原文意思相符，为正确选项。

52. C 【解析】由第三段的第5－8句“Plato's Republic describes a model society, or republic, ruled by highly intelligent philosopher-kings ... each class would receive a different kind of instruction to prepare for their various roles in society.”可知，柏拉图的《理想国》描述了一个由极具智慧的哲学王统治的理想社会，这个社会等级分明，每个阶层都会接受其独特的教育，以便为他们各自的社会角色做好准备，因此可以推断，柏拉图所认为的理想社会应以智力差异和等级制度为显著特点，故选C。

53. A 【解析】由第三段的第5－8句“Plato's *Republic* describes a model society, or republic, ruled by highly intelligent philosopher-kings ... each class would receive a different kind of instruction to prepare for their various roles in society.”可知，柏拉图倡导一个由智者领导的、等级分明的社会，每个阶层都遵从统治者领导，接受独特的教育，扮演各自的社会角色，因此可推断，对阶级分化的挑战应该是柏拉图不赞成的。故选A。

54. D 【解析】由第五段的第二句“Isocrates' students studied rhetoric, politics, ethics, and history.”可知，伊索克拉底的学生学习修辞法、政治、道德和历史，因此可以推断，他的学生们对喜剧的兴趣不大，故选D。

55. B 【解析】由第一段的第三句“They specialized in teaching grammar, logic, and rhetoric, subjects that eventually formed the core of the liberal arts.”可知，诡辩家们专业教授语法、逻辑和修辞学，这些课程后来形成了人文学科的核心。由第五段的第二句“Isocrates' students studied rhetoric, politics, ethics, and history.”可知，伊索克拉底的学生学习修辞法、政治、道德和历史，伊索克拉底与诡辩家教授的内容有相似之处，故选B。

Text 4

参考译文

英联邦重新专注于贸易与投资的尝试被围绕尼

日利亚和洛克比的争吵蒙上了阴影。贸易与投资是爱丁堡政府首脑会晤的主题,却受到极少关注,更不要说赞扬。

人们曾高度期望本次峰会的经济声明能够与哈拉雷声明拥有相似的重要性。哈拉雷声明发表于1991年,为结束与隔离政策做斗争的前殖民地国家制订了一个政治议程。但是这份声明的发表却无力使人们的注意力从两名洛克比炸弹嫌疑人,以及英联邦部长行动小组不对尼日利亚采取新的制裁手段的决定那里转移过来。英联邦部长行动小组选择忽略驱逐尼日利亚以及强制石油禁运的呼声。他们认为如果萨尼·阿巴查将军不能信守明年十月举行民主选举的诺言,情况需要被重新评估。

英国首相布莱尔对这份长达6页,题为"促进共同繁荣"的文件表示欢迎。"这标志着意识形态的终结,反映了经济和社会公正的基本原则," 英国政府称。"这在不久之前是不可想象的。"但是宣言并没有带来惊喜,却充斥着基于全球经济中自由市场原则的无聊重复陈述。

英联邦的54个成员国之间的鸿沟从来都不容易弥合,英联邦包括富裕国家,例如英国,也包括世界上最穷的一些国家,例如孟加拉国。因此,爱丁堡保持了安全的立场,确立了四个关键原则:1)世界经济的目的应该指向促进共同增长与繁荣;2)所有国家都应有效参与到经济决策中;3)消除阻碍发展中国家充分发挥塑造全球经济作用的障碍;4)影响国家间经济关系的国际制度应该有利于所有国家。

加勒比地区的成员国坚持强调他们受到新的世贸组织制度的威胁,在香蕉出口问题上遇到的麻烦,并赢得了对于自身"合法利益"以及促进经济发展多样化所需帮助的认可。

实际措施包括建立一个英联邦贸易与投资促进会,帮助发展中国家在全球化进程中获利。

另一个收入来源来自一个为南亚成员国的发展所创立的基金。

世界自然基金会表示,英联邦言行不一致,他们声称全球化有危险,却没有对高质量的投资、环境保护和劳工权利做出承诺。

56. B 【解析】由第二段的第2、3句"But the publication of the statement did little to divert attention from rows over the trial of two Lockerbie bomb suspects and over the decision by the Commonwealth Ministerial Action Group (CMAG) not to impose new sanctions against Nigeria. CMAG chose to ignore calls for Nigeria's expulsion and the imposition of an oil embargo."可知,人们的注意力没有从两名洛克比炸弹嫌疑人,以及英联邦部长行动小组不对尼日利亚采取新的制裁手段的决定那里转移过来。英联邦部长行动小组选择忽略驱逐尼日利亚以及强制石油禁运的呼声,高涨的呼声和忽略的态度形成强烈的矛盾,因此可以推断,尼日利亚和洛克比发生了争执,故选B。

57. A 【解析】由第一段中"Overshadowed by rows over Nigeria and Lockerbie, the Commonwealth's attempts to refocus on trade and investment—the main theme of the Edinburgh heads of government meeting—attracted little attention and even less praise."可知,贸易与投资是爱丁堡政府首脑会晤的主题,却受到极少关注,更不要说赞美,因此,爱丁堡峰会没有处理好贸易与投资的问题,由第三段最后一句"But the declaration produced few surprises and many boring repetitions of statements based on affirmation of free market principles in the global economy."可知,峰会发表的宣言并没有带来惊喜,却充斥着基于全球经济中自由市场原则的无聊重复陈述,由此可推断,峰会并没有成功地解决贸易与投资的问题,故选A。

58. A 【解析】由第三段最后一句"But the declaration produced few surprises and many boring repetitions of statements based on affirmation of free market principles in the global economy."可知,题为"促进共同繁荣"的文件是以全球经济中的自由市场原则为基础的,故选A。

59. B 【解析】由第四段倒数第2句"The removal of obstacles that prevent developing countries from playing a full part in shaping the global economy."可知,任何阻碍发展中国家充分发挥塑造全球经济作用的障碍都应被消除,故选B。

60. D 【解析】由最后一段"The Worldwide Fund for Nature said the Commonwealth had not matched its rhetoric about the dangers of globalisation by failing to promise higher-quality investment, protection for the environment and labour rights."可知,世界自然基金会批评英联邦言行不一致,他们声称全球化有危险,却没有对高质量的投资、环境保护和劳工权利作出承诺。因此,世界自然基金会对英联邦的态度是批判的,故

选 D。

Part B

61. 生理上，当大脑细胞被记忆过程激发，每一次重复都使神经细胞的表层变得越来越厚，其加强了大脑中构成记忆的电子通道

62. 当通道重复使用，周围的细胞会变大，并且更紧密地围绕在电子通道周围，从而将短期记忆变成长期记忆。

63. 通过形成创造性的和不寻常联系的记忆，更多的通道被建立，与一只蜘蛛织造一张更大的网很相似，网络上的每个部分都通过互相连接的通道通向中心。

64. 的确，有些人似乎能够通过看、听、写当中的一种方法进行更有效的学习，但是没有一种方法能比三种方法结合使用提供更多的通道。

65. 激起回忆的物体需要和人体大小一致，因此，即使我们是盲人，也能够通过触摸来辨认物体。

第四部分　写作

66. 范文

Stepping on Difficulties,

Overcoming Pressure

From the picture we can see a man running with springs under his shoes. With the help of the counteracting force of the spring, the man is able to run faster and easier.

The spring represents the various pressures most of us have to face in our lives. While enormous stress may have the potential to adversely affect people's health, a certain degree of pressure would benefit us by acting as a source of motivation. Under pressure, we can bring out our potential to the best in order to meet the challenge.

To make the best of pressure, we should think positively in the first place. As pressure is largely inevitable, it is pointless to be excessively worried about the harsh situation. On the contrary, it would be of great help to maintain a healthy lifestyle and thus mitigate pressure.

In conclusion, we need pressure and challenge to be motivated. When burdened with pressure, our potential is explored and we would be able to work more efficiently. Only by thinking positively, regarding pressure as an impetus and leading a healthy lifestyle can we handle pressure successively.

Questions 1 ~ 5

Buckingham Palace is in London, England. It was built around 1705. It's famous because Queen Elizabeth of England lives there. She became queen in 1952. Buckingham Palace is a big and beautiful building, a flag flies on the palace. It flies on top of the palace when the queen is there. Queen Elizabeth and her family lives on the second floor of the palace. The queen also has her office in the palace where she meets with presidents, kings, and politicians. Queen Elizabeth often asks some important people to have dinner at the palace. She also has three garden parties in the summer. She invites 9000 people to each party. Queen Elizabeth's day starts at 7:00 in the morning. Seven people take care of her. One person prepares her clothes. Another person takes care of her dogs. The queen loves dogs. Right now she has eight dogs. Everyday a man brings food for the dogs to Queen Elizabeth's room. The queen puts the food in the bowls with a silver spoon. At 8:30 every morning, the queen has breakfast with her husband, Prince Philip.

They drink a special coffee with hot milk. During breakfast, a musician plays Scottish music outside. Then Queen Elizabeth works in her office the rest of the morning. After lunch, she visits hospitals or schools.

Question 6 ~ 10

He was a King, a commander, and a conqueror. Alexander the Great was so powerful—some people called him a god. He's one of the greatest generals in history. Alexander was born in 356 B. C. His father, King Philip Ⅱ, hired the famous Greek philosopher Aristotle to tutor young Alexander. In the summer of 336 B. C., his father was murdered by one of his body guards. Alexander then became King. Many people, inside and outside this country, flooded against the young king. But Alexander was shrewd. He quickly ordered the execution of all those who were against him. Crashed the rebellions and restored his rule. Next in 334 B. C., Alexander turned his attention toward the Persian Empire in southwest Asia. Their armies met in 333 B. C. and fought a fierce battle. Alexander won and the Persian Emperor fled. Alexander then let his soldiers south into the Egypt where he ceased power. At the mouth of Nile River in northern Egypt, Alexander founded a new city. He named the city "Alexanderia". Alexander was a military genius and a greatest explorer. He also had a grand ambition. He wanted to rule a world empire where people could live in peace with one another. As he traveled, he built more cities. He recruited soldiers, merchants and scholars from many lands to settle in them. In 326 B. C. Alexander turned south into India. But by then his men were tired and weak. The soldiers rebelled and refused to go farther. Although he was not willing, Alexander had to turn back. By 323 B. C. he reached Babylon in Iraq. While he was in Iraq, he caught a fever and died at the age of 33. His empire was divided up.

Question 11 ~ 13

W: OK. May I see your driver's license, please?

M: What? Did I do anything wrong?

W: License, please, and your car registration.

M: Oh yeah... It's here somewhere in the glove compartment. Yeah, here it is.

W: Sir, did you realize you were speeding in the school zone?

M: What? No, I didn't. That's probably because my meter is broken. I mean "mile functioning".

W: Yes, you were going 50 miles per hour in a 20 miles per hour zone. And...

M: What?

W: And you failed to come to the complete stop at the cross road back there.

M: Rolling stops don't come.

W: And one of your brake lights is out.

M: Oh...

W: You were not wearing a seat belt. And your driver's license's expired six months ago.

M: And... Your name is... Officer Smiths. Hey! Are Smiths in town? My wife's cousin's husband, I think his name is Brad, works for the police department here. Or was there a fire department? Anyway, I think you might be good friends, and you know...

W: So what's that got to do with it? Do you want me to re-hold your car right now because of these violations?

M: No, of course not.

W: OK, then. Here is your ticket. You can either pay it or call him to pay in the final minute. Have a nice day!

M: Do you take cash?

Question 14 ~ 16

Kwanzaa is an African American cultural holiday. Begins on the December 26th, and lasts seven full days through January 1st. Kwanzaa celebrates family, community, and African heritage and culture. Millions of people celebrate Kwanzaa every year in the United States. African communities and many other parts of the world also celebrate the holiday. The word "Kwanzaa" pronounced "kuang za", comes from a Swahili phrase that means "first fruits". Swahili is one of the most widely spoken languages in Africa. The first fruits or the first crops harvested at the end of the year's growing season. Harvest celebration in Africa date back thousands of years. Modern harvest celebrations still take place in many parts of Africa. And an African American scholar named Mauluna Karenga developed Kwanzaa in the United States in

1966. Karenga wanted a special time for African Americans to honor their African heritage, and their own African American culture. Karenga wanted Kwanzaa to be a time of gathering for families and friends for giving thanks. Since the 1960s, Kwanzaa has spread to many other parts of the world. The colors of Kwanzaa are black, red, and green. These colors were important symbols in ancient Africa. People celebrate Kwanzaa by decorating their homes with these colors. Other decorations include traditional African crafts, such as colorful cloth and woven baskets. In many homes, families exchange gifts. A major part of Kwanzaa is the lighting of seven candles, called Mishumma. Each day a candle is lit to represent one of the seven principles of black culture developed by Karenga. These principles encourage people to live well according to African ideals.

Question 17 ~ 20

The World Bank is an UN organization. It was set up to finance projects to further the economic development of its member nations. Its foundations relate at the UN Monetary and Financial Conference at Breatwoods in 1944, and officially came to life in 1946. Back in the post-war era, the Bank made loans for the reconstruction of Europe. Later the emphasis shifted from Europe to the developing world. In 2000, the Bank lent almost 16 billion dollars to its client countries. It says that its dream is a world free of poverty. Much of the money then goes towards the effort to strengthen and build capital markets. Another slice of money is loaned for projects, such as water supply, and sanitation. There are three main sources of funds for the Bank—subscriptions hit up by member countries, bond issues on the world financial markets, and net earnings on the Bank's assets. The World Bank has 183 member countries. All members must first join the International Monetary Fund. Members are shareholders of the Bank. They do not all pull equal weight within the organization. The leading contributors are the United States, Japan, Germany, France, and the United Kingdom. They have the biggest say in World Bank policy. Each of these five countries has a nominee on the Bank's board of executive directors. The remaining 178 countries are—between them—allowed to nominate a total of 19 other board members. It is this select board that decides on the Bank's work.

第二部分　英语知识运用

参考译文

人类喜欢把自己当作例外。很多哲学家认为人类是唯一一个知道他人有自己个人想法的物种。从这一角度来看，这种理解被认为是一种“心理理论”，它还被认为是解释人类为何拥有同情和欺骗等宝贵特质的秘密。

生物学家们已经学会了谨慎对待这样的断言。贝恩德·海因里希和托马斯·布格尼亚尔描述了他们对渡鸦进行的一项实验。

对他人凝视的反应被认为是衡量儿童心理理论发展的一项很好的指标。大概 18 个月大的儿童大多数都能够追随另一个人凝视的目光，并且从中推测出关于他的一些情况。未能掌握这一能力是自闭症的一个早期症状。自闭症这种综合征的主要基本特征就是无法理解他人有自己的想法。

为了测试渡鸦是否能够追随人的目光，海因里希博士用六只六个月大的人工饲养渡鸦进行了实验。每次他都把一只渡鸦放置在有障碍物分隔的房间的一端。一位实验者站在障碍物前，把他的头和眼睛朝向某一方向，在凝视 30 秒钟之后转移视线。海因里希博士发现，所有的渡鸦都能够追随实验者的目光，有些好奇的渡鸦甚至能越过障碍物，它们会跳下栖息的木杆，走到障碍物周围去观察，或者跳上障碍物，并从上面俯视。

21. D 【解析】由本句句意及下文对鸟类的实验可知，此处所表达的意思是人类自认为是一个知道他人有自己想法的特殊物种，故选 D。

22. A 【解析】由上文的“that understanding”和下文的“theory of mind”可知此处进一步说明哲学家的观点，故选 A。

23. B 【解析】由本句句意可知，此处表达的意思是“心理理论”是人类同情与欺骗等情感产生的原因，故选 B。

24. A 【解析】由后文所提到的“sympathy and deception”可知，此处表达的意思是类似同情与欺骗等人类共有的、区别于其他物种的特质，故选 A。

25. C 【解析】由前文内容可知，第一段主要列举了哲学家的观点来进一步论证“人类喜欢把自己当

作例外”这一论点，然而文中并未明确说明哲学家的观点是得到实证证明的，也就是说这只是他们的主观看法，因此可推知，此处所表达的是生物学家对哲学家的“断言”提出的质疑，故选 C。

26. A 【解析】由句意可知，此处所表达的意思是对渡鸦进行的一项实验，其中“ravens”是实验对象，前面需要一个表示“关于”的介词，所以 on 符合文意，故选 A。

27. B 【解析】由后文内容可知，大多数儿童在 18 个月大时能够追随他人的目光，此处所表达的意思是对于目光的反应，故选 B。

28. D 【解析】由下文“大多数儿童在 18 个月大时能够追随他人的目光”可知，此处所表达的意思是对于他人目光的追随是衡量儿童心理理论发展的一个好的标准，故选 D。

29. D 【解析】由文意可知，此处所表示的意思是对于儿童年龄段的描述，at 意为“在……期间、在……岁时”，符合文意，故选 D。

30. B 【解析】由空格所在的句子前半部分“追踪他人的目光”，以及后半部分“关于他人的一些信息”可知，此处所表达的意思是儿童能够从他人的凝视中获得信息。infer sth. from sth. 意为“从……中推断出……”，故选 B。

31. A 【解析】由本句中“自闭症的早期症状”可知，此处所表达的意思是缺失追踪他人目光的能力，develop 表示在成长过程中形成、掌握某项能力，故选 A。

32. D 【解析】由前文中“自闭症的基本特征”以及后文“对于其他人……的理解”可以推断，此处所表达的意思与自闭症的症状有关，inability to understand...表示理解能力的缺失，符合文意，故选 D。

33. B 【解析】由前文中“大多数 18 月大的儿童都能追随另一个人凝视的目光，并且从中推测出关于他的一些情况”可知，此处所表达的意思是自闭症儿童在相关能力上的缺失，即自闭症儿童不能理解他人也有想法，故选 B。

34. C 【解析】由前文对儿童追踪目光的描述以及后文对渡鸦进行的实验可知，此处所表达的意思是海因里希博士进行实验的目的是测试渡鸦是否能够追踪目光，由于实验尚未得到定论，故选 C。

35. D 【解析】由本句主语“实验者”以及后文的宾语“他的头和眼睛”可知，此处所表达的意思是实验者将头和眼睛对准某一方向，并且凝视 30 秒。adjust 表示在原来的位置调节某事物的方向或者状态，而 move 意为将某物进行位置的改变或者移动，因此 adjust 符合文意，故选 D。

36. B 【解析】由前文的“实验者将头和眼睛调整”以及后文的“凝视 30 秒”可知，此处所表达的意思是实验者为了做出凝视的动作，要将头和眼睛对准某一方向，故选 B。

37. C 【解析】由前文的“实验者把他的头和眼睛朝向某一方向，在凝视 30 秒钟之后”可知此处表达的意思是实验者在做出凝视的动作之后所做的动作，away 泛指其他的方向，符合文意，故选 C。

38. C 【解析】由前文“实验者发现全部渡鸦都能追随实验者的目光，甚至能够……”以及后文的“障碍物”可知，此处所表达的意思是渡鸦甚至能够越过障碍物而追踪实验者的目光。beyond the barrier 表示越过障碍物，符合文意，故选 C。

39. B 【解析】由前文“所有的渡鸦都能够追随实验者的目光，有些好奇的渡鸦甚至能越过障碍物”以及下文好奇的渡鸦通过各种方式追随实验者的目光可知，这句话进一步说明越过障碍物的情况，也就是前文所提到的后一种情况，故选 B。

40. A 【解析】由前文中“所有的渡鸦都能够追随实验者的目光，有些好奇的渡鸦甚至能越过障碍物”以及后文中“跳上障碍物，并从上面俯视”可知，渡鸦跳下木杆或走到障碍物周围是为了看到实验者的目光所指向的方向，have a look 意思为“看一眼”，故选 A。

第三部分　阅读理解

Part A

Text 1

参考译文

传统观点认为，哺乳动物已经在地球上生存了数百万年。在有恐龙生存的年代，我们远古的祖先只会等到可怕的恐龙在夜晚入睡的时候，才胆小如鼠地从藏身之地偷偷出来采集植物充饥。只是在恐龙灭绝之后，哺乳动物才开始赢得了一点进化的机会。

然而这种观点被《自然》杂志上发表的有关两块化石的文章彻底改变了。其中之一是一种全新的物种，名为 R. giganticus，这一化石打破了大多数恐龙时期的哺乳动物都不比松鼠大的观念。这种动物有中

等大小的犬类那么大——是迄今为止发现的最大的恐龙时期的哺乳动物。第二种是一个之前已经发现的物种 R. robustus 的新化石，这一化石推翻了哺乳动物总是被捕食这一观点。在这个化石的胃部发现了一个变成化石的小恐龙的遗骸。“这一发现是一次千载难逢的机会”，这篇论文的作者之一孟瑾这样说。

的确，孟瑾没有预料到会发现这样的东西。其中略小的那个骨骼是约两年前在中国辽宁省由村民发现的。中国辽宁是世界上含量最丰富的化石床之一。村民们把化石交给了科学家，科学家们对它进行了研究。“一开始我们并没有看到胃里的东西，”孟瑾说。

然而，当他们发现了胃里的小化石之后，他们马上就意识到他们已经获得了科学的黄金。经过进一步的研究，科学家们断定胃里的遗骸是属于一个幼小的恐龙的。它的一些前臂和腿部的骨骼还连在一起，这就表明那个 R. robustus 并没有充分咀嚼它的食物，而是将其狼吞虎咽了下去。

这两个发现共同推翻了早期哺乳动物幼小胆怯的观念。现在，古生物学家可以停止编造理论来解释哺乳动物为什么那么瘦小了。例如，有的理论认为，它们之所以长得瘦小是为了避免被发现，或者它们没法长大是因为恐龙已经占领了它们的生存空间。

但现在很明显，哺乳动物填补了一些大型动物的空间。“这是很有可能的，”古生物学家安妮·维尔说，“它们与恐龙共同争夺猎物。”而且，因为它们捕食恐龙，所以它们甚至可能对于恐龙的进化产生了影响。什么样的影响呢？“我们还不知道，”她说。“这就是科学上的大发现。他们留给你的问题多于答案。”

41. D 【解析】由第一段中第二句“As long as dinosaurs roamed the lands, our distant ancestors never got to be much more than chicken-hearted creatures that sneaked out at night to grab bits of plants when the terrible dinosaurs were asleep”可知，传统观点认为我们远古的祖先只会等到可怕的恐龙在夜晚入睡的时候，才胆小如鼠地从藏身之地偷偷出来采集植物充饥。以及第二段中第二句“One, of a brand-new species named R. giganticus, broke apart the notion that most dinosaur-age mammals were never larger than squirrels.”可知，全新的物种 R. giganticus 化石的发现，打破了大多数恐龙时期的哺乳动物都不比松鼠大的观念。因此可知，恐龙时代的哺乳动物曾被描述为瘦小而懦弱，故选 D。

42. C 【解析】由第二段中第 4-5 句“And the second, a new specimen...refuted the notion that it was always the mammals that got eaten. Inside the skeleton where the animal's stomach would have been are the fossilized remains of a baby dinosaur.”可知，新发现的 R. robustus 标本推翻了哺乳动物总是被捕食这一观点。在这个标本的胃部发现了一个变成化石的小恐龙的遗骸。由此可知，R. robustus 腹中的小恐龙是被它吞下的食物，故选 C。

43. D 【解析】由第二段中最后一句“‘This discovery was the chance of a lifetime,’ says Meng Jin, scientist and co-author of the paper.”可知，在哺乳动物胃部发现恐龙遗骸这一发现是千载难逢的。因此，“struck scientific gold”意为他们在研究领域内作出了重大发现，故选 D。

44. A 【解析】第五段中第二句意为“现在，古生物学家可以停止编造理论来解释哺乳动物为什么那么瘦小了，例如，有的理论认为，它们之所以长得瘦小是为了避免被发现，或者，它们没法长大是因为恐龙已经占领了它们的生存空间。”由第二段中第一句“But that picture changed dramatically with the announcement in *Nature* of two impressive fossils.”和第五段第一句“Taken together, the finds overturn the already eroded idea that early mammals were tiny and timid.”可知，《自然》杂志上发表的关于两块化石的文章彻底改变了传统的观念。因此可知，作者基于最新的发现，对传统观点的真实性产生了质疑，故选 A。

45. B 【解析】由最后一段第三句“And because they ate dinosaurs, they may even have had an influence on dinosaur evolution.”可知，由于新发现证明哺乳动物曾经捕食过恐龙，它们很可能对于恐龙的进化产生了影响。故选 B。

Text 2

参考译文

长期以来，师范学校都饱受各种批评。从詹姆斯·科恩纳写于 1963 年的著作《美国教师的错误教育》，到国家委员会最近发表的两个报告，评论者都在抱怨大学教育学院课程设置中的知识欠缺问题，以及师范专业课程设置和教师们在课堂上面临的实际情况之间缺乏关联的问题。最近进行的一项关于教师在研究生院接受培训的调查更是

受到了诸如“可以想象得到的最蹩脚的呓语”以及“浪费时间”等批评。

未来十年,估计有200万新教师的缺口。师范院校的缺点成为了一个现实的问题。在整体状况不容乐观的大背景之下,一小部分院校作为创新者脱颖而出。这些模范院校具有两个重要特质。首先,它们要求学生掌握他们未来将要讲授的科目,并能制定相应的课程安排。其次,它们的项目重视实践经验。传统师范院校的课表上充满了教育理论类的课程,而新的教学方法则更加注重从实践中学习。

在哥伦布市的俄亥俄州立大学,一年制硕士项目的学生要花一半的时间在富兰克林郡的55所公立学校中选择一所,与经验丰富的教师组成小组,进行教学实践。

“从第一天开始就要投身实践,”俄亥俄州立大学的硕士研究生凯莉·克罗克特说。凯莉今年37岁,曾经是一位女企业家,现在在盖博小学做实践培训。“实际操作会迫使你全身心地投入。”

在纽约,银行街教育学院是一个为期两年的项目,它开办了自己的初中学校。“那样会使我们保持诚实,”校长奥古斯塔·卡普纳说。“我们鼓励学生了解他们在学校当中扮演的角色,这样他们才能不断进步。”

其他一些机构也在开办类似的项目,包括弗吉尼亚大学和圣安东尼奥的三一大学。哥伦比亚大学师范学院的教授琳达·达玲·哈蒙德是师范教育方面的专家,据她估计,全国1200个师范教育项目当中只有40%达到了国家认证标准。她说,大多数师范院校“有官僚主义作风,认为教师不需要了解太多知识,‘仅仅给他们一本教材就把他们送走。’”

46. B 【解析】由原文意思可知“intellectual emptiness”意为知识欠缺。故选B。

47. A 【解析】由第二段第一句“With an estimated 2 million new teachers needed over the next decade, the shortcomings in education schools are a practical concern.”可知,由于未来十年内对于新教师的缺口有200万,因此,师范院校的缺点是一个实际的问题。因此可以推断作者认为对于师范院校的担忧是有充分根据的,故选A。

48. B 【解析】由第二段最后一句“While traditional ed-school curricula are filled with courses on theory, the new approach places much greater emphasis on learning by doing.”可知,创新的师范项目与传统的课程安排相比,更加注重在实践中学习。因此,这些项目看重实践经验,premium与emphasis同义,故选B。

49. A 【解析】由最后一段最后一句“Most education schools, she says, ‘have operated bureaucratically, assuming that teachers didn’t need to know many things, just give them a textbook and send them on.’”可知,琳达认为大多数师范院校有官僚主义作风,认为教师不需要了解太多知识,仅仅给他们一本教材就把他们送走。由此可推断大多数的师范院校需要克服官僚主义的作风,因此需要进行更加根本的、制度层面的改革,故选A。

50. C 【解析】由全文内容可知,第一段由评论者对于师范院校课程设置提出的意见,引出本文主题——一些师范院校的改革创新;第二段指出创新院校的共同特征;第三、四、五段举例说明这些院校的举措;最后一段引出不同意见,即对这些师范项目的批评。因此可知,本文主题为一些师范院校的创新,故选C。

Text 3

参考译文

这几乎是一个信条:你对抗癌症最好的盟友是一种顽强乐观的精神。而且似乎有越来越多的证据表明情绪与身体健康之间存在着联系。唯一的问题是,在癌症方面,并没有确凿的证据支持这一信念。此外,积极思考的“暴君”往往成为病人的另一个负担。

20世纪70年代和80年代进行的研究首次普及了这一观点:即态度可能影响癌症的发展。这类研究促使医生鼓励病人多想幸福的事,并幻想他们的免疫系统正在击溃癌细胞。但这些研究大多被认为有缺陷或者结论不确定而不了了之。2002年发表在《英国医学杂志》的一篇文章上的37项研究进行了回顾,该文章发现,尽管积极的精神确实与病人感知到更少的痛苦——一个实实在在的好处——但是几乎没有一致的证据能够表明应对方式在战胜癌症或者癌症复发当中起着重要的作用。

尽管如此,乐观主义理论仍然具有吸引力。原因之一是美国人生活在一种渴望控制的文化中。我们想要相信自己能够通过将意志施加于疾病而战胜癌症。一个更好的原因是,像抑郁和慢性焦虑等精神状态确实对身体有影响。他们影响着心脏病和糖尿病等疾病的发展。虽然从生物学上讲,一个类似的关联

看起来同样适用于癌症,但是它还远未得到证明。

即使是那些相信科学研究最终会在压力与癌症之间建立联系的研究人员,也明白情况非常复杂。斯坦福的大卫·斯皮格尔博士就是其中的一员。“情况并非如‘把想法印在脑海就等于把想法施加于身体’那么简单,”他说,“但是如果心头所想不能影响身体对于疾病的反应措施,那也很奇怪。”

那么,癌症患者到底该怎么办?医生们都知道,每个人对待疾病和诊疗都有各自的性情——阳光、暴躁或刻薄。强迫他们积极思考是没有用的。更糟糕的是,这样可能会使他们隐藏自己的恐惧,并且拒绝他人的帮助。但是临床医师必须对抑郁的征兆保持警惕,因为如果抑郁的情绪干扰了治疗过程,可能会影响疾病的结果。而一些患者也会需要并欢迎医师帮助他们改善应对技巧。斯皮格尔说,“30 年来,我接触到的都是生命受到威胁的患者,我明白应对这些疾病的方法有好有坏。”虚假的乐观情绪没有好处,沮丧也是。

51. B 【解析】tyranny 意为“暴君”,含有专制、强迫的意味。由第一段最后一句“Moreover, the ‘tyranny’ of positive thinking often becomes just one more burden for the sick.”可知,积极思考的“暴君”往往成为病人的另一个负担。因此可以推断作者认为强迫病人积极思考是不合理的,故选 B。

52. B 【解析】由第二段最后一句“A review of 37 studies that was published...a positive outlook does correlate with the perception of less pain by patients—a real benefit—there is ‘little...’”可知,研究发现,积极的精神确实与病人感知到更少的痛苦相关,这是一个实实在在的好处,故选 B。

53. A 【解析】由第三段第 1 - 3 句“Still, the optimism theory remains attractive. One reason is that Americans live in a culture that desires control. We want to believe that we can beat cancer by imposing our will on the disease.”可知,乐观主义理论保持吸引力的原因之一,是美国人生活在一种渴望控制的文化当中。我们想要相信自己能够通过将意志施加于疾病而打败癌症,故选 A。

54. D 【解析】由第三段最后一句“While a similar connection is biologically plausible for cancer, it is far from proven.”可知,虽然在生物学上,一个类似的关联看起来同样适用于癌症,但是它还远未得到证明。由第四段第二句“It isn’t a matter of ‘Fix it in your mind, and you fix it in your body’”可知,情况并非如“把想法印在脑海就等于把想法施加于身体”那么简单。由此可推知,在治疗癌症的过程中有各种因素共同作用,影响最终结果,故选 D。

55. C 【解析】由全篇文章可知,本文围绕积极乐观的心态与癌症治疗之间是否存在必然联系这一论点展开讨论,并提出了强颜欢笑可能会给病人带来更大的精神负担的观点。因此标题中应包含“乐观心态”与“负担”这两个关键词,才能足够全面地概括全文内容。故选 C。

Text 4

参考译文

触屏技术的进步——我们的身体与计算机互动的物理方式——以及其他控制计算机的技术将会补充传统键盘和鼠标的作用。技术进步包括允许对屏幕上的物体和设备进行指尖控制,以及感应并回应人体移动的装置。

但是一项报告指出,我们应该认真评估人机交互,以确保我们持有关键决策过程的控制权。

显示技术将很快允许我们在各种纤维上安装各种尺寸的屏幕。在不久的将来,我们仍将阅读纸质图书和杂志;但是我们也将使用像纸一样的数码屏来发布信息。

便宜便捷的数码存储方式使消费者能够电子记录和存储我们生活的各个方面——它允许人们与全球的居民分享信息和互动。这种超链接的形式把人们从固定的电话线、办公桌和办公室当中解放出来,而机器人学的进步则开发了计算机的学习和决策能力。

“新的计算机技术非常振奋人心,”诺丁汉大学的教授汤姆·罗登说。“但是,人类与计算机之间的互动正在演变为一个复杂的生态体系,其中细微的变化都可能会产生深远的影响。虽然新型触屏和超链接意味着我们变得越来越流动,但我们可以看到,它们正在模糊工作与私人空间之间的界限。”

“巨大的存储能力也围绕我们应该记录什么、不应该记录什么提出了基本隐私问题。机器的学习潜能可能会导致计算机越来越多地代表我们做出决策。我们必须把科技创新与理解它对人们的影响结合起来。”

报告认为,如果没有适当的监督和评估,我们就有可能将无法控制自己或无法控制我们周围的世界。这一论断将计算机置于与基本的人类价值观和诸如

个人空间、社会、身份、独立、感知、智力和隐私等概念相抵触的境地。

这一报告向人机交互社会建议了一些适当措施，以确保人类价值在未来的发展中仍然能够处于重要地位。这些措施包括对年轻人进行教育，使他们尽早理解人机交互以及计算机发展对政府、决策者和整个社会的影响，向他们提供建议，并预先警告对新型计算机生态体系的影响。

“计算机拥有改善全世界几十亿人口生活状态的潜力。我们相信，如果科技真的能够造福人类，那么我们必须在技术设计的过程中尽早考虑人类价值和技术的影响。”这篇报告的编辑之一阿比盖尔·赛伦说。

56. D 【解析】由第一段第一句“Advances in interfaces—the physical way we react with computers—and other techniques of controlling computers will supplement the role of the traditional keyboard and mouse.”可知，触屏技术的进步——我们的身体与计算机互动的物理方式——以及其他控制计算机的技术将会补充传统键盘和鼠标的作用。由第三段第一句“Display technologies will soon allow us to fix screens of all sizes in a variety of fabrics.”可知显示技术将很快我们能够在各种纤维上安装各种尺寸的屏幕。由第四段第一句“Cheap and easily-accessed digital storage allows consumers to electronically record and store more aspects of our lives—allowing us to share information and interact with people across the globe.”可知便宜便捷的数码存储方式使消费者能够电子记录和存储我们生活的各个方面——它允许人们与全球的居民分享信息和互动。因此可知计算机将更加人性化，故选 D。

57. B 【解析】由第五段第三句“While new interfaces and hyper-connectivity mean we are increasingly mobile, we can see that they are obscuring the line between work and personal space.”可知新型触屏和超链接意味着我们变得越来越流动，它们正在模糊工作与私人空间之间的界限。因此可以推断，汤姆·罗登担忧新技术将干涉个人隐私，故选 B。

58. A 【解析】由第五段第二句“But the interaction between humans and computers is ... far-reaching consequences.”可知人类与计算机之间的互动正在演变为一个复杂的生态体系，其中细微的变化都可能会有深远的影响。由第六段第二句“The potential of machine learning might well result in computers increasingly making decisions on our behalf.”可知，机器的学习潜能可能会导致计算机越来越多地代表我们做出决策。因此可以推断，鉴于技术发展与其对人类生活的重大影响，将技术创新与理解它们的影响结合起来是一项紧迫的任务，故选 A。

59. C 【解析】由第七段第 1－2 句可知，如果没有恰当的监督和评估，我们可能将无法控制自己，或者无法控制我们周围的世界。这一论断将计算机置于与基本的人类价值观和诸如个人空间、社会、身份、独立、感知、智力和隐私等概念相抵触的境地。由此可以推断，缺乏监督的技术创新将威胁人类价值。故选 C。

60. A 【解析】由全篇文章可知，本文探讨的是科技创新对人类生活产生的重大影响，其中包括新技术带来的便利，也包括其潜在的威胁，因此本文的主要内容应为新科技与人类社会的复杂关系，故选 A。

Part B

61. 人类经济发展与生态体系之间的关系有一个物质与能源的基础，该基础不仅决定经济结构，也决定社会结构与过程。

62. 使人类与他们的经济成为独特次生态系统的是他们通过有意的努力与忽视，以及他们自己设计的工具，剧烈地改造与变革生态体系的过程的能力，而他们本身也是该体系的一部分。

63. 从自然系统之中选择有用事物的努力是由满足基本的生理需求和通过消费商品、进行社会活动，对享乐进行无止境的追求所激发的。

64. 由于我们的自然环境极有可能通过建立社会与经济之间的关系、建立审美标准和文化来影响价值，因此做出衡量就变得更加复杂。

65. 摆脱这一困境的方法是使自然体系的价值基于“我们希望社会能够变成的模样”，而非探讨当前的价值是什么。

第四部分　写作

66. 范文

Dreams and Hard Work

In the first picture, we can see that a man is pulling a heavily loaded cart with downcast eyes, thus unable to see the road before him. In the second one, the man is lying idly and dreaming about becoming a millionaire, going to the best university, and living in a luxurious

house.

Dreams are important in that they keep one motivated and give him a direction. On the road of life, dreams drive people forward, give them courage against obstacles, and direct their endeavors towards certain goals. Without dreams, we cannot achieve great success. No matter how hard one toils, his work is but blind. However, this does not mean that one could dream things into being. Imagining things without putting in effort is but daydreaming and a mere waste of time. One has to work really hard in order to make dreams come true.

Dreams are indispensable for success in life, yet dreams alone will not win the day. Only when we take down-to-earth steps shall steady progress be made and dreams be realized. Therefore, we must combined dreams and hard work to achieve success.

Questions 1 ~ 5

PRESENTER

Hello and welcome to Cooking Capers. And this week we're looking at that most versatile and aromatic of plants: a fairly recent addition to the list of Australian agricultural produce, but nevertheless, a great favorite today—ginger. And in the studio to tell us all about it is Monica Maxwell.

MONICA

Ginger is one of my personal favorite spices and I've got a number of wonderful recipes to share with you later on in the program. So what is ginger? Well, actually it's a spicy-tasting root with an aromatic flavor; it's related to the bamboo family and has a hundred different uses in the kitchen. The Chinese have cultivated it for years, particularly to use in medicine, though you are probably more familiar with its culinary uses. But first, let's take a brief look at its history before we look at how it can be used, because it has a very interesting history. Ginger originated in the southern provinces of China and in India, where it had been used in medicine and food preparation for over 5,000 years. The early traders who came upon the plant took it to many parts of the world such as Nigeria, the West Indies, Central America, East Africa and even Indonesia.

Ginger became extremely popular because of its exotic, aromatic properties and was highly valued by spice traders in the 17th and 18th centuries because they were able to sell it back in Europe for a very good price. Although Australia is now the largest producer of ginger in the world, it wasn't grown in Australia until the early 20th century.

Questions 6 ~ 10

We're going to start our discussion of poetry in Western Europe with the Iliad and the Odyssey. These two great poems stand out as great examples of the earliest European poems. They are believed to have been written in some time between 800BC and 700BC, partly because the poems refer to the social conditions of that time, conditions that have been validated by the findings of archeologists. But just who was the poet who laid down these cornerstones of western literature? Well, tradition ascribes them to a man named Homer, but we know virtually nothing about this Homer. In fact, some say that such a poet never existed at all, that neither the Iliad nor the Odyssey was written by a single poet, but rather each

poem is composed of the writings of several people. This anyway is the view of a school of literary critics in the 18th century known as the Analysts. The Analysts points to internal evidence such as variations in the literary devices used in the poem to argue that each work was in fact a collection of several poems by several Greek authors. Opposing the analysts were a second group of scholars called the Unitarian. They insisted that the Iliad and the Odyssey could have been the work of a single poetic genius. To support their argument, they stress among other things the consistency of the character portrayed in the poetry. This wouldn't have been possible, they said, if they were written by many different poets. Now how we look at the Homeric question today has been greatly influenced by someone named Milman Parry, an American scholar who first presented his ideas about Homer in the 1930s. So let's take a look at Parry's research and how it affects what modern day scholars think about Homer.

Questions 11 ~ 13

Lecture

Today, in our series of lectures on human language, we are going to be looking at the way in which children acquire language. The study of how people learn to speak has proved to be one of the most fascinating, important and complex branches of language study. So let's look at these three features in turn. Firstly—why is it fascinating? This stems from the natural interest people take in the developing abilities of young children. People are fascinated by the way in which children learn, particularly their own children!

Secondly, it is important to study how we acquire our first language, because the study of child language can lead us to a greater understanding of language as a whole. The third point is that it's a complex study because of the enormous difficulties that are encountered by researchers as soon as they attempt to explain language development, especially in the very young child.

In today's lecture we will cover a number of topics. We will start by talking about research methods. There are a number of ways that researchers have investigated children's language and these include the use of diaries, recordings and tests, and we'll be looking at how researchers make use of these various methods. We will then go on to examine the language learning process, starting with the development of speech in young infants during the first year of life. This is the time associated with the emergence of the skills of speech perception, in other words, an emergence of the child's awareness of his or her own ability to speak. We will continue with our examination of the language learning process, this time by looking at language learning in the older child, that is in children under five. As they mature, it is possible to begin analysis in conventional linguistic terms, and so in our analysis we will look at phonological, grammatical and semantic development in preschool children.

In the second part of the talk I would like to review some educational approaches to the question of how linguistic skills can be developed. In other words, how can we assist the young child to learn language skills at school? Initially we will look at issues that arise in relation to spoken language; we will then look at reading and review a number of approaches that have been proposed in relation to the teaching of reading. Finally we will conclude today's talk with an account of current thinking about the most neglected area of all, the child's developing awareness of written language.

Questions 14 ~ 16

If you have a well-balanced diet, then you should be getting all the vitamins that you need for normal daily living. However, sometimes we think we're eating the right foods but the vitamins are escaping, perhaps as a result of cooking and anyway we're not getting the full benefit of them. Now, if you lack vitamins in any way, the solution isn't to rush off and take vitamin pills. Though they can sometimes help. No, it's far better to look at your diet and how you prepare your food. So what are vitamins? Well, the dictionary tells us they are "food factors essential in small quantities to maintain life". Now, there are fat soluble vitamins which can be stored for quite some time by the body and there are water soluble vitamins which need regular replacement in the boy so a regular daily intake of these vitamins is needed.

OK, so how can you ensure that your diet contains enough of the vitamins you need? Well, first of all, you

may have to establish some new eating habits! No more chips at the unit canteen, I'm afraid! Now firstly, you must eat a variety of foods. Then you need to ensure that you eat at least four servings of fruit and vegetables daily. Now you'll need to shop two or three times a week to make sure that they're fresh, and store your vegetables in the fridge or in a cool, dark place. Now let's just refresh our memories by looking at the Healthy Diet Pyramid.

OK, can you all see that? Good. Well, now as you see, we've got three levels to our pyramid. At the top in the smallest area are the things which we should really be trying to avoid as much as possible. Things like... yes, sugar, salt, butter... all that sort of things.

Next, on the middle of our pyramid we find the things that we can eat in moderation. Not too much though! And that's where we find milk, lean meat, fish, nuts, and eggs. And then at the bottom of the pyramid are the things that you can eat lots of! Because they're the things that are really good for you. And here we have bread, vegetables and fruit. So don't lose sight of your healthy diet pyramid when you do shopping.

Questions 17 ~ 20

David Smith and his wife went to the Isle of Wight for their summer holiday. But they were by no means pleased with their hotel. As soon as they returned home, David decided to write to the manager of the travel agency.

David: Can you spare a moment, dear? I want you to listen to this letter.

Sally: Go ahead, then.

David: Dear Sir, my wife and I arrived home last night after a holiday arranged by your firm, in Jersey. We stayed at the hotel described in your brochure as a comfortable, medium-sized hotel, with a magnificent view of the sea, offering courteous, old fashioned service and excellent food, served in a relaxed friendly atmosphere.

Sally: Yes, that's what the brochure said.

David: In fact the hotel is situated at least half a mile from the sea. Our room overlooked a car park...

Sally: Through the gates of which motor vehicles were constantly arriving or departing.

David: Yes, that's good. The food was strictly beefburgers and chips or fish and chips. Wine was available, but at exorbitant prices, and as for the courteous, old-fashioned service, the majority of the staff were foreign and virtually incapable of speaking or understanding the English language.

Sally: Yes, that's quite true.

David: In addition to this, we were most unhappy with the arrangements for our journey home. We were instructed to catch the 11:00 am ferry...

Sally: Wasn't it 12:00?

David: No, 11:00... but this was apparently delayed and we did not get away till 6 o'clock in the evening. Now that our holiday is over, it seems fairly pointless writing this letter, but I should like you to know that we were most disappointed with the hotel and travel arrangements and shall certainly not be booking any future holidays through yours. Yours faithfully, David Smith.

Sally: Yes dear, that's a very good letter.

第二部分　英语知识运用

参考译文

在过去十年里，通讯交流方面新科技发展已经改变了许多人获得政治方面信息的方式。在这些新技术中，最重要的就是互联网的发展。最近的一项研究表明，互联网在政治信息方面的应用增加了政治参与的可能性。

在人们发现网络新闻与政治参与具有一定的技术联系后，关于互联网为什么会从所有的媒体形式中脱颖而出的理论联系也被广泛建立了起来。这项因试图揭开连结互联网与政治参与的“黑匣子”而进行的研究，是建立在两种理论方法之上的。第一种产生于政治科学的此消彼长理论，第二种来源于通信交流的媒体系统依赖理论。两种理论都关注政治参与的个体成本及利益。媒体可以通过提供丰富的信息降低让大家接受投票决定的沟通成本。以前的研究证明：网络可以通过减少成本的投入使公众受益。媒体最大的一个资源就是信息，公众依赖于媒体给他们提供所需要的信息。由于网络可凭借众多的资源快捷而又方便地提供大量且多种的信息，人们希望通过降低信息成本来鼓励参与政治活动。

除了降低参与成本外，媒体还能够增加参与所得

的利益。对像选举这类事件进行深度报道能够引起人们的激情，从而增加所谓政治参与的“利益”。通过增强活动力度，网络也许会促进一种独特的政治参与，并使公众从中获利。

21. A 【解析】由文章第一句“通讯交流方面新科技发展”可以推断出，这句话的意思是“网络是一项新的重要的技术”，而不是装置、资料或者概念之类的。故选 A。

22. B 【解析】根据原文中网络和政治之间存在的某种关系而推断出有增加政治参与的可能性，并没有特别强调是否能成功完成。feasibility 和 probability 都有“可能性”的意思，但又有一定区别，feasibility 强调“可行性”，故选 B。

23. D 【解析】由上文的“通讯交流方面新的科学发展已经改变了许多人收集政治信息的方式”可知，此处表示的是网络新闻和政治参与这两者在技术方面的关系。故选 D。

24. C 【解析】根据文意，此处表达的意思是网络与其他媒体形式的不同之处，即脱颖而出之处。unique，particular 和 peculiar 都有特别的、与众不同的意思，但三者又有一定区别：unique 侧重于表达独一无二，particular 侧重于表达脱颖而出，peculiar 侧重于表达奇怪的。故选 C。

25. A 【解析】由句意“关于互联网为什么会从所有的媒体形式中脱颖而出的理论关系也……”可知，只有“建立”符合文意，根据原文“a theoretical link... is largely...”可知此处需要使用被动语态，即 build 的过去分词形式 built。故选 A。

26. D 【解析】选项中四个单词都是动词，后面的宾语是“black-box”即黑匣子，可推断出此处表示的意思是“打开、揭开”，因此这句话的意思是“这项因试图揭开连结互联网与政治参与的‘黑匣子’而进行的研究是建立在两种理论方法上的”。故选 D。

27. C 【解析】由下文的“第一种产生于政治科学的此消彼长理论，第二种来源于通信交流的媒体系统依赖理论”可推断出，此处意在表达“建立在两种理论方法之上”，故选 C。

28. D 【解析】由前文“The first... comes out of political science...”可知，此处需要一个能够与“come out of”表示平行关系的结构，originate 意为“发源”，可与 from 构成固定搭配，表示“发源于”，符合句意“第二种是来源于通信交流的媒体系统依赖理论”，故选 D。

29. B 【解析】由第二段最后一句“人们希望通过降低信息成本”可知，此处表示的意思是“媒体可降低成本”，故选 B。

30. B 【解析】由句意“媒体通过提供丰富的信息”可知，提供丰富信息的目的在于让人们了解选举者的资料，从而保证最终的投票决定可以被人们接受。故选 B。

31. D 【解析】由下文“网络可通过成本等式使得其有益于公众”可以推断出，以前的研究是证明了这样一个事实，即 research 与 argue 搭配，故选 D。

32. B 【解析】由本句话的表语“information”可知，此处选“resource”资源最为合适。databank 一般与表示科学研究的主语连用，不适合用在此处，故选 B。

33. C 【解析】由本句意思“公众……媒体提供他们所需要的信息”可知，选项只有 rely 符合文意，rely 一般与 on 搭配使用，表示“依赖”。故选 C。

34. A 【解析】由文中“网络可以提供信息”以及“人们希望通过降低信息成本来鼓励参与政治活动”可知，两者之间是因果关系。选项中四个单词都是连词，because 表示因果关系，while 表示转折关系，if 表示条件关系，although 表示让步关系。故选 A。

35. C 【解析】由上文中“公众依赖于媒体提供他们所需要的信息”以及下文中“网络可凭借众多的资源中”可知，此处表示的是网络在提供信息方面具有简便快捷性，故选 C。

36. D 【解析】由第二段中第一句话“当人们发现了网络新闻与政治参与的技术关系时”可知，网络与政治参与是有关系的，此处网络通过降低成本信息是为了鼓励人们参与政治，故选 D。

37. A 【解析】由前文“除了降低参与成本外”可知，此处表示“也”的意思，故选 A。

38. C 【解析】由句意可知，此处表示的是媒体对像选举类事件的深度报道，故选 C

39. A 【解析】根据句意可知，此处需要一个能够与“兴奋”搭配的词，generate excitement 意为“引起兴奋”，符合文意，故选 A。

40. B 【解析】选项中四个单词都是介词，for 表示“为了……目的”，via 表示“通过……方式”，at 表示“方式、状态、连续的行动”，from 表示“由……而来”。根据句意“网络可能会经由增加动员努力来鼓

励产生效益独特的政治参与”可知，只有 via 符合，故选 B。

第三部分　阅读理解

Part A

Text 1

参考译文

保罗·约翰逊的《美国人民的历史》一书正是我们从这个多产的作家那里所期待的——清晰、丰富多彩的描述、活灵活现的人物刻画、令人惊异的研究、全面而又自信的陈述，以及一贯的保守观点，而这样的观点诱使他做了一些严苛的内容删减。他告诉我们，他不会隐藏自己的意见。不错。如此，我们便可判断他的抑或是我们的历史描述脱离了伪装，变得非常客观。

几乎在一开始，我们就注意到一件有趣的事情：约翰逊很快地粗略介绍了美国历史上的一个决定性时刻——哥伦布的历史——这段历史时刻很重要是因为它是每个美国学童需要学习的第一课。你如何对待那段历史——你选择讲述什么——表明了你对美国迄今为止所经历的漫长历史的观点态度。

在学校的教科书里，哥伦布一直被视为英雄。直到最近才有了一些新的事实——它们一直都存在却总被忽略——开始引起公众的关注。那就是，哥伦布在登上大陆的时候，因渴望得到大量的金银财宝而在遇到爱好和平而又慷慨（他自己都承认的）的美洲土著人时竟然折磨、绑架、奴役并杀害他们。对其他历史事件（比如罗纳德·里根的笑话）极尽详细之可能的约翰逊对此却保持缄默。在他大量的引用中，却唯独没有巴拉图梅·士拉斯·卡萨斯，目击并详细描述了在 1550 年时哥伦布犯下的可怕罪行以及哥伦布的随从针对印第安人从而将伊斯帕尼奥拉岛的土著居民全部消灭——用个更准确的词语来说应该是种族灭绝。

我认为这并不单纯是一个疏忽。约翰逊想要我们积极地看待这段美国历史。是的，他说，在“对土著人驱逐”方面和奴隶制度方面确实是犯下了“严重的错误”。但在他的书中一开始的部分，他就这样发问，美国是否已经“弥补了它所犯下的一系列罪恶”？他的整本书都在暗示人们美国已经弥补了那些错误，而且在此过程中它已经成为（他在最后说到）“一个无与伦比的人类成就……第一个人类最美好的希望”。

自从约翰逊断定美国是“第一个对人类来说最美好的希望”，他就相应地塑造着美国的历史。如果我们更愿意把历史看作是美国人为了争取正义公平，对抗军国主义，争取经济、种族和性别平等而进行的复杂而又未尽的奋斗，那么很不幸，我们被当权者所控制的政府阿谀欺骗着，而它又偏偏假装这是在创造“人民的历史”。

41. B　【解析】由第一段中最后一句“Then we can judge his history free of pretences to objectivity—his or ours.”可知，如此，我们便可判断他的抑或是我们的历史描述脱离了伪装，而变得非常客观。由此可以看出《美国人民的历史》一书的作者保罗·约翰逊对待历史的观点是客观的，故选 B。

42. C　【解析】由第二段中最后一句“How you treat that story—what you choose to tell of it—signals your view of the longer American experience, reaching to our time.”可知，你会怎样对待那段历史——你选择讲述什么——表明了你对美国迄今为止所经历的漫长历史的观点态度，即人们对待美国历史发展的态度，C 项符合，故选 C。

43. D　【解析】由第四段中第一、二句“I suggest this is not an innocent omission. Johnson wants us to look positively on the history of the United States.”可知，作者认为这并不单纯是一个疏忽，约翰逊想要我们积极地看待这段美国历史。因此可以推断出保罗·约翰逊想维护美国的形象，不想让美国的形象受到玷污，D 项符合，故选 D。

44. A　【解析】由第三段最后一句“Among his numerous references there is…which resulted in the native population of Hispaniola being wiped out—genocide is an appropriate term…”可知，当时哥伦布犯下的可怕罪行以及哥伦布的随从针对印第安人从而将伊斯帕尼奥拉岛的土著居民全部消灭，即整个种族的灭绝，A 项符合，故选 A。

45. C　【解析】由第四段最后一句“His whole book suggests that it has, and that in doing so it has become (he says at the end) ‘a human achievement without parallel…the first, best hope for the human race.’”以及最后一段最后一句“If we prefer to see that history…we are badly served by a flattering admiration of those in power, pretending to be a history of ‘the people’” 可知，约翰逊的整本书都在暗示人们，美国已经弥补了那些

错误,而且在此过程中它已经成为(他在最后说到)"一个无与伦比的人类成就……第一个人类最美好的希望"。然而本文作者却认为,如果我们更喜欢把历史看做是美国人为了争取正义公平对抗军国主义,争取经济、种族和性别平等而进行的复杂而又未尽的奋斗,那么很不幸,我们被当权者所控制的政府阿谀欺骗着,而它又偏偏假装这是在创造"人民的历史"。因此可以推断出作者认为美国还没有弥补他们所犯下的历史错误,故选C。

Text 2

参考译文

在21世纪,毫无疑问会有新的令人恐惧的传染病出现。现如今,新型病毒产生于自然界中,并"发现"了人类物种。自1994年以来,就出现过至少30种新型病毒。

病毒正在向人类移居是因为我们的人数一直都太多。从病毒的角度看,我们看起来就像一顿逐渐增大的免费午餐一样。在自然病毒性疾病中,当人口迅速增长并变得密集的时候,病毒往往会爆发。之后,便会有许多人死亡,人口数量便会骤降。这是自然的人口控制机制。没有理由认为人类能逃脱自然规律。

对这些自然规律的额外推动力便是大城市的崛起——在欠发达地区发展起来的大型而又人口密集的城市。联合国的一项研究预测,到2015年,全球将会有26个极大的城市产生。到那时,一些大城市内可能会有三千万或者更多的人,这大约是整个加利福尼亚州的总人口数。想象一下,加利福尼亚州的所有人都紧紧地挤在一个巨大城市中的场景。然后迁移大部分的医生和医疗护理,基本的卫生保健都被剥夺,那么你就进入了一个生物"时间炸弹"。现在世界上有八到十枚这样的炸弹并埋在不同的地方。

而且考虑一下世界将能够在未来制造出的生化武器。在20世纪,根据核物理原理,发明了伟大而可怕的武器。21世纪将会看到基于DNA和遗传密码的巨大而可怕的武器。随着生物技术变得越来越复杂和强大,生物学家将学会如何把不同微生物的基因混合在一起创造非自然的应变,从而转化为致命的有效武器。

生化武器对生物学来说是个耻辱。大部分的生物学家并不想谈论,甚至都不愿意想这方面的事情。当1945年第一枚核炸弹爆炸的时候,物理学家失去了他们的清白。而当第一个生化武器传播于人类的时候,生物学家也会失去他们的清白。

然而,尽管有核炸弹的存在,我们还是幸存下来了。这个世纪曾有过巨大的经济和科学进步,人们也幸福美满。下个世纪同样如此。我们也许不能完全赢得21世纪的细菌战争,但我坚信我们并不会失败。

46. B 【解析】由第二段中第一句"Viruses are moving into the human species because there are more of us all the time."可知,病毒向人类移居是因为我们的人数数量一直都太多。因此可以推断出传染病容易发生的地方可能是有很多人居住的拥挤社区,故选B。

47. C 【解析】由第三段中第一句"Giving these laws an extra push will be the rise of megacities—huge densely packed cities in less developed nations."可知,对这些自然规律的额外推动力便是大城市的崛起——在欠发达地区发展起来的大型而又人口密集的城市。因此可推断出大城市更容易使得病毒产生,故选C。

48. D 【解析】根据第五段第三句和第四句"The physicists lost their innocence when the first nuclear bomb went off in 1945. The biologists will lose their innocence when the first biological weapon spreads through the human species."可知,当1945年第一个核炸弹爆炸的时候,物理学家失去了他们的清白。而当第一个生化武器传播于人类的时候,生物学家也会失去他们的清白,因此可以推断出科学可能会使人们创造出巨大的罪恶,故选D。

49. C 【解析】由最后一段最后一句"We may not completely win the 21st century microbe war, but I am confident that we won't lose it."可知,作者认为我们也许不会完全赢得21世纪的细菌战争,但他坚信我们并不会失败。可见作者对解决问题的态度是适度乐观的,故选C。

50. A 【解析】全文主要论述二十一世纪我们会遇到细菌入侵的问题。文章第一段阐述21世纪会有新型病毒出现;第二段阐述病毒侵袭人类的原因;第三段阐述为什么大城市是新型病毒青睐的对象;第四、五段阐述生化武器会在未来出现;最后一段作者展望未来,并且相信人类会战胜生化武器。由此可知A项"下个世纪有来自新型细菌的威胁"符合文意。

Text 3

参考译文

假设每个人仅仅只是这个国家中接近九千万选

民中的一员，那么你们还相信一个人的参与或者一个人的投票对一个大选的影响来说有什么意义吗？简单地提一个问题“如果人人都这么想，结果会是怎样呢？”这种想法并不能消除长期以来的观念，那就是由于投票人数众多，人们觉得自己并不重要，尤其是在全国性的选举中。

精英治国理论的支持者坚持认为，即使投票者有机会去选择候选人，他们的选择也仅限于小范围里，那些被国家精英们证明有跟他们相似想法的人们。选举并没有表达出大部分人想要的或需要的，也没有为政治家就颁布何种政策而提供一些指导（即使他们想让提供一些指导）。在这个观点上，选举主要是一种仪式，表现社会的象征性功能。

尽管如此，因为大部分人还是继续一次又一次地出现在投票现场，那么对于支持投票方面有什么样的争论呢？一个争论就是投票确实是有意义的，要么是个人影响力的关系，要么是集体压力。因为全体公民有权利投票或不投票，因此他们直接控制着被选上官员的条件。即使这个选择是在阿呆和阿瓜之间，阿呆知道有一个人必须可靠，而且这也是法律规定的，同时，他或她必须最低程度地努力避免触怒选民以失业。

但是，也许在选举方面，政治的有效性和影响性并不是唯一要考虑的因素。人们选举并不是仅仅为了影响政策。数百万人努力去注册、投票也是为了各种各样别的原因。有些人参与选举也许只是为了避免不选举的罪责。他们可能曾被教导选举是他们的爱国责任，而且如果他们要是待在家里就没有权利抱怨选举结果。但有的人选举也许是为了从中产生一种满足感，一种他们在一场令人激动的选举比赛中是参与者，而非旁观者的感觉。

即使他们的一个选票对结果并不能产生至关重要的作用，然而，这也确认了他们在参与并支持政治进程中的角色。事实上，也许这就是激发世界上许多国家的人民产生完全民主参与欲望的最终需要。

51. A 【解析】由第二段中第二、三句“Elections do not express what most people want or need, nor do they provide guidance for politicians (even if they want it) on what policies to enact. In this view, elections are primarily just rituals that perform a symbolic function for society.”可知，精英治国理论的支持者认为，选举并没有表达出大部分人想要的或需要的，也没有为政治家就颁布何种政策而提供一些指导，而主要是一种表现社会象征性功能的仪式，故选 A。

52. B 【解析】由第三段中第二、三句“One argument is that voting does have significance, if not in individual impact, then in group pressure. Because citizens collectively have the power to give or withhold votes, they directly control the term in office of elected officials.”可知，一个争论就是投票确实是有意义的，要么是个人影响力的关系，要么是集体压力。因为全体公民有权利投票或不投票，因此他们直接控制着被选上官员的条件。因此可以推断出，人们之所以去投票是因为他们觉得他们的集体意愿会对选举有影响。故选 B。

53. C 【解析】由第三段中第三句“Because citizens collectively have the power to give or withhold votes, they directly control the term in office of elected officials.”可知，因为全体公民有权利投票或不投票，因此他们直接控制着被选上官员的条件。紧接着就说“即使这个选择是在阿呆和阿瓜之间”可知，此处的 Tweedledee and Tweedledum 指的是选举中的任何一个候选者，故选 C。

54. B 【解析】由文章最后一段“Even if their one vote may not be crucial to the outcome, it nevertheless affirms their role in… in many nations of the world.”可知，即使民众的一个选票对选举结果并不能产生至关重要的作用，然而，这也确认了他们在参与并支持政治进程中的角色。事实上，也许这就是激发世界上许多国家的人民对于完全参与民主欲望的最终需要。由此可以看出民众参与选举投票的意义所在。故选 B。

55. A 【解析】文章主要论述即使有人认为选举并不能起很大的作用，但还是有一定意义的，即描述人们一直不断选举的原因。第一段提出人们对投票的不同观点，第二段主要介绍选举的实质，第三段主要阐述为什么要投票，第四段主要论述人们选举的原因，最后一段主要总结选举的意义。A 项“为什么选举”符合文意。

Text 4

参考译文

随着时间的推移，如何形成一个好的批判性思维也逐渐地被边缘化，甚至被现代教育进程完全忽视。批判性思维是高度规范的心理过程，因此需要大多数专门人员接受训练。这种训练最好是在思维形成阶段开始，而且最好是由那些精力充沛、有积极性的老

师来教，他们不断挑战、辩论、要求他们的学生不断加强思维能力。然而，即使如上所述，什么时候开始这种思维都不算晚。

批判性思维是评价和分析一个命题的过程，或者是对思想者、批评和真实的论证。接下来是对所给证据推理评估过程以及通常始于怀疑的深思过程。一个对已提出的论点的适当的批判不仅仅只是直接的观察。除了推理、认知和经验，适当的批判性思维还包括超越于被批判性地调查过的具体论点或目标的知识价值。

这些知识价值包括客观真理。客观真理是一种来自于我们智力外部某处的真理。主观真理源于我们自身，是我们能触摸到、感觉到或相信是正确的一种真理。客观真理是独立的，并不依赖我们来保持其正确性，它完全独立于人的思想。无论我们怎么想，我们怎么看待它，或者即使我们思考它，客观的真理仍然是客观的真理，不变的，不受影响的。客观的真理必须经常被考虑，以达到良好的批判性。

客观真理有不同的形式，从固定的到短暂的。在“自然科学学科”领域中，像数学、物理学以及化学这类中，最被认可的客观真理包括已证明的数学公式，或经过验证的科学定律，或被广泛认可的还没被反驳的科学理论。这些“硬”客观真理被批判性思维家认为是公理或已确定的事实，因此，这也是批判性思维过程中的有用工具。这个过程借此建立在以前被证明的真理的基础上。不管我们在技术方面变得多先进，从个人和集体角度，都应该学会思考。这是我们的人类本性。

56. D 【解析】由第一段中第三句“This training is best begun…it is best taught by energetic, motivated teachers who continually challenge, and debate, and demand increasingly rigorous thinking of their young students.”可知，成长时期的批判性思维最好是由那些不断挑战、辩论、要求他们的学生不断加强思维能力的精力充沛、有积极性的老师来训练，故选 D。

57. C 【解析】由第二段中第二句“There follows a process of reasoning…always begun from a point of skepticism.”可知，批判性思维总是以对某一个观点的怀疑为开端的，故选 C。

58. A 【解析】由第三段中最后一句“Objective truth must always be taken into consideration in order to do good critical thinking.”可知，为了能够有更好的批判性思维，人们总是会把客观真理考虑进来。故选 A。

59. D 【解析】A 项“技术对批判性思维不起一点作用”与最后一段的第三句“These‘hard’ objective truths are…and thus, useful tools to help in the critical thinking process.”不符，故 A 项错误。B 项“批判性思维是反复试验的过程”和 C 项“科学真理是批判性思维的基础”在最后一段中都没有提到，故 B 项和 C 项错误，故选 D。

60. B 【解析】文章主要论述批判性思维，第一段主要阐述批判性思维是如何被训练的，第二段主要解释什么是批判性思维，第三段主要论述客观真理，最后一段论述客观真理和批判性思维的联系。B 项“批判性思维的本质”最能概括全文的意思，故选 B。

Part B

61. 起初，亚里士多德通过证明形式不能独自存在而仅仅存在于由形式和物质共同构成的特定物体中才能存在来批判柏拉图的形式理论。

62. 科学的目的就是定义所有物种的基本形式，目的和发展的模式，并依据他们各自形式的复杂性按他们的自然顺序进行排列。

63. 灵魂是身体的形式，而人类，其理性的灵魂比地球上所有其他物种的灵魂都要高级，是所有生命体中最高等的物种。

64. 根据亚里士多德的观点，个人和社会行为的标准必然是在对个人和社会的自然趋势的科学研究中发现的，而不是在纯形式的抽象领域中发现的。

65. 在他的知识理论中，亚里士多德反对柏拉图的知识是与生俱来的学说，并坚持知识只有从经验的概括中才能被习得。

第四部分　写作

66. 范文

Love is Pressure

From the cartoon we can see that a young boy is crying, with a heavy bag of lots of books pressing his back, and a little tree is curved by a heavy plate, too, ironically saying“Looks after the Trees.”

What we can learn from this cartoon is that excessive pressure in modern society gives too much burden on children and is torturing them as a heavy plate do to the twigs. Children are pushed by parents, school and society. Many parents expect their children to become suc-

cessful men in the future. So they force their children to learn many more courses at an early age. The competition among school kids also urges them to learn more for further study, which in turn could survive the fierce competition in employment market.

However, "Going too far is as bad as not going far enough". The little tree in the picture nearly breaks because of the heavy board meaning protecting it nominally. It's the same with children. Love is pressure for them if the love is excessive. Therefore, I suggest parents give their children some spare time to do what they want to do. Only in this way can they invest more energy in study more efficiently.

听力部分录音材料:

Questions 1 ~ 5

Interviewer: Hi, John. You've been in Japan for a long time.

John: Mmm.

Interviewer: What differences do you notice between the two countries?

John: Well, people in England usually live leisurely and I find people are much busier in Japan. They seem to work the whole day, from Monday to Saturday, even in summer.

Interviewer: Oh.

John: It's very hot and humid, and you need to take showers three times a day.

Interviewer: Yes, it's cooler in England.

John: That's right. But in the north, it's much colder than England, especially in winter—thirty degrees below zero. I've also found that Japan is much more mountainous than Britain, especially in the north. The mountains are much more rocky. They are very beautiful.

Interviewer: You like mountains.

John: Yes. As Japan is a mountainous country, the cities are more crowed and the houses are smaller. They don't have a lot of space.

Interviewer: Are there a lot of tall buildings in big cities?

John: No, not many, because there are a lot of earthquakes and the pollution.

Interviewer: Thank you, John.

Questions 6 ~ 10

Hello, I'll be your tour guide today here at the art museum, so I'd like to welcome you to this month's exhibit of Native American pottery. We'll begin our tour in a few minutes. But first I'm going to tell you something about the way this pottery was created. Pottery was made all over ancient North America by many different groups of people. One of the earliest of these ancient American cultures was the Hohokam people. They lived in what is now Arizona from about 300 BC to AD 1500. And it's their pottery that you will be looking at today. All of the pottery was made from clay. Some objects were mugs, bowls for drinking and eating. You will also see finger rings and animal-shaped incense burners which we believe were probably used in special ritual. The Hohokam formed their pottery vessels from coils of clay. Then shaped them with special tool: create very thin sides on the vessels. Afterwards they painted the pottery with red design. Actual... many of the pieces here have designs right on them that show how the pottery was used. Now, I hope you'll enjoy the beauty and the uniqueness of the

Hohokam pottery and that will give you some interesting insights about the people who created it. Please feel free to ask me any questions and thank you for joining us today.

Questions 11 ~ 13

The first significant step in the fight against infectious disease was made in 1796 with discovery of a vaccine to prevent smallpox by Edward Jenner. Jenner had become aware of the fact that milkmaids who had suffered from a mild illness, cowpox, were unlikely to catch the much more serious smallpox disease. Jenner experimented on a child, introducing cowpox into the bloodstream. Later, the child was inoculated with smallpox, but did not catch the disease. Jenner's method had proved much safer than the fashionable technique of inoculation, which had been brought to Britain from Turkey by Lady Montague. Despite opposition from the medical establishment, many of whom made a good income from inoculation, the government backed Jenner's claims; by 1853, vaccination had become compulsory for infants.

Louis Pasteur was a French chemist who in 1867 was able to demonstrate for the first time that germs caused disease. Pasteur went on to develop vaccines for chicken cholera, anthrax and fabies. The new science of bacteriology was advanced further by a German scientist, Robert Koch. Using microscopes and innovative methods of staining germs, Koch was able to identify specific germs as being responsible for the cause of disease. In 1882-1883, he identified the microbes responsible for tuberculosis(TB) and cholera.

A rivalry developed between Pasteur and Koch, based in part on the tension which existed following France's defeat in the Franco—Prussian war of 1870-1871. Both scientists were recognized in their own countries for their work, and set up with research centers. In 1881, Pasteur, successfully tried vaccine which protected against anthrax in animals. Koch, who quickly heard of the breakthrough by telegram, attempted unsuccessfully to discredit Pasteur. When, in the following year, he had the opportunity to treat a boy with rabies called Joseph Meister, Pasteur succeeded in developing a rabies vaccine.

Questions 14 ~ 16

Plants are adapted to the climate they live in for the most part. Trees in rainforests have broad leaves, shaped to encourage the heavy rain to run off the leaves. The large leaves encourage transpiration so the plants don't overheat. In very dry climates plants may develop an ability to store water, such as the cactus, which also has its leaves reduced into tiny spines which reduce transpiration to almost nothing so its precious water is conserved. At the first sign of drought, plants close their leaf pores to prevent wilting and slowing down growth so that they need less water. Coniferous plants also have small spiky leaves so that they don't lose too much water during the frozen winters. Grasses roll their leaves into tubes to protect their leaf pores from the drying effect of the wind. Tropical air plants have moisture sensitive plugs attached to their leaf pores which are pulled down over the pores, sealing them to hold in moisture, by the contraction of the stalks in dry weather.

Plants are affected by strong winds which make them grow thicker and more stunted stems to strengthen and prevent themselves from being blown over. A special sort of strong wood called "reaction wood" grows on the leeward side of the wind. Plants are also susceptible to waterlogging and freezing and many plants have developed complex mechanisms and adaptations to protect themselves from disasters.

Questions 17 ~ 20

Tom: Mr. Clinton, I have been with this company for five years. And I've always been very loyal to the company. And I feel that I've worked quite hard here. And I've never promoted. It's getting to the point now in my life where, you know, I need more money. I would like to buy a car. I'd like to start a family, and maybe buy a house, all of which is impossible with the current salary you're paying me.

Mr. Clinton: Tom, I know you've been with the company for a while, but raises here are based on merit, not on length of employment. Now, you do your job adequately, but you don't do it well enough to deserve a raise at this time. I've told you before, to earn a raise you need to take more initiative and show more enthusi-

asm for the job. Uh, for instance, maybe find a way to make the office run more efficiently.

Tom: All right. Maybe I could show a little more enthusiasm. I still think that I work hard here. But a company does have at least an obligation to pay its employees enough to live on. And the salary I'm getting here isn't enough. I can barely cover my expenses.

Mr. Clinton: Tom, again, I pay people what they're worth to the company, not what they think they need to live on comfortably. If you did that the company would go out of business.

Tom: Yes, but I have... I have been here for five years and I have been very loyal. And it's absolutely necessary for me to have a raise or I cannot justify keeping this job any more.

Mr. Clinton: Well, that's a decision you'll have to make for yourself, Tom.

第二部分　英语知识运用

参考译文

1942年，英国皇家海军“爱丁堡号”巡洋舰沉没在巴伦支海。当时这艘巡洋舰正载着九十一箱俄罗斯黄金返回英国。由于潜水员无法到达如此深的地方，这艘巡洋舰三十九年以来就一直沉于海底。英国也不允许用爆破的方法，因为沉船里还有60名船员的尸骸。接着，在1981年，一位名叫杰索普的前潜水员决定尝试采用新的潜水技术。因为他无法独自承担搜索所需的四百万英镑的费用，他不得不去寻找愿意承担风险的人。他们甚至还不确定黄金是否还在那里！首先与他取得合作的是一家苏格兰潜水公司，然后有一家德国船业公司也同意加入这一行列。在那不久之后，杰索普说服第四家公司加入。由于船内的黄金属于英国和苏联政府的共有财产，这两个国家都希望能够从中获利！最大的问题是如何找到黄金。幸运的是，他们能够检查“爱丁堡号”的姐妹船“英国皇家海军贝尔法斯特号”，以设法弄清楚弹药房的确切位置，也就是储藏黄金的地方。

他们知道这将是一项极其困难和危险的任务。为了找到黄金，他们需要在船身上切割一个大的正方形，然后穿过空燃料箱，向下进入弹药房。经过二十八次潜水后，他们设法找到了第一个金锭。所有人都夜以继日地帮助清理和堆放黄金，以便尽快完成这项工作。

21. C 【解析】这四个词都有道路的含义，但只有way可用于固定搭配on one's way to，表示“在……去……的路上”。在这句话中，on its way back to Britain意为“在巡洋舰返回英国的路上”，故选C。

22. B 【解析】由句意“这艘巡洋舰三十九年以来就一直沉于海底”可知，此处需要一个表示时间段的介词，并且能够与“三十九年”搭配，这四个介词都可以用来表示时间，但用法却不尽相同。只有for符合要求，故选B。

23. D 【解析】由前文句意可知，此处表达的意思是“到达”，too deep for divers to reach意为“(沉船的位置)太深以至于潜水员无法到达”，故选D。

24. A 【解析】由前文可知，“英国皇家海军爱丁堡号”巡洋舰于1942年沉没在巴伦支海，因此可推断出该句中60名船员的尸骸所在的位置应在沉船内，故选A。

25. C 【解析】由上下文“他无法独自承担搜索所需的四百万英镑，不得不寻找愿意承担风险的人。”可知，这里需要表示原因的连接词，故选C。

26. D 【解析】由全文内容可知，这次潜水寻找黄金是一次搜索任务，只有search可表示“搜索，探查”，符合文意，故选D。

27. A 【解析】be willing to do sth表示“愿意做某事”，be willing to take the risk表示“愿意承担风险”，符合文意，故选A。

28. D 【解析】由前文所述杰索普需要帮他承担风险的人，可推断此处应紧接着解释这个风险是什么，也就是“毕竟，他们还不确定黄金是否还在那里。”，故选D。

29. D 【解析】由上下文可知，杰索普需要说服一些公司加入这次搜索任务，assignment与commission都可以表示一项任务，但assignment侧重于表示分配、指派的任务，而commission可以表示委托完成的任务。因此用“委托”这些公司完成任务更为贴切，故选D。

30. B 【解析】前文中提到这项任务资金不够且有风险，可以推断出此处想要表达的是“劝说，说服”一些公司来投资和加入搜索任务；stimulate sb to do sth表示“激励某人去做某事”，与文意不符；introduce sb to sth介绍某人尝试某物；associate sb/sth with把某人/某物与……联系起来；A、C、D项均不符合文意，

故选 B。

31. A 【解析】由前文提示，杰森普需要寻找愿意承担风险的人，可以推断出此处表示杰森普说服了第四家公司来承担风险。take a chance 为固定搭配，表示“冒险”，和前文中提到的 take the risk 意思相近。故选 A。

32. D 【解析】由句意可知，此处要表达的是这些黄金是英国和苏联的财产。从四个选项的词义可排除 A、C 两项。estate 和 property 都有财产的意思。但 property 侧重于指金钱上的财产，而 estate 侧重于指地产，根据上下文可知 property 较为合适，故选 D。

33. A 【解析】make a profit 表示获利，为固定搭配。四个选项只有 profit 可与 make 搭配。故选 A。

34. C 【解析】这句话要表达的意思是“最大的难题是如何到达黄金所在的位置。”故选 C。

35. C 【解析】由全文内容可知，搜索团的任务是寻找黄金，由此可推断出他们检查“爱丁堡号”的姐妹船“贝尔法斯特号”的目的是为了弄清楚黄金储藏地——弹药房的确切位置，故选 C。

36. B 【解析】此空要填非限定性定语从句的引导词。非限定性定语从句的作用是对所修饰的成分做进一步说明，通常有引导词，且和主句间用逗号隔开。由于前面的先行词 the bomb room 表示地点，所以此处需要一个表示地点的关系副词 where，整个非限定性定语从句修饰 bomb room，表示弹药房就是黄金所在地，故选 B。

37. A 【解析】这句话的意思为：为了找到黄金，他们需要在船身上切割一个大的正方形，故选 A。

38. A 【解析】由句意可知，经过二十八次潜水，搜索队终于设法找到了第一个金锭。manage to do sth 表示“设法做成某事”。其余三项虽然都含有成功做成某事之意，但均不能用于此搭配，故选 A。

39. D 【解析】由后面的“to finish the job as quickly as possible”可知人们想尽快完成这项工作，由此可推知此处想要表达的是“抓紧时间工作”，work round the clock 为固定搭配，表示“全天候工作、没日没夜地工作”，故选 D。

40. D 【解析】so as to 意思为“以便，为了”。在这里做目的状语，解释全天工作的原因。故选 D。

第三部分 阅读理解

Part A

Text 1

参考译文

进入国家的顶级私立学校的竞争一直很激烈，但今年伊丽莎白意识到这种竞争已经达到了一个新的水平。伊丽莎白是曼哈顿的道尔顿学校招生处的主任，她一大早就接到一位男士的电话，他询问了该校幼儿园的截止年龄。在提供了这些信息之后，伊丽莎白询问男士孩子的年龄。这位男士很不自然地停顿了片刻，然后回答道：“是这样的，我们还没有孩子。我们在怀孩子之前想试图弄清楚什么时候要孩子合适，以确保孩子的上学年龄不成问题。”

在曼哈顿乃至整个国家，人们都在忧虑。目前无法获得有关私立学校的准确数据，但通过一些私立学校代表的讲述我们可以发现同样的情况：申请者过多，拒收率增高。“有人提前两年就向学校打听是否有名额，”辛辛那提市的七山学校的玛丽莲说，“还有的爷爷奶奶打电话为他们怀孕的女儿，未来的孙辈打听学校。”民意调查显示，美国人最关心的问题是教育。由于长期的经济繁荣使得父母有了更多的可支配收入，即使面对每年高达超过一万美元的学费，还是有许多人都倾向于让孩子上私立学校。芝加哥拉丁语学校的贝齐说：“我们现在接收到的申请者在地域上比以往更广泛。”该校今年的申请人数增加了 20%。

对申请者来说，问题在于申请人数增多了，而学校的招生名额并没有增加。“每年都有一些孩子申请不到学校，但是今年有大量的孩子没有申请到学校，据我所知这是第一次。”伊丽莎白说。

那么，父母要怎么做才能使自己 4 岁的孩子更有优势呢？学校知道，从这么小的孩子里进行选择是非常不容易的。许多学校优先录取本校毕业生的孩子。一些学校通过抽签的方式选择学生。但是大多数学校依靠主观和客观相结合的衡量标准：包括一些测试，它能够很好地确定孩子的发育成熟度以及认知潜力，另外还有与家长的面谈以及观察申请的学生在课堂环境中的表现。这些学校也希望有多元化的班级。孩子们有可能最后仅仅因为他们的生日不符合要求或者申请者中男孩子过多而被列在等候名单上。

父母最糟糕的做法就是强迫学龄前儿童学习，例

如,强迫孩子在还未到适当的年龄时就阅读或是做数学题。一些专家反而建议父母放松下来,寻找别的方法。也许要做的只是在学前班再待一年。

41. B 【解析】由第一段第一句"Competition for admission to the country's top private schools has always been tough, but this year Elisabeth realized it had reached a new level."可知,进入国家的顶级私立学校的竞争一直都很激烈,但今年伊丽莎白发现这种竞争达到了一个新的水平。因此可知,今年想进入私立学校比往年更加困难,而不是跟往年一样困难,故选 B。

42. D 【解析】由后面一句"We have grandparents calling for pregnant daughters."可知,有些家长会提前向私立学校咨询孩子入学的事情。因此可知"We have people calling us for spots two years down the road."意为"有人提前两年就打电话咨询学校是否会有名额。"D 项符合,故选 D。

43. C 【解析】由第三段"The problem for the applicants is that while demand has increased, supply has not."可知,申请私立学校的人数在增加,但私立学校的招生名额却没有增加。第四段详细讲了一些私立学校如何选择学生。因此可以推断,私立学校对学生如此精挑细选的原因在于有太多的学生申请,他们不得不通过各种方法来选择学生。故选 C。

44. D 【解析】由最后一段第一句"The worst thing a parent can do is to pressure preschoolers to perform—for example, by pushing them to read or do math exercises before they're ready."可知,作者认为强迫学龄前儿童学习是父母做的最糟糕的事。因此可以推断,作者反对给学龄前儿童过度的压力,故选 D。

45. A 【解析】整篇文章主要讲述儿童进入顶级私立学校困难,名额少,学校筛选过程谨慎,许多父母都在提早为学龄前孩子做准备。A 项"学龄前儿童的艰难时代"符合文意。故选 A。

Text 2

参考译文

威廉莎士比亚把老年阶段描述为"第二次孩子气"——没有牙齿,视力差,失去味觉。在音乐的品位上,可能变化比老年人意识到的更加灵敏。意大利国家阿尔茨海默氏病研究和护理中心的乔瓦尼·弗里索尼以及他的同事们在神经病学杂志上发表的一篇论文表明,额颞痴呆在某种程度上会引起音乐品味的退化,即便不是退到婴儿期,也至少会退到病人十几岁时。

额颞痴呆症是一种常见于老年人的疾病,正如其名字所暗示的,这种病是由大脑前面和侧面的损坏引起的。这些区域都与言语有关,并控制"比较高级"的功能,如抽象思维和判断力。

两位病患引起了弗里索尼医生的好奇。一位是 68 岁的律师,另一位是 73 岁的家庭主妇。两位的记忆都没有受损,但他们都表现出了某些与额颞痴呆有关的缺陷——这项诊断通过大脑扫描已得到证实。

这位律师曾经是古典音乐爱好者,把流行音乐比作"纯粹的噪音",但是在他的病首次确诊后两年,他开始听意大利流行乐队"883"的歌。随着他语言掌握能力的退化以及他跟朋友以及家人关系的恶化,他每天将音量放到最大,持续听"883"乐队的歌达数小时。那位家庭主妇过去并没有律师那样的对古典音乐的热爱,甚至过去没有欣赏过任何类型的音乐。但是在她确诊一年后,她开始对她 11 岁孙女所听的歌非常感兴趣。

这种音乐品味的变化并没有在阿尔茨海默氏病患中出现,仅仅是那些患有额颞痴呆的病患有这样的症状。还有一些研究表明额颞痴呆症患者有时候能获得新的才能。其他研究发现有五个患者发展了艺术上的才能。在另外一个案例中,一位女性患者突然开始作曲,演唱乡村和西部歌曲。

弗里索尼医生推测,这种疾病能引发人们对新体验的全新态度。之前的一些研究表明,这种对新奇事物追求的表现由大脑右侧额叶控制。由于左侧额叶的损伤,右侧额叶会占据主导地位,这样导致对新体验的追求。或者,左侧额叶的损伤可能会影响到一些掌管音乐品味的特定的神经系统。无论这是获益还是损失都有所不同。正如弗里索尼医生在他的文章中所说,人各有所好。

46. C 【解析】第一段中第一句话威廉莎士比亚把老年阶段比做"第二次孩子气"——没有牙齿,视力差,失去味觉。接着整篇文章谈论了一种跟音乐品味有关的大脑疾病——额颞痴呆症。因此可知,作者引用威廉莎士比亚的一句话只是为了引出后文,即 start discussion on a brain disease,故选 C。

47. A 【解析】由第一段中最后一句"...if not to infancy, then at least to a patient's teens."可知,额颞痴呆症可以在某种程度上引起音乐品味的退化,即便不是退到婴儿期,也至少会退到病人十几岁时,故

选A。

48. D 【解析】由第四段中第一句“About two years after he was first diagnosed, the lawyer, once a classical music lover who referred to pop music as ‘mere noise’, started listening to the Italian pop band ‘883’.”以及第二句“...he continued to listen to the band at full volume for many hours a day.”可知，在这位68岁的律师患有额颞痴呆症后，本来只热爱古典音乐而把流行音乐比作“纯粹噪音”的他开始听意大利流行乐队“883”的歌，而且把音量放到最大，每天持续听数小时，可知他享受意大利流行音乐，故选D。

49. C 【解析】由第三段中第三句“Both had undamaged memories, but displayed the sorts of defect...”可知，额颞痴呆症患者的记忆都没有受损，A项不符合文意；由第二段中第一句“Frontotemporal dementia, a disease usually found with old people, is caused, as its name suggests, by damage to the front and sides of the brain.”可知，额颞痴呆症是由大脑前部和侧面的损坏引起的，B项表达的意思是额颞痴呆症会引起大脑某些部分的损毁，与文章原意因果颠倒；由第五段中第一句“This kind of change in musical taste was not seen in any of the Alzheimer’s patients, and thus appears to be specific to those with frontotemporal dementia.”可知，阿尔茨海默氏病患并没有出现这种音乐品味的变化，仅仅是那些患有额颞痴呆的病患有这样的症状，D项所述额颞痴呆的症状与阿尔茨海默氏病症状相似的说法是错误的；由第五段中第二句“And other studies have remarked on how frontotemporal-dementia patients sometimes gain new talents.”可知，有研究表明额颞痴呆症有可能使患者获得新的才能，故选C。

50. D 【解析】由最后一段第三句和第四句“A predominance of the right over the left frontal lobe, caused by damage to the latter, might thus lead to a quest for new experience. Alternatively, the damage may have affected some specific nervous system that is needed to appreciate certain kinds of music.”可知，由于左侧额叶的损伤，右侧额叶会占据主导地位，这样导致了病患对新体验的追求。或者，左侧额叶的损伤可能会影响到一些控制音乐品味的特定的神经系统。所以，作者将病患音乐品味的变化归结为左侧额叶受损所导致一些控制音乐品味的特定神经系统的损坏，故选D。

Text 3

参考译文

该责怪谁呢？工业评论家说道，责任远远不只在于英国铁路的养护不善。吝啬的英国政府，不论是工党执政还是保守党执政，都削减了对火车和铁路的投资。在20世纪90年代中期，有一届保守党政府促成变卖了整个非常耗用补贴的铁路网。经营权由几家私人公司瓜分，而铁路和车站的所有权属于英国铁路公司。此后，按照当时的做法，私营部门需要承担铁路改善的费用，政府仅仅给予一点帮助，私营部门需要对任何的失误承担责任。

如今的调查显示，乘客认为铁路的失误都应该归因于铁路的私有化。他们质问是否可以兼顾追逐利益和保障安全。更糟糕的是，将整个铁路网分割给几家公司经营使得事情变得更加难以协调。英国铁路公司的老板杰拉尔·德科贝特在上个月因为赫特福德事故而辞职，他曾说过：“老实说，铁路系统因为私有化而四分五裂，铁路结构的设计也是基于最大化地增加财政收入。”

一般来说，英国铁路与欧洲大陆铁路的对比很明显。在过去的几十年里，德国、法国和意大利在交通运输基础建设上的投资比英国多50%。因此，目前一个由政府出资的高速的铁路网在欧洲大陆上纵横交错，这些政府愿意把国家资金投入到首都重大项目的建设。西班牙目前正在规划一条1,000英里的新型高速铁路。在法国，超高速列车已经穿梭于大城市之间，通常是专线线路。那么在英国呢？连接巴黎、伦敦和布鲁塞尔的欧洲之星列车从英吉利海峡隧道进入英国大地，汇入拥挤的英国铁路线时，车速不得不从每小时186英里降低到最高每小时100英里。有时候甚至更慢。

终于有一次，英国政府愿意听取意见。毕竟，乘客也是选民。在一次选举前的消费热潮时，政府承诺会投入大量资金用于交通、教育、公共健康服务方面。在接下来的十年里，政府将通过对私有公司的部分高额补贴对铁路再追加六百亿英镑的投资。正如布莱尔上个月承认的：“英国投资不足，而投资是英国未来的关键。”你不必把这些话告诉三百万每天坐火车的乘客。上周，开往达灵顿的火车晚点了一个小时，以“第一行进速度”缓慢爬行。

51. C 【解析】由第一段中第一、二句“Who is to blame? The trail of responsibility goes beyond poor ma-

intenance of British railways, say industry critics."可知，英国铁路系统不健全，铁路速度慢的原因不只在于英国铁路的养护不善。下文对其原因作出了具体的解释，故选C。

52. A 【解析】由第二段中第二句："They ask whether the pursuit of profits is compatible with guaranteeing safety."以及第二段中最后一句"The railway was torn apart at privatization and the structure that was put in place was...designed, if we are honest, to maximize the proceeds to the Treasury..."可知，英国国家为了追求财政的扩大，而缩减了铁路上的补贴，为了金钱利益而忽略了铁路安全保障，所以乘客认为铁路失败的根本原因在于利益的追求。故选A。

53. B 【解析】文章第二段中最后一句提到杰拉尔·德科贝特说的话"The railway was torn apart at privatization and the structure that was put in place was ... designed, if we are honest, to maximize the proceeds to the Treasury..."，意思是"铁路系统因为私有化而四分五裂，老实说，铁路结构的设计是基于最大化地增加财政收入"，由此可知杰拉尔·德科贝特认为英国的铁路结构是建立在政府受益的基础之上的。B项符合，故选B。

54. D 【解析】由第三段中第一句"Generally, the contrasts with mainland Europe are stark."通常，英国铁路与欧洲大陆铁路的对比很明显。说明作者认为英国铁路和欧洲相比还差很多。D项符合，故选D。

55. D 【解析】由最后一段倒数第三句，布莱尔说："英国投资不足，而投资是英国未来的关键。"以及最后一段的最后两句表明了作者对布莱尔所说话的态度，"You don't have to tell the 3 million passengers who use the railways every day. Last week trains to Darlington were an hour late—and crawling at Locomotion No. 1 speeds."意思是你不必把这些话告诉三百万每天坐火车的乘客。上周，去达灵顿的火车晚点了一个小时——以'火车第一速度'缓慢爬行。"因此，作者认为布莱尔只是说空话、喊口号解决不了问题，故选D。

Text 4

参考译文

没人比马基雅维利所遭受的批判更严酷了，尤其是在他死后的两个世纪里。但他从此铸造了许多能干的斗士，而且潮流也从此逆转了。《君主论》被称作是一个暴君手册，其影响非常恶劣。但马基雅维利的学说是全新的吗？那些学说是他发现的吗？其实他只是够坦白、有勇气写下每个人所想的和所知道的而已。他所告诉我们的是他和君主的长期亲密接触过程中以及国家事务中所留下的印象。培根大臣说过，马基雅维利告诉我们君主所做的事，而不是他们应该做的事。当马基雅维利以卡萨尔·博鲁吉亚为例时，他并没有把他当成英雄来赞美，而只是作为一个有能力达到自己的目的君主。国家的生活是他文章中主要的对象。马基雅维利基于他的研究和广泛的经历，尽可能地列举了一些准则。他从政治家的角度而不是道德家的角度进行写作。政治上的好事从道德方面看可能是坏事，事实上，很奇怪的是当道德和政治发生冲突时，后者通常会占据上风。会有人说，马基雅维利在他的《君主论》或者他的《论李维》里所提出的准则已经消失了吗？外交过程就没有欺诈行为了吗？让任何一个人读《君主论》里面著名的第十八章"君主应该怎样保持信仰？"，他都会深信将近四百年前的放在现在也一样有道理。

马基雅维利其余的著作中，最重要的就是他在1521年到1525年之间献给克莱门特七世的《佛罗伦萨史》。这本书仅仅是对中世纪的简述，其中一部分是佛罗伦萨的历史。马基雅维利的写作方法遭到批判，因为他有时候太过于附和他所在时代的编年史，而有时候又坚决抛弃其中的论断，而没有给出任何明显的理由，同时，书中诸多细节之处也使其权威性遭受了质疑。它直接的、有逻辑的叙述常常能引起读者的兴趣，这就是他这本书的魅力所在。

56. D 【解析】由第一段中第一句"No man has been more harshly judged than Machiavelli, especially in the two centuries following his death."可知，没人比马基雅维利所遭受的批判更严酷了，尤其是在他死后的两个世纪中。因此可以推断出，马基雅维利在历史上一直都是人们批判的对象，故选D。

57. A 【解析】由第一段中第六句和七句"He merely had the frankness and courage to write down what everybody was thinking and what everybody knew.""He merely gives us the impressions he had received from a long and intimate intercourse with princes and the affairs of state."可知，作者认为马基雅维利只是够坦白、有勇气将每个人所想的和所知道的写下来而已；他所告诉我们的是他和君主的长期亲密接触过程中以及国

家事务中所留下的印象。然后作者引用培根的话“马基雅维利告诉我们君主所做的事，而不是他们应该做的事。”因此，作者和培根的观点一致，都认为马基雅维利只是讲述了君主实际上所做的事，可以推断出作者引用培根的话为了进一步支持自己的观点，故选A。

58. A 【解析】由第一段中第九句“When Machiavelli takes Caesar Borgia as a model, he does not praise him as a hero at all, but merely as a prince who was capable of attaining the end in view.”可知，作者认为当马基雅维利以卡萨尔·博鲁吉亚为例时，并没有把他赞美成英雄，而只说他作为一个有能力达到自己目的君主。说明作者认为马基雅维利的评论是中肯、客观的。故选A。

59. C 【解析】由第一段中倒数第四句“What is good politics may be bad morals, and in fact, by a strange fatality, where morals and politics clash, the latter generally gets the upper hand.”可知，作者认为政治上的好事从道德方面看可能是坏事，事实上，很奇怪的是当道德和政治发生冲突时，后者通常会占据上风。即作者认为对于政治家来说道德往往置于政治之后，处于第二位，C项符合，故选C。

60. B 【解析】由文章最后一段可知，作者提出了马基雅维利在内容上的缺陷，即“...adhering at times too closely to the chroniclers of his time, and at others rejecting their testimony without apparent reason...”，意思是“文章中有时候太过于附和他所在时代的编年史，而有时候又坚决抛弃其中的论断，而没有给出任何明显的理由……”。而文章最后一句作者表明“It is the straightforward, logical narrative, which always holds the interest of the reader, that is the greatest charm of the History.”意思是：“他直接的、有逻辑的叙述常常能引起读者的兴趣，这就是这本书的魅力所在。”可见，作者认为这本书内容上有缺陷，而对马基雅维利的语言风格持肯定态度。所以，作者对《佛罗伦萨史》的看法就是：这本书的魅力在于他的文体风格而不是内容，故选B。

Part B

61. 他建议教导应该从一般到个别，只有在被证明有意义的情况下，课本上的内容才可以接受。

62. 他要求老师以及其他一些比如在政府部门或商业机构工作的有教育责任的人，向学生有序地展示他们要学的内容。

63. 他提出了个体差异以及有必要根据学生的整体水平去调整教导方式，并且在特殊教育的领域超前于一些教育心理学家和学校心理专家。

64. 维维斯也超前于同时代那些避免社会比较的动机理论家以及那些认为常模测试的缺点大于优点的专家。

65. 因此，早在我们声明我们的专业身份之前，已经有一些个人很有智慧地思考了我们最终会称之为教育心理学的内容，为教育的科学研究铺设了道路。

第四部分　写作

66. 范文

Penny-wise and Pound-foolish

From the cartoon we can see that the man is concentrating on the tiny sesame in his hand, which represents the economic benefits, while throwing away the watermelon symbolizing the environmental protection.

Just like the man in the cartoon, many decision makers tend to misplace the priorities by putting the pursuit of economic benefits to the first place and ignoring the environmental protection. This kind of behavior is short-sighted. As far as I am concerned, the economic benefits should be based on the environmental protection.

In the first place, we should understand that environmental pollution may cause some serious problems, such as contaminated drinking water, flood and biodiversity destruction, etc. These problems require large sums of money to deal with. Secondly, we should bear in mind that natural resources are limited. If we continue to consume the limited natural resources just to develop the economy without paying attention to the environmental protection, we will suffer the disasters caused by ourselves. In a word, we should be visionary, obtaining maximum economic results at minimum costs by protecting the environment and maintaining the sustainable development of economy.

Section I Listening

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear some news over the radio. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only*** *1* ***word*** *in each numbered box. You will hear the recording twice. You now have 25 seconds to read the table below.*

News over the Radio		
reason for the bus accident on Freeway 65		1.
a video factory destroyed by		2.
the problem of the 120-year-old woman		3.
amount of money found on the flight		4.
reason for arresting the winner		5.

Part B

Directions:

For Questions 6 ~ 10, you will hear a lecture about child development. While you listen, complete

the sentences and answer the question. Use ***no more than 3 words*** *for each answer. You will hear the recording twice. You now have 25 seconds to read the sentences and the questions below.*

Who is the speaker talking to?		6.
What is the main topic of this talk?		7.
When do children first begin to make language-like noises?		8.
At what age do most children begin to master the basics of grammar?		9.
What does the speaker say about the grammatical mistakes that four-year-old make?		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece ***only once****.*

Questions 11 ~ 13 are based on the following friends' talk about where to entertain. You now have 15 seconds to read Questions 11 ~ 13.

11. Who is Barbara going to shop with?

[A] Tom. [B] Tim and Mary.

[C] Mary and Tom. [D] Tom, Mary and Tim.

12. How is Barbara traveling to the shops tomorrow?

[A] By bus. [B] On foot.

[C] By taxi. [D] By underground.

13. What time are they going to meet?

[A] At 9:30. [B] At 10:30.

[C] At 8:30. [D] At 8:00.

Questions 14 ~ 17 are based on comments on job interviews. You now have 20 seconds to read Questions 14 ~ 17.

14. How long does an interview usually last according to the speaker?

[A] At least 45 minutes. [B] From 30 to 45 minutes.

[C] Less than 30 minutes. [D] More than 45 minutes.

15. How can one give the interviewer a good first impression?

[A] He should talk enthusiastically. [B] He should show respect for the interviewer.

[C] He should be dressed properly. [D] He should show confidence in himself.

16. What should be the best manner of speaking for a job seeker during an interview?

[A] Speaking politely and emotionally.

[B]Talking a lot about the job.

[C]Talking loudly to give a lasting impression.

[D]Speaking confidently but not aggressively.

17. What is the main idea of the short monologue you have just heard?

[A]A job seeker should create a good image during an interview.

[B]Self-confidence is the most important for a job seeker.

[C]Finding a job is more difficult than one can imagine.

[D]Professional knowledge is a decisive factor in job interview.

Questions 18 ~ 20 are based on a professor's lecture about how to avoid plagiarism. You now have 15 seconds to read Questions 18 ~ 20.

18. What does the speaker warn the students against doing?

[A]Stealing another person's ideas. [B]Handing in assignments late.

[C]Sharing notes with someone else. [D]Gathering non-relevant materials.

19. According to the speaker, how should most of the notes be taken?

[A]In shorthand. [B]In short phrases.

[C]In the student's own words. [D]In direct quotation.

20. How does the speaker say the direct quotation should be used?

[A]It should be enclosed in quotation marks. [B]It should be assimilated thoroughly.

[C]It should be authorized by the source. [D]It should be paraphrased by the author.

You now have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

That is the end of Listening Comprehension.

Section Ⅱ Reading

(75 minutes)

Part A

Directions:

Read the following text and fill each of the numbered spaces with ONE suitable word. Write your answers on the ANSWER SHEET.

Some doctors are taking an unusual new approach to communicate better with patients—they are letting(21)_____ read the notes that physicians normally share only with each other.

After meeting with patients, doctors typically jot(22)_____ notes on a range of topics, from musings about possible diagnoses to observations about(23)_____ a patient is getting along with a spouse. The notes are used to justify the bill, and may be audited. But the main idea is to have a written record(24)_____ insights into the patient's condition for the next visit or for other doctors to see.

A study currently under way, (25)_____ the OpenNotes project, is looking at what happens (26)_____ doctors-notes become available for a patient to read, usually(27)_____ electronic medical records. In a report on the early stages of the study, published Tuesday in the *Annals of Internal Medicine*, researchers say that inviting patients to review the(28)_____ can improve patients

understanding of their own health and get them to stick to their treatment regimens (29) _____ closely.

But researchers also point to possible downsides: Patients may panic if their doctor speculates (30) _____ writing about cancer or heart disease, leading to a flood of follow-up calls and emails. And doctors say they worry that some medical terms can be taken the (31) _____ way by patients. For instance, (32) _____ phrase "the patient appears SOB" (33) _____ to shortness of breath, not a derogatory designation. And OD is short for oculus dexter, or right eye, (34) _____ for overdose.

Medical providers have been stepping up efforts to improve doctor-patient communication, in part (35) _____ studies show it can result in better patient outcomes. The introduction of electronic medical records in recent years has helped to achieve that.

Part B

Directions:

Read the following three texts. Answer the questions below each text by choosing [A], [B], [C] or [D]. Mark your answers on the ANSWER SHEET.

Text 1

Aspiring college students will be able to apply for financial aid three months earlier than now and submit a previous year's tax return, changes aimed at helping more people pay for school, the White House said Sunday.

Under the current system, students planning to start school in the fall of 2017 must wait until January of that year to fill out the Free Application for Federal Student Aid. The new system will let them complete the form as early as October 2016, the month that marks the traditional start to the college application season.

The government uses that form to determine eligibility for Pell Grants and federally backed student loans. The White House said requiring applicants to wait until January slows down the aid process and makes it harder for prospective students to determine whether they can afford to go to college.

Some 2 million college students are eligible for federal Pell Grants but miss out because they never apply, said James Kvaal, the deputy director of the White House's Domestic Policy Council. "If we are not even reaching students who are currently enrolled in college, we wonder how many more students would be in college if they knew this aid was available," Kvaal said in an interview.

President Barack Obama planned to announce the revisions during a meeting Monday with high school students in Des Moines, Iowa. Trying to make college more affordable, Obama has capped some student loan payments and signed legislation lowering certain interest rates.

To assess a student's financial background, the federal aid system crunches the numbers from a family's tax returns, which can be electronically downloaded from the IRS for students who apply online. In advancing the start date to October, the Obama administration will allow students to use earlier tax information so they do not have to wait until the following year's returns are filed. For example, a student applying for aid for the 2017-2018 academic year currently must use their 2016 tax

return. The new system will let them use their 2015 return.

Using older tax information could cause significant changes for some students, such as those who take a "gap year" to work after high school but whose ability to pay for college would still be based on their senior year. Kvaal said the administration will ask colleges to use their freedom with Pell Grants to take students' unique circumstances into account when necessary.

"We anticipate there may be a little more work for colleges to do to adjust financial aid packages," Kvaal said. "But overall, we believe that the earlier tax data is a sound basis for awarding federal student aid."

36. To make college affordable for more students, the government will _____.

[A] adjust the application time for federal student aid

[B] increase the investment in college aid

[C] allow the poor students' family to pay less tax

[D] advance the start time of college application season

37. The current federal student aid system has its disadvantage in that _____.

[A] only a small number of students are eligible for the loans

[B] the aid process is too complicated

[C] it often cannot provide students with timely financial aid

[D] it is hard for prospective students to apply for the aid

38. According to James Kvaal, the reason why a lot of students haven't got federal Pell Grants is _____.

[A] they don't meet the application requirements

[B] they haven't submitted the applications

[C] they have missed the application deadline

[D] there is a limited quota for that aid

39. It can be inferred from Paragraph 7 that using earlier tax information might _____.

[A] give colleges more freedom in deciding who has the eligibility for financial aid

[B] lead to inaccurate assessment of a student's financial background

[C] be unfair for those students who have a "gap year"

[D] make colleges face a dilemma in awarding financial aid

40. Which of the following best summarizes the main idea of the text?

[A] Students can apply earlier for federal college aid.

[B] More students have eligibility for federal college aid.

[C] The White House proposes a series of financial reforms.

[D] A student's financial situation will be assessed by earlier tax data.

Text 2

Shortages of flu vaccine are nothing new in America, but this year's is a whopper. Until last week, it appeared that 100 million Americans would have access to flu shots this fall. Then British authorities, concerned about quality-control problems at a production plant in Liverpool, barred all further shipments by the Chiron Corp. Overnight, the U. S. vaccine supply dwindled by nearly half—

and federal health officials found themselves making an unusual plea. Instead of beseeching us all to get vaccinated, they're now urging most healthy people between the ages of 2 and 64 not to. "This re-emphasizes the fragility of our vaccine supply," says Dr. Martin Myers of the National Network for Immunization Information, "and the lack of redundancy in our system."

Why is such a basic health service so easily knocked out? Mainly because private companies have had little incentive to pursue it. To create a single dose of flu vaccine, a manufacturer has to grow live virus in a 2-week-old fertilized chicken egg, then crack the egg, harvest the virus and extract the proteins used to provoke an immune response. Profit margins are narrow, demand is fickle and, because each year's flu virus is different, any leftover vaccine goes to waste. As a result, the United States now has only two major suppliers (Chiron and Aventis Pasteur)—and when one of them runs into trouble, there isn't much the other can do about it. "A vaccine maker can't just call up and order 40 million more fertilized eggs," says Manon Cox, of Connecticut-based Protein Sciences Corp. "There's a whole industry that's scheduled to produce a certain number of eggs at a certain time."

Sleeker technologies are now in the works, and experts are hoping that this year's fiasco will speed the pace of innovation. The main challenge is to shift production from eggs into cell cultures—a medium already used to make most other vaccines. Flu vaccines are harder than most to produce this way, but several biotech companies are now pursuing this strategy, and one culture-based product (Solvay Pharmaceuticals' Invivac) has been cleared for marketing in Europe.

For America, the immediate challenge is to make the most of a limited supply. The government estimates that 95 million people still qualify for shots under the voluntary restrictions announced last week. That's nearly twice the number of doses that clinics will have on hand, but only 60 million Americans seek out shots in a normal year. In fact, many experts are hoping the shortage will serve as an awareness campaign—encouraging the people who really need a flu shot to get one.

41. Shortages of flue vaccine show that _____.

[A] America relies too much on foreign suppliers

[B] the demand of flue vaccines is high this year

[C] quality problem is a serious problem in flu vaccine production

[D] the supply of flu vaccines is rather weak and America has no back-up measures to make it up

42. The word "cleared" (Line 5, Paragraph 3) might mean _____.

[A] permitted　　[B] removed

[C] proved　　[D] produced

43. Private companies have little interest in producing flu vaccines because of _____.

[A] complicated process, high cost, low profit and high risk

[B] shortages of fertilized chicken eggs

[C] difficulty in growing live virus

[D] fast changing of flu virus

44. From the last paragraph we can infer that _____.

[A] the government hopes to solve the problem by way of volunteer restrictions

[B] more than 47 million Americans who are qualified to get flu vaccine shots cannot get them this year

[C] America needs not to worry about a limited supply of flu vaccines this year

[D] normally only a small percentage of American population gets flu vaccine shots each year

45. According to the passage, which of the following is TRUE?

[A] All Americans are persuaded not to get vaccinated this year.

[B] The big problem in innovating flu vaccine's producing technique is how to grow virus in a new way.

[C] More flu vaccines cannot be produced in a short time because private companies refuse to produce more.

[D] Flu vaccines are easier than most vaccines to produce through cell cultures.

Text 3

Being a man has always been dangerous. There are about 105 males born for every 100 females, but this ratio drops to near balance at the age of maturity, and among 70-year-olds there are twice as many women as men. But the great universal of male mortality is being changed. Now, boy babies survive almost as well as girls do. This means that, for the first time, there will be an excess of boys in those crucial years when they are searching for a mate. More important, another chance for natural selection has been removed. Fifty years ago, the chance of a baby (particularly a boy baby) surviving depended on its weight. A kilogram too light or too heavy meant almost certain death. Today it makes almost no difference. Since much of the variation is due to genes, one more agent of evolution has gone.

There is another way to commit evolutionary suicide: stay alive, but have fewer children. Few people are as fertile as in the past. Except in some religious communities, very few women have 15 children. Nowadays the number of births, like the age of death, has become average. Most of us have roughly the same number of offspring. Again, differences between people and the opportunity for natural selection to take advantage of it have diminished. India shows what is happening. The country offers wealth for a few in the great cities and poverty for the remaining tribal peoples. The grand mediocrity of today—everyone being the same in survival and number of offspring—means that natural selection has lost 80% of its power in upper-middle-class India compared to the tribes.

For us, this means that evolution is over; the biological Utopia has arrived. Strangely, it has involved little physical change. No other species fills so many places in nature. But in the past 100,000 years—even the past 100 years—our lives have been transformed but our bodies have not. We did not evolve, because machines and society did it for us. Darwin had a phrase to describe those ignorant of evolution: "they look at an organic being as a savage looks at a ship, as at something wholly beyond his comprehension". No doubt we will remember a 20th century way of life beyond comprehension for its ugliness. But however amazed our descendants may be at how far from Utopia we were, they will look just like us.

46. What used to be the danger in being a man according to the first paragraph?

[A] A lack of mates. [B] A fierce competition.

[C] A lower survival rate. [D] A defective gene.

47. What does the example of India illustrate?

[A] Wealthy people tend to have fewer children than poor people.

[B] Natural selection hardly works among the rich and the poor.

[C] The middle class population is 80% smaller than that of the tribes.

[D] India is one of the countries with a very high birth rate.

48. The author argues that our bodies have stopped evolving because _____.

[A] life has been improved by technological advance

[B] the number of female babies has been declining

[C] our species has reached the highest stage of evolution

[D] the difference between wealth and poverty is disappearing

49. What does "fertile" in the second paragraph mean?

[A] Female. [B] Able to produce much.

[C] Religious celebration. [D] Quick.

50. Which of the following would be the best title for the passage?

[A] Sex Ratio Changes in Human Evolution. [B] Ways of Continuing Man's Evolution.

[C] The Evolutionary Future of Nature. [D] Human Evolution Going Nowhere.

Part C

Directions:

You are going to read a list of headings and a text. Choose a heading from the list [A]-[G] that best fits the meaning of each numbered part of the text(51 ~ 55). There are two extra headings that you do not need to use. Mark your answers on the ANSWER SHEET.

Have you ever started a diet or exercise program but didn't stick with it? If you are like millions of other people, you've set out with the best intentions but failed to keep the momentum going. Relying on motivation and willpower doesn't work. Instead, there is another way! 95% of our life is dictated by the subconscious mind, the part of our brain that runs our lives on autopilot. By consciously deciding to create a new habit, you can harness the power of your unconscious to create a new neural pathway. Once a new habit is established it becomes easy to do. Here are several steps to turn any desired new activity into a habit. Once a habit is established you'll find yourself doing effortlessly.

(51) _____

Setting big goals is exciting but starting with small boring goals is more likely to lead to success. Some examples of small changes would be to meditate for 10 minutes, replace one unhealthy snack with raw veggies, or walk 15 minutes per day. Taking small actions tricks your brain. Your subconscious likes to be in control—it doesn't like change. A big change often sets up subconscious resistance, but you can sneak a small change by it.

Use Triggers

A trigger is something that leads you to automatically doing something else. Smokers, for example, are triggered to smoke after a meal. Use triggers to your advantage. If you commit to always meditating after breakfast, after a few weeks you'll automatically think about meditating after your morning

meal. Visual triggers work well, too. Lay your workout clothes on the bed in the morning will encourage you to work out when you get home from work.

(52)_____

Make sure you have everything you need to ensure your success. If you want to start a walking program, get comfortable walking shoes and a pedometer. People who wear a pedometer walk 27% more than those who don't!

(53)_____

The more difficult and time-consuming it is to take an action, the less likely you will do it. This is why so many people who buy gym memberships drop out. It's just not that convenient. Get everything you need ready ahead of time so that when it's time you can, as Nike says, "Just Do It."

(54)_____

If you don't enjoy doing something, you aren't going to stick with it. Find ways to make your lifestyle change as enjoyable as possible. Exercise with a friend, learn to cook healthy foods that are delicious, or find a meditation program that really resonates with you.

(55)_____

When American comedian Jerry Seinfeld was an unknown, he created the habit of writing new material daily using a wall calendar and a red marker. Every day he wrote, he put a big red "X" through that day. He didn't want to see any blank days. Use this technique for one month and you'll find your new habit will largely be formed.

By using these steps to create a habit you are tricking your brain to create a new neural pathway. Once the habit is formed you can use it to serve as a gateway to bigger changes that can truly change your life. A journey of a thousand miles really does begin with a single step.

[A] Don't Break the Chain

[B] Be Prepared

[C] Make It Fun

[D] Maintain Realistic Expectations

[E] Make It Convenient

[F] Set Small Goals

[G] Make a Big Change

Part D

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write your translation clearly on the ANSWER SHEET.

At our house, nobody gets more mail than Jake: catalogs, coupons, and offers to subscribe to magazines. (56) He is also urged to donate to worth causes and take advantage of some pretty incredible credit-card offers.

He ignores all of them. What do they expect? He's a dog.

(57) It all started when I used Jake's name as an assumed name on the Internet, in an attempt to protect what's left of my privacy. Before I knew it, junk was pouring in, proving once again that

these days every move you make online can be, and often is, carefully watched and recorded by people who don't know you from your dog—everyone from ad and insurance agencies to nonprofit groups and even the dreaded telemarketers. And let's not forget the more, shall we say, unscrupulous characters.

(58) We've all heard horror stories about people whose identities, in the form of credit card or Social Security numbers, were assumed by crooks. Identity theft is one of the fastest-growing crimes around.

Even if you never buy anything online, your privacy can be compromised by Web "cookies". A cookie is a small file that a Web site stores on your computer containing information it can use to "recognize" you if you return to that site.

Most cookies pose little risk to privacy on their own. The problem comes when others get hold of your cookies. In a highly publicized case earlier this year, DoubleClick Inc planned to cross reference consumer cookie data with information from a marketing database, such as name, address and credit card purchase history. (59) Seen as an unethical violation of consumers' privacy, a lawsuit followed. Doubleclick backed off the plan, for now.

In the meantime, other threats to your cyber privacy still exist. Example:

Anyone who knows where to look can buy stolen credit card numbers in chat rooms, and spends up every penny on your card in minutes.

(60) As new technologies bring out the creativity in crooks, your best bet may be plain old-fashioned vigilance. Keep track of each penny, balance your checkbook and follow up on discrepancies in your statements immediately. However much the world change, it still pays to be your own watchdog.

Section Ⅲ Writing

(40 minutes)

Directions:

61. *Read the following text and write an essay to*

1) summarize the main points of the text,

2) make clear your own viewpoints, and

3) justify your stand.

In your essay, make full use of the information provided in the text. If you use more than three consecutive words from the text, use quotation marks("").

You should write 160 – 200 words on the ANSWER SHEET.

We have all heard the saying, "You are what you eat." Current research suggests that the majority of Americans have bad eating habits, and some of this is determined by our lifestyle, which demands that we eat quickly and inexpensively.

What are the commonest foods on the American menu? Hamburgers and French fries, sugar-laden drinks; pies and whipped cream, malts and ice-cream. Apart from an occasional broiled hamburger, all the things on that list are bad for us. And there are certain prophets of doom who predict that all those fat laden fast foods provide us with only one thing—a faster road to the grave.

On the other hand, there are those who claim that the basic fast-food meal contains all the nourishment you need. After all, there are meat, milk, salad and bread. And if you have a cheeseburger instead of a hamburger, you are doing yourself an extra favor by adding additional protein. What these good news gossips are overlooking is the usually pulpy bun; the excess of sugar in the maltose or Coke; and overdose of salt that is sprinkled on the hamburger to make palatable.

So you decide to stay away from the hamburger joint, and buy your food from the supermarket. Are you any better off? Not if you buy frozen or canned food. The experts tell us that canned and frozen vegetables contain sugar, as well as all sorts of perspectives that are not doing anything to improve your health. According to these people, the only way to be sure your food is good for you is to buy it and cook it fresh. And then, of course, you have to eat it—and that creates another problem. The speed of today's world has encouraged many of us to eat far too fast. We do not chew our food enough, and we eat on the run or we jump and start running the minute we finish eating.

全国英语等级考试第四级模拟试卷(二)

Section I Listening

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear a conversation between a ticket seller and Robert at the cinema. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only*** *1* ***word*** *in each numbered box. You will hear the recording twice. You now have 25 seconds to read the table below.*

Information about Movie Tickets		
The number of shows today is		1.
The last show for today begins at	p. m.	2.
The six tickets wanted by Robert are seated		3.
The show that still has ten tickets left is at	p. m.	4.
His friend will likely get to the movie theatre by		5.

Part B

Directions:

For Questions 6 ~ 10, you will hear a recording of a telephone conversation between a student and a

professor. While you listen, complete the sentences and answer the question. Use ***not more than*** *3* ***words*** *for each answer. You will hear the recording twice. You now have 25 seconds to read the sentences and the question below.*

The one who is studying in Elizabeth's class is _____.		6.
What's wrong with Benjamin Jones?		7.
The paper will be due by _____.		8.
Elizabeth will deliver a course on next _____ semester.		9.
How many books will students have to read in the course?		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece ***only once.***

Questions 11 ~ 13 are based on the following monologue introducing the library. You now have 15 seconds to read Questions 11 ~ 13.

11. What is the topic of this passage?

[A] The largest library in the United States.　　[B] A special system for numbering books.

[C] Finding books in a library.　　[D] Finding a needle in a haystack.

12. Which is the largest public library in the United States?

[A] The Library of Congress.　　[B] The Harvard University Library.

[C] The Chicago Public Library.　　[D] The New York Public Library.

13. How do librarians keep books in order?

[A] They arrange the books in alphabetical order.

[B] They put the books into a card catalogue.

[C] They give a number to each book.

[D] They put the books on the shelves.

Questions 14 ~ 16 are based on the following story about a parrot. You now have 15 seconds to read Questions 14 ~ 16.

14. Why was the parrot regarded as unique?

[A] It looks like human being.　　[B] It looks different from other birds.

[C] It could learn to say most of words.　　[D] It could not imitate human speech.

15. The man was furious at the parrot because _____.

[A] the parrot cannot say the word "Ketunnel"

[B] the parrot wanted to kill its master

[C] the man found out that the parrot was stupid

[D] the parrot stayed with chickens

16. Why was he shocked at the scene the next morning?

[A] The parrot was killed by the chickens.

[B] The parrot was forcing the chickens to learn to say the word.

[C] The chickens are really cleverer than the parrot.

[D] The parrot can scream.

Questions 17 ~ 20 are based on the following monologue introducing log structure. You now have 20 seconds to read Questions 17 ~ 20.

17. What is the speaker mainly discussing?

[A] Traditional European architecture.

[B] Techniques for building log cabins.

[C] The history of log structures.

[D] How to build a home by yourself.

18. According to the speaker, what gives modern log homes their warm atmosphere?

[A] Their small size.

[B] Their rustic dirt floors.

[C] Their walls of rounded logs.

[D] Their sliding board windows.

19. Why did the early settlers use log for building homes?

[A] They liked the look of log homes.

[B] They had easy access to logs.

[C] They were unfamiliar with other building materials.

[D] They wanted to break away from European traditions.

20. According to the speaker, why were log cabins especially popular with settlers who moved west?

[A] They could easily build the log houses themselves.

[B] They could construct the houses from kits.

[C] They liked the cozy atmosphere of the log interior.

[D] They wanted homes that could be transported.

You now have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

That is the end of Listening Comprehension.

Section Ⅱ Reading

(75 minutes)

Part A

Directions:

Read the following text and fill each of the numbered spaces with ONE suitable word. Write your answers on the ANSWER SHEET.

The United States leads all industrial nations in the proportion of its young men and women who receive higher education. Why is this? What motivates a middle-income family with two children to (21) _____ loans for up to $120,000 so that their son and daughter can (22) _____ private universities for four years? Why would both parents in a low-income family take jobs to support their

three children at a state university—each(23)_____ an annual cost of $4,000? Why should a woman in her forties quit her job and use her savings to(24)_____ for the college education she did not receive when she was(25)_____?

Americans place a high personal value(26)_____ higher education. This is an attitude that goes(27)_____ to the country's oldest political traditions. People in the United States have always believed that education is necessary for(28)_____—a democratic government. They believe that it prepares the individual (29) _____ informed intelligent, political participation, including voting.

Before World War Ⅱ, a high school education seemed adequate for(30)_____ most people's needs, but the post-war period produced dozens of new questions for Americans. How should atomic (31)_____ be used? Should scientists be(32)_____ to experiment in splitting genes? Should money be spent on(33)_____ astronauts into space—or should it be used for aid to another nation? Americans rarely express a direct vote on such complex matters, but the representatives they elect(34)_____ decide such issues. In recent years, (35)_____ a result, many Americans have begun to regard a college education as necessary to becoming an informed American voter.

Part B

Directions:

Read the following three texts. Answer the questions below each text by choosing [A], [B], [C] or [D]. Mark your answers on the ANSWER SHEET.

Text 1

Speaking two languages rather than just one has obvious practical benefits. In recent years, scientists have begun to show that being bilingual makes you smarter. It can have a profound effect on your brain, improving cognitive skills not related to language and even shielding against dementia in old age.

Researchers, educators and policy makers in 20 century considered a second language to be an interference, cognitively speaking, that hindered a child's academic and intellectual development. There is ample evidence that in a bilingual's brain both language systems are active even when he is using only one language, thus creating situations in which one system obstructs the other. But this interference isn't so much a handicap as a blessing in disguise. It forces the brain to resolve internal conflict, giving the mind a workout that strengthens its cognitive muscles. The collective evidence from a number of such studies suggests that the bilingual experience improves the brain's so-called executive function. These processes include ignoring distractions to stay focused, switching attention willfully from one thing to another and holding information in mind—like remembering a sequence of directions while driving.

Why does the tussle between two simultaneously active language systems improve these aspects of cognition? Researchers thought the bilingual advantage stemmed primarily from an ability for inhibition that was honed by the exercise of suppressing one language system. But that explanation increasingly appears to be inadequate, since studies have shown that bilinguals perform better than monolinguals even at tasks that do not require inhibition, like threading a line through an ascending series of

numbers scattered randomly on a page.

The key difference between bilinguals and monolinguals may be more basic: a heightened ability to monitor the environment. "Bilinguals have to switch languages quite often," says Albert Costa, a searcher at the University of Pompeu Fabra in Spain. "It requires keeping track of changes around you in the same way that we monitor our surroundings when driving." In a study comparing German-Italian bilinguals with Italian monolinguals on monitoring tasks, Mr. Costa and his colleagues found that the bilingual subjects not only performed better, but they also did so with less activity in parts of the brain involved in monitoring, indicating that they were more efficient at it.

The bilingual experience appears to influence the brain from infancy to old age, and there is reason to believe that it may also apply to those who learn a second language later in life.

36. According to the passage, which of the following is NOT the advantage of speaking two languages?

[A] Improving other field's cognitive skills.

[B] Benefiting to the brain and making people smarter.

[C] Protecting against Alzheimer's disease.

[D] Enhancing the reactivity and memory.

37. The underlined sentence in Paragraph 2 means _____.

[A] this interference may help develop our brain

[B] our brain will face more challenges from bilingual learning

[C] bilingual experience could improve speaker's comprehension

[D] speaking two languages obstructs people's memory of driving

38. The key difference between bilinguals and monolinguals is that _____.

[A] the basic ability restrains two languages

[B] they pay attention to the changes of their own conditions

[C] bilinguals are more efficient and cautious

[D] bilinguals are more sensitive to surroundings

39. According to the text, which of the following is TRUE?

[A] People believe that monolingual learning positively affects the brain.

[B] Monolinguals need to neglect brains' internal conflict and stay focused.

[C] Bilinguals could do better in observing the changes of environment.

[D] Bilingual experience affects children more than old people.

40. What is the most suitable subject of the passage?

[A] Bilingual learning could benefit from their ability.

[B] Bilingual could work effectively without disturbance.

[C] Two active language systems make people smarter.

[D] It is never too late to learn a second language.

Text 2

Genetically engineered crops are safe for humans and animals to eat and have not caused increases in cancer, obesity, gastrointestinal illnesses, Sidney disease, autism or allergies, an exhaustive re-

port from the National Academies of Science released Tuesday found.

Overall, genetically engineered (GE) crops saved farmers in the United States money but didn't appear to increase crop yields. They have lowered pest populations in some areas, especially in the Midwest but increased the number of herbicide-resistant weeds in others. There's also no evidence that GE crops have affected the population of monarch butterflies, the report said.

To gauge whether foods made from genetically modified crops were safe for human consumption, the committee compared disease reports from the United States and Canada, where such crops have been consumed since the mid-1990s, and those in the United Kingdom and western Europe, where they are not widely eaten. No long-term pattern of increase in specific health problems after the introduction of GE foods in the 1990s in the United States and Canada was found.

There was no correlation between obesity or Type Ⅱ diabetes and the consumption of GE foods. Celiac disease, which makes humans intolerant of gluten, increased in both populations. Patterns in the increase in autism spectrum disorder in children were similar in both the United Kingdom and the United States, the committee reported.

Overall the report concluded that there were no differences in terms of a higher risk to human health between foods made from GE crops and those made from conventionally-bred crops.

Food & Water Watch, a government accountability group in Washington D. C., said the committee's ties to the biotech industry and other corporations create conflicts of interest and raise questions about the independence of its work. "Critics have long been marginalized," said Wenonah Hauter, the group's executive director.

A significant portion of American consumers are concerned about the safety or other effects of foods made with genetically modified crops, often called GMOs for genetically modified organisms. A survey released last year by the NPD Group, a market research firm, found that 57% of Americans were concerned that genetically modified foods posed a health hazard.

The food industry has taken notice. In 2015, *Progressive Grocer*, a trade publication, reported that total U. S. sales of food and beverage products labeled "non-GMO" reached $10 billion during 2014. The National Academies report will likely not sway these consumers, said Phil Lempert, a Los Angeles-based food industry analyst.

"It's an emotional issue, it's not a science issue," he said.

41. What the report from the National Academies of Science finds is got by _____.

[A] comparing the disease reports from consumers and non-consumers of GE foods

[B] estimating the correlation between obesity and the consumption of GE foods

[C] differentiating GE crops from conventionally-bred crops

[D] doing a market research of health hazards

42. According to Paragraphs 3 and 4, we can infer that _____.

[A] European people have widely accepted GE crops

[B] GE crops have been introduced to Britain in the 1990s

[C] Celiac disease has relationship to GE crops consumption

[D] People in UK and US have suffered from overweight

43. The word "marginalized" (Para. 6) is closest in meaning to _____.

[A] condemned [B] abandoned

[C] neglected [D] evaluated

44. Wenonah Hauter believes that the report from the National Academies of Science _____.

[A] answers questions of the public about GM foods

[B] is impacted by groups with different interests

[C] creates conflicts between corporations and public

[D] tightens the ties between society and biotech industry

45. Which of the following would be the best title of the text?

[A] Academies of Science Finds GMOs Unharmful to Human Health

[B] Public Concern about GMOs Is Not Reduced with Science Report

[C] The Independence of US Science Report Is Questioned

[D] Americans Prefer the Non-GMO for Its Healthier Element

Text 3

Parents now have a popular belief that schools are no longer interested in spelling. No school I have taught in has ever ignored spelling or considered it unimportant as a basic skill. There are, however, greatly different ideas about how to teach it or how much priority (优先) it must be given over general language development and writing ability. The problem is that how to encourage a child to express himself freely and confidently in writing without holding him back with the complexities of spelling.

If spelling becomes the only focal point of his teacher's interest, clearly a bright child will be likely to "play safe". He will be prone to write only words within his spelling range, choosing to avoid adventurous language. That's why teachers often encourage the early use of dictionaries and pay attention to content rather than technical ability.

I was once shocked to read on the bottom of a sensitive piece of writing about a personal experience: "This work is terrible! There are far too many spelling errors and your writing is illegible (难以辨认的)." It may have been a sharp criticism of the pupil's technical abilities in writing, but it was also a sad reflection on the teacher who had omitted to read the essay, which included some beautiful expressions of the child's deep feelings. The teacher was not wrong to draw attention to the errors, but if his priorities had centred on the child's ideas, an expression of his disappointment with the presentation would have given the pupil more motivation (动力) to seek improvement.

46. Teachers are different in their opinions about _____.

[A] the difficulties in teaching spelling

[B] the role of spelling in general language development

[C] the complexities of the basic writing skills

[D] the necessity of teaching spelling

47. The expression "play safe" probably means _____.

[A] to write carefully

[B] to do as teachers say

[C] to use dictionaries frequently

[D] to avoid using words one is not sure of

48. Teachers encourage the use of dictionaries so that _____.

[A] students will be able to express their ideas more freely

[B] students will have more confidence in writing

[C] teachers will have less trouble in correcting mistakes

[D] students will learn to be independent of teachers

49. The writer seems to think that the teacher's judgement on that sensitive piece of writing is _____.

[A] unfair [B] reasonable

[C] foolish [D] careless

50. The major point discussed in the passage is _____.

[A] the importance of developing writing skills

[B] the complexities of spelling

[C] the correct way of marking compositions

[D] the relationship between spelling and the content of a composition

Part C

Directions:

The following paragraphs are given in a wrong order. For Questions 51 ~ 55, you are required to reorganize these paragraphs into a coherent text by choosing from the list [A]-[G] and filling them into the numbered boxes. Paragraphs [C] and [D] have been correctly placed. Mark your answers on ANSWER SHEET.

[A] Is there still a place for the tiddlers? "That's an explicit yes," says Bob Shea of NACUBO, "but do there need to be mergers and acquisitions? That's an unequivocal yes as well." Many small colleges serve niche markets, including a large faith-based one. "Many students wouldn't go to college at all or would be lost in a large one," says Ms. Brown.

[B] Part of the problem, at least for small liberal arts institutions, is that parents and would-be students are questioning the value of the liberal arts. They want a solid return, in the form of a well-paying job, for their four-year investment. There are still an awful lot of small places: about 40% of degree-granting colleges have fewer than 1,000 students. But enrolment at these institutions has fallen by more than 5% since 2010, while the student population has increased overall.

[C] Some tiny colleges rely on donations to save the day. Alumni are concerned about the value of their own degree if the college closes, but donors can grow weary. Marlboro, meanwhile, is using its endowment to offer scholarships to one student from each state in an effort to expand its usual pool from New England and to open up new student pipelines. It saw success straight away. It increased its student population by 6% this academic year, after years of falling enrolment.

[D] Visitors stand out at Marlboro College's pastoral campus in the woods of Vermont, but not because they are special or even unexpected. With 190 enrolled students and just a few dozen faculty and staff, everyone knows everyone. The student-faculty ratio is five to one, about the lowest in the

country. The college administration has worked hard to stay small: the student population has rarely topped 350. But in the years since its founding after the Second World War, Marlboro has often skirted financial ruin. In 1993 it had only a few payrolls left in the bank. It was rescued by a foundation. Today it is looking for ways to save itself and already seeing some success.

[E] To attract students, some colleges are reducing their sticker price, but this is not sustainable for colleges without healthy endowments. According to the National Association of College and University Business Officers (NACUBO), 49% of independent colleges and universities give discounts, up from 38% a decade ago.

[F] Alice Brown, a former head of the Appalachian College Association, a network of tiny colleges in the Appalachian Mountains, thinks more must merge or close. The Berklee College of Music (4,371 students) and the Boston Conservatory (730 students) merged in June. Small colleges often share accountants or laboratories already.

[G] Marlboro is not alone in facing revenue and enrolment pressures. Burlington College (70 students), also in Vermont, shut its doors over the summer. Sweet Briar, a well-regarded women's college in Virginia, nearly closed to its 245 students last year. A last minute bout of fundraising by alumni saved it, for now. Moody's, a credit-ratings agency, said in 2015 that the pace of closures and mergers will accelerate and could triple from an average of five per year over the next few years. Dennis Gephardt of Moody's says closures and mergers will be concentrated among the smallest colleges.

D	→	51.		→	52.		→	53.		→	54.		→	55.		→	C

Part D

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write your translation clearly on the ANSWER SHEET.

There is a range of factors that affect the demand for private rental accommodation in Astoria. (56) In the past, the 20-29 year age group has had the highest rental participation rates. A continued decline over the next decade in the size of this group indicates a long-term easing of demand. Other factors may also have an adverse effect on rental demand, such as falls in the rates of overseas immigration or high unemployment rates, especially among younger age groups. Furthermore, a decline in the participation in full-time employment of those in the 18-24 year age group will also have a negative influence on demand. (57) On the other hand, a factor that may reverse these trends will be the ongoing difficulties faced by low to moderate income groups in buying their own homes and the long waiting periods for public housing.

In Astoria, landlords play an important role as suppliers of housing in the private rental market. Generally, they fall into one of six categories. Firstly, the absentee landlord is an individual who, rather than making a conscious investment decision, is forced to rent out his or her own home while away for a period of time. The absentee landlord typically holds no more than one property but, as a group, they control approximately 25% of rental properties in Astoria.

The survey found that this group represents approximately 37% of landlords. (58) Next the equity

investor is the type of landlord who holds between two and four properties over many years with the intention of complete ownership to provide income in retirement. This group controls about 25% of private rental properties. Similarly, the negative gearer owns a number of properties in the same range but only for a medium-term period. The investment is used to reduce overall taxation and the properties generally are sold when equity reaches 40%-50%. This type of investor controls approximately 20% of all private rental properties. (59) Another type of landlord is the property speculator who holds at least five properties and is always trying to increase the number. Property speculators generally own properties for a moderate to long period. Furthermore, they generate levels of equity equal to about 50% of the value of their properties. The equity is then reinvested in additional properties. Rental income approximately equals costs. The property manager and the property speculator equally share 25% of private rental properties in Astoria. The former type of landlord also has large numbers of properties but with equity levels three-quarters of the value of the properties. A property manager is typically an incorporated company whose main business is in the property field. The properties are held for long periods and the rental income generated significantly exceeds costs. (60) The final category is that of the casual landlord who is typically a person who informally lets a room or shares the house he or she lives in, usually as a means of easing loan cost. Landlords in this group tend to own only the building they live in and are thought to make up the remaining share of the rental market.

Section Ⅲ Writing

(40 minutes)

Directions:

61. *Read the following text and write an essay to*

1) summarize the main points of the text,

2) make clear your own viewpoints, and

3) justify your stand.

In your essay, make full use of the information provided in the text. If you use more than three consecutive words from the text, use quotation marks("").

You should write 160 – 200 words on the ANSWER SHEET.

Plastic, it seems, is no longer fantastic. Even Hollywood, that factory of artifice, is demanding a return to reality when it comes to women's bodies.

Disney Studio's recent casting call for female extras for the fourth Pirates of the Caribbean film included a surprise announcement: "Must have real breasts. Do not submit if you have implants." Surgically enhanced breasts might still be considered sexy or essential by airhead starlets and models, but the new buzzword in America is "authenticity". That's why, for women in the public eye, having fake breasts is looking increasingly less like a career move and more like career suicide. Another indication that fake breasts are going bust is the fact that television shows such as Extreme Makeover and The Swan(TV which promised to nip and tuck ordinary women into goddesses) have been cancelled, while statistics from the American Society for Aesthetic Plastic Surgery show that the number of breast

enlargements in America fell from 365,000 to 312,000 last year.

In many surveys, research has shown that the larger the breasts, the more stupid a woman is considered to be. Other women, meanwhile, consider women with large breasts as a threat—so having a surgical enhancement is a lose-lose situation. Chantelle Houghton (from Big Brother remember her?) almost immediately regretted getting implants to boost her chest and admits that they were "taking over her life", and she had to resort to physiotherapy to deal with the back pain they caused. Even Sharon Osborne, voted the queen of nip and tuck, said recently: "I wish I'd never had my breasts done. It's like having a waterbed on your chest. I hate them. I want to have the bags taken out—then I'll put them on eBay."

The more stories we hear like this the better, because then perhaps young women will realize that large breasts aren't the assets they think they are—or Hollywood has made them out to be.

全国英语等级考试第四级模拟试卷(三)

Section I Listening

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear a news report about a case of stealing. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only 1 word*** *in each numbered box. You will hear the recording twice. You now have 25 seconds to read the table below.*

News over a case of stealing		
the day of the broadcast		1.
number of thieves		2.
number of precious paintings		3.
Lord and Lady Chest-field have been treated for		4.
The landlord refuses to renew their traditional		5.

Part B

Directions:

For Questions 6 ~ 10, you will hear a recording of a conversation between a student and a clerk in

the registration office. While you listen, complete the sentences and answer the questions. Use ***not more than 3 words*** *in each numbered box. You will hear the recording twice. You now have 25 seconds to read the sentences below.*

The student cannot register because _____.		6.
The student had thought he could register any time during _____ of classes.		7.
The woman who gave the wrong information probably was _____.		8.
What does the registration officer need to know when a student is to register?		9.
Who is the student going to talk to?		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece ***only once****.*

Questions 11 ~ 13 are based on the following monologue introducing the Curies. You now have 15 seconds to read Questions 11 ~ 13.

11. When were the first x-rays discovered?

[A] In 1894. [B] In 1895. [C] In 1904. [D] In 1911.

12. Where did Marie and Pierre Curie meet each other?

[A] In London. [B] In Hamburg. [C] In Paris. [D] In Rome.

13. When was Marie awarded the Nobel Prize?

[A] In 1904. [B] In 1911.

[C] In 1934. [D] Both A and B.

Questions 14 ~ 16 are based on the following monologue. You now have 15 seconds to read Questions 14 ~ 16.

14. Which of the following is NOT a way to punish the one who commits a crime?

[A] To be sent to a prison. [B] To be tortured physically.

[C] To be ordered to do community work. [D] To be fined.

15. What is a prisoner in an open prison NOT allowed to do?

[A] Study. [B] Work.

[C] Have visitors. [D] Go traveling.

16. Which of the following is NOT true?

[A] All of the prisoners get paid for their work.

[B] 5 percent of the prisoners are women.

[C] All prisoners should work.

[D] None of the prisoners is to sleep outside.

Questions 17 ~ 20 are based on the following talk in a geography class. You now have 20 seconds to read Questions 17 ~ 20.

17. What does the speaker say about the road between Maine and Quebec?

[A] It was built by the Canadians.

[B] It was built to facilitate trade.

[C] The path for the road was extremely difficult to clear.

[D] Hostilities between Canada and the United States caused construction delays.

18. What is one reason Canadians began to immigrate to Maine during the 1800s?

[A] Maine was less influenced by the French government.

[B] Maine had better employment opportunities.

[C] Maine was politically stable.

[D] Marine had a better climate.

19. What can be inferred about the region including Maine and Quebec during the early 1800s?

[A] The area was economically unified.

[B] The authorities were unable to enforce law and order.

[C] The two governments fought for control of the area.

[D] Most of the people living there spoke only French.

20. What subject is the speaker most likely to discuss next?

[A] The latest practices of accurate mapmaking.

[B] The impact of epidemics on mass migration.

[C] The advantages of establishing international trade agreements.

[D] The technology used to locate the Old Canada Road.

You now have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1. That is the end of Listening Comprehension.

Section Ⅱ Reading

(75 minutes)

Part A

Directions:

Read the following text and fill each of the numbered spaces with ONE suitable word. Write your answers on the ANSWER SHEET.

You may say that the business of marking books is going to slow down your reading. It probably will. That's one of the(21)_____ for doing it. Most of us have been taken in by the notion that speed of(22)_____ is a measure of our intelligence. There is no such things as the right(23)_____ for intelligent reading. Some things should be (24)_____ quickly and effortlessly, and some should be read slowly and even laboriously. The sign of intelligence(25)_____ reading is the ability to read different things differently according to their worth. In the(26)_____ of good

books, the point is not to see how many of them can you get through, (27) _____ how many can you get through them—how many you can (28) _____ your own. A few friends are better than a thousand acquaintances. If this be your goal, (29) _____ it should be, you will not be impatient if it takes more time and effort to read a great book than a newspaper (30) _____.

You may have another objection to (31) _____ books. You can't lend them to your friends (32) _____—nobody else can read them (33) _____ being distracted by your notes. What's more, you won't want to lend them because a (34) _____ copy is a kind of intellectual diary, and (35) _____ it is almost like giving your mind away.

If your friend hopes to read your *Shakespeare*, or *The Federalist Papers*, tell him, gently but firmly, to buy a copy. You will lend him your car or your coat—but your books are as much a part of you as your head or your heart.

Part B

Directions:

Read the following three texts. Answer the questions below each text by choosing [A], [B], [C] or [D]. Mark your answers on the ANSWER SHEET.

Text 1

Proper arrangement of classroom space is important to encouraging interaction. Most of us have noticed how important physical setting is to efficiency and comfort when we work. Today's corporations hire human engineering specialists and spend a great deal of time and money to make sure that the physical environments of buildings are fit to the activities of their inhabitants.

Similarly, college classroom space should be designed to encourage the activity of critical thinking. We will move into the twenty-first century, but step into almost any college classroom and you will step back in time at least a hundred years. Desks are normally in straight rows, so students can clearly see the teacher but not all their classmates. The assumption behind such an arrangement is obvious: everything important comes from the teacher.

With a little imagination and effort, unless desks are fixed to the floor, the teacher can correct this situation and create space that encourages interchanges among students. In small or standard sized classes, chairs, desks and tables can be arranged in different ways: circles, U-shapes, or semicircles. The primary goal should be for everyone to be able to see everyone else. Larger classes, particularly those held in lecture halls, unfortunately, allow much less flexibility.

Arrangement of the classroom should also make it easy to divide students into small groups for discussion or problem-solving exercises. Small classes with moveable desks and tables present no problem. Even in large lecture halls, it is possible for students to turn around and form groups of four to six. Breaking a class into small groups provides more opportunities for students to interact with each other, think out hard, and see how other students' thinking processes operate—all these are the most important elements in developing new modes of critical thinking.

In courses that regularly use a small group format, students might be asked to stay in the same small groups throughout the course. A colleague of mine allows students to move around during the first two weeks, until they find a group they are comfortable with. He then asks them to stay in the

same seat, with the same group, from then on. This not only creates a comfortable setting for interaction but helps him learn students, names and faces.

36. The expression "step back in time at least a hundred years" (Para. 2) is intended to convey the idea that _____.

[A] college classrooms often remind people of their college life

[B] critical thinking was encouraged even a century ago

[C] a hundred years ago, desk arrangement in a classroom was quite different

[D] there is not much change in the college educational idea over the past hundred years

37. The primary purpose of desk rearrangement is _____.

[A] for the teacher to divide students into small groups

[B] to make it possible for students to interact with each other

[C] for the teacher to find out how students think

[D] to give students more opportunities to practice speaking

38. The greatest advantage in allowing each student to find his own group might be that _____.

[A] the teacher saves the trouble in doing that

[B] learning is made comfortable in this way

[C] the teacher can easily remember students' names and faces

[D] brighter students can help slower ones

39. Which of the following is NOT true according to the passage?

[A] New kind of desks and chairs should be made.

[B] Many companies are trying to improve the working settings for their employees.

[C] Classroom interaction between students is essential to the training of critical thinking.

[D] A comfortable environment leads to higher working efficiency.

40. Which of the following arrangements of the classroom can bring about the best teaching effect?

[A] Arranging the desks in straight rows and providing every minute for the students to listen to the teacher.

[B] Breaking a class into small groups and letting the students find the group they prefer to stay in.

[C] Putting the students in larger classes and allowing them to discuss.

[D] Breaking a class into small groups and asking the students to stay in the fixed groups as the teacher arranges.

Text 2

The United Nations, notorious for endless deliberations, is trying a technological quick fix. Its Global Compact Office, which promotes corporate responsibility, has embraced a once marginal social technology—the wiki—in the hope that it will help staff in 80 countries share information and reach consensus with less deliberation and more speed. The office has done this by enlisting the public in its review of progress reports from more than 2,000 companies—an effort to make sure each is complying

with established social and environmental guidelines. It's debatable whether encouraging public input is a good way to increase efficiency, but the move is the latest example of a quickly growing trend.

Wiki software—easy-to-use programs that let anyone with Internet access create, remove and edit content on a Web page—first gained popularity thanks to Wikipedia, the user-generated encyclopedia that has come to be praised as one of the Web's greatest resources. Now the technology is increasingly spreading outside the world of bizarre tech people and into the mainstream, being adopted by workplaces, corporations and even governments. In what's been called the "wiki workplace," a growing number of organizations have begun shifting from traditional hierarchical structures to self-organized and collaborative networks, using wiki software—a basket of technologies that include wikis, blogs and other tools—to foster innovation across organizational and geographic boundaries. Executives say the new tools make it easier for teams to collaborate and share information, and to get projects up and running on the fly. "Collaborative software has become a very important part of how businesses will invent and innovate," says Ken Bisconti, IBM's vice president of messaging and collaboration software.

That the United Nations is embracing wikis is an indication that organizations are beginning to get over their fear that this technology could introduce chaos into their operations. As Wikipedia has demonstrated, Web sites that are open to the public are vulnerable to deliberate injury, bias, inconsistency and other problems. But most corporate wikis are closed to the public, limiting access to employees inside the company firewall. These quasi-closed systems, say technology experts, impose accountability simply by keeping a record of every change and who made it.

IBM has used internal wikis since 2005, with an eye to selling the concept to its clients. One of its first applications was a wiki that employees could use to collaborate on writing a blogging manifesto: a set of policies for appropriate use of blogs in and out of the office. Thousands of employees contributed and edited that manifesto, which after receiving corporate approval—became the company's official policy.

41. What is the passage mainly about?

[A] It is about how the United Nations is forced to adopt the wiki software to improve efficiency.

[B] It is an introduction to the wiki technology and its growing trend.

[C] It reviews the advantages and disadvantages of wiki technology.

[D] It is about the immaturity of the wiki technology and its future development.

42. The application of the wiki technology turns out to be _____.

[A] very reliable

[B] rather superficial

[C] somewhat contradictory

[D] quite encouraging

43. The basic problem of applying wiki technology lies in that _____.

[A] some people doubt it is a communist plot

[B] the technology is still not mature enough to be used widely

[C] there might be purposeful injury and damage from the public

[D] the technology can only be used internally

44. Which of the following is NOT the advantage of wiki technology?

[A] It is a safe technology when being applied both externally and internally.

[B]The public can participate in the creation of web contents.

[C]It can enhance communication at least within an organization.

[D]It helps promote innovation and improve work efficiency.

45. Which of the following is TRUE according to the text?

[A]UN has gained positive results by using wiki technology.

[B]IBM's adoption of wikis turns out to be a failure.

[C]Wiki software is changing some corporate network structure.

[D]Wiki websites will replace conventional websites.

Text 3

A white kid sells a bag of cocaine at his suburban high school. A Latino kid does the same in his inner-city neighborhood. Both get caught. Both are first-time offenders. The white kid walks into juvenile court with his parents, his priest, a good lawyer and medical coverage. The Latino kid walks into court with his mom, no legal resources and no insurance. The judge lets the white kid go with his family; he's placed in a private treatment program. The minority kid has no such option. He's detained.

There, in a nutshell, is what happens more and more often in the juvenile-court system. Minority youths arrested on violent felony charges in California are more than twice as likely as their white counterparts to be transferred out of the juvenile-justice system and tried as adults, according to a study released last week by the Justice Policy Institute, a research center in San Francisco. Once they are in adult courts, young black offenders are 18 times more likely to be jailed and Hispanics seven times more likely than are young white offenders. "Discrimination against kids of color accumulates at every stage of the justice system and skyrockets when juveniles are, tried as adults," says Dan Macallair, a co-author of the new study. "California has a double standard: throw kids of color behind bars, but rehabilitate white kids who commit comparable crimes."

Even as juvenile crime has declined from its peak in the early 1990s, headline grabbing violence by minors has intensified a get-tough attitude. Over the past six years, 43 states have passed laws that make it easier to try juveniles as adults. In Texas and Connecticut in 1996, the latest year for which figures are available, all the juveniles in jails were minorities. Vincent Schiraldi, the Justice Policy Institute's director, concedes that "some kids need to be tried as adults. But most can be rehabilitated."

Instead, adult prisons tend to brutalize juveniles. They are eight times more likely to commit suicide and five times more likely to be sexually abused than offenders held in juvenile detention. "Once they get out, they tend to commit more crimes and more violent crimes," says Jenni Gainsborough, a spokeswoman for the Sentencing Project, a reform group in Washington. The system, in essence, is training career criminals. And it's doing its worst work among minorities.

46. From the first paragraph we learn that _____.

[A]the white kid is more innocent than the minority kid

[B]the white kid has got a lot of help than the minority kid

[C]the white kid and minority kid have been treated differently

[D] the minority kid should be set free at once

47. According to the passage, which of the following is TRUE?

[A] Kids shouldn't be tried as adults.

[B] Discrimination exists in the justice system.

[C] Minority kids are likely to commit crimes.

[D] States shouldn't pass the laws.

48. The word "skyrocket" (Line 7, Paragraph 2) means _____.

[A] rising sharply　　[B] widening suddenly

[C] spreading widely　　[D] expanding quickly

49. It can be inferred from the last paragraph that _____.

[A] something seems to be wrong with the justice system

[B] adult prisons have bad influence on the juveniles

[C] juveniles in adult prison are ill-treated

[D] the career criminals are trained by the system

50. The passage shows that the author is _____ the present situation.

[A] amazed at　　[B] puzzled by

[C] disappointed at　　[D] critical of

Part C

Directions:

The following paragraphs are given in a wrong order. For Questions 51 ~ 55, you are required to reorganize these paragraphs into a coherent text by choosing from the list [A]-[G] and filling them into the numbered boxes. Paragraphs [B] and [G] have been correctly placed. Mark your answers on ANSWER SHEET.

[A] Until summarizing is possible, managers and CEOs who are experts in their various fields won't trust a computer that cannot offer a reason for why a creative yet risky move is the best one to make. Researchers have developed a mathematical proof that shows the limits to how creative a computer can be. They found that the fastest modern supercomputer couldn't list or explore all the features of an object/thing even if it had started working on the problem way back in the 1950s. Further, computers cannot always fill in the gaps in our lack of understanding for how things work. Our theories will always need actual empirical measurements to fill in the gaps in our understanding.

[B] We shouldn't concern ourselves, therefore, about whether computers will overtake humans; instead, we should focus on designing a system that allows humans and computers to easily collaborate together so each partner can build upon the other's strengths and counter the other's weaknesses. Along the way, humans will rise to the challenge of working with a strong machine partner. In some ways, this is already happening. After losing the first three games to AlphaGo, and witnessing the computer system make novel moves that players hadn't seen before, Lee Sedol made a highly creative move of his own and ended up winning the game.

[C] Despite these advancements, computers still have limitations. For example, even though AlphaGo leaned on deep learning to make moves that increased its chances of winning, its program-

mers didn't know why the system made certain moves. They could peer in to see such things as the values at the many digital "neurons" of a many-layered network, but much of the information was distributed across large ranges of the neural network and was not available to be summarized in a reasoned argument as to why a particular move was chosen.

[D] Artificial intelligence is disturbing the workforce, and will continue to do so as its capabilities increase. Inevitably, artificial intelligence will soon be able to do the administrative tasks that consume much of managers' time faster, better, and at a lower cost. But, when it comes to more complex and creative tasks such as innovation, the question still remains whether AI can do the job better than humans.

[E] One can see more of this in the future. As we develop systems and they evolve, humans and computers will continue to challenge each other, and, as a result, both will become more innovative in the process. Further, designing the proper interface for human and computers to collaborate on the same problem will unleash a level of innovativeness that neither partner can achieve on their own.

[F] Given these limitations, researchers have proposed a solution: a new human-computer interface (HCI) that allows humans and computers to work together to counter each other's weaknesses. Computers, for example, could prevent humans from falling prey to cognitive biases such as functional fixedness, assumption blindness and analogy blindness. And humans could make up the creative deficiencies of computers. In order for this to work, the interface needs to be both human- and computer-friendly.

[G] There's no doubt that recent advancements in AI have been extraordinary. AlphaGo, a computer program designed to play the ancient board game Go, beat Lee Sedol, one of best players in the world, in a 4-1 landslide. Since Go is far more complex game than chess, AlphaGo's victory was a major breakthrough.

51.		→	G	→	52.		→	53.		→	54.		→	B	→	55.	

Part D

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write your translation clearly on the ANSWER SHEET.

The authors attribute each tower's collapse to three separate but related "loading events". (56) The first event was a Boeing aircraft hitting the building, cutting through the exterior structure and creating a fireball that immediately consumed some of the estimated 10,000 gallons (38 kiloliters) of jet fuel. The high-rises, structural systems were sufficiently redundant. However, that this major damage by itself did not cause the collapse. According to the report, "most of the load supported by the failed columns is believed to have been transferred to adjacent perimeter columns through Vierendeel behavior of the exterior wall frame".

(57) The second event was the continuing fire, fed both by the remaining jet fuel and the office contents of furniture and paper. (58) This fire heated and weakened the structural systems, adding stress to the damaged structure. Meanwhile, the sprinklers were not operating as designed. "Even if these systems had not been compromised by the impacts," says the report, "they would likely have

been ineffective... (59) the initial flash fires of jet fuel would have opened so many sprinkler heads that the systems would have quickly depressurized and been unable to effectively deliver water to the large area of fire involvement."

The third event was a progressive collapse: (60) "As the large mass of the collapsing floors above accelerated and impacted the floors below, it caused an immediate progressive series of floor failures, punching each in turn onto the floor below, accelerating as the sequence progressed. Freestanding exterior walls... buckled at the bolted column splice connections and also collapsed."

Section Ⅲ Writing

(40 minutes)

Directions:

61. *Read the following text and write an essay to*

1) summarize the main points of the text,

2) make clear your own viewpoints and

3) justify your stand.

In your essay, make full use of the information provided in the text. If you use more than three consecutive words from the text, use quotation marks ("").

You should write 160 – 200 words on the ANSWER SHEET.

No woman can be too rich or too thin. This saying often attributed to the late Duchess of Windsor embodies much of the odd spirit of our times. Being thin is deemed as such a virtue.

The problem with such a view is that some people actually attempt to live by it. I myself have fantasies of slipping into narrow designer clothes. Consequently, I have been on a diet for the better—or worse—part of my life. Being rich wouldn't be bad either, but that won't happen unless an unknown relative dies suddenly in some distant land, leaving me millions of dollars.

Where did we go off the track? When did eating butter become a sin, and a little bit of extra flesh unappealing, if not repellent? All religions have certain days when people refrain from eating and excessive eating is one of Christianity's seven deadly sins. However, until quite recently, most people had a problem getting enough to eat. In some religious groups, wealth was a symbol of probable salvation and high morals, and fatness a sign of wealth and well-being.

Today the opposite is true. We have shifted to thinness as our new mark of virtue. The result is that being fat—or even only somewhat overweight—is bad because it implies a lack of moral strength.

Our obsession with thinness is also fueled by health concerns. It is true that in this country we have more overweight people than ever before, and that in many cases, being overweight correlates with an increased risk of heart and blood vessel disease. These diseases, however, may have as much to do with our way of life and our high-fat diets as with excess weight. And the associated risk of cancer in the digestive system may be more of a dietary problem—too much fat and a lack of fiber—than a weight problem.

全国英语等级考试第四级模拟试卷(四)

Section Ⅰ Listening

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear a monologue about Shakespeare's life. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only*** *1* ***word*** *in each numbered box. You will hear the recording twice. You now have 25 seconds to read the table below.*

Information about Shakespeare's Life		
Shakespeare was born in		1.
In 1586, he left his		2.
He was well known as an actor and a dramatist in the year		3.
In 1613, he		4.
He died in		5.

Part B

Directions:

For Questions 6 ~ 10, you will hear a recording of a conversation between Mary and the other

student about Mary's prospective job. While you listen, complete the sentences and answer the questions. Use ***not more than 3 words*** *for each answer. You will hear the recording twice. You now have 25 seconds to read the sentences and the questions below.*

The woman is going to talk to Professor Smith about _____.		6.
The job is to help others with their _____.		7.
Actually, the woman is undertaking a job as a _____.		8.
How did the woman know the employment information?		9.
The kids are available after _____.		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece only once.

Questions 11 ~ 13 are based on the following monologue introducing American holidays. You now have 15 seconds to read Questions 11 ~ 13.

11. What does the word "valentines" refer to in the passage?

[A] Boyfriends. [B] Girlfriends.

[C] People. [D] Cards.

12. What is the most suitable title for this passage?

[A] Black History Month [B] Valentine's day

[C] Celebrations [D] February

13. Why is February named "Black History Month"?

[A] Because it is the month when slavery was abolished.

[B] Because it is the time to honor blacks who make contributions to American culture.

[C] Because some blacks were elected mayors in February.

[D] Because there are programs for black people.

Questions 14 ~ 16 are based on the following monologue given by a professor about the physiology course. You now have 15 seconds to read Questions 14 ~ 16.

14. When is this lecture given?

[A] Just before the final exam. [B] During the first week of classes.

[C] During the second week of classes. [D] After the second laboratory quiz.

15. How would the vitalist view the functions of the mind?

[A] The mind can be completely understood through scientific observation.

[B]The mind may function separately from the brain.

[C]The mind is too complex to be considered part of the"vital force".

[D]The mind and the brain have the same chemical and physical functions.

16. What does the professor tell her students to do?

[A]Transfer to the introductory class.

[B]Write an essay about vitalism and mechanism.

[C]Take an article home and read it.

[D]Decide whether they are mechanists or vitalists.

Questions 17 ~ 20 are based on the following monologue introducing the "Clovis first" theory. You now have 20 seconds to read Questions 17 ~ 20.

17. Why are"Clovis people"believed to first enter North America?

[A]Some fossils have been discovered.

[B]They were found to have lived in the area known as the refuge during the ice age.

[C]Some spear points were discovered.

[D]It is in accordance with the biblical explanation.

18. According to the"Clovis first"theory, when did people travel to North America?

[A]30,000 years ago. [B]13,000 years ago.

[C]14,000 years ago. [D]20,000 years ago.

19. What is the alternative route of entry?

[A]The land bridge between Siberia and Alaska.

[B]Western Canada.

[C]Wales Island.

[D]The Pacific coast.

20. Which of the following words can best describe the author's attitude in writing the article?

[A]Informative. [B]Optimistic.

[C]Convincing. [D]Enthusiastic.

You now have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1. That is the end of Listening Comprehension.

Section Ⅱ Reading

(75 minutes)

Part A

Directions:

Read the following text and fill each of the numbered spaces with ONE suitable word. Write your answers on the ANSWER SHEET.

Pay and productivity, it is generally assumed, should be related. But the relationship seems to weaken(21)_____ people get older.

Mental ability declines with age. That is the same for the brainy and the dim—and not(22)_____ for humans: it is measurable even for fruit flies. (23)_____ minds that keep lively will

suffer less than the lazy. In general, the more education you have, the more productive your old(24) _____ will be.

Some(25) _____ decline faster than others. According to most studies, people's numerical and reasoning abilities are at their best in their 20s and early 30s. (26) _____ abilities—those that depend on knowledge—may improve with age.

For most workers, decreased abilities will(27) _____ to lower productivity; only a minority will find know-how and knowledge outweighs their failing powers. Even those employees who remain highly productive will be likely to shine only in a narrow(28) _____.

Academics notice this. It is less clear that employers do. Studies of supervisors-ratings show no clear correlation(29) _____ age and perceived productivity. When other employees-views are(30) _____ into account though, the picture changes: these ratings suggest that workers in their 30s are the(31) _____ productive and hardworking, with scores falling thereafter.

That is(32) _____ up by studies of work samples, which find lower productivity among the oldest employees. A study for America's Department of Labor showed job performance peaking at 35, and(33) _____ declining. It varied by industry: the fall was slower in footwear, but faster in furniture.

Intellectual occupations are harder to measure, but the picture is the same. Academics seem to publish(34) _____ as they age. Painters, musicians and writers show the same tendency. Their output peaks in their 30s and 40s. The only(35) _____ is female writers, who are most productive in their 50s.

Part B

Directions:

Read the following three texts. Answer the questions below each text by choosing [A], [B], [C] or [D]. Mark your answers on the ANSWER SHEET.

Text 1

Jim Clark, 55, is the first person ever to start three companies that each grew to be worth more than $1 billion—an achievement celebrated in Michael Lewis' best-selling book, *The New New Thing*. Clark saw in primitive computer graphics chips the potential for powerful new workstations built by Silicon Graphics. He looked at a simple interface for websites, and turned it into the Netscape Web browser. And he most recently has exploited the potential of the Web for dispensing medical information through a company called Healtheon. Each of these ideas has netted Clark a cool billion or so. Shouldn't such a visionary come up with a similarly new way of giving those bucks away?

Well, no. Clark has bestowed his money the old-fashioned way—by attaching his name to a building at Stanford University, his alma mater. His $150 million grant, establishing the Jim C. Clark Center for Biomedical Engineering and Sciences, reflects his belief that just as computer technology has been driving today's economy, biotech will power it over the next 40 years. "Some people say you should give where the need is greatest," he says, shrugging. "But that's the job for government. For me, with only a few billion, I have more impact targeting a specific priority."

Clark also wanted to reward Stanford, whose labs he used while engineering the chip for his Silicon Graphics workstations. And this was the sort of philanthropic gesture that would still leave him time to have fun running companies, building yachts and flying helicopters. Clark has a personal insight into why some tech multimillionaires postpone serious charitable giving. At one point in 1998, he watched the value of his Netscape stock erode from $2 billion to $200 million. And other wealthy techies have seen similar wild swings in their personal fortunes. Explains Clark: "When you see your net worth drop like that, you think, 'If this keeps going, I'm going to have to sell my airplane.'"

Clark is critical of some of his Silicon Valley brethren who haven't been as generous, despite their multibillion-dollar net worth. He hopes his gift will spur other tech billionaires to action, particularly Yahoo founders Jerry Yang and David Filo, who don't discuss specifics of any giving they may have done—and who Clark believes have been too frugal. "These guys actually ran the Yahoo servers out of Stanford," says Clark. "They should be giving something back. These guys are young, but they've got more money than me. Or take Larry Ellison; he should be doing more."

But Clark remains optimistic: "These new-money guys, first they have to get a couple of houses, the plane. At that point they'll think about: How can I do something more impacting?"

36. The author begins his article with Clark's experience to _____.

[A] show the great achievements of Clark

[B] show the richness of Clark

[C] show the payback of Clark's brilliant ideas

[D] show Clark's desire to get fortunes

37. Clark believes that the bestowal of the money _____.

[A] should be done in an old way

[B] should take the form of generosity

[C] should be given in a limited field

[D] should involve all rich men

38. The founders of Yahoo are mentioned to show _____.

[A] their way of saving money

[B] their ungenerosity and less interest in donating

[C] Clark's contempt of the new money

[D] their difficulty in getting rich

39. Clark's attitude toward his Silicon Valley brethren is of _____.

[A] strong disapproval

[B] reserved consent

[C] slight contempt

[D] enthusiastic support

40. From the text we learn that Larry Ellison is _____.

[A] a Yuppie

[B] Clark's competitor

[C] a successful techie

[D] a young tech billionaire

Text 2

Every country with a monetary system of its own has to have some kind of market in which dealers in bills, notes, and other forms of short term credit can buy and sell. The "money market" is a set of institutions or arrangements for handling what might be called wholesale transactions in money

and short term credit. The need for such facilities arises in much the same way that a similar need does in connection with the distribution of any of the products of a diversified economy to their final users at the retail level. If the retailer is to provide reasonably adequate service to his customers, he must have active contacts with others who specialize in making or handling bulk quantities of whatever is his stock in trade. The money market is made up of specialized facilities of exactly this kind. It exists for the purpose of improving the ability of the retailers of financial services—commercial banks, savings institutions, investment houses, lending agencies, and even governments—to do their jobs. It has little if any contact with the individuals or firms who maintain accounts with these various retailers or purchase their securities or borrow from them.

The elemental functions of a money market must be performed in any kind of modern economy, even one that is largely planned or socialist, but the arrangements in socialist countries do not ordinarily take the form of a market. Money markets exist in countries that use market processes rather than planned allocations to distribute most of their primary resources among alternative uses. The general distinguishing feature of a money market is that it relies upon open competition among those who are bulk suppliers of funds at any particular time and among those seeking bulk funds, to work out the best practicable distribution of the existing total volume of such funds.

In their market transactions, those with bulk supplies of funds or demands for them, rely on groups of intermediaries who act as brokers or dealers. The characteristics of these middlemen, the services they perform, and their relationship to other parts of the financial vary widely from country to country. In many countries there is no single meeting place where the middlemen get together, yet in most countries the contacts among all participants are sufficiently open and free to assure each supplier or user of funds that he will get or pay a price that fairly reflects all of the influences (including his own) that are currently affecting the whole supply and the whole demand. In nearly all cases, moreover, the unifying force of competition is reflected at any given moment in a common price (that is, rate of interest) for similar transactions. Continuous fluctuations in the money market rates of interest result from changes in the pressure of available supplies of funds upon the market and in the pull of current demands upon the market.

41. The first paragraph is mainly about _____.

[A] the definition of money market　　[B] the constitution of a money market

[C] the basic functions of a money market　　[D] the general feature of a money market

42. According to this passage, a money market _____.

[A] provides convenient services to its customers

[B] has close contact with the individuals or firms seeking funds

[C] maintains accounts with various retailers of financial services

[D] is made up of institutions who specialize in handling wholesale monetary transactions

43. Which of the following statements about a money market is NOT true according to this passage?

[A] Money market does not exist in planned economies.

[B] Money market has been established in some socialist countries.

[C]Money market encourages open competition among bulk suppliers of funds.

[D]Money market relies upon market processes to distribute funds to final users.

44. The author uses the example of middleman to show _____.

[A]market transactions are important in different countries

[B]dealers are needed in doing business

[C]middlemen can play great role in different transactions and different countries

[D]middlemen in different countries have different actions in business

45. According to this passage, _____.

[A]brokers usually perform the same kinds of services to their customers

[B]brokers have little contact with each other

[C]open competition tends to result in a common price for similar transactions at any given moment

[D]changes in the pressure of available supplies of funds upon market tends to maintain a common price for similar transactions

Text 3

More than 30,000 drivers and passengers who sit in the front of the vehicles are killed or seriously injured each year. At a speed of only 30 miles per hour it is the same as falling from a third-floor building. Wearing a seat belt saves lives: it reduces your chance of death or serious injury by more than a half.

Therefore drivers or front seat passengers over 14 in most vehicles must wear a seat belt. If you do not, you will be fined up to £50. It will not be up to the drivers to make sure you wear your belt. But it will be the driver's responsibility to make sure that children under 14 do not ride in the front unless they are wearing a seat belt of some kind.

However, when you're reversing your car, you do not have to wear a seat belt; or when you are making a local delivery or collection using a special vehicle; or if you have a valid medical certificate which excuses you from wearing it. Make sure these circumstances apply to you before you decide not to wear your seat belt. Remember that you may be taken to court for not doing so, and you may be fined if you cannot prove that you have been excused from wearing it.

46. How many people in the front of the vehicles are killed or seriously injured every year?

[A]30,000. [B]60,000.

[C]Approximately 30,000. [D]Above 30,000.

47. Wearing a seat belt in a vehicle _____.

[A]reduces road accidents to more than a half

[B]saves lives while driving at a speed up to 30 miles per hour

[C]reduces the death rate in traffic accidents

[D]saves more than 15,000 lives each year

48. It is the driver's responsibility to _____.

[A]make the front seat passengers wear a seat belt

[B]make the front seat children under 14 wear a seat belt

[C]stop children riding in the front seat

[D]wear a seat belt each time he drives

49. According to the text, which of the following people riding in the front does NOT have to wear a seat belt?

[A]Someone who is backing into a parking space.

[B]Someone who is picking up the children from the local school.

[C]Someone who is delivering invitation letters.

[D]Someone who is under 14.

50. For some people, it may be better _____.

[A]to wear a seat belt for health reasons

[B]not to wear a seat belt for health reasons

[C]to get a valid medical certificate before wearing a seat belt

[D]to pay a fine rather than wear a seat belt

Part C

Directions:

You are going to read a list of headings and a text. Choose a heading from the list [A] - [G] that best fits the meaning of each numbered part of the text(51 ~ 55). There are two extra headings that you do not need to use. Mark your answers on the ANSWER SHEET.

Tips to Help New Grads Land Job Offers

In order to get a job out of college these days, new grads should be overachievers with internships and other real-life business experience, and they should expect to have to go above and beyond the typical job search. Based on our findings, here are some ways to build your resume and position yourself to create the best odds of getting a job offer:

(51)_____

Sure, technical skills and experience are great. But in the study, we found that when hiring for entry-level positions, almost all employers view communication and teamwork skills, as well as having a positive attitude, as being important or very important. These skills demonstrate how well an applicant will fit into the corporate culture, and give an indication of how long a new hire will stay at the company. The best way to develop such skills is to become more self-aware, and to get feedback on how you come across from the people you trust who work in your desired field. Also, actively put yourself in situations where you' re communicating with others inperson. Interacting online isn' t enough.

(52)_____

A lot of students and young professionals think that social networking via Facebook, LinkedIn, and the like is the best route to finding a job. Yet our research reveals that only 16% of employers recruit on social networks all or most of the time. Nearly half(48%), meanwhile, utilize job boards, and 44% use employee referrals. My advice is to use all of the above in your job search—social networks, job boards, career fairs, your personal and professional network, and every other option under the sun. What works for you might not work for someone else, and vice versa. Ask family and friends for refer-

rals too, and don't feel embarrassed about it.

(53)_____

If you want to be more positive during interviews, the best approach is to only apply to jobs you're really excited about. Use this approach and you will exude a positive, if possibly nervous, energy during interviews, showing you care. And if this is something you care about, you'll be more prepared for the interview, which will boost your chances. If, on the other hand, you're just applying to a job because it'll pay the bills, you probably won't get it.

(54)_____

42% of employers say they are turned off by how unprepared students are in interviews. At the very least, do some research on the company at its website. It's wise to take things a step further, though, and review the hiring manager's profile on LinkedIn. By learning about their work history, you will be able to better connect with them during the interview. You should also search the company's name at Google News to get up to speed with recent announcements and industry trends. Doing your homework will show you care, and the employer will be impressed.

(55)_____

The workplace is constantly changing, as are the needs of corporations. That's why it's important now, more than ever before, to spread yourself out and get as many internships and experiences under your belt as humanly possible. Try to get a range of different experiences as well. Diversifying will increase your chances of success in at least one line of work. In the stock market, if you only invest in one stock and it doesn't do well, then you're broke. Similarly, it's unwise to only have one internship or only pursue one narrow career field.

[A] Have an entrepreneurial mindset

[B] Get your eggs out of any one basket

[C] Prepare yourself before interviews

[D] Search using every resource possible

[E] Develop your "soft skills"

[F] Focus on the jobs you're most passionate about

[G] Get internships and experiences as early as possible

Part D

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write your translation clearly on the ANSWER SHEET.

(56) Environmentalists and activists accused the world's rich nations of managing a global conference on genetically modified foods to calm public fears. Activists said a three-day Organization for Economic Cooperation and Development conference on GM foods which began on Monday in Scotland was little more than an apology for the global biotechnology industry.

A handful of environmental groups such as Green Peace and Friends of the Earth were invited to the conference, as well as one scientist known for his opposition to GM foods and an outspoken consumer rights group.

(57) But activists said that was not enough to counter dozens of representatives from biotechnology companies and scientists keen to promote research and commercialization of GM crops and foods.

(58) "The overall weight of the conference is skewed toward scientists and industry officials who are in favor of GM foods," Robin Harper, a Green Party member of the new Scottish Parliament, told a news conference.

Activists, holding a separate, smaller gathering about GM foods in offices of the new Scottish parliament, said US and British regulators were not listening seriously enough to fears about GM foods.

(59) The U. S. -based Alliance for Bio-Integrity, a consumer activist group, said a 1998 lawsuit against the US Food and Drug Administration to obtain mandatory testing of all GM foods had exposed serious doubts among scientists within the FDA that GM foods were as safe as their conventional counterparts.

"People are eating these foods daily. We need to face facts that there are a lot of scientists unsure about the safety of GM foods and we need to thoroughly test these products before they are approved." Steven Druker, coordinator of the lawsuit, told the news conference.

(60) The FDA said its scientists who questioned the safety of GM foods were doing their job as part of the agency's regulatory process, and that their views were taken into account in the FDA's final policy.

Although it is confident GM foods widely used in the US are safe, the FDA is considering the labeling of GM foods after three public consultations, said James Maryanski, biotechnology coordinator at the FDA's Center for Food Safety and Applied Nutrition.

Section Ⅲ Writing

(40 minutes)

Directions:

61. *Read the following text and write an essay to*

1) summarize the main points of the text,

2) make clear your own viewpoint, and

3) justify your stand.

In your essay, make full use of the information provided in the text. If you use more than three consecutive words from the text, use quotation marks("").

You should write 160 – 200 words on the ANSWER SHEET.

An invisible border divides those arguing for computers in the classroom on the behalf of students, career prospects and those arguing for computers in the classroom for broader reasons of radical educational reform.

There are some good arguments for a technical education given the right kind of student. Many European schools introduce the concept of professional training early in order to make sure children are properly equipped for the professions they want to join. It is, however, presumptuous to insist that there will only be so many jobs for so many scientists, so many businessmen, so many accountants. Be-

sides, this is unlikely to produce the needed number of every kind of professional in a country as large as ours and where the economy is spread over so many states and involves so many international corporations.

But, for a small group of students, professional training might be the way to go since well-developed skills, all other factors being equal, can be the difference between having a job and not. Of course, the basics of using any computer these days are very simple. It does not take a lifelong acquaintance to pick up various software programs. If one wanted to become a computer engineer, that is, of course, an entirely different story. Basic computer skills take—at the very longest—a couple of months to learn. In any case, basic computer skills are only complementary to the host of real skills that are necessary to becoming any kind of professional. It should be observed, of course, that no school, vocational or not, is helped by a confusion over its purpose.

全国英语等级考试第四级模拟试卷(五)

Section Ⅰ Listening

(30 minutes)

Directions:

This section is designed to test your ability to understand spoken English. You will hear a selection of recorded materials and you must answer the questions that accompany them. There are three parts in this section, Part A, Part B and Part C.

Remember, while you are doing the test, you should first put down your answers in your test booklet. At the end of the listening comprehension section, you will have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1.

If you have any questions, you may raise your hand ***now*** *as you will not be allowed to speak once the test has started.*

Now look at Part A in your test booklet.

Part A

Directions:

For Questions 1 ~ 5, you will hear a reporter interviewing a runner who has just finished a Marathon race. While you listen, fill out the table with the information you have heard. Some of the information has been given to you in the table. Write ***only*** *1* ***word*** *in each numbered box. You will hear the recording twice. You now have 25 seconds to read the table below.*

Marathon Race Interview		
Distance of a Marathon race in kilometers		1.
Number of runners this year		2.
Jim's finishing position this year		3.
Jim's position last year		4.
The number of Jim's hours in the race		5.

Part B

Directions:

For Questions 6 ~ 10, you will hear a recording of part of a telephone interview. While you listen,

complete the sentences and answer the questions. Use ***not more than 3 words*** *for each answer. You will hear the recording twice. You now have 25 seconds to read the sentences and the questions below.*

What is Keet's occupation?		6.
The function of "the standard weight" is to check _____.		7.
The old standard weight weighed _____ when it is humid.		8.
How much did the new standard weight cost?		9.
The new standard weight is more expensive than _____.		10.

Part C

Directions:

You will hear three dialogues or monologues. Before listening to each one, you will have 5 seconds to read each of the questions which accompany it. While listening, answer each question by choosing [A], [B], [C] or [D]. After listening, you will have 10 seconds to check your answer to each question. You will hear each piece ***only once.***

Questions 11 ~ 13 are based on the following monologue on American food. You now have 15 seconds to read Questions 11 ~ 13.

11. What are the two seasonings used by most Americans?

[A] Salt and chili. [B] Oregano and ketchup.

[C] Pepper and ketchup. [D] Garlic and salt.

12. What do experts say about American diet?

[A] Americans eat too many vegetables. [B] Americans should eat more beef.

[C] Fatty beef is good for us. [D] Americans eat too much beef.

13. In what way is American food different from food of other countries?

[A] American food is dull and tasteless.

[B] American food has few spices beside salt, pepper and ketchup.

[C] Americans have different kinds of food served at meals.

[D] Americans prefer well-seasoned beef.

Questions 14 ~ 16 are based on the following monologue introducing the consequences of the Gulf War. You now have 15 seconds to read Questions 14 ~ 16.

14. The consequence of the Gulf War that has called the concerns of the scientists is _____.

[A] the threat of poisonous desert animals and plants

[B] the exhaustion of energy resources

[C] the destruction of oil wells

[D] the spread of the black powder from the fires

15. What was the good news for scientists?

[A] The underground oil resources have not been affected.

[B] Most of the desert animals and plants have managed to survive.

[C] The oil lakes soon dried up and stopped evaporating.

[D] The underground water resources have not been polluted.

16. What are the officials puzzled at now?

[A] How to restore the normal production of the oil wells.

[B] How to estimate the losses caused by the fires.

[C] How to remove the oil left in the desert.

[D] How to use the oil left in the oil lakes.

Questions 17 ~ 20 are based on a lecture in a college class. You now have 20 seconds to read Questions 17 ~ 20.

17. What are the students going to do during this class period?

[A] Watch a slide show about trees.

[B] Learn how to prevent Dutch elm disease.

[C] Study the history of the campus buildings and grounds.

[D] Look at examples of trees on campus.

18. In what class is this lecture probably being given?

[A] History. [B] Physical education.

[C] Botany. [D] Architecture.

19. What is remarkable about the black walnut tree outside Brett Hall?

[A] Its leaves are yellow. [B] Its leaves are lopsided.

[C] It is very tall. [D] It is not an angiosperm.

20. What is the problem with the elm tree near Jackson Hall?

[A] It has grown too tall for its designated space.

[B] It may be diseased.

[C] Its branches are being broken off.

[D] It no longer hears from.

You now have 5 minutes to transfer all your answers from your test booklet to ANSWER SHEET 1. That is the end of Listening Comprehension.

Section Ⅱ Reading

(75 minutes)

Part A

Directions:

Read the following text and fill each of the numbered spaces with ONE suitable word. Write your answers on the ANSWER SHEET.

Walking—like swimming, bicycling and running—is an aerobic exercise, (21) _____ builds the capacity for energy output and physical endurance by increasing the supply of oxygen to skin and muscles. Such exercises may be a primary factor in the (22) _____ of heart and circulatory disease.

As probably the least strenuous, safest aerobic activity, walking is the(23)_____ acceptable exercise for the largest number of people. Walking(24)_____ comfortable speed improves the efficiency of the cardiorespiratory system(25)_____ stimulating the lungs and heart, but at a more gradual rate than most other forms of exercise.

In one test, a group of men 40 to 57 years of age, (26)_____ at a fast pace for 40 minutes four days a week, showed improvement(27)_____ to men the same age on a 30 minute, three-day-a-week jogging program in the same period. Their resting heart rate and body fat decreased(28)_____. These changes suggest some of the important—even vital—benefits walking can bring about.

Walking(29)_____ burns calories. It takes 3,500 calories to gain or lose one pound. Since a one-hour walk at a moderate pace will(30)_____ up 300 to 360 calories. By walking one hour every other day, you can burn up a pound and a half monthly, or 18 pounds(31)_____—providing there is no change in your intake of food. To(32)_____ weight faster, walk an hour every day and burn up 3 pounds a month, or 36 pounds a year.

Whatever your age, right now is the time to give your physical well-being as much thought as you (33)_____ to pensions or insurance. Walking is a vital defense(34)_____ the ravages of degenerative diseases and aging. It is nature's(35)_____ of giving you a tuneup.

Part B

Directions:

Read the following three texts. Answer the questions below each text by choosing [A], [B], [C] or [D]. Mark your answers on the ANSWER SHEET.

Text 1

Usually alternating current(AC) transmission suffers lower losses than direct current(DC), and thus, AC became the industry standard. Some people, however, question that standard because over long distances high-voltage DC lines suffer lower losses than AC. Not only does that make them better in their own right, but employing them would allow electricity grids to be restructured in ways that would make wind power more attractive. That would reduce the need for new conventional(and polluting) power stations.

Wind power has some problems. You don't always get it where you want it and you don't always get it when you want it. The question of where the wind is blowing would no longer matter because it is almost always blowing somewhere. If it were windy in Spain but not in Ireland, current would flow in one direction. Dealing with when the wind blows is a subtler issue. For instance, an important part of Dr Schmid's continental grid is the branch to Norway. It is not that Norway is a huge consumer. Rather, the country is well supplied with hydroelectric plants. These are one of the few ways that energy from transient sources like the wind can be stored in grid-filling quantities. The power is used to pump water up into the reservoirs that feed the hydroelectric turbines. That way it is on tap when needed. The capacity of Norway's reservoirs is so large, according to Dr Schmid, that should the wind drop all over Europe—which does happen on rare occasions—the hydro plants could spring into action and fill in the gap for up to four weeks.

Put like this, a Europe-wide grid seems an obvious idea. That it has not yet been built is because

AC power lines would lose too much power over such large distances. Hence the renewed interest in DC. Dr Schmid calculates that a DC grid of the sort he envisages would allow wind to supply at least 30% of the power needed in Europe. Moreover, it could do so reliably—and that means wind power could be used for what is known in the jargon as base-load power supply.

Though wind power has its opponents, too, its environmental virtues might be enough to swing things in its favour if it were also reliable. Indeed, a group of Norwegian companies have already started building high-voltage DC lines between Scandinavia, the Netherlands and Germany, though these are intended as much to sell the country's power as to accumulate other people's. And Airtricity—an Irish wind-power company—plans even more of them. It proposes what it calls a Supergrid. This would link offshore wind farms in the Atlantic Ocean and the Irish, North and Baltic seas with customers throughout northern Europe.

36. By saying "make them better in their own right" (Lines 3 ~ 4, Paragraph 1), the author means to _____.

[A] realize the right of DC
[B] make DC suffer lower losses
[C] make DC more useful than AC
[D] make better use of DC to transfer power

37. By saying "Dealing with when the wind blows is a subtler issue" (Line 4, Paragraph 2), the author actually implies that _____.

[A] it is more difficult to predict the time when the wind blows
[B] it is more intricate to deal with the wind since it is always transient
[C] it is more complex to control the wind in the temporal sense
[D] it is more complicated to utilize the wind power

38. How will consumers think of a DC electricity grid?

[A] Not feasible yet.
[B] Quite economical.
[C] Somewhat troublesome.
[D] Too bold.

39. Why is Dr Schmid's continental grid located in Norway?

[A] To make use of the country's capacity of reservoirs so as to store temporary power.
[B] To make use of the country's rich wind power so as to meet consumers, demand.
[C] To make better use of the country's rich hydroelectric power to supply other European countries.
[D] It is simply Dr Schmid's personal preference of that country.

40. Which of the following is TRUE according to the passage?

[A] Wind power has won universal support.
[B] Companies hesitate to invest in wind power.
[C] The prospect of wind power so far seems very positive.
[D] Wind farms on oceans can supply power demand of the whole Europe in the future.

Text 2

Police in the popular resort city Virginia Beach recently began operating video surveillance cameras with controversial face recognition technology. Virginia Beach and Tampa in Florida two cities in the United States acquired the technology, which cost them $197,000. "Before we switched it on, we

went through an extensive public education process with hearings and the involvement of citizen groups and minority groups, who helped write the policies we are using," said deputy police chief Greg Mullen. A citizens' auditing committee has the right to perform unannounced spot checks on police headquarters to make sure the technology is not being misused.

Three of the city's 13 cameras are linked full time to the face recognition system, though the others can be activited as needed. The database of wanted people is updated every day. So far, the system has failed to produce a single arrest, though it has generated a few false alarms. It works by analyzing faces based on a series of measurements, such as the distance from the tip of the nose to the chin or the space between the eyes. Critics say it is highly inaccurate and can be easily fooled. Mullen, who sees the system eventually being linked to the databases of other city, state and federal law enforcement agencies to track criminals and suspected terrorists, said, "The system doesn't look at skin color or your hair or your gender. It takes human prejudices out of the equation."

"This technology has little or no effect on the crime rate but it does have an effect on people's behavior. People feel cowed," said Bruce Steinhardt, who directs the technology. Despite the fact that tests have shown faces recognition only works in around 30% cases, the ACLU is alarmed that the technology may soon spread to airports. The organization also fears it could potentially be used to monitor individual's political activities to harass law-abiding citizens.

"This kind of surveillance should be subject to the same procedures as wiretaps. Law enforcement agencies should justify why they need it and it should be tightly limited, otherwise it will soon become a tool of social control," said Mihir Kshisagar of the Electronic Information Privacy Center. Nor does such criticism come exclusively from the political left. Lawyer John Whitehead, founder of the conservative Rutherford Institute, wrote in an editorial that the technology threatened the right of each U. S. citizen to participate in society. "After all, that is exactly what constant surveillance is—the ultimate implied threat of coercion," he wrote.

41. What does Mullen's statement in Paragraph 1 indicate?

[A] Police is confident in using the technology.

[B] Police has made preparation for the use of the technology.

[C] Citizens have rights over managing the technology.

[D] Police has gone through public education process.

42. Why does the system fall to arrest a wanted person?

[A] The system is not effective in recognizing people.

[B] The system doesn't look at skin color or one's gender.

[C] The system doesn't consider people's specific features.

[D] The system is highly inaccurate and can be easily fooled.

43. What is the ACLU's attitude to the system?

[A] Worried. [B] Skeptical.

[C] Confident. [D] Indifferent.

44. In John Whitehead's opinion, which statement is true?

[A] Face recognition technology may interfere with people's privacy.

[B] Face recognition technology may enhance the country's constant surveillance.

[C] Face recognition technology can be used in the same way wiretaps are used.

[D] Face recognition technology can be used after its threat has been removed.

45. What is this passage mainly about?

[A] Disadvantage of face recognition technology.

[B] Purposes of face recognition technology.

[C] Controversial face recognition technology.

[D] Effect of face recognition technology.

Text 3

The core of Greece's troubles is too much spending, too little tax-collecting and book-cooking. Spain and Ireland are in trouble even if the percentage of their public debt in gross domestic product is much smaller than that of Germany. Italy, also in the financial markets' crosshairs, has high public debt but a lower deficit than the eurozone's average.

The root of these countries' problems is that their prices and wages have risen much faster than those of other eurozone members.

There are two ways to mitigate the pain. First, to adopt temporarily more expansionary fiscal policies for a while. Or, more powerfully, the wider euro area could adopt more expansionary monetary policies for several years. As to the second option, the "inflation fundamentalists" will have none of it. This elite consisting of central bankers, top economic officials, politicians, academics and journalists insists that it is unacceptable to allow inflation to climb above two percent.

Hyper-inflation in Germany in the 1930s and stagflation in industrial countries in the 1970s and 1980s support their view. It's true that moderate inflation can creep up to become high inflation. But inflation fundamentalism can also hurt. There is little if any empirical evidence that moderate inflation hurts growth. In most countries, cutting actual wages is politically difficult if not impossible. But, to regain competitiveness and balance the books, real wage adjustments are sometimes inevitable. A slightly higher level of inflation allows for this painful adjustment with a lower level of political conflict.

On the other hand, ultra-low inflation, in a recession, can easily become deflation. Falling prices encourage people to defer spending, which makes things worse and erodes tax payments, impairing a government's ability to pay debt. That in turn increases the debt's sizes and costs.

In addition, a single-minded focus on inflation makes it easy for policymakers to lose sight of the broader picture-asset prices, growth and employment. Policy can become too tight or too loose—as in the run-up to the crisis in the U. S. when low inflation was seen as a comforting sign that things were in order.

In a recession, ultra-low inflation also reduces the effectiveness of monetary policy since interest rates cannot go below zero. The crisis in the euro area highlights the need for a more open-minded discussion of the merits and costs of ultra-low inflation.

46. In the author's opinion, the second way to mitigate the pain is _____.

[A] cutting the spending [B] controlling inflation within two percent

[C] ultra-low inflation [D] moderate inflation

47. Which of the following inflation might be accepted by the author?

[A] 2%. [B] 1%.

[C] 4%. [D] 8%.

48. We can learn from the fourth paragraph that _____.

[A] moderate inflation hurts growth

[B] it is unnecessary to cut actual wages

[C] the author opposes moderate inflation

[D] the author opposes inflation fundamentalism

49. The word "books" (line 5, paragraph 4) means _____.

[A] tickets [B] accounts

[C] works [D] stamps

50. What is the text mainly about?

[A] The core of Greece's trouble.

[B] Two ways to solve the problems of Greece, Spain, Ireland and Italy.

[C] The merits of inflation fundamentalism.

[D] The shortcomings of inflation fundamentalism.

Part C

Directions:

In the following text, some sentences have been removed, For Questions 51 ~ 55, choose the most suitable one from the list [A] - [G] to fit into each of the numbered blanks. There are two extra choices, which do not fit in any of the blanks. Mark your answers on the ANSWER SHEET.

"Deadpool", which so far has taken more than $500m in cinemas worldwide, is an atypical blockbuster, a foul-mouthed anti-hero film with a mature "R" audience rating. But in one important respect it is typical of many of Hollywood's most successful movies: it does not rely on a world-famous star to sell it.

(51) _____ What happened? Ms Lawrence is by the reckoning of some the biggest star in Hollywood's firmament; Mr Smith held that unofficial title for years. Have film stars lost some of their lustre?

Overall, the cinema business's health seems as rude as ever. (52) _____ The industry has held up well against increased competition from streaming services that give people plenty of option stars with the biggest global profiles, such as Tom Cruise and Leonardo DiCaprio, are instantly recognizable in lucrative overseas markets.

(53) _____

Such productions are more likely to make stars than to be made by them. "You really don't want to have a movie star" in certain big franchises, says a senior studio executive: the films will be hits either way, so why pay more?

An analysis by *The Economist* of two decades of box-office results in America and Canada does not refute Ms Lawrence's status as one of the biggest box-office draws. (54) _____

Hollywood executives still want to believe in stars' power to get bums on seats, so they will bet again on a headliner even after a few flops. Academic studies in recent decades have generally failed to find any conclusive evidence to support studio bosses' faith in stars, pulling power. (55) _____ It helps to have a damsel in distress, but it does not really which damsel.

[A] But much of the industry's recent success, at home and abroad, comes from the rise of the big special-effects event film: franchises like "Fast and Furious", "Avengers", "The Hunger Games", "Jurassic Park", James Bond and "Star Wars".

[B] In contrast, two recent "star vehicle" films struggled to attract audiences despite heavy promotion and high-profile openings on Christmas Day in America. "Joy", with Jennifer Lawrence, and "Concussion", with Will Smith, both failed to earn back their production budgets at the domestic box office and also fared poorly overseas.

[C] The 2015 film, "Terminator: Genisys", a flop in America with $90m in takings on a $155m production budget, was a blockbuster overseas, earning $351m, including $113m in China. But at least 14 films with more than $500m each led in worldwide box-office takings last year.

[D] Our own analysis suggests only that a few of them do add a bit to box-office receipts. And they reckon that as long as the stars look good and can act, they make scant difference, with at best a very few exceptions.

[E] Revenue from the American box office grew by 6.3% in 2015, to a record high of $11 billion. Thanks to droves of new film-goers in China, where the market grew by 49% last year, global revenues increased by 4% to $38 billion.

[F] But it is hard statistically to disentangle her singular appeal from the massive success of the franchise films she has been in. By the same token, she should perhaps not be blamed for the poor performance of "Joy"—without Jennifer Lawrence in it, it would have been a flop, a total flop.

[G] Jennifer Lawrence was not "Jennifer Lawrence, biggest female movie star in the world" until she made the first "Hunger Games" film.

Part D

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Write your translation clearly on the ANSWER SHEET.

(56) Back in my early 20s, when "sensible" wasn't part of my weight-loss vocabulary, I tried a diet that was limited to just a few "healthy" foods. Three weeks into it, after religiously adhering to a regimen of salads and meats, I had nearly reached my goal of losing 8 pounds. (57) But my progress wasn't as sweet as I expected. Instead of celebrating my emerging figure, I was obsessed with what I couldn't eat. Warm, crusty bread. Noodles smothered in red sauce. Chocolates packed with almonds. One night I abandoned the diet and gorged on every food I'd been missing. Over the next two weeks, I ate more than ever. No surprise that I quickly regained 8 pounds, and put on 2 more.

(58) It sounds like the old diet-binge cycle that we've all heard about so often. But many weight-loss experts are starting to think about that cycle in a new, more positive way. The answer for

long-term weight control, they say, may be just the opposite of restriction: it may simply be eating a greater variety of foods than ever.

My brazen (and unfortunate) act of indulgence was the direct effect of a boring, restrictive diet, suggests Kathy Hubbert, coordinator of the EatRight Weight Management program at the University of Alabama, Birmingham. "If you tell someone they cannot have, say, a piece of cheesecake, then that is the first thing they want to have," says Hubbert. "And then when they eat that piece of cheesecake, they say, 'Oh, now I've blown it, so I might as well blow it every day.'"

At Tufts University in Boston, researchers studied 71 healthy men and women aged 20 to 80 years who provided detailed reports of everything they ate for six months. (59) People who routinely ate a variety of nutrient-dense foods such as vegetables, fruits, and whole grains tended to be lean. The researchers found that when people eat a variety of desirable foods, especially vegetables, they eat fewer nutrient-poor, calorie-dense foods such as cookies, candy, and chips. Overall, they consume fewer calories without consciously restricting their intake.

They are also much more likely to consume the full range of vitamins and minerals they need. (60) Nutrition studies, including one conducted by scientists at the Department of Agriculture, which analyzed the dietary records of 3,701 people representing a cross section of the US population, regularly find that individuals who eat different foods from each of the major food groups have the healthiest diets.

Section Ⅲ Writing

(40 minutes)

Directions:

61. *Read the following text and write an essay to*

1) summarize the main points of the text,

2) make clear your own viewpoint, and

3) justify your stand.

In your essay, make full use of the information provided in the text. If you use more than three consecutive words from the text, use quotation marks ("").

You should write 160 – 200 words on the ANSWER SHEET.

However you view credit cards, it's hard to live in the modern world without one. And if you have one, you owe it to yourself to use it properly.

Although credit cards are becoming a more acceptable part of the financial scene, they are still regarded with suspicion by many as being a major part of the "live now pay later" syndrome. Along with hire purchase, rental and leasing schemes, they provide encouragement to spend more money. They can allow you to pile up debts that you have difficulty paying off, they can also let you spend next month's salary today.

Advertising campaigns have, however, promoted a growing realization of the advantages of these small pieces of plastic. They obviate the need to carry large amounts of cash and are always useful in emergencies. All the credit card organizations charge interest on a monthly basis which may work out

as high as 25 percent a year, yet judicious purchasing using a card can mean that you obtain up to seven weeks interest free credit.

It is worthwhile shopping around before deciding on a particular credit card. It is necessary to consider the amount of credit granted; interest rates, which may vary slightly; the number and range of outlets, though most cards cover major garages, hotels, restaurants and departments stores, and of course, what happens if your card is lost or stolen.

Using a credit card wisely takes discipline and a little self-control. Once you realize your debt is someone else's profit margin, your approach to your plastic will change. With a bit of discipline and some practical knowledge, you can make your cards work for you, rather than the other way round. As a matter of fact, a credit card can cost nothing or at least help to tide you over a period of financial difficulty.

参考答案及解析

全国英语等级考试第四级模拟试卷(一)

第一部分　听力

Part A

1. collision
2. fire
3. sight
4. $10,000
5. shoplifting

Part B

6. His students.
7. Learn to talk.
8. 2-4 months.
9. 2-3 years old.
10. Logical.

Part C

11 - 15DDABC

16 - 20DAACA

听力部分录音材料:

Questions 1 ~ 5

1. Many people were injured in an accident on Freeway 65 yesterday afternoon. Two buses collided in the rain, and 20 of the passengers had to be taken to the hospital. Fortunately, none of the injuries were serious.

2. Fire destroyed a video factory near an oil plant yesterday, running a collection of over 20,000 video cassettes. Old electric wiring is being blamed for the fire.

3. The oldest living woman in France turned 120 years old today. Although she can not see well, her mind is sharp and her health is good. When she was asked, "How do you see your future?" she replied, "Very short".

4. A briefcase containing over $10,000 in cash was found on a United Airlines flight that arrived from New York on Tuesday night. The bag is believed to belong to a passenger. So far, no one has contacted the airline to claim the money.

5. And lastly, it has been announced that the winner of last year's Miss Universe contest, 20-year-old Wendy Thomas from New Zealand has been arrested for shoplifting in a Miami department store.

Questions 6 ~ 10

Now, in the last few minutes of class, I'd like to address a slightly different issue: the question of how children learn to talk. Learning to speak their own language is one of children's greatest accomplishments, yet it is a somewhat mysterious process. Children first begin to make language-like noises when they are between two and four months old. These noises generally begin with the letters "g" and "k" and because these sounds—"goo" and "koo"—are the easiest sounds for infant mouths to make. Between four months and eight months, infants begin to babble meaningless syllables. Most common are those beginning with "p", "b", "d", "m", or "n" sounds, followed by a vowel sound. Parents sometimes misinterpret these as actual words, such as mama or dada. Between six months and a year, babies say their first true words. Vocabulary grows slowly at first, usually only a few words a month, but once a child has learned about fifty words—generally around 18 months—the pace picks up rapidly. At first, children say single words; then they begin forming two-word combinations: "all gone" "more milk" "see doggie." Children's two word combinations are so similar to the world over that they read like translations of one another. Between the age of two and three, chil-

dren can form complete sentences and have mastered the basis of grammar. Can you believe it? A two-and-a-half-year-old toddler is a grammatical genius and all without studying a single rule! Typically, four-year-old know some 15,000 words and can form very sophisticated sentences. Even their mistakes are very logical: "I saw two mans" or "We went to gramma's house." So, how does this all happen? Well, there are several conflicting theories about language acquisition, but unfortunately, there just isn't time to discuss them today, so we'll take them up in Wednesday's class. In the meantime, please read Chapter Eight in your textbook. See you Wednesday.

Questions 11 ~ 13

(Telephone rings)

Tom: 4010625?

Barbara: Hello, is that you, Tom?

Tom: Hi Barbara. Have you decided where to go tomorrow?

Barbara: Yes, that's right. I want to go to Camden Town to shop. Would you like to go there with me?

Tom: Yes, I'd love to. That's a good market. Tim and Mary are here with me now. They want to go there too. Shall we meet at Camden Town Station?

Barbara: OK. How are you going there?

Tom: We will go there by bus. It's only three stops from my place. Well, we might walk there if the weather is fine. How will you get there?

Barbara: I think I'll have to take the underground. I'm at Bond Street and I'll take the Central Line first and get off at Tottenham Court Road.

Tom: That's it. Take the Central Line and get off at Tottenham Court Road. Then you take the northern Line to Camden Town. It's only about four stops. Make sure you get a northbound train though. You take northbound train to Camden Town. OK?

Barbara: OK. I think I can find the way. I have an underground map with me now. What time shall we meet tomorrow?

Tom: How about ten thirty?

Barbara: Well, I think that's a bit too late. It might be crowded by that time.

Tom: How about one hour earlier?

Barbara: Fine. That will be all right. See you tomorrow.

Questions 14 ~ 17

To be successful in a job interview, you should demonstrate certain personal and professional qualities. You need to create a good image in the limited time available, usually from 30 to 45 minutes. You must make a positive impression which the interviewer will remember while he interviews other candidates. The following are some qualities you should especially pay attention to during an interview. First of all, you should be properly dressed. The right clothes worn at the right time can win the respect of the interviewer and his confidence in your judgement. It may not be true that clothes make a man. But the first and often last impression of you is determined by the clothes you wear. Secondly, you should pay close attention to your manner of speaking. Since speech is a reflection of personality, you should reflect confidence by speaking in a clear voice, loud enough to be heard, without being aggressive or overpowering. You should be prepared to talk knowledgeably about the requirements of the position you are applying for. Finally, to be really impressive, you must convey a sense of self-confidence and enthusiasm for work. If you display these characteristics with just a little luck, you'll certainly succeed in the typical personnel interview.

Questions 18 ~ 20

Your assignments this term will be to write two major research papers. One of the most important things about writing a research paper is giving proper credit for your sources of information. Failure to do this is called plagiarism which is formal intellectual dishonesty. Plagiarism is a kind of stealing or at least an unauthorized borrowing of someone else's ideas.

Sometimes, inexperienced students will plagiarize

unintentionally, and then be surprised when the teacher warns the unexpected papers or gives them the failing grade. The best way to avoid unintentionally plagiarizing is to be very carefully gathering your information as you take notes of books and magazine articles about the topic you've selected. Firstly, try to assimilate the information thoroughly; Secondly, write it down in your own words, this is called paraphrasing. If you do a good job of paraphrasing, you will capture the main idea from your source without actually using any phrases from it. Most of your notes should probably be paraphrases from it. However, occasionally, you may find something you wish to quote directly in your research paper. In this case, be sure that you'll copy the quotation precisely in your notes and enclose it in quotation marks. That way when you're finalizing your research paper, you'll be able to remember which of your notes are direct quotes. You can then incorporate proprietarily and give your original author proper credit.

第二部分　阅读

Part A

参考译文

有些医生正在采取一种不同寻常的新方法以达到与患者更好沟通的目的。他们会让患者读医生们通常只与同事分享的笔记。

当患者检查完身体，医生会在笔记上记录下一个主题范围，其范围涵盖从大致的诊断到观察患者与配偶如何相处。笔记被用来证实那些想法，也可能会被审核。但记笔记的主要目的还是为患者复诊或者是为其他给他们看病的医生提供方便。

最近，一个被称为 OpenNotes 的项目一直在观察当患者看医生记录的笔记（通常是在电子病历上的记录中）时会发生什么。在研究早期阶段的一个报告（于星期二刊登在《内科医学年鉴》上）中，研究人员表示，邀请病人审查记录可以更进一步提高他们对自己健康状况的了解，让他们严格按照要求坚持治疗。

但同时，研究人员也提出了可能出现的负面影响：如果医生写下类似癌症或者是心脏病的字眼，他们的病人会产生恐惧，进而带来如洪水般涌来的电话和电子邮件。医生们也表示，他们担心病人会误解一些专业术语。例如，“病人出现了 SOB”是指气短，而是不代表贬义的意思。“OD”是 oculus dexter（右眼）的缩写形式，即指右眼，而不代表药剂过量。

医疗机构已努力改善医患沟通，一部分原因是因为有研究表明，它可能会有利于提高患者治疗效果。近年来，电子病历的引入也为实现这个目标做出了贡献。

21. them

【解析】这句话表达的意思是“有些医生正在采取一种不同寻常的新方法以达到与患者更好沟通的目的，他们会让患者读医生们通常只与同事分享的笔记。”这里缺少宾语，应用“them”指代前面提及的“patients”。

22. down

【解析】“jot down”为固定搭配，意为“记下，写下”。

23. how

【解析】这句话的意思是“当患者检查完身体，医生会在笔记上记录下一个主题范围，其范围涵盖从大致的诊断到与配偶如何相处。”根据句意，可知该空应填一个表示程度的副词“how”。

24. with

【解析】“a written record with insights into the patient's condition”意思是“一份可以洞察病人病情的手写记录”，“with”在这里表示具有某种特性。

25. called

【解析】“called”意为“被称作”，这句话句意为“最近，一个被称为 OpenNotes 的项目致力于发现，当患者在看医生记录的笔记（通常笔记是在电子病历上）时会发生什么。”

26. when

【解析】“when”在这里作时间状语，“当……时候”。

27. on

【解析】这句话的意思为“在电子病历上的记录中”，根据后面的 records 可知，此处应用介词

"on"。on record 意为"有记载的,记录在案的"。

28. records

【解析】这句话意思为"研究人员表示,邀请病人审查记录可以提高他们对自己健康状况的理解,让他们严格按照要求坚持治疗。"根据句意,可知该空应为文中前一句提到的"records"。

29. more

【解析】"more closely"意为"更进一步地"。这句话意思为"邀请病人审查记录可以更进一步提高他们对自己健康状况的理解,让他们严格按照要求坚持治疗"

30. in

【解析】"speculate in"为固定搭配,意为"推测"。

31. wrong

【解析】这句话的意思为"医生们也表示,他们担心病人会误解一些专业术语",病人误解了专业术语,即以一种"错误"的方式理解。

32. the

【解析】"the"在这里是特指,"the phrase"即指代后面的"the patient appears SOB"。

33. refers

【解析】"refer to"为固定搭配,意为"涉及,提及"。这里的时态应该是一般现在时,主语是 the phrase,故要用 refer 的第三人称单数。

34. not

【解析】这句话意思为"'OD'是 oculus dexter(右眼)的缩写形式,即指右眼,而不代表药剂过量。"由此可知,该空填 not。

35. because

【解析】这句话意思为"医疗机构已努力改善医患沟通,一部分原因是因为有研究表明,它可能会有利于提高患者治疗效果。"根据因果关系,可推测出填"because"。

Part B

Text 1

参考译文

白宫发言人周日称,有志于上大学的学生将可以比现在提早三个月申请联邦财政资助,而且可以提交前一年的纳税申报表,这些改变的目的是帮助更多的人能够上得起学。

在目前的制度下,计划在 2017 年秋季入学的学生必须等到当年 1 月份才能够填写联邦助学金免费申请表。新的制度将使得这些学生填写表格的时间可以提早到 2016 年 10 月,这是传统上大学申请季的开始月份。

政府通过该申请表来确定佩尔助学金和联邦助学贷款的获取资格。白宫指出,要求申请人等到 1 月份才申请拖慢了资助进程,这使得预备新生们很难确定他们是否有能力支付大学学费。

大约两百万名大学生有资格获得联邦佩尔助学金却坐失了良机,因为他们从未申请过,白宫国内政策委员会副主任詹姆斯·科瓦尔指出。"如果我们甚至都没能让目前的在校生获得资助的话,我们很想知道,如果学生们早知道他们能够获取这项资助,我们的大学里还会增加多少名学生,"科瓦尔在一次采访中说道。

巴拉克·奥巴马总统计划于周一在与爱荷华州得梅因的高中学生会面期间公布这些改革。为了尽力让大学变得更容易负担,奥巴马已经对一些学生贷款的偿还限度作出了规定并签署了立法降低某些贷款利率。

为了评估一个学生的财政状况,联邦助学金制度要运用家庭纳税申报表中的数据,在线申请的学生可以从美国国税局的网站上下载电子版。在将开始申请的日期提前到 10 月的同时,奥巴马政府也将允许学生使用更早的纳税信息,这样他们就不必等到第二年的纳税申报表归档。比如,目前一个要申请 2017-2018 学年助学金的学生必须使用他们 2016 年的纳税申报表。新的制度将允许他们使用 2015 年的纳税申报表。

使用更早期的纳税信息可能会给一些学生带来重大改变,比如那些在高中毕业后有过一年"间隔年"工作经历的学生,他们负担大学学费的能力仍旧会以他们高三那一年的纳税情况为判断依据。科瓦尔表示,政府会要求大学在必要时,利用他们对佩尔助学金的自由支配权,将学生的这些特殊情况考虑在内。

"我们预计,要适应这一系列助学金制度的调整,可能会需要大学做更多的工作,"科瓦尔指出。

“但是从总体来看,我们相信更早期的纳税数据是发放联邦助学金的合理依据。”

36. A 【解析】细节题。根据题干关键词 to make college affordable for more students 定位到第一段。第一段指出,有志于上大学的学生将可以比现在提早三个月申请联邦财政资助(apply for federal financial aid three months earlier than now),改变的目的是帮助更多的人能够上得起学(aimed at helping more people pay for school),题干中的 to make college affordable for more students 即与此目的相对应,而“将申请助学金的时间提早”也就是 A 项中所说的“调整助学金申请时间”,adjust the application time 即对应 apply...earlier than now,故答案为 A 项。B 项在文中找不到依据,属于“无中生有”;第一段中提到学生可以提交前一年的纳税申报表(submit a previous year's tax return),但并没有说允许他们“少纳税”(pay less tax),C 项属于“无中生有”;第二段结尾是说学生填写助学金申请表的时间可以提早到 2016 年 10 月,而 10 月正是传统大学申请季的开始月份,可见提前的是“学生申请助学金的时间”,而不是“大学申请季的开始时间”,D 项属于“张冠李戴”。

37. C 【解析】细节题。根据题干关键词 current...system 定位于第二段(Under the current system),阅读可知该段只提到目前的联邦助学金制度要求学生必须等到当年 1 月份才能够填写申请表,但并没有提到该制度的缺点,故我们接着向下阅读第三段。第三段第二句指出,要求申请人等到 1 月份使资助进程变慢(slows down the aid process),这使得预备新生们在申请大学时很难确定他们是否能够支付得起大学的学费(makes it harder...to determine whether they can afford),由此可推知,目前的制度使得资助进程变慢,所以很难在学生申请大学时给学生提供及时的资助,故答案为 C 项。第四段第一句提到,“大约两百万名大学生有资格”(Some 2 million college students are eligible)获得联邦佩尔助学金,但并未说这一数字“是多是少”,A 项属于“主观臆断”;第三段第二句提到,申请人等到 1 月份才能申请“拖慢了资助进程”(slows down the aid process),这和“申请过程复杂”是两回事,B 项属于“偷换概念”;第三段第二句是说预备新生们“很难及时获得资助”,而不是说他们“很难申请资助”,D 项也属于“偷换概念”。

38. B 【解析】细节题。根据题干关键词 James Kvaal, federal Pell Grants 定位于第四段。该段第一句引用白宫国内政策委员会副主任詹姆斯·科瓦尔的话指出,大约两百万名大学生(some 2 million college students)有资格获得联邦佩尔助学金(eligible for federal Pell Grants)却坐失了良机,因为他们从未申请过(because they never apply),B 项正是对此原因的“同义替换”,故为答案。由第四段第一句中的 eligible for federal Pell Grants 可知,这些学生“有资格”申请佩尔助学金,A 项属于“正反混淆”;第四段第一句中的 miss out 指的是“坐失了助学金”,并不是指“错过了申请的最后期限”,C 项属于“偷换概念”;文中说的是很多本来有资格获得助学金的学生却没有申请,“助学金配额有限”显然与此矛盾,D 项属于“正反混淆”。

39. B 【解析】推断题。本题明确定位于第七段。该段第一句指出,使用更早期的纳税信息(Using older tax information)可能会给一些学生带来重大的改变,比如那些在高中毕业后有过一年“间隔年”工作经历的学生(those who take a“gap year”to work),他们负担大学学费的能力(ability to pay for college)仍旧会以他们高三那一年的纳税情况为判断依据(based on their senior year)。按照常识推断,有过一年“间隔年”工作经历的学生其负担大学学费的能力应该会有所提高,而以其高三那一年的纳税情况为判断依据很可能会因为没有考虑其在“间隔年”的工作经历而对其财政状况作出不准确的评估,故答案为 B 项。由第七段第二句可知,大学在佩尔助学金的支配方面享有自由(colleges to use their freedom with Pell Grants),但这并不是使用更早期的纳税信息评估财政状况会带来的影响,A 项属于“张冠李戴”;由之前的分析可知,使用更早期的纳税信息评估财政状况对于有过“间隔年”工作经历的学生来说可能会更“有利”,而不是“不公平”,C 项属于“正反混淆”;第七段第二句只是说当局要求大学在必要时将学生的

有过“间隔年”工作经历等特殊情况考虑在内，不能由此就推断大学可能会陷入两难境地，D 项属于“过度推断”。

40. A 【解析】主旨题。本题考查主旨，故应通篇考虑，重点留意文章开头和各段主题句。文章开头就指出，学生可以提早申请联邦财政资助，接着后面具体阐述了现有的申请时间规定存在的弊端以及申请时间提前会给学生带来的影响，可见最能够概括本文内容的是 A 项。文章开头指出，政府将申请财政资助的时间提前，是为了让更多的学生能够上得起大学，但文章主要是关于“申请时间提前”，而不是关于“申请资格”，B 项属于“偷换概念”；本文的确是关于白宫在联邦助学金制度方面的改革，但 C 项所说的“一系列财政改革”属于“范围过大”；本文在讲述学生可以提早申请联邦财政资助的同时，也提到学生可以提供更早期的纳税信息来作为对其财政状况的评估依据，但这并不是本文的重点内容，D 项属于“以偏概全”。

Text 2

参考译文

流感疫苗短缺在美国不足为奇，但今年的短缺传闻却是一个弥天大谎。到上周为止，好像还有 1 亿美国人能在今年秋季接种流感疫苗。紧接着，英国当局因为担心一家位于利物浦的生产厂的质量控制问题而禁止所有 Chiron Corp 公司的产品供应。一夜之间，美国的疫苗供应量减少了近一半——而联邦卫生官员也发现他们正在提出一项不同寻常的请求：不是请求我们去注射疫苗，而是敦促那些年龄在 2－64 岁之间的绝大多数健康人不去注射疫苗。“这再次凸显出我们疫苗供应的脆弱性，”全国免疫信息网的马丁·迈尔斯医生说，“此外，我们也没有必要的补救机制。”

为什么这种基本的保健服务会如此不堪一击呢？主要原因是私人公司生产积极性不高。生产每一份流感疫苗，生产商都要在一枚受精两星期的鸡蛋中培育活病毒，然后打破鸡蛋，提取病毒和用来激发免疫反应的蛋白质。利润率低，需求不稳定，此外由于每年的流感病毒不同，剩余的疫苗只能报废。因此，美国目前只有两家大的供应商（Chiron Corp 和 Aventis Pasteur）——当其中一家公司遇到麻烦时，另一家公司也无能为力。“疫苗生产商根本不可能打个电话多要 4000 万个受精鸡蛋，”在康涅狄格一家蛋白质科学公司工作的马农·考克斯说，“整个鸡蛋生产都是按计划进行的。什么时间生产多少鸡蛋都是已经预先计划好的。”

目前的生产已经采用更好的技术。专家们希望今年的教训能够加快技术革新的步伐。最大的挑战是如何将疫苗生产从鸡蛋培育转向细胞培育——该技术已经广泛应用于其他大部分疫苗的生产。用细胞培育技术生产流感疫苗比生产其他大部分疫苗难度更大。尽管如此，几家生物技术公司正在进行这方面的尝试。索马尔 Invivac 医药公司研制的一种基于细菌培育技术的产品已经获准在欧洲销售。

对美国来说，当务之急是要利用好有限的流感疫苗。政府预计，尽管上周发布了自愿限制公告，仍有 9500 万人有资格注射疫苗。这个数字几乎是医院临床流感疫苗库存量的两倍。但正常情况下，每年仅有 6000 万美国人接种流感疫苗。事实上，许多专家希望这次疫苗短缺问题能成为一次提高公民道德意识的活动——鼓励那些确实需要注射疫苗的人们去注射。

41. D 【解析】推理题。第一段最后一句话指出了疫苗短缺所暴露出来的问题。“This re-emphasizes the fragility of our vaccine supply,”says Dr. Martin Myers of the National Network for Immunization Information,“and the lack of redundancy in our system.”“这再次凸显出我们疫苗供应的脆弱性，”全国免疫信息网的马丁·迈尔斯医生说，“此外，我们也没有必要的补救机制。”这与 D 项的说法一致。故选 D。

42. A 【解析】语义题。在第三段最后一句“one culture-based product (Solvay Pharmaceuticals, Invivac) has been cleared for marketing in Europe”里出现了 cleared 一词。根据下文中“marketing”和药品上市前应该得到批准的常识，可以判断出，该词在本句中的意思是“得到官方的批准”。故选 A。

43. A 【解析】细节题。第二段第二句“Main-

ly because private companies have had little incentive to pursue it."意思是说私企生产流感疫苗的积极性不高。接下来作者介绍了制作疫苗的复杂工序,由此可以推断出流感疫苗生产工艺复杂、成本高。第二段第4-5行"Profit margins are narrow, demand is fickle and, because each year's flu virus is different, any leftover vaccine goes to waste."又明确指出了私企不愿意生产流感疫苗的其他原因:利润率低、需求不稳定,此外由于流感病毒每年都不同,因此生产数量不能过大。由此也可推断出生产的风险性大,如果生产多了就会损失很大。故选A。

44. B 【解析】推理题。由第四段第二句"The government estimates that 95 million people still qualify for shots under the voluntary restrictions announced last week."中可以知道有9500万人有资格注射疫苗。根据第四段第三句"That's nearly twice the number of doses that clinics will have on hand, but only 60 million Americans seek out shots in a normal year."和前一句可以推断出美国现有大约4700万份流感疫苗库存,由此可推断出美国至少还有4700多万有资格注射疫苗的人无法得到注射。故选B。

45. B 【解析】细节题。从第一段倒数第二句"Instead of beseeching us all to get vaccinated, they're now urging most healthy people between the ages of 2 and 64 not to."可以判断出美国只呼吁2-64岁的健康人不接种流感疫苗,而不是所有的美国人,因此答案A是错误的。从第二段最后一句可以看出疫苗生产厂家无法临时增加疫苗生产量不是由于他们不愿意,而是由于受精鸡蛋的生产已经预先计划好,无法提供更多的受精鸡蛋,由此可见C项是错误的。从第三段第三句"Flu vaccines are harder than most to produce this way"可以判断出D项是错误的,因为流感疫苗比别的疫苗更难用细菌培育的方式生产。而由第三段第二句"The main challenge is to shift production from eggs into cell cultures—a medium already used to make most other vaccines."以及上一句可见,改造疫苗生产工艺的关键在于革新病毒培育技术,因此B项是正确的。

Text 3

参考译文

作为男人总是充满危险的。出生时男女比例大约为105:100,但是到了成熟期,这种比例的下降几乎达到了平衡,在七十岁的老年人中,女性比男性多了一倍。但是男性的死亡率高这一特点正在明显地改变。现在,男婴的存活率同女婴的一样高。这意味着在男孩到了寻找伴侣的关键年月,将第一次出现男孩过剩现象。更重要的是,又一个自然选择的机会被取消了。五十年前,婴儿(特别是男婴)生存下来的机会取决于其自身的重量。轻一公斤或重一公斤几乎就意味着其必死无疑。今天,重量几乎没有任何影响。因为许多差别是由基因引起的,所以又一个进化因素消失了。

消除进化因素还有另一种方法,那就是保持存活,少生孩子。现在,几乎没有几个人像过去那样生殖力旺盛。除了一些宗教社区外,没有几个妇女能生15个孩子。现在,所生孩子的数目如同死亡年龄一样,人人相差无几。我们大多数人的子女几乎一样多。人与人之间的差别以及利用差别进行自然选择的机会越来越小。印度则能说明正在发生的一切。这个国家(印度)给大城市的一部分人提供财富,而给其余各部落民族以贫困。当今众多的普通人,每个人的生存机会和子女数量都相同。这意味着:与部落相比,自然选择在印度的中上阶层已失去80%的作用。

对我们来说,这意味着进化已经结束;已经达到了生物的理想境界。令人奇怪的是,这种进化几乎没有涉及到身体的变化。没有别的物种占据大自然中如此多的地方。在过去的十万年中,甚至一百年中,我们的生活发生了巨大的变化,但我们的身体却没改变。我们没有进化,因为机器和社会替我们改变了生活。达尔文有一句话描述了那些对进化无知的人:那些无知的人"看有机的生命如同野人看一条船,看某种完全无法理解的东西"。毫无疑问,我们会记住20世纪的生活方式,虽然其丑态万千,难以让人理解。但是,不论我们的后代多么惊讶于我们距离理想状态的遥远,但他们的长相将和我们一样。

46. C 【解析】文章第一段开头是答题的关键:Being a man has always been dangerous…But the great universal of male mortality is being changed. 可见,男性的出生率高于女性,但是随着年龄增加,男女比例呈明显下降趋势。作者试图用这些数据表明,生为男人的危险并不是在于寻找配偶的困难,而是男性的死亡率远远高于女性。故选 C。

47. B 【解析】文章第二段最后两句话表示这个国家给大城市的一部分人提供了财富,而其余的部落民族却一贫如洗。今天众多的普通人,每个人在存活子女的数量方面都一样,这意味着:与部落相比,自然选择在印度的中上阶层已失去了80%的效应。这与 B 项中的"自然选择在富人与穷人中已很难起作用"的意思相吻合,故选 B。A 项"富人生的孩子没有穷人生得多",与上面的表述相矛盾。C 项"中等阶层的人口比部落人口少80%"和 D 项"印度是个高出生率的国家",文中都未提及,故排除。

48. A 【解析】在第三段第五句中作者写道:我们不再进化。这是因为机器和社会代替我们进化了。换言之,机器的使用、社会的进步使我们的生活发生了变化,即 A 项的"技术的进步提高了生活质量"。C 项"我们的物种已进化到了最高阶段",B 项"女婴数量一直呈下降趋势"和 D 项"贫富差距正在消失"文中并未提及.

49. B 【解析】根据上下文"Except in some religious communities, very few women have 15 children."除了一些宗教团体中,很少女人有 15 个孩子,所以可以推断上文中的 fertile 意思是能生育的,所以 B 项与此意思相符。故选 B。

50. D 【解析】文章最后一段的前两句对全文内容进行了总结。人类的进化已经结束了,身体上发生的变化却微乎其微。A 项"人类进化中性别比率的变化",比较片面,这只是影响进化的一个方面,不能以此作为文章的题目 本文并未讨论人类将来怎么办,故 B 项"人类进化继续下去的各种办法"也不能作为文章的标题。本文作者并未从物种的角度来展望大自然的进化前景,因此 C 项"大自然的进化前景",也应予以否定故选 D。

Part C

参考译文

你是否也曾制定过节食或运动计划,结果没过多久就坚持不下去了呢?如果你也像成千上万人一样,开始时雄心勃勃,但越往后越没动力。只靠积极性和毅力行不通,但还有其他解决办法!在生活中 95% 的事情都是由潜意识完成的,这部分大脑将我们的生活设置为"自动驾驶"状态。当你有意识地决定要培养新习惯时,不妨利用潜意识的力量新建一种神经通路。一旦新习惯形成,一切就会变得容易。

下面几个步骤能将任何想要的新行为变为一种习惯。一旦习惯形成后,做事情就不那么费力了。

(51)设立小目标

虽说设立大目标会令人兴奋,但从微小甚至无聊的小目标开始更可能使人获得成功。这些小目标可以是 10 分钟的冥想、用生蔬菜代替不健康的零食,或是每天步行 15 分钟。微小的改变会骗过你的大脑。你的潜意识热衷掌控,不喜欢原有习惯被打破。(大目标引起的)大改变总会激起潜意识的抵制,但若一点点改变,则有可能逃出大脑的监管和排斥。

利用"激发源"

"激发源"指的就是能够让你条件反射做某事的另一件事。比如说"饭后吸烟",那么"饭后"就是"吸烟"的激发源。让"激发源"为你所用。如果你能坚持总在早餐之后做冥想,几周之后你会发现,早餐后你会不由自主地想到冥想。视觉激发源也很奏效。早上把运动衣放在床上,等下班回家看到它,你会更有动力去锻炼身体。

(52)做好准备

要保证你拥有你需要的一切以确保成功。如果你想开始步行锻炼,就要准备好舒适的运动鞋和计步器。有计步器的人要比没有的人多走 27% 的路!

(53)确保很方便

做一件事的难度越大耗时越长,你去做它的几率也就越小。这就是为什么许多人办了健身房会员又中途退出——只是因为不是很便利。因此

要提前做好一切准备,等时间一到,你就能像耐克广告语说的那样"想做就去做。"

(54)让它变得有趣

如果你不喜欢做某事,就很难坚持到底。因此要想方设法让生活方式的转变充满乐趣。和朋友一起锻炼,学习做健康可口的饭菜,或是找到真正符合你要求的冥想计划。

(55)不要间断

当美国喜剧演员杰瑞·宋飞还没出名时,他就养成了天天利用挂历和红色记号笔写新内容的习惯。每天写了新内容,他就在当天的日期上画一个大大的红叉。他不想看见哪天是空白的。你也可以效仿这种方法,一个月后,新习惯就会基本形成。

通过这些步骤,你可以使大脑构成新的神经通路,从而养成习惯。等到习惯形成,你就能将它视为一条通往更大改变的通道,最终改变自己的人生。不积跬步,无以至千里。

51. F 【解析】本段首句为主题句,提出 Setting big goals is exciting but starting with small boring goals is more likely to lead to success. (虽说设立大目标会令人兴奋,但从微小甚至无聊的小目标开始更可能使人获得成功。)注意转折词 but 之后的内容为语句的重心所在。而接下来提到的 small changes 与 small actions 都是 small goals 的具体表现。F 项含有本段核心关键词 small goals,因此该项为本题答案。

52. B 【解析】本段首句提出 Make sure you have everything you need to ensure your success(要保证你拥有你需要的一切以确保成功),然后举例加以说明。显然首句是段落主题句,核心信息是 have everything you need"拥有你需要的一切",接下来所举的例子提到"如果你想开始步行锻炼,就要准备好舒适的运动鞋和计步器"。由此可知,本段谈论的是行动前的准备工作,因此 B 项 Be Prepared 是对本段内容的高度概括,为本题答案。

53. E 【解析】本段首句提出"做一件事的难度越大耗时越长,你去做它的几率也就越小",随后以许多人办了健身房会员又中途退出为例加以说明,接下来一针见血地指出 It's just not that convenient. (只是因为不是很便利。)最后指出要提前做好一切准备。浏览各选项,B 项的 Be Prepared 与 E 项的 Make It Convenient 看似都与本段内容相关,B 项与段尾的 Get everything you need ready 高度一致,但是不能囊括该段其余部分的内容,属于"以偏概全",所以不能入选。E 项是对本段首句的"正话反说""反话正说",而且含有本段核心关键词 convenient,所以 E 项为本题答案。

54. C 【解析】本段前两句提出"如果你不喜欢做某事,就很难坚持到底,因此要想方设法让生活方式的转变充满乐趣",接下来是举例说明。C 项的 Make It Fun"让它变得有趣"是对本段内容的最好概括,其中的 fun 与前两句的 enjoy 与 enjoyable"高度对应",因此 C 项是本题答案。

55. A 【解析】本段的开头部分讲了美国喜剧演员杰瑞·宋飞的故事。他未出名时养成了天天利用挂历和红色记号笔写新内容的习惯。每天写了新内容,他就在当天的日期上画一个大大的红叉。他不想看见哪天是空白的。最后一句总结道:你也可以效仿这种方法(this technique),一个月后,新习惯就会基本形成。this technique 是对前面提到的杰瑞·宋飞采用的方法的概括,这种方法的关键就是每天坚持不间断。A 项的 Don't Break the Chain 的字面意思是"不要打断链条",也就是"不要间断"的含义,高度概括了本段内容,所以本题答案为 A 项。

Part D

56. 还有人敦促他为高尚事业捐款,鼓励他使用一些很不错的信用卡。

57. 这都起因于我在网上的化名杰克,试图保住自己所剩无几的隐私。

58. 我们都已经听过人们的身份被以信用卡或社会保险号码的形式盗用的恐怖故事。盗窃身份是快速发展的犯罪形式中的一种。

59. 因为被看作是一种对顾客隐私的不道德的侵害,招来法律诉讼,"双点击"有限公司只能暂时放弃这个计划。

60. 随着骗子们的创造力因新技术而得到充分的发挥,最可靠的措施也许就是保持以往一贯的警觉。

第三部分 写作

61. 范文

In the article, the author mentioned two aspects constituting Americans' unhealthy eating habits: one is eating fast food with high calories; the other is eating too fast.

Some fast food seem to have nutrition, but still can do harm to one's health because there are lots of sugar hidden in them. Frozen or canned food are also bad because they are not fresh. The fast pace of modern life force people to eat very fast, with little time to digest or relax right after each meal. These habits may gradually ruin people's body.

To build a good eating habit, we need some self-control. When we see fat-laden food such as fried chicken and ice creams on the menu, we'd better turn our head away to order some fresh vegetables instead. Take our time to enjoy the meal, instead of finishing it in hurry or eating food on our way to work. Having a small walk after meal is also good for digestion.

全国英语等级考试第四级模拟试卷(二)

第一部分 听力

Part A

1. 5
2. 11
3. together
4. 8
5. car

Part B

6. Benjamin Jones
7. He is sick.
8. 3 o'clock
9. landscape painters
10. Only one book.

Part C

11 - 15CCCCA

16 - 20BCCBA

听力部分录音材料:

Questions 1 ~ 5

W: Welcome to Friday Cinema. Would you like to purchase a movie ticket?

M: Umm ... I want to know when *The Ring* is showing?

W: There are 5 shows today. One at noon, and then 2 p. m. ,5 p. m. ,8 p. m. and 11 p. m. On the weekend, besides these 5 shows, there is an other show at midnight.

M: I'm sorry. Could you tell me the show times for today again?

W: There are 5 shows today, one at noon, and then 2 p. m. ,5 p. m. ,8 p. m. and 11 p. m.

M: OK. I want 6 tickets for the 11 p. m. show tonight. Are there still 6 tickets available that are seated together?

W: Sorry. There are only three tickets left. How about the 8 p. m. show? There are still 10 tickets left for that one.

M: But I have a friend who doesn't get off work till 8 p. m. , so he won't make the beginning of the movie.

W: Well, I think it should be OK if he misses the first ten minutes.

M: He works about an hour's drive from this movie theater, so he will never be able to make it in time.

W: Would you like to see another movie then?

M: No, we all want to see this one. Is there any way that we could buy tickets now for tomorrow?

W: Yes, you can order tickets now for tomorrow.

Questions 6 ~ 10

Woman: Elizabeth Martin speaking.

Man: Dr. Martin, my name is Mark Johnson. My roommate, Benjamin Jones, is in your art history class. Uhm, Art History 502?

Woman: Yes.

Man: Well, he is sick and won't be in your class today. He asked me to bring his term paper to your office.

Woman: OK. The paper is due by 3 o'clock.

Man: I have a class from 1 to 2. I'll bring it to your office after my class.

Woman: Well, I have a meeting this afternoon. So you can drop it off with the secretary of the art history department. She'll see that I get it.

Man: OK. Oh I almost forgot. I'm a biology major. But my advisor told me that I need one more humanities course to graduate. I've noticed that you are teaching a course on landscape painters next semester. Could you tell me a little bit about it?

Woman: Sure. Well, it's a course for non-art majors. We'll be looking at several different painters and examining their works. We'll also look the history and politics of the era in which they lived.

Man: That sounds interesting. What else is required?

Woman: There is no final exam. And there is only one required book. But each student has to give a major presentation about the individual painter at the end of the course.

Man: Hmm. It sounds good. Will you be in your office later today? I'd like to talk to you some more.

Woman: Well, my meeting's scheduled to last all afternoon. Why don't you stop by tomorrow? Any time in the afternoon. My office is in the fine arts building right next to the library.

Man: Thanks. I'll do that.

Questions 11 ~ 13

The Library of Congress, the largest library in the United States, contains about eighteen million books. Harvard University has the largest academic library with more than nine million volumes. The largest public library is the Chicago Public Library with nearly six million volumes, followed by the New York Public Library with 5.5 million. Consequently, finding a book in any of these libraries must be like finding a needle in a haystack!

Librarians use a special system to make the job of finding books easier. To keep the books in order, librarians give a number to each book in the library, and books are arranged on the shelves according to these numbers. In order to find the number of a book, you must look in the card catalogue. The card catalogue is a special file of cards with information about the books in the library. Each book has three cards in the card catalogue: a title card, an author card, and a subject card. These cards are arranged in the card catalogue in alphabetical order. If you know the title of the book you are looking for, look for the title card. If you only know the author look for the author card. If you are looking for a book about a particular subject, look for the subject card. When you find the card of the book you want, copy the number of the book. Then you can find the book easily.

Questions 14 ~ 16

There was once a man in South America who had a parrot, a pet bird that could imitate human speech. The parrot was unique. There was no bird like him in the whole world. He could learn to say any word except one. He could not say the name of his native town, Ketunnel. The man did everything he could to teach the parrot to say "Ketunnel", but he never succeeded. At first he was very gentle with the bird. But gradually, he lost his temper. "You stupid bird. Why can't you learn to say that one word? Say 'Ketunnel', or I will kill you." But the parrot would not say it. Many times the man screamed, "Say 'Ketunnel', or I'll kill you." But the bird would never repeat the name. Finally, the man gave up. He picked up the parrot and threw him into the chicken house. "You are even more stupid than the chickens." In the chicken house, there were four old chickens, waiting to be killed for Sunday's dinner. The next morning, when he went to the chicken house, the man opened the door. He was shocked by what he saw. He could not believe his eyes and ears. On the floor lay three dead chickens. The parrot was screaming at the fourth, "Say 'Ketunnel', or I'll kill you."

Questions 17 ~ 20

As you probably know, log structures are gaining

popularity. They are no longer just the simple country homes that we think of as the traditional log cabin. Some upscale homes now incorporate natural round logs in sealing beams and walls. People seem to think that the rounded logs give their homes a cozy warm atmosphere. And even people who want to build a traditional log cabin on their own can buy a kit with precut logs that fit together like pieces of lig-saw puzzle. Before showing you some slides of modern log houses, I'd like to give you a little historical background on the subject.

Log cabins were first built in the late 1600s along the Delaware river valley. The European immigrants who settled there brought centuries' old traditions of working with logs. And in this heavily wooded area logs were the material in hand. Log cabins were the most popular in the early 1800s with the settlers who were moving west. They provided the answer to the pioneer's need for a sale and sliding boards for windows. But the log buildings that have probably had most influence on modern architects are those of the mountain retreats of wealthy New Yorkers. These country houses which were popular in the early 1900s typify what's known as the Adoroundyx style. Now let's look at those slides.

第二部分　阅读

Part A

参考译文

在受高等教育的年轻男女比例方面,美国领先于所有工业国家。为什么呢?是什么驱使一个中等收入家庭为了儿女能读四年的私立大学贷款12万美元?为什么一个低收入家庭,父母双方都工作以供他们的三个孩子上州立大学(每个孩子一年的开销是4000美元)?为什么一个四十多岁的女子会辞职,用自己的存款去报读年轻时未能接受到的大学教育?美国人认为高等教育非常重要。这一态度可以追溯到这个国家最古老的政治传统。美国人始终认为教育对维护一个民主政府是非常必要的。他们认为教育为个人的政治参与(包括投票)作好了准备。

二战前,高中教育似乎满足大多数人的需要,不过内战时期,美国人面临了许多新问题。如,原子能怎么使用?科学家需要进行断裂基因实验吗?钱应该花在将宇航员送入太空方面还是用来帮助另一个国家?对于这些复杂问题,美国人很少直接投票表决,不过他们选举出来的代表们会做出决策。最近,很多美国人开始将大学教育看成是成为知情的美国选民的必须条件。

21. take

【解析】根据上文可知,此处是"贷款"或"借贷"的意思,take loans为固定搭配。

22. attend

【解析】这句话意思是"去私立大学上学","上学"的用法是attend...school。

23. at

【解析】这句话意思是"每年花费4000美元","以……为价格,花费"的表达为at a cost of。

24. enroll

【解析】这句话意思是"为学习……登记/报名",固定搭配为enroll for。

25. young

【解析】这句话意思是"她年轻时所没有参加的大学学习",young在此处作形容词,意思是"年轻人的,青年的"。

26. on

【解析】此处为固定搭配"特别重视",place a high value on。

27. back

【解析】这句话意思是"追溯到古老的政治传统","追溯到"为go/trace back to。

28. maintaining

【解析】这句话意思是"美国人民一直相信教育是维持一个民主性政府的基本","维持/维护"为maintain,接在介词for之后,故用maintaining。

29. for

【解析】此处为固定搭配,"为……而准备",故用prepare...for。

30. satisfying

【解析】这句话意思是"在二次大战以前,美国

的中学教育似乎足以满足人们的需求,“满足……需要”为 satisfy one's needs,接在介词 for 之后,故用 satisfying。

31. power

【解析】由前文可知,在战后时期很多问题出现了,例如原子能的使用,“原子能”为 atomic power。

32. allowed

【解析】这句话意思是“能否允许科学家做基因试验”,“被允许做……”为 sb. be allowed to do。

33. sending

【解析】这句话意思是“送航天员进入太空”,“送/发送”为 send,接介词 on 之后,故用 sending。

34. do

【解析】这句话已有完整的结构,此处用助动词起加强语气的作用,主语为复数,时态为一般现在时,故用 do。

35. as

【解析】此处是固定搭配“结果,因此”,as a result。

Part B

Text 1

参考译文

能说两种语言比只会一种语言有明显的好处。近几年来科学家们开始指出双语能够让人变得更聪明,可以对大脑产生深刻的影响,提高除语言以外的其他认知能力,甚至可以在年老时防止痴呆。

20 世纪的研究人员、教育家和政策制定者把第二语言视为认知上的干扰,会对孩子的学习和智力发展造成阻碍。很多证据表明在一个双语者的大脑中,即使当他只使用一种语言时,两个语言系统也会同时活跃,因此有时会出现一种系统干扰另一种系统的情况。但这种阻碍其实是因祸得福。它强迫大脑解决内在矛盾,使大脑进行锻炼并增强认知能力。很多相似的研究表明,双语经验可以提高大脑所谓的执行能力。这些过程包括忽略干扰从而保持专注,有目的地将注意力从一件事转移到另一件事,并在大脑中保存信息——比如在驾驶时记住一系列的方向。

为什么两种同时活跃的语言系统之间的争斗可以改善认知呢?直到最近,研究人员认为双语的优势来源于它的抑制能力。但是这种解释显得证据不足,因为研究表明,双语者甚至在不需要抑制力的任务上也表现得比单语者出色,例如把任意排列的一串数字按升序连线。

而双语者和单语者的关键差别可能表现在更基本的层面上:监测环境的能力。“双语者需要经常转换语言,”西班牙庞培法布拉大学的研究人员艾尔伯特·科斯塔说,“这要求你对周围的变化记录,与我们开车时记录监控环境的方式一样。”在一项对比德意双语者与意大利单语者完成监控任务的研究中,科斯塔先生和他的同事们发现,双语者不但表现得更出众,而且参与监控的脑部活跃范围也更少,这说明他们很有效率。

双语经验对大脑的影响似乎从童年开始,一直持续到老年,我们有理由相信晚些时候开始学习第二语言也会有益处。

36. D 【解析】细节题。由题于关键词定位到文章第一段。A 项“提高其他领域的认知技能”与文中 improving cognitive skills not related to language 表述一致。B 项“对大脑有益,让人更聪明”与文中 have a profound effect on your brain 表述一致。C 项“预防老年痴呆症”符合 shielding against dementia in old age。D 项“提高反应性和记忆力”并未在原文提及。故选 D。

37. A 【解析】含义题。由题干关键词定位到文章第二段。前文表示第二语言会造成认知上的干扰,该句后的内容则指出这种干扰作用反而会带来益处,它迫使大脑解决内在矛盾,让大脑进行锻炼,增强认知技能。由此可知,双语能力表面上是一种干扰,实则大有裨益。故 A 项“这种干扰可能会有助于我们开发大脑”正确。B 项“我们的大脑将面临双语学习带来的更多挑战”、C 项“双语体验能提高说话者的理解能力”和 D 项“说两种语言会干扰人们开车时的记忆”均不符合题意。

38. D 【解析】细节题。根据题干关键词定位到文章第四段,根据首句“而双语者和单语者的关键差别可能表现在更基本的层面上:监测环境的能力。”可知,双语者更能迅速敏锐感知周围环境

的变化。故D项“双语者对环境更敏感”与原文相符。A项“约束两种语言的基本能力”并不是关键差别。B项“注意他们自身条件的变化”与文中“注重的是周围环境的变化”表述相悖。C项“双语者更有效率、更谨慎”,其中“更谨慎”并未在原文提及。故选D。

39. C 【解析】细节题。题干中并未提及与段落相关的关键词,需要纵览全文。C项“双语者在观察环境变化方面做得更好。”与文中第四段句首表述一致。A项“人们相信单语学习会对大脑产生积极的影响”与原文表述矛盾。B项“单语者需要忽视大脑内部的冲突并保持专注”并未在原文提及。D项“双语体验对儿童的影响比老年人更大”并不符合最后一段表述的内容。故选C。

40. A 【解析】主旨题。本题为主旨题,纵览全文可知,A项“双语学习者可以通过他们的能力受益”是对全文大意的整体概括。B项“双语者能有效地工作而不受干扰”、C项“两种活跃的语言系统使人更聪明”和D项“学习第二语言永远不会太迟”都只是对文中部分内容的总结,均不能完美地概括整篇文章。故选A。

Text 2

参考译文

周二,美国国家科学院发布了一份详细报告,该报告指明,人类和动物可以放心食用基因工程作物,此举并不会增加罹患癌症、肥胖症、胃肠道疾病、肾病、自闭症或过敏症的风险。

综合看来,基因工程作物节省了美国农民的开支,但并没有带来显著增产。某些地区(尤其是美国中西部)的害虫种群数量因之减少,但其他地区抗除草剂杂草的数量却增多了。报告还称,目前没有证据表明基因工程作物对黑脉金斑蝶的数量造成了影响。

委员会在评估人类食用转基因作物安全性的问题上,比较了美国、加拿大和英国及西欧的疾病报告。其中,美国、加拿大从20世纪90年代中期开始食用转基因作物;而在英国和西欧,转基因作物的推行没有那么广泛。美国、加拿大自90年代引入基因工程食物之后,尚未发现有哪种特定的健康问题出现长期的增长。

报告指出,肥胖、二型糖尿病与基因工程食物之间没有关联;麦胶性肠病(乳糜泻,对麸质不耐受)在大西洋两岸都有增长;英美两国儿童自闭症谱系障碍的增长情况相似。

报告总结称,基因工程作物的食物制品和传统作物的食物制品相比,两者对人类健康的影响没有差异,前者不会带来更高的风险。

“水和食物观察团”是华盛顿特区的一个政府问责团体,他们认为委员会在与生物科技产业及其他公司的联系中夹杂有利益冲突,并质疑这份报告的独立性。团体的执行理事威诺那·豪特说:“批评的声音一直受到排挤。”

有相当一部分美国消费者担心转基因作物制成品(通常称作GMOs, genetically modified organisms的缩略形式)的安全性和其他影响。NPD集团(一家市场调研公司)去年进行了一次相关调查,发现有57%的美国人担心转基因食物会带来健康风险。

食品产业注意到了这一点。2015年,商业出版物《先进食品杂货商》报道称,2014年间全美贴有“非转基因”标志的食品和饮料的销售额达100亿美元。洛杉矶一家食品产业的分析师费尔·朗伯特认为,国家科学院的这份报告大概动摇不了这些消费者的认识。

他说:“这不是科学问题,而是情感问题。”

41. A 【解析】事实细节题。第三段第一句提到,科学院的报告是比较了美国、加拿大(食用转基因食品)和英国、西欧(不怎么食用转基因食品)得出的,所以答案选A项。B项“评估肥胖和转基因食品消费之间的关系”,这是该研究报告的结论之一,不是研究方法;同样,C项也是研究结果之一;D项“对危害健康的因素进行市场研究”文中没有提到,故均排除。

42. D 【解析】推理判断题。第三、四段中将美国、加拿大和英国、西欧出现的一些疾病作出比较。而第四段第一句 There was no correlation between obesity or Type Ⅱ diabetes and the consumption of GE foods(肥胖、二型糖尿病与基因工程食物之间没有关联)用的第一个例子就是obesity(肥胖症),故D项正确。A项与原文第三段中间 and

those in the United Kingdom and western Europe, where they are not widely eaten(而在英国和西欧,转基因作物的推行没有那么广泛)意思不符,所以A项错误;B项源自原文第三段where such crops have been consumed since the mid-1990s(其中,美国、加拿大从20世纪90年代中期开始食用转基因作物),但这里没有提到英国,所以B项也是错误的;第四段第二句提到"麦胶性肠病(乳糜泻,对麸质不耐受)在大西洋两岸都有增长",这说明这种疾病不是由于食用了转基因食物而引起的,所以C项也错误。

43. C 【解析】词汇理解题。根据定位词定位到第六段the committee...raise questions about the independence of its work. "Critics have long been marginalized," (委员会……质疑这份报告的独立性,"批评的声音一直受到排挤。")这句话意为针对转基因食品的反对声音因为既得利益集团的缘故而被边缘化,受到排挤,故C项"被忽视"正确。A项"被责骂",接批评意见的人并没有被责骂,故A项错误;B项"被抛弃"并不准确,因为批评意见还在,并未消失,只是无法公开;D项"被评估",文中提出质疑的原因是研究不够独立,可见批评意见未被评估,故D项错误。

44. B 【解析】推理判断题。第六段提到"他们认为委员会在与生物科技产业及其他公司的联系中夹杂有利益冲突,并质疑这份报告的独立性。团体的执行理事威诺那·豪特说:'批评的声音一直受到排挤。'"B项体现出了委员会与其他公司可能会出现的利害关系,故B项正确。A项"回答了公众关于转基因食品的疑问",原文没有提到公众,所以不正确;C项"引发企业和公众的矛盾",原文中是conflict of interest(利益冲突),指的是金钱上的往来,不是企业和公众之间的服务冲突,故不正确;D项"加强了社会和生物科技产业的联系",原文中的tie是指美国国家科学院委员会和生物科技产业的联系,而不是社会的联系,所以错误。

45. A 【解析】主旨大意题。本文主要内容是提出一份美国国家科学院的报告,证明转基因食品无害,同时也表明一些反对观点以及消费者的普遍认识。故A项正确。B项"公众对于转基因作物的关心不会因为科学报告的发表而有所减少"原文中没有提到;C项"美国科学报告的独立性受到质疑"只是原文中出现的一个细节,不适合作标题;D项"因为其更健康的成分,美国人更喜欢非转基因食品",原文中有提到,但不是本文的重点,不能作标题。

Text 3

参考译文

如今家长们普遍认为学校对拼写不再感兴趣了。我任教过的学校没有一所是忽视拼写或认为它是一项不重要的基本技能的。然而,在怎样教授拼写和它相对于语言的总体发展和写作能力应占多少优先地位的问题上,意见分歧很大。问题是如何鼓励孩子在写作中自由而且自信地表达自己,而不让复杂的拼写阻碍了他。

如果老师的兴趣只集中在拼写上,毫无疑问,聪明的孩子可能会"稳妥行事",他就容易只写他会拼写的词而避免使用新奇的语言。这就是老师往往鼓励学生早用词典,多注意文章内容而非拼写能力这种技巧问题的原因了。

有一次,读到一篇写个人经历的感情细腻的文章后面的评语,我感到很惊讶。评语写道:"这篇写作糟透了!拼写错误太多,而且你的笔迹难以辨认。"这可算是对学生写作技巧能力的严厉批评,但这也悲哀地反映出老师并未阅读这篇文章,文章有孩子表达深切感情的优美词句。这位老师注意拼写错误并没有错,但如果他能把重点放在注意孩子的思想上,能在表达失望时加上表扬,将会给孩子带来更多提高的动力。

46. B 【解析】文章第一段:There are, however, greatly different ideas about how to teach it or how much priority it must be given over general language development and writing ability.(然而,在怎样教授拼写和它相对于语言的总体发展和写作能力应占多少优先地位的问题上,意见分歧很大。)由此可知,B项符合,故选B。

47. D 【解析】文章第二段:He will be prone to write only words within his spelling range, choosing to avoid adventurous language.(他就容易只写他会拼

写的词而避免使用新奇的语言。)由此可知,D项符合,故选D。

48. B 【解析】从文章可知:有了字典,孩子们就可以写起来更自信,不用再"play safe"。故选B。

49. A 【解析】从作者的语气可推测,作者对那种老师的做法是批评的。故选A。

50. D 【解析】由全文可知,文章主要在讨论拼写和内容的关系。故选D。

Part C

参考译文

[D]游客们在佛蒙特州森林的万宝路学院的田园式校园里十分显眼,但并不是因为他们是特殊的游客或者是不速之客。万宝路学院有190名在校学生和仅有的几十名教职员工,大家都彼此认识。学生和教师的比例是5:1,大概是全国最低的。学院管理部门一直努力保持学院规模小型化:学生人数很少超过350人。但自二战后学院成立以来,万宝路学院经常可以避开金融危机。1993年,该学院在银行的资金只够支付几名教职员工的工资,结果一个基金会拯救了它。今天,它正在寻找拯救自己的方法,并且已经取得了一些成功。

[G]万宝路学院并不是唯一面临收入和招生压力的学校。同样位于佛蒙特州的伯灵顿学院(有70名学生),在夏天关闭了大门。斯威特布莱尔学院是弗吉尼亚州一所著名的女子学院,去年险些对245名在校学生关闭学校。校友们最后一分钟的筹款活动暂时挽救了它。信用评级机构穆迪在2015年表示,学院关闭和合并的速度将会加快,并在未来几年内可能会是现在平均每年关闭五所学院这一速度的三倍。穆迪的丹尼斯·格普哈特表示,学院的关闭和合并将集中在最小规模的学院。

[B]这一问题的部分原因是家长和准大学生都在质疑文科的价值,至少对于小型的文科院校来说是这样。他们希望自己四年的投资能得到一份高薪工作这一形式的可靠回报。现在仍然有大量的小型院校存在:能够授予学位的学院中大约有40%只拥有不到1000名在校生。尽管学生人数总体上有所增长,但自2010年以来,这些小型院校的入学率却下降了5%以上。

[E]为了吸引学生,一些院校降低了学费标价,但这对于没有健全基金的院校来说是不可持续的。根据全国高等院校商业管理官员协会的数据,49%的独立学院和大学提供学费折扣,而10年前的数据只有38%。

[F]前阿巴拉契亚大学协会(阿巴拉契亚山脉地区微型学院网)会长艾丽斯·布朗认为更多的学校必须合并或关闭。伯克利音乐学院(有4371名学生)和波士顿音乐学院(有730名学生)于六月合并。小型学院往往已经共享了会计人员或实验室。

[A]是不是给这些小型院校还留有一些余地呢?"肯定是有的,但是必须要通过合并和收购吗?答案也是确定无疑的。"全国高等院校商业管理官员协会的鲍勃·谢伊说道。许多小型院校都为利基市场服务,这其中包括一个以信仰为基础的大市场。布朗女士说:"许多学生根本就不会上大学,或者会在大型高校里迷失自己。"

[C]一些微型学院依靠捐款来挽救局面,如果学院关闭,校友们会对自己学位的价值感到担忧。但捐赠者可能会感到厌倦。与此同时,万宝路学院正利用其捐赠基金向每个州的一名学生提供奖学金,以努力扩大其在新英格兰地区的常规生源库,并开发新的生源。此举立竿见影。在入学率下降了几年之后,该学院今年的生源数量增加了6%。

51. G 【解析】根据所给的段落次序,第一段是D,重点介绍了万宝路学院一直努力保持学院规模小型化:学生人数很少超过350人。现在万宝路学院正面临危机,也寻找自救的方法,并已经取得了一些成功。因此下一段的内容应该能够承上启下,接着以万宝路学院为线索,展开下文。通读其他各个选项,可以发现选项G的第一句话"万宝路学院并不是唯一面临收入和招生压力的学校"可以衔接上文的内容。因此选项G正确。

52. B 【解析】文章第二段的主要内容是:万宝路学院并不是唯一面临收入和招生压力的学校。后文举例说明命运相同的小型学院还有几所。后文接着引用了信用评级机构穆迪的观点,即学院的关闭和合并的速度将会加快,并在未来

几年内可能是现在速度的三倍。该段最后引用丹尼斯·格普哈特的观点:学院的关闭和合并将集中在最小规模的学院。由此可知,这段主要介绍了许多学院关闭和合并成为一种趋势,尤其是小规模的学院。最后一句提到微型学院关闭和合并的问题,所以下文应该围绕微型学院存在的问题来进行讨论。选项B就是紧紧围绕小型学院存在的问题展开的,这个段落的三个句子主语中分别包含小型学院的相关信息,small liberal arts institutions、there are still an awful lot of small places 和 enrolment at these institutions,与上文呼应,关系密切,故为答案。

53. E 【解析】本文第一段提出问题:美国微型学院面临危机,可能会关闭和合并;第二段分析问题,介绍微型学院出现危机的原因。所以下一段应该介绍如何解决问题,即具体介绍用什么方法来避免关闭和合并的命运。选项E开门见山地提出:为了吸引学生,一些院校降低了学费标价,并提供学费折扣。选项E与上文衔接紧密,故正确。

54. F 【解析】上一段提到小型学院开始采取降低学费的方式吸引学生。而剩余的备选项只有选项A和选项F。仔细阅读两个选项的内容可以发现,选项A的最后一句是"Many students wouldn't go to college at all or would be lost in a large one,"says Ms. Brown. 而选项F的第一句话是Alice Brown,a former head of the Appalachian College Association,a network of tiny colleges in the Appalachian Mountains,thinks more must merge or close. 同一个人物(Brown)出现在两个选项中,而选项F有对人物的具体介绍,应该出现在前面,因此,本题的正确答案是选项F,主要介绍布朗女士对小型学院生存和发展的看法。

55. A 【解析】参照上题的分析,可知本题正确答案是选项A,本段一方面通过提问的方式来承接上文,提出小型学院还是有生存空间和发展前途的,另一方面与全文的最后一段呼应。最后一段进一步指出小型学院除了降低学费、寻求特殊市场,还可以依靠捐款来拯救局面,也可以利用其捐赠基金为学生提供奖学金,以努力扩大生源库,并开发新的学生资源。

Part D

56. 过去20岁到29岁的群体是求租最多的。十年后这一群体的数量不断下降表明求租需求长时间的减弱。其他的原因也对求租需求不利,例如,移民人数的下降和高失业率。

57. 与这些趋势相背的一个因素是中低收入的群体所面临的困难,买不起自己的房子又等不起公房,就得租房。

58. 其次是资产净值投入者,他多年把持着两到四处地产,并想通过对地产的完全所有权来为退休后的生活谋求收入。

59. 另外一种房东是地产投机商,他拥有至少五处地产并总要增加地产数量。通常他投入中期或长期地产业。

60. 最后一种房东是那种典型的较随意的房东,或出租一个房间或同求租人生活在一起,作为缓解贷款压力的方法。

第三部分 写作

61. 范文

According to the article, artificial beauty created through plastic surgeries is losing ground to natural authenticity in Hollywood, a film industry used to prefer the image of charming and sexy ladies with large breasts, even though they were fake ones. That's a good news to hear because less young women will be misled to make unnecessary changes to their own bodies.

Females in the movie or on TV often have slender figures, large breasts, white teeth and charming smiles. Compared with them, many ordinary young women become unsatisfied with their own appearance, thus hoping to be more beautiful by receiving plastic surgeries. However, there are lots of risks by receiving plastic surgeries. Some may even suffer from adverse impacts brought by botched procedures.

As the old saying goes, everyone longs for beauty. We all desire to look good and leave a great impression on others. But too much emphasis on external

appearance will do no good to a person's future development. One may even lost himself in the process of blindly pursuing the beauty standard set by others.

全国英语等级考试第四级
模拟试卷(三)

第一部分　听力

Part A

1. Tuesday
2. five
3. 16
4. shock
5. lease

Part B

6. registration has closed
7. the first week
8. a temporary worker
9. The student's address.
10. The director.

Part C

11 - 15BCDBD

16 - 20ABBAD

听力部分录音材料:

Questions 1 ~ 5

It's 8 o'clock on Tuesday, May 1st. Here is the news: Between the hours of 7:00 and 8:00 P. M. last night, five thieves broke into the country house of Lord and Lady Chest-field on an island. They entered by a window at the rear of the house and surprised the owners who were watching television in the drawing room. After disconnecting the telephone and tying up Lord and Lady Chest-field, the thieves escaped with 16 precious paintings. The market value of such art works have been estimated at somewhere around 4 million pounds. Lord and Lady Chest-field were not seriously harmed but have been treated for shock in the hospital.

Early this morning a woman with a Scottish accent telephoned the Times in London to say that the Chest-field Organization for Freedom had claimed the responsibility for the theft. This is the third time this year that this organization has claimed the responsibility for an act of this kind. The organization defends all the farmers on the island. The farmers were forced to leave their lands when Lord Chest-field, their landlord, refused to renew their traditional lease last year in order to extend the reservation area for birds.

Questions 6 ~ 10

W: I want to register for this mathematics course.

M: I'm sorry registration has closed.

W: Closed? The clerk told me I could come back and register any time during the first week of classes.

M: Well, that's not possible. The computer's official student account has already been sent to the state. And that's what our budget is based on. Who told you that anyway?

W: Some woman here when I tried to register three weeks ago. She said I just had to pay a late fee.

M: She must have been a temporary worker. They don't have much training. Why didn't you register then?

W: She said I couldn't until I had my birth certificate. Here it is.

M: Your birth certificate?

W: Well, I'm a new part-time student. So she asked for identification. I don't drive so I don't have a driver's license.

M: Huh. That's no reason to demand a birth certificate. We only need to establish residency: a phone bill with your name and address on it would've been fine.

W: Really? Only prove of my address?

M: Yes. I'm afraid she gave you the wrong information. Still you'll have to wait and take your math's class next semester.

W: But that's unfair.

M: Well, I sympathize with your problem, but frankly, I don't think there is anything anyone can do for you. You were trapped in the system. If you want to, you can talk to the director. She will help you if she can.

W: Great.

M: Don't get your hopes up.

Questions 11 ~ 13

Karl Wilhelm Rontgen (1845 – 1923) astounded people with the first x-rays in 1895; this was followed three years later by the discovery of radium by Pierre and Marie Curie. But who were they? In 1894, Marie and Pierre Curie met while studying in Paris. Their marriage on 25th July 1895 marked the start of a partnership which was to receive worldwide recognition.

The Curies discovered radium, a radioactive substance, in uranium oxide ore. They developed techniques for extracting it, but first did not fully understand its properties. Pierre Curie used to carry radium around in his waistcoat pocket and could not understand why he was developing a massive sore on his chest. This would have been fatal, but Pierre's life was cut short in 1906 when he was knocked down and killed by a horse and cart in the street. From then on, Marie devoted herself to completing the work that they had begun together.

Marie and Pierre Curie were awarded a joint Nobel Prize in 1904, followed up by a second one for Marie in 1911. Their research was crucial in the development of x-rays in surgery. During World War I Marie Curie helped to equip ambulances, which she drove to the front lines, with x-ray equipment. The International Red Cross made her head of its Radiological Service and she held training courses for medical orderlies and doctors in the new techniques.

Despite her success, Marie faced great opposition from male scientists in France and she never received the recognition she deserved. She died in 1934 from leukaemia, due to exposure to high-energy radiation used in her research. Radiation has since been used to treat cancer worldwide.

Questions 14 ~ 16

In Britain, if you are found guilty of a crime, you can be sent to prison or be fined or be ordered to do community work such as tidying public places and helping the old. You may also be sent to special centers when you learn special skills like cooking, writing and car maintenance. About 5 percent of the present population are women. Many prisons were built over one hundred rears ago. But the government will have built 11 new prisons by next year. There are two sorts of prisons. The open sort and the closed sort. In the closed sort, prisoners are given very little freedom. They spend three to ten hours outside their cells when they exercise, eat, study, learn kills, watch TV and talk to other prisoners. All prisoners are expected to work. Most of them are paid for what they do, whether it is doing maintenance or cooking and cleaning. Prisoners in open prisons are locked up at night, but for the rest of the time, they are free within the prison grounds. They can exercise, have visitors, or study. And some are allowed out of the ground to study or to do community work.

Questions 17 ~ 20

The Old Canada Road is a long lost trail between the Canadian province of Quebec and Maine in the northeast comer of the United States. Yes, it really was lost and finding it again was a complex process that involved advanced technology: how the location of the roads was pinpointed was very interesting. And I'll return to it as soon as I gave you a little background information. The road was begun in 1817, a few years before Maine even became a state. At the time Quebec was a major market for livestock, crops and fish. So a road to Quebec was seen by officials in Maine as necessary for trade. For about 20 years the movement of people and goods was mostly from Maine to Quebec, and then the trend reversed as thousands of Canadians immigrated to Maine to escape poor crops, the lack of jobs and the threat of disease. I think it was a color epidemic. Besides its negative reasons major building projects in Maine also made the state very attractive for the Canadians who needed work. I should stress though that immigration during that period went in both directions. In fact the flow of people and goods

went completely unhindered. There wasn't even a border post until around 1850. The people of the time saw Maine and Quebec as a single region mainly because of the strong French influence which is still evident in Maine today. Eventually the road fell into disuse as a major railway was completed. Finally people simply forgot about it and that's how it came to be lost. This brings me back to the original topic.

第二部分　阅读

Part A

参考译文

你可能会说阅读时做标记会减慢你的阅读速度。可能会。这是阅读速度减慢的原因之一。我们大多数人都被“阅读速度是检验我们智商的标准”这种观点所蒙蔽。然而并没有明智的阅读速度这种事情。有些东西阅读起来应该迅速而轻松,而有些则应该缓慢,甚至是费力地阅读。阅读时的智商体现在根据不同读物的价值用不同方式阅读的能力。至于好书,重要的不是看你能看多少本,而是看你能理解多少本,即有多少能变成你自己的东西。几个朋友胜过成千的泛泛之交。如果这是你的目标——这也应当是你的目标,那么花比读一份报纸更多的时间和精力去读一本好书,你就不会感到不耐烦了。

你可能还有反对读书做标记的另一个理由。你不能把做过标记的书借给朋友,因为没有一个人在阅读的时候不会被你做的标记分散注意力。另外,你不会愿意借书给别人,因为一本做过标记的书是一种思想日志,而把它借出去就像把你的思想泄露出去一样。

如果你的朋友希望看你的《莎士比亚》或《联邦党人文集》,那么温和而坚定地告诉他自己去买一本。你可以把你的车或你的衣服借给他,但是你的书就像你的脑袋或是你的心脏一样,是你身体的一部分。

21. reasons

【解析】本句中的“doing it”指代 slow down your reading,本句意为“这是阅读速度减慢的原因之一。”故此空应填“原因”。

22. reading

【解析】本句意为“我们大多数人都会被……的速度是检测我们智商的标准这种观点所蒙蔽。”由上下文可知此空应填“阅读”。

23. speed

【解析】由上一句可推测本句意为“没有聪明阅读速度这种事情。”由此可知应填 speed。

24. read

【解析】由本句中的“and some should be read”可知此空应填 read。

25. in

【解析】“阅读时的智商体现”英语表达为“the sign of intelligence in reading”,介词应用 in。

26. case

【解析】in the case of 意为“就……来说,至于”,是固定短语。

27. but

【解析】not...but...意为“不是……而是……”。

28. make

【解析】make your own 此处意为“使之成为你自己的”,此句意为“至于好书,重要的不是看你能看多少本,而是看你能理解多少本,即有多少能变成你自己的东西。”

29. as

【解析】as it should be 意为“这也应当是你的目标”,此句意为“如果这是你的目标——这也应当是你的目标,那么花比读一份报纸更多的时间和精力去读一本好书,你就不会感到不耐烦了。”

30. does

【解析】此句意为“如果这是你的目标——这也应当是你的目标,那么花比读一份报纸更多的时间和精力去读一本好书,你就不会感到不耐烦了。”does 指代 takes time and effort。

31. marking

【解析】由短文第一句话可知,此空应填 marking,此句意为“你可能还有反对读书做标记的另一个理由。”

32. because

【解析】此句意为“你不能把做过标记的书借给朋友……没有人能……受你的标记影响而阅读

它们。”显然,由句意可知此句中的两处空缺应填“因为”和“不”。

33. without

【解析】解析见32题。

34. marked

【解析】此句意为“更重要的是,你不会把标记过的书借给他们,因为一本……的书是一种思维的记载,而……它就像将你的心思泄露出去一样。”由整句话可以推知两处空缺应填“标记过的”和“借”。

35. lending 【解析】解析见34题。

Part B

Text 1

参考译文

教室空间的合理布局对促进学生之间的互动是很重要的。大部分人已经注意到客观环境对我们工作时的效率和舒适程度有多么重要。如今的许多公司都聘请人力工程专家和花费大量的时间和金钱以确保建筑物的客观环境适合居住者进行活动。

同样,大学教室的空间设计应能激发批判式的思想活动。我们即将步入21世纪,但是踏入几乎任何一所大学的教室,你都像退回到了至少一百年前。课桌通常摆成笔直的几排,这样学生们都能清楚地看到老师而不是所有的同学。这样一种布局的设想是很显然的:所有重要的东西都来自老师。

除非课桌是固定在地板上的,否则老师若稍动动脑子,费点力气,是可以纠正这种情况,创造出空间来鼓励学生之间的相互交流的。若上小型或标准规模的课,椅子、课桌和讲桌可以用不同方式摆放,如圆形、U形或半圆形。主要目的是让每一个人都能看到其他所有人。很不幸,若上大课,特别是在大教室里上的课,灵活性要小得多。

教室的布局还应该便于学生分组讨论和练习解决问题。这对桌椅可以移动的小教室不成问题。即使是在大教室里,也可以让学生转过身组成4到6人的小组。把一个班级分成若干小组可以给学生提供更多互相交流,努力思考,以及了解其他同学的思维过程的机会——所有这些都是发展新的批判思维模式的重要因素。

在经常运用小组模式的课程中,可以让学生在上这门课时始终在同一小组中。我的一位同事允许学生在前两周里在小组间走动,直到找到让他们觉得舒服的小组。然后他就让他们从此坐同一个座位,呆在同一个组里。这不仅为交流创造一个舒适的环境而且有助于他了解学生的名字和相貌。

36. D 【解析】由文章语义可推知,过去的100年内,大学教育的方式没有多少改变。故选D。

37. B 【解析】文章第三段第一句:“the teacher can correct this situation and create space that encourages interchanges among students”老师可以纠正这种情况,创造出空间来鼓励学生之间的相互交流。故选B。

38. B 【解析】由文章内容可知,让学生自己随意找小组可以使学习更舒服点。故选B。

39. A 【解析】A项意思是必须重新做新桌椅,但文章只是说重新安排桌椅。不符合文意,故选A。其他三项均符合文意。

40. B 【解析】从文章最后一段可知,B项“把班级分成小组,让学生们找到他们喜欢的小组”符合题意,故选B。

Text 2

参考译文

联合国一向以冗长拖沓的审议而闻名,现在该机构正在尝试使用一种新的技术手段来迅速改善这种状况。旨在增进组织机构责任的全球微缩办公室,利用了一种曾经是边缘化的技术——维客——以帮助分布在80个国家的员工分享信息,减少达成决议前的各种讨论并加快速度。全球微缩办公室通过使公众参与到对2000余家公司的进展报告进行审查来实现这一点——这一努力的目的在于每一家公司都充分遵守已建立起来的社会和环境方针纲要。鼓励公众的参与是否能够增进效率还有待证实,但是联合国的这一行动是一种迅速发展的趋势的最新例证。

维客软件——让任何能够上网的人可以轻松地创造、删除和编辑一个网页上的内容——由于维基百科的广泛使用而变得流行,而维基百科由

于让网民来编写百科全书的内容而被誉为网上最伟大的资源。现在这种技术正在大规模地传播，并已冲破那些技术怪人的世界而进入了主流世界，应用于工作场所、公司甚至是政府。在所谓的“维客工作场”中，越来越多的组织已经通过使用维客软件开始从传统的等级架构转变为一种自我组织和合作的网络——维客软件是一组技术组合，包括维客、博客以及其他工具——从而进行跨组织和跨地域的创新。管理人员们称这些新工具使得团队之间更容易合作和分享信息，并使得各个项目高效地进行。IBM 的信息和合作软件部门副总裁肯·比斯康蒂称“合作软件在公司如何创造和创新的过程中起到了非常重要的作用”。

联合国采用维客这一事件证明了一些组织正在开始克服维客技术会给操作带来混乱的恐惧。正如维基百科证明的那样，对于公众开放的网站非常容易引来各种伤害、偏见、矛盾和其他问题。但是大多数企业维客都是不对公众开放的，只允许在公司的防火墙内部的员工访问。技术专家称这些准封闭系统通过记录每一个改动以及改动者来使人们做到负责任。

IBM 从 2005 年开始使用内部维客，并在考虑将这种概念卖给客户。其中的第一个用途就是雇员们通过维客来合作撰写一个博客宣言：一组如何在办公室内外合理使用博客的政策。成千上万的员工参与了宣言的撰写和修订，该宣言最后得到了公司的批准，成为了公司的官方政策。

41. B 【解析】主旨题。纵观全篇文章，主要是在介绍 wiki 这项技术及其发展趋势。A 项的错误原因在于联合国采用维客技术只是一个引出文章的例子。C 项的错误原因在于文章的主旨并不是评论维客技术的优缺点。D 选项的错误原因在于维客技术尚不成熟这一点同样不是文章的主题。故选 B。

42. D 【解析】细节题。从全文来看，现在联合国和其他一些大的公司和组织机构都已经开始采用维客技术，文章第二段第二句话也说明了维客技术现在不仅仅属于那些 bizarre tech people，而是变得越来越普遍，说明其应用前景是令人看好的。故选 D。

43. C 【解析】细节题。文章第三段中提到“As Wikipedia has demonstrated, Web sites that are open to the public are vulnerable to deliberate injury, bias, inconsistency and other problems”，而这个问题尚未得到解决，因此 C 项为正确答案。

44. A 【解析】细节题。该题的 B、C、D 项都可以在文章第二段中找到答案，但是全文没有任何关于维客技术安全性的明确表述。文章第三段指出了对外使用维客技术存在的弱点和问题，而内部由于责任明确而相对比较安全。故选 A。

45. C 【解析】细节题。C 项的原文对应信息为“a growing number of organizations have begun shifting from traditional hierarchical structures to self-organized and collaborative networks, using wiki software”。A 项中，关于联合国这项新措施的结果我们尚未得知。B 项表述错误。D 项的表述并没有在文章中出现。故选 C。

Text 3

参考译文

一白人少年在其就读的郊区中学贩卖了一袋可卡因，一拉丁美洲少年在其市内社区也做了同样的事情。两人都被逮捕了，并且他们都是初犯。白人少年在其父母、牧师、知名律师陪伴下走进少年法庭——他有医疗保险；而那个拉丁美洲少年却只在他母亲陪伴下来到法庭，没有任何法律援助，也没有什么保险。法官让白人少年随家人回家，判他接受私下处理计划监管的惩罚；而那位少数民族少年则别无选择，被拘留了。

简而言之，这样的事情在少年法庭上越来越常见。据旧金山一家研究中心——司法政策研究——上周发表的一项研究结果显示，在加州因暴力重罪嫌疑被捕之后进而转出少年法庭而作为成人被审判的少数民族青少年的数量可能是白人青少年的两倍。一旦被移交成人法庭，那些青少年黑人犯罪者被送进监狱的可能性是白人的 18 倍，美籍西班牙人是白人的 8 倍。“司法系统对有色人种青少年的歧视每升一级都加一次码，而这些年轻人一旦以成人的身份被审判的话，这种歧视便被极度升级，并且愈演愈烈，达到无以复加的地步。”这项研究的合作者丹·麦卡莱尔（Dan

Macallair)说,“加利福尼亚历来奉行双重标准:把犯罪的有色人种青少年投进监狱,但对犯有同等罪行的白人少年却进行教育感化。”

正当青少年犯罪率从20世纪90年代初期的高峰开始下降的时候,常常成为报刊头条新闻的少数民族未成年人暴力犯罪强化了公众的强硬态度。在过去6年中,43个州通过的法律使青少年以成人的身份受审变得更加易如反掌。1996年,美国得克萨斯州和康涅狄格州(这是这两个州能收集到的最新一年的青少年犯罪记录)的资料表明,在监狱服刑的所有青少年都是有色人种。司法政策研究所所长文森特·希拉迪承认,“有些青少年需要作为成人进行审判,但是他们中大多数人是可以被教育感化的。”

成人监狱经常虐待这些青少年。这些人自杀的可能性是少管所罪犯的8倍,遭到性虐待的可能性是他们的5倍。华盛顿的一个改革革命性团体“审判项目组织”的女发言人Jenni Gainsborough认为,“这些人一旦被释放,往往会疯狂作案,实施更多的暴力犯罪。”这种体系实质上是在培养职业罪犯,对有色人种而言,它起的作用更糟。

46. C 【解析】推理题。作者在第一段中进行对比,其目的在于引出“同一性质的案例因为犯罪对象的不同,从而处理的结果也不同这一论点。故选C。

47. B 【解析】细节题。原文对应信息是在第二段:“Discrimination against kids of color accumulates at every stage of the justice system and skyrockets when juveniles are, tried as adults”。故选B。其他选项意思与原文不符。

48. A 【解析】语义题。从单词所在的句子语境中,可以判断skyrocket与accumulate的意思相近,都表示激增,并且前者程度更强。故选A。

49. A 【解析】推理题。原文相关信息是文章最后两句话“The system, in essence, is training career criminals. And it's doing its worst work among minorities.”。意思是这种体系实质上是在培养职业罪犯,对有色人种而言,它起的作用更糟。故选A。

50. D 【解析】情感态度题。作者通篇都在阐述司法机关对有色人种青少年的不公正待遇,所以对司法系统是持批判态度的。故选D。

Part C

参考译文

[D]人工智能正在引起人类劳动力的不安,而且随着人工智能功能的发展,这一情况将会持续。不可避免地,人工智能将很快可以胜任让管理者耗时繁多的管理工作,并能完成地更快、更好,且成本更低。然而,一旦涉及到更加复杂、更加富有创造性的工作时,比如创新,人工智能是否比人类做得更好还有待讨论。

[G]毫无疑问,人工智能最近取得的成就惊人。一款专门用来下围棋这一古老桌面游戏的计算机程序AlphaGo,以4比1的绝对优势打败了世界围棋最顶级选手之一李世石。鉴于围棋比世界象棋更加高深复杂,AlphaGo的胜利可谓是一项重大突破。

[C]尽管取得了这些成就,计算机仍有诸多局限。比如,即使AlphaGo依靠深度学习来走棋,提高胜算,但它的程序员并不知道系统为何如此走棋。他们可以通过多层网络的诸多数字化“神经元”的值去仔细找寻原因,但大量信息分散在巨大的神经网络中,他们不可能总结出合理的说法来解释某次走棋的动机。

[A]在(合理说法)总结出来之前,作为各自领域专家的公司经理和CEO们是不会相信一台就某一创造性和风险并存的策略为何是最佳选择这一问题不能给出合理理由的计算机。研究人员已经完成了关于计算机创造力极限的数学证明。他们发现即使是目前运行速度最快的超级计算机也不能列举或探索出某一事物/事情的所有特征,就算它退回到20世纪50年代就开始研究上述问题。此外,对于那些我们缺乏了解的空白领域,计算机也无法总能帮助我们来填补。理论总需要实际的、经验性的测定方法来填补我们的理解空白。

[F]鉴于这些局限,研究人员提出了一种解决方案:一种允许人类和计算机协同工作来弥补双方缺陷的新型人机界面。例如,计算机可以防止人类陷入诸如功能定式、盲目假设、盲目类比等认知偏见。而人类可以弥补计算机在创新方面的不

足。为了使其顺利运行,该界面需要友好的人机交互。

[B]因此,我们不必顾虑计算机是否会超越人类,相反,我们应该专注于设计出一款能使人类和计算机轻松协作的系统,以便双方互补优劣。长此以往,人类将能应付与机器这一强大伙伴协同工作所遇到的挑战。在某种程度上,这一愿景正在发生。在前三局都输给 AlphaGo、并见证了计算机系统做出人类选手从未见过的走棋之后,李世石走出了一步极富创造力的棋子,并最终赢得那局比赛。

[E]未来人类还会见证更多此类事件的发生。随着人类不断开发系统以及系统不断演化,人类和计算机将会继续挑战彼此,因此,双方都会在这一过程中变得更加创新。此外,为人类和计算机设计出更加合适的交互界面来协同处理同一问题,将会释放出单凭哪一方都无法实现的创新能力。

51. D 【解析】根据首段不能出现表承上衔接的代词或逻辑词这一原则,可首先排除 B 项 ... therefore ...、C 项 Despite these advancements、E 项 One can see more of this in the future,A 项中 Until summarizing is possible 表明上文提及“做出某种总结、总结某事”,也不能作为首段。因此锁定 D 项,该项先总说人工智能威胁人类劳动力,之后转折给出不同观点“在某些需要创造力的领域,人工智能是否比人类做得更好还有待讨论”,这种“由普遍现象入手引出作者异同观点”的行文逻辑是常见开篇方式。另外,第二段 G 项首句指出“毫无疑问,人工智能取得惊人成就”,可与 D 项形成让步逻辑。

52. C 【解析】已定位的 G 项举例说明人工智能最近取得巨大成就,由关键词 advancements 可优先锁定该词复现的 C 项,选项指出“尽管取得如此成就,但电脑(人工智能)依然存在局限”,与首两段整体形成让步转折逻辑,呼应首段作者观点“在某些领域,人工智能不一定比人类强”。

53. A 【解析】已定位的 C 项举例说明人工智能的局限性,其中末句指出“由于电脑的神经网络庞大且复杂,研究人员不可能总结出 AlphaGo 每一步走棋的原理”,由关键词 limitations、summarized 可锁定词汇复现的 A 项和 F 项。假设 A 项在 C 项后,则 A 项首句“在 AlphaGo 走棋原理总结出来之前……”与 C 项末句顺承而下,衔接自然,且 A 项之后给出人工智能有局限的两个理由(Researchers have developed a mathematical proof、Further),可以看作是对 C 段的提炼和总结。假设 F 项在 C 项后,尽管 these limitations 复现关键词,但一则,C 项仅举例指出“AlphaGo 走棋动机不明”,并未深入扩展说明所有人工智能都存在局限性,论证过于单薄,F 项首句针对人工智能存在的局限提出解决方案显然太过突兀;二则,F 项提出“新型人机交互界面”(a new human-computer interface),与已定位的 B 项“设计人机协作系统”(designing a system that...)语义一致性更高,且 B 项中 therefore 所体现的 F 项与 B 项的因果逻辑也成立。综上可得出,A 项与 C 项衔接更加自然顺畅,且 A 项侧重说理论证,给出了人工智能有局限的两个理由,F 项在 A 项之后,可避免上述论证薄弱的缺陷,同时 these limitations 也有明确回指内容。

54. F 【解析】解析见 53 题。

55. E 【解析】已定位的 B 项首先以 We shouldn't ... instead, we should... 指出人类应该关注的侧重点“设计新型人机协作系统”,之后举例说明这一策略的可行性“李世石通过向 AlphaGo 学习,走出了一步极富创造力的棋子,最终赢得那局比赛”。剩余选项 E 首句指代词 this 可回指上述例子,同时给出作者乐观看法“未来人机通过互动均会变得更富创造力,且人机协作潜能无限”,重申前文观点,总结收篇,符合末段的功能。

Part D

56. 第一个事件是波音飞机撞击大楼,损毁了大楼外部框架,飞机内的 1 万加仑(38 千升)汽油立即产生一个火球。

57. 事件之二是由飞机内所剩的燃油和办公室内纸和家具等物品引燃的大火持续燃烧。

58. 大火加热并削弱了建筑结构,增加了受损大楼的压力。

59. 飞机燃油引起的大火使众多的喷头开始工作,致使灭火系统水压骤然下降,难以有效地将水

输送到大范围的火场。

60. 在此过程中，上层大量坍塌的楼板增加，冲击了下层楼板，引起楼板连续地迅速坍塌，一层一层加速损毁下一楼层。

第三部分　写作

61. 范文

Fatness, which used to be a symbol of fortune and prosperity, nowadays become more like a sin, because people usually associate it with weak moral strength and poor physical condition. And people are more obsessed with thinness. There are both religious reasons and health concerns behind this phenomenon.

However, I think people's real concern is not being over-weight or too fat, but that we don't take enough exercises or we fail to eat well. It is quite necessary for us to build strong bones as well as improve heart and lung condition through exercises. We should not always keeping our eye on the weight. Simply being thin is not enough because being thin does not equal being healthy.

Neither being too fat nor too thin is good for people's health. To keep fit, both healthy diet and regular exercises are needed. For instance, we can eat nutritious food with low calories, have more fresh vegetables and fruits, and go to the gyms at least twice a week, or at least take a walk after dinner. Only in this way can we drive fatness away and keep a slender figure.

听力部分录音材料：

Questions 1 ~ 5

Shakespeare was born in 1564. He probably studied Latin in the village school, and his plays show that he had read widely the books in his day, but we know little of his education. He left his hometown in 1586 and in 1592 he was well known in London as an actor and a dramatist.

In the next few years he published two poems, and by this time he was also writing some famous poems. His life seems to have lacked the adventure found in the careers of many Elizabethans and indeed in those of some of his early dramatists. He early became a member of one of the leading dramatic companies and he continued a shareholder in its profits until his death.

Shakespeare's plays were popular both in the theatre and at court, but less than half were printed. It was only late in his career that man began to realize that his successful and interesting dramas were to be a part of the world's great literature. Shakespeare did not appear as an actor after 1603, but he continued writing plays for nearly ten years more, when he was retired to his hometown, where he died in 1616.

Questions 6 ~ 10

M: Hi, Mary. Do you want to start writing a lab report after we finish this experiment?

W: I can't. In fact I need to finish early because I'm going over to the psychology department to talk to Professor Smith about a job opening.

M: You mean a job on campus?

W: Yeah. And it sounds pretty interesting. It involves helping with your study on learning style. You

know, about how some people learn best by sight, while others learn best by hearing or touching.

M: Yeah. I know that's an area of expertise.

W: Right. Anyway, for her study, she's taking some high school students who aren't doing very well in their classes and testing them to find out what their learning styles are. Then tutors, people like me, will work with them presenting material to them in their particular learning style.

M: Hey. That is interesting. Now will you mostly do the testing or the tutoring?

W: Both I hope. I want to be involved from start to finish.

M: Are you getting paid for this?

W: I'm sure we'll get something though, probably not much. Anyway it doesn't matter to me, I just want to have some hands-on experience.

M: Yeah. And it'll be nice to help those high school students too.

W: That's what I thought when I saw the ad. You know you could do it, too. You don't have to be in her classes to work on the study.

M: Really? Do you have any idea what the schedule is like?

W: Late afternoon then evening for tutoring, I think. After all, the kids are in regular classes until three thirty.

M: Actually that's perfect for me.

W: Then come along. We will save the lab report for later. But we'd better make sure we do a good job on our experiment first.

M: Yeah. First thing's first.

Questions 11 ~ 13

Although February is a very cold month in many parts of the United States, many nice things happen during February. It is the month when Americans celebrate the birthdays of George Washington, Abraham Lincoln, and Thomas Alva Edison. Washington, for whom the capital was named, was the first president of the United States. Lincoln, who was also a president, is especially remembered for ending slavery in 1862.

Thomas Edison is the most honored American inventor. He invented the electric light, the phonograph, and movies—three of the world's most popular items.

Valentine's Day also comes in February. It is the day when people give valentine cards or candy to their boyfriends, girlfriends, husbands or wives. Valentines often have the shape of a red heart and a nice way to say, "I love you."

The entire month of February has been named "Black History Month". Cities, schools and clubs often plan programs to honor the black men and women who have contributed so much to American culture. They have served on the president's cabinet, on the Supreme Court, and in the United States Congress. Los Angeles, Washington and Cleveland are some of the big cities that have elected black mayors. These black Americans have come far since the days of slavery.

Questions 14 ~ 16

Welcome to physiology 100. I'm doctor Ann Roberts. I think everyone here is the sophomore since this is the nursing department's second year physiology course. If you are first year nursing students, please see me after class about transfering to the introductory course. OK, I'd like to begin my first lecture by introducing two important terms: vitalism versus mechanism. How many of you've heard these terms? Oh, I see someone of you has! Well, vitalism and mechanism are two completely opposed approaches to human physiology. According to the vitalist, the laws of the physics and chemistry alone cannot explain the processes of life. To the vitalist, there is a so-called "vital force" and this "vital force" is totally separated from mental energy. As you may have guessed, vitalism is a kind of philosophical approach. Mechanism, on the other hand, is the view that all life phenomena, no matter how complex, can be explained according to chemical and physical laws, since we can support mechanism through scientific experimentations. The modern scientist tends to be a mechanist, but vitalism is not total-

ly dismissed especially in feel, such as brain physiology. There are terms, such as human consciousness, that haven't been defined by physical and chemical terms. I recently read an interesting article that deals with the variant question that whether the mind is separated from the brain or whether the chemical is in the physiological working of the brain. I'd like to continue with this next time so we can speak more details. I have some copies of that article and I want you to take them home and read them for next week.

Questions 17 ~ 20

In the 1930s, archaeologists discovered spear points in the New Mexico town of Clovis, dated from around 13,000 years ago. The individuals who made them have since become known as the "Clovis people" and are believed by many to have been the first people to enter North America.

The "Clovis first" theory proposes that around 14,000 years ago people traveled across a land bridge that existed between Siberia and Alaska. Once in North America, their journey took them through a corridor that opened up between the ice sheets in Western Canada making them the first to be able to enter the interior of the continent. It's an elegant and almost biblical explanation, but more recent fossil finds question the theory. Some researchers believe the first people entered North America much earlier—perhaps as long as 20,000 – 30,000 years ago.

In more recent years, the Pacific coast has been seen as an alternative route of entry—possibly at an earlier date than the Clovis. There is little direct evidence to support this, but fossil evidence from the islands of south-east Alaska tells us that this region, or part of it, was free of ice and may have been a refuge for animals throughout the ice age.

If animals such as bears and foxes lived here then why not people? Fossilized human remains have been found on Alaska's Prince of Wales Island and much further south on the Channel Islands off California. These are thought to be as old as some of the Clovis finds and it may only be a matter of time before older remains are discovered.

If people did travel down the coasts between islands, they must have used boats. Although the coastal route still lacks a lot of hard evidence, the relatively recent discovery of a stone tool off the coast of British Columbia has added support to the idea.

第二部分　阅读

Part A

参考译文

人们普遍认为工资和生产率应该是相关的。但随着人的变老,这种关系似乎在减弱。

心理能力随着年龄而下降。不管是大脑聪明的人还是愚笨的人这都是一样的。这不仅仅是对人类来说的。即使是在果蝇身上也是可测量的。但是,活跃的大脑会比懒散的大脑受到的影响要小。在一般情况下,你受到的教育越多,年老时你就会越富有。

有些能力下降比其他的要快。根据多数研究,人们的数字和推理能力表现最好的时候是在他们二三十岁左右。那些依赖于知识的其他能力,可能随着年龄增长而提高。

对于大多数的工人,能力下降会导致生产力下降,只有少数人能找到诀窍和知识远远超过他们下降的能力。即使是那些保持高生产力的员工将有可能只在一个狭窄的领域里发光。

学者注意到这一点,雇主对于这是不太清楚的,关于主管评级的研究表明年龄和认知生产率之间没有明显的相关性。当其他员工的意见都被考虑到时,画面变化了:这些评级表明,工人在30多岁时生产效率最高并工作最努力,之后其分数会随之下降。

对工作案例的研究支持了这一说法,研究发现老员工生产率低。美国劳工部门研究显示工作绩效峰值为35岁,然后开始下降。它因行业不同而不同:下跌较缓慢的是鞋类生产行业,较快的是家具行业

智商更高的职业是难以衡量的,但数据图是一样的。学者似乎很少公布他们的年龄。画家、音

乐家和作家也表现出同样的趋势。他们的输出峰值也出现在30多岁和40多岁。唯一的例外是女性作家,其输出峰值出现在50多岁。

21. as

【解析】此空上一句意为“人们普遍认为工资和生产率应该是相关的。”下一句意为:“但是这种关系在减弱……人们在变老。”可知缺少连词,引导时间状语从句,主句和从句动作同时发生,应填as,意为“随着……”

22. only

【解析】这句话意思为:“不管是大脑聪明的人还是愚笨的人这都是一样的”。“这不……是对于人类来说,即使是对果蝇来说也是一样”。由整句话可以推测出缺少“仅仅”一词,因此可以填only。

23. But

【解析】这句话意思为“……活跃的大脑会比懒散的大脑受到的影响要小。在一般情况下,你受到的教育越多,年老时你就会越富有。”可知此处需要填写一个关联词,与上一句话承接起来。联系上下句可知此处并非并列与递进而是转折。故填But。

24. age

【解析】这句话意思为:“在一般情况下,你受到的教育越多,……时你就会越富有。”此处用了“the more...the more...”的比较结构。意思是说年轻时受教育程度越高,年老时收获就会越多。可以推测出填age。

25. abilities

【解析】该段段意为“有些…下降比其他的要快。根据多数研究,人们的数字和推理能力表现最好的时候是……他们二三十岁左右。那些依赖于知识的……能力,可能随着年龄增长而提高。”因此可知此段说的是人的某些能力。不难推测出应填abilities。

26. Other

【解析】参考第25题的解析。some...and other...经常连用。联系上面的内容可知,此处说的是其他的能力。

27. lead

【解析】这句话意思为“对于大多数的工人来说,能力下降会……生产力下降”。可知此处表示缺少表示“导致,引起”类的词。并且此空后面的to也能给予一定的提示,因此填lead。

28. field

【解析】这句话意思为“即使是那些保持高生产力的员工有可能只在一个狭窄的……里发光。”根据句意可以推测得知应填“领域”一词。故填filed。表示在一个狭隘的领域里能有一些作为。

29. between

【解析】这句话意思为“关于主管评级的研究表明年龄和认知生产率……没有明显的相关性。”between...and...,理解句意的基础上不难填出between一词。表示在年龄和生产力之间。

30. taken

【解析】take sth. into account是一个固定搭配。意思为“把……考虑进来”。这句话意思为“当其他员工的意见都被考虑到时……”。此处需要用被动,故填taken。

31. most

【解析】这句话意思为“这些评级表明,工人在30多岁时生产效率……并工作最努力,之后其分数会随之下降。”可知此空要填一个最高级。故填most。

32. backed

【解析】这句话意思为“对工作样本的研究发现老员工生产率低。这一研究支持了……”。back up是短语,意为“支持”。

33. then

【解析】这句话意思为“美国劳工部门研究显示工作绩效峰值为35岁,……开始下降。”此处应该填表示递进关系的词“然后”。故填then。

34. less

【解析】这句话意思为“在一些智力要求很高的职业中,是难以测量的,是因为他们……公布自己的年龄。”可知由于很少公布才会使得测量变难,应填less。

35. exception

【解析】这句话意思为“画家、音乐家和作家也表现出同样的趋势。他们的输出峰值也出现在30多岁和40多岁。唯一的……是女性作家,其输出

峰值出现在50多岁时。”根据句意这里是说唯一的例外是女性作家。可以填出exception一词。

Part B

Text 1

参考译文

吉姆·克拉克今年55岁,是创办了3家价值超过10亿美元的大公司的第一人。他所取得的成就得到迈克尔·刘易斯的畅销书《新新事物》的大力颂扬。克拉克在原始计算机图形芯片里看到了硅谷图形公司强大新型工作站的潜力。他看了一下简单的网络接口,就把它变成了网景公司的浏览器。就在最近,他利用网络的潜力通过一个叫“健康保险网络”的公司来分发医疗信息。克拉克的每个点子都为自己净赚了高达10亿美元左右的利润。这样的一个幻想家在捐赠方式上是否也应该同样别出心裁呢?

可惜,答案是“不”。克拉克以古老的方式——在他的母校斯坦福大学一座建筑物上刻上自己的名字——捐出了他的钱。他捐赠1.5亿美元用于建立生物医学工程科学系的吉姆·C·克拉克中心,这源于他的一种信念:正如计算机技术推动了今天的经济,生物技术也同样会在以后的40年里给经济提供强大的动力。“有人说,你应该把钱投到最需要的地方,”他耸了耸肩说,“但这是政府的事。对于只有区区几十亿家当的我来说,还是优先发展某个项目会产生更大的影响。”

克拉克也想酬谢一下斯坦福大学,因为他设计他的硅谷图形工作站所用的芯片时使用的就是该校的实验室。而这种慈善活动仍然能给他留出时间享受开办公司、建造游艇和驾驶直升机的快乐。对于某些搞技术的千万富翁迟迟未热衷于慈善捐款一事,克拉克有自己的见解。1998年某时,他目睹了手中网景公司股票价值从20亿美元逐渐降到2亿美元。其他技术富豪们的个人财富也经历了类似疯狂的大起大落。克拉克解释说:“当你看到你的资本净值跌得那么快,你会想,‘如果再继续这样跌下去,我必须卖我的飞机了。’”

克拉克对硅谷的那些尽管拥有数十亿美元资本净值却不够大方的亿万富翁同行们持批评态度。他希望他的馈赠能激励其他技术亿万富翁们行动起来,特别是雅虎公司的创始人杰瑞·杨和大卫·菲洛。这两人从不谈论任何力所能及的捐助事宜——克拉克认为他们两人太过于精打细算。“这些人的雅虎服务器实际上是从斯坦福开始的。”克拉克说,“他们应该给予一定的回报。这些人很年轻,但他们挣的钱却比我多。就拿拉里·埃利森来说,他应该做得更多一些。”

但克拉克仍保留乐观态度:“这些新贵们,他们首先得有两三套房子,得有飞机。只有到了那时候他们才会考虑:我如何做些更有影响力的事?”

36. A 【解析】细节题。原文指出克拉克是创办3家价值超过10亿美元的大公司的第一人,并把此称为an achievement,所以选A。

37. B 【解析】细节题。从句子“Clark is critical of some of his Silicon Valley brethren who haven't been as generous, despite their multibillion-dollar net worth.”我们可看出克拉克对于其他富翁吝啬的举动是持否定态度的。而他本人又给母校斯坦福捐赠了1.5亿美元,由此可以看出他的慷慨。故选B。第二段末尾提到克拉克认为捐赠最好“targeting a specific priority”,但这并不是说捐赠应该只限于某个领域,因而排除C。

38. B 【解析】细节题。原文对应信息在倒数第二段:“...Yahoo founders Jerry Yang and David Filo, who don't discuss specifics of any giving they may have done—and who Clark believes have been too frugal.”意思为“雅虎公司的创始人杰瑞·杨和大卫·菲洛从不谈论任何力所能及的捐助事宜——克拉克认为他们两人太过于精打细算。”故选B。

39. A 【解析】情感态度题。原文对应信息在倒数第二段:“Clark is critical of some of his Silicon Valley brethren who haven't been as generous, despite their multibillion-dollar net worth.”Be critical of意为“批判,批评;挑剔”。故选A。

40. D 【解析】细节题。原文对应信息是“They should be giving something back. These guys are young, but they've got more money than me. Or take Larry Ellison; he should be doing more.”句中they指的是那些赚钱比克拉克还多的年轻富豪。

由此我们可做出判断，Larry Ellison 也是他们中的一份子。故选 D。

Text 2

参考译文

每一个拥有独立金融系统的国家都应该有这样的市场：在这里汇票、期票和其他形式的短期信贷可以进行买卖。“金融市场”就是一组用钱和短期信贷进行批发交易的公共机构或组织。在多样经济背景下，在零售层面中将产品分配给最终的用户需要建立很多便利设施，同样在批发方面，对这样的设施的需求也在快速增长。如果零售商要为他的客户提供充足的服务，他必须主动同大量制造及买卖他所要存货物品的其他商人联系。金融市场就是由这种专门的设施组成的。其设立的目的是为了帮助金融机构——金融银行、储蓄机构、投资公司、信贷中介、甚至政府——的零售商们做好他们的工作。它与那些与不同零售商有关系的或购买他们的有价证券或借贷的个人或公司几乎没有什么联系。

货币市场最基本的功能必须以现代经济形式来体现，甚至是高度计划或社会主义，但社会主义国家不一定都要采取市场形式。金融市场存在于那些利用市场而不是计划来分配资源的国家里。金融市场的基本特征是公平竞争，既存在于某一时间内资金的提供者之间，也存在于资金寻求者之间，以达到所有现存类似资金的最合理的分配。

在市场交易中，提供资金和寻求资金者之间依靠经纪人或经销商这些中间人来进行交易。这些中间人的特点，他们提供的服务以及他们同其他金融机构之间的关系每个国家都不同。在许多国家，没有这些中间人聚集的专门地点，但大多数国家中所有参与者之间的联系都是公开进行，保证资金提供者和使用者能正确了解目前影响供需的所有因素（包括他自身）的情况下买卖商品。并且在绝大多数情况下，竞争都显示在某一特定时间相同交易的一般价格上（即利率）。市场上资金供应压力和拉动市场需求压力的变化经常导致金融市场的持续波动。

41. C 【解析】第一段的描述很明显就是货币市场的基本功能。故选 C。

42. D 【解析】关于“货币市场”的定义，可以通过第一段第二句中的“The ‘money market’, is a set of institutions or arrangements...”可知，该句的意思与 D 项一致。故选 D。

43. A 【解析】根据第二段第一句我们可以知道，货币市场也存在于计划经济中，所以 A 项的表述是错误的。故选 A。

44. C 【解析】第三段中，对这些 middleman 的作用进行了阐述，从中我们可以看到他们在不同的国家都起到了重要的作用。故选 C。

45. C 【解析】由第二段的最后一句话，我们可以知道货币市场的一个分配特征就是依靠资金提供方和需求方内部之间的竞争，所以可以得出 C 项的结论。A 和 B 项均不符合文中的题意。D 项货币市场的浮动并不只是取决于资金提供方，还有市场的需要这一因素。

Text 3

参考译文

每年都有 3 万多名司机或坐在前排的乘客丧命或受重伤。在时速只有 30 英里时也相当于从一幢 3 层楼的建筑物上跌下。系安全带可以挽救生命：它可使丧生或受重伤的几率减少大半。

所以大多数交通工具中的司机和超过 14 岁的前排乘客必须系安全带。如果你不系，你会被处以最高 50 英镑的罚款。司机没有确保你系安全带的责任。但是司机有责任确保 14 岁以下的儿童在车辆前排就座时系上安全带之类的东西。

但当你倒车，或者开特殊车辆时，如在当地送货或做收集工作时，或者你有无须系安全带的有效医疗证明时，你无须系安全带。在决定不系安全带前要确定这些情况适用于你。记住你可能会因不系安全带而被送上法庭，并且如果你不能证明自己有不系安全带的理由你就会被罚款。

46. D 【解析】由文章第一段第一句可知，D 项正确。more than 相当于 above“多于”；approximately 相当于 about“大约”。

47. C 【解析】在车上系安全带：reduce your chance of death or serious injury by more than a half. 系安全带可以减少 50% 的死亡率或重伤几率。A 项不是公路事故而是死亡率或重伤几率。B 项“以

30 公里/小时开车时能挽救人的生命”，与文章不符，本文是说 30 公里/小时以上必须系安全带。D 项“每年挽救 15,000 人的生命”，文章未提及。

48. B 【解析】从第二段最后一句话“But it will be the driver's responsibility to make sure that children under 14 do not ride in the front unless they are wearing a seat belt of some kind”可知，B 项正确，故选 B。

49. A 【解析】第三段第一句中“reversing your car ”意思和 backing into a parking space 一样，“倒车”。故选 A。

50. B 【解析】之所以人们要使用医院证明，就是因为他们健康方面的原因，不能系安全带。故选 B。

Part C

参考译文

帮助应届毕业生获得工作机会的几个小建议

如今，为了毕业后能找到一份工作，应届毕业生应该是具备实习经历以及其他真实工作经验的成绩突出者，而且不应局限于常见的求职方式。根据我们的研究，以下是创建履历以及为自己准确定位从而为获得一份工作创造最佳机会的几种方式。

(51)培养自己的“软技能”

当然，专业技能和经验都很重要。但在研究中我们发现，在招聘初级职位时，几乎所有雇主都认为除了乐观的态度之外，沟通技能和团队协作技能也很重要，甚至是非常重要。这些技能表明了应聘者是否能很好地融入企业文化，以及入职后会在公司工作多久。培养这些技能的最佳途径是增强自我意识，并向那些在你所向往的领域工作的、你很信任的人询问他们对你的印象。当然，你也要积极投入到与别人面对面交流的环境中。在网上互动是不够的。

(52)利用一切可能的资源寻找工作

许多学生以及年轻的专业人士认为，像 Facebook 和 LinkedIn 这样的社交网络是找工作的最佳途径。然而我们的研究发现，只有 16% 的雇主完全或大多数时候依赖社交网络进行招聘。同时，接近半数(48%)的雇主利用职位公告，44% 的雇主依赖于在职员工的推荐。我的建议是，利用以上所有资源去找工作——社交网络、职位公告、招聘会、你个人以及专业的社交圈以及在这个世界上一切可以利用的方式。对你有用的方法对别人来说并不一定有用，反之亦然。也可以让亲戚朋友帮忙推荐工作，不要觉得难为情。

(53)将重点放在你最喜爱的工作上

如果你想在面试过程中表现得更为积极，最好的办法就是只申请你真正喜欢的工作。这样在面试时你流露出的热情(或许有点儿紧张)表明你很重视这份工作。而如果这是你很重视的工作，你就会为面试做更充分的准备，这将会增加你被录用的机会。相反，如果你申请一份工作仅仅是因为它能给你提供薪酬，那你很可能不会得到这份工作。

(54)面试之前做好充分准备

42% 的雇主表示，他们会对面试时准备不足的应聘者非常反感。求职者至少应该在目标公司的网站上了解些相关的信息。而多做些了解是很明智的，可以在 LinkedIn 网站上了解一下雇主的简介。通过了解他们的创业历程，你就可以在面试时与他们有更好的交流。你也应该去谷歌新闻网站上搜索该公司的名字，从而对该公司的最新公告以及行业动态有所了解。做好这些功课会表明你很在乎这份工作，从而给雇主留下深刻的印象。

(55)不要孤注一掷

工作场所是不断变化的，公司对人才的需求也是一样。这就是为什么现在努力拓宽自己的视野并使自己获得尽可能多的实习机会和工作经验比以往任何时候都更加重要。也要尽量有许多不同的工作经历。丰富的经历会增加你在至少一个领域里的成功几率。比如炒股，如果你仅投资一只股票，而它的走势又不好，那你就会破产。同样，只有一种实习经历或者只追求一个狭窄的职业领域也是不明智的。

51. E 【解析】本段第一、二句首先指出，专业技能以及经验固然重要，但对于职场新人来说，沟通技能以及团队协作技能也很重要。接着第三句说明了这些技能之所以重要的原因，最后三句介绍了培养这些技能的途径。由此可见，本段围绕

培养沟通以及团队协作等技能展开论述，而这些技能就是所谓的“软技能”。首句的 technical skills（专业技能）与选项 E 中的 soft skills 相对应。并且第二句中提到的 communication、teamwork skills、a positive attitude 等都属于 soft skills，同时，第三、四句提到的 these skills、such skills 都是回指上文提到的沟通及团队协作等软技能。因此，选项 E 是正确选项。

52. D 【解析】本段首句指出，Facebook 等社交网络被许多学生和专业人士视为找工作的最佳途径。第二、三句语意转折，指出雇主对社交网络的依赖并不强，他们采用的方式更多是职位公告和员工推荐。接着，作者提出自己的建议：利用全部资源，包括社交网络、职位公告、招聘会、个人的社交圈以及让亲戚朋友推荐工作等所有可能想到的途径，可见，作者在本段建议利用尽可能多的资源寻找工作机会。本段首句出现的 best route（最佳途径）以及 finding a job（找工作）分别对应选项 D 中的 resource（资源）以及 search（搜寻），并且，第三、四句中提到的 job boards、employee referrals、social networks、career fairs 等都属于找工作的可用资源，即选项 D 中提到的 every resource possible（可用的一切资源），故选项 D 正确。

53. F 【解析】本段首句提出段落主旨：只有申请自己真正喜欢的工作，才能在面试中表现得更为积极。接着第二至第四句分析原因：申请喜欢的工作，会在面试时表现积极，并且能为面试做好充分准备，从而大大提高通过面试的可能性，而如果申请的不是自己喜欢的工作，情况则相反。由此可见，本段作者强调了申请自己喜爱的工作的重要性。本段首句提到的 apply to jobs you're really excited about 与 F 项 Focus on the jobs you're most passionate about 同义，而本段的第二至第四句则具体解释为什么要只申请那些自己真正热爱的工作，由此可见，选项 F 是对本段主旨的准确概括。

54. C 【解析】该段首句指出，雇主对求职者在面试前没有做好充分准备非常反感，接着具体介绍了提前了解应聘公司及其雇主概况的方式，最后一句指出这样做的好处，即给雇主留下你对这份工作很重视的深刻印象。首句提到的 how unprepared students are in interviews 与 C 项 Prepare yourself before interviews 意思相反，前者说明了问题，后者提供了解决办法，而第二至第五句列举了了解应聘公司概况的方式，包括 do some research on the company、review the hiring manager's profile 等。同时，末句提到的 Doing your homework 即提前做好充足的准备，因此选项 C 正确。

55. B 【解析】本段首先指出，公司对人才的需求在不断变化，因此应聘者要丰富自己的实习及工作经历，接着指出工作经历丰富的重要性，即可增加在多个领域求职成功的几率。最后以股票投资为例，说明孤注一掷的后果。因此本段旨在说明拥有多一些实习和工作经历的重要性。本段几处提到应该丰富实习和工作经历，如 get as many internships and experiences、get a range of different experiences 等，旨在说明仅有某一类工作经历是不明智的，即不要孤注一掷。另外，本段使用的类比“不要只投资一只股票”也与选项 B 提到的“不要把鸡蛋放到一个篮子里”同义，故选项 B 正确。由以上分析可知，本段强调实习和工作经历“丰富”的重要性，而非“尽早”获得这些经历的重要性，所以虽然选项 G 也提到实习和工作经历，但与本段内容不符。

Part D

56. 环保主义者和激进分子谴责发达国家试图通过召开一个关于转基因食品的国际会议来平息人们的恐惧。

57. 但激进分子说，这还不足以对抗来自生物工程公司的代表以及热衷于转基因作物和食品的研究及其商业化的科学家。

58. 罗宾·哈伯说：“整个会议的重心在支持转基因食物的科学家和行业官员身上。”

59. 一个总部设在美国的消费者保护生态完整小组认为，1998 年反对美国食物和药品管理局实施强制性的对所有转基因食品的试验的诉讼揭示了在管理局内部，科学家们对转基因食物是否与传统食物一样安全提出了质疑。

60. 食物和药品管理局声称，对转基因食物提出质疑的科学家是在各司其职，他们的工作也是

管理局监管进程的一部分。管理局会考虑科学家们的见解,并将其纳入最终的政策中。

第三部分　写作

61. 范文

The debate in the article focuses on why schools try to equip their students with computer-related skills. Some believe schools conducting such professional training can help students gain an edge in the job market, while others argue that computer education is merely complementary to other real skills.

In my opinion, computer training can help us keep up with the ever-changing world, but we shall not rely too much on it to find a better job. On one hand, computer skills are essential for young people to learn new things and follow the latest trend. Our efficiency can be greatly improved by utilizing computer technologies. On the other hand, basic computer skills can be easily mastered by almost every young man, so job seekers with no profound and professional skills like computer engineers won't enjoy any competitive edge.

From what I discussed above, we can draw the conclusion that computer education is more to let us know the world better than to help us find a good job.

全国英语等级考试第四级模拟试卷(五)

第一部分　听力

Part A

1. 42,195
2. 16,417
3. 2,014th
4. 3,470th
5. 3. 75

Part B

6. A journalist/A news reporter.
7. the scales
8. more
9. 45,000 dollars.
10. gold

Part C

11 – 15CDBDD

16 – 20CDCCB

听力部分录音材料:

Questions 1 ~ 5

W = Reporter M = Jim

W: Hello Jim. I'm from your local newspaper the Daily Post and I'd like to ask you some questions about the London marathon race that you've just finished.

M: That's right. What would you like to know?

W: Firstly, for the benefit of our readers, exactly how long is the marathon?

M: It's 26 miles 385 yards, or if you'd like it in metric it's 42,195 kilometers.

W: Thanks. Now how many runners were there altogether?

M: More than ever this year...there were 16,417.

W: My goodness, that's a lot! What position did you finish in the race, Jim?

M: Well, I'm quite pleased with my performance. I came 2,014th.

W: That's better than last year, isn't it?

M: Yes, I finished 3,470th then—but it was my first effort.

W: By the way, what time did the race start today?

M: 9 o'clock. And the winner finished at 11:30.

W: So he took two and a half hours. That's excellent. How long did you take?

M: Three and three quarter hours—but I know I can do better. Did you know that the record is 2 hours 10 minutes?

W: I didn't know. That's fantastic! Do you know how long the slowest runner took?

M: No...he hasn't finished yet!

Questions 6 ~ 10

PART OF A TELEPHONE INTERVIEW

Keet: Dr. Thomas? This is Keet Bradley from the daily news. I'd like to ask you some questions about the new official standard weight that you purchased.

Thomas: I'd be happy to help you. What would you like to know?

Keet: First of all, how is the standard weight used?

Thomas: Well, the people in our department use it to check the scales all over the country. The department of weights and measures is a government agency. It's our responsibility to see that all the scales measure a kilogram accurately so this is the way we use to adjust the scales.

Keet: How did you check the scales before?

Thomas: We have an old standard weight that we used to use. It had to be replaced because it was imprecise. You see it was made of poor quality metal that was too porous. It absorbed too much moisture.

Keet: Oh. So when the weather was humid it weighed more and when it was dry it weighed less.

Thomas: Exactly. And that variation can affect the standards of the whole country. So our department had the new weight made out of higher quality metal.

Keet: How much does it cost?

Thomas: About 45,000 dollars.

Keet: 45, 000 dollars? For a one kilogram weight? That's more expensive than gold. Is it really worth that much?

Thomas: I'm sure it is. Industries depend on our government agency to monitor the accuracy of scales so that when they buy and sell their products there is one standard. Think of the drug industry, for example, those companies rely on high accuracy scales to manufacture and package medicine.

Questions 11 ~ 13

People from other countries often find American food dull and tasteless. In their countries, they use a variety of seasonings such as garlic, chili powder, oregano, and ginger to flavor their foods. Americans, however, use few spices besides salt, pepper, and ketchup to liven up their lunches and dinners.

There are also differences in the kinds of food served at these meals. An American dinner often consists of large portion of meat with a few smaller portions of vegetables. Many foreigners prefer a well-seasoned portion of grains of vegetables and a little meat.

Now, however, the American diet is being attacked by nutritionists. They say that we eat more meat, especially fatty beef, than is good for us. They also say that we should eat more grains and vegetables.

As a result, Americans are trying foods of other nations. In more and more American cities, people find not only Chinese and Italian restaurants, but also Lebanese, Mexican, Korean, and Japanese restaurants. In the future, such foods as bean-curd, stuffed grape leaves, and tacos will become as American as apple pie.

Questions 14 ~ 16

When Iraqi troops blew up hundreds of Kuwaiti oil wells at the end of the Gulf War, scientists feared environmental disaster. Would black powder in the smoke from the fires circle the globe and block out the sun?

Many said "No way". Rain would wash the black powder from the atmosphere. But in America, air sampling balloons have detected high concentrations of particles similar to those that were collected in Kuwait. Some oil didn't catch fire. It has formed huge lakes in the Kuwaiti desert. They trap insects and birds, and poison a variety of other desert animals and plants.

The only good news is that the oil lakes have not affected the underground water resources. So far, the oil has not been absorbed because of the hard sand just below the surface.

Nothing, however, stops the oil from evaporating. The resulting poisonous gases are choking nearby residents. Officials are trying to organize a quick clean-up, but they are not sure how to do it. One possibility is to burn the oil. Get those black-powder detectors ready.

Questions 17 ~ 20

OK, in the last class we talked about the classifi-

cation of trees and we ended up with a basic description of angiosperm. You remember that those are plants with true flowers and seeds that develop into fruits. The common broadleaf trees we have on campus fall into this category. But our pines don't. Now I hope you all followed my advice and wore comfortable shoes because as I said today we are going to do a little field study. To get started let me describe a couple of broadleaf trees we have in front of us. I'm sure you've all noticed that this big tree next to Brett Hall. It's a black walnut that must be 80 feet tall. As a matter of fact there is a plaque identifying. It is the tallest black walnut in the state. And from here we can see the beautiful archway of trees at the commons. They are American elms. The ones along the commons were planted when the college was founded 120 years ago. They have distinctive dark green leaves that look lopsided because the two sides of the leaf are unequal. I want you to notice the elm right outside the Jackson Hall. Some of the leaves have withered and turned yellow, maybe due to Dutch elm disease. Only a few branches seem affective so far but if this tree is sick it'll have to be cut down. Well, let's move on and I'll describe what we see as we go.

第二部分　阅读

Part A

参考译文

行走就像游泳、骑自行车和跑步一样，是一种有氧运动，可以通过给皮肤和肌肉增加供氧而塑造更大的肺活量和耐力。这样的运动可能是防止心脏和血液循环疾病的一个主要因素。

作为可能是最不费力气、最安全的有氧运动，绝大多数人认为行走可以接受。以舒适的速度行走可以通过激活肺部和心脏增强心肺系统的效率，但比起大多数其他的锻炼形式，行走的速度更为舒缓。

在一项测试中，一组 40 到 57 岁的男子每周 4 天快速行走 40 分钟，与同样年龄每周同期进行 3 次 30 分钟慢跑的男子收到了同样的改善效果。他们的正常心率和身体脂肪明显降低。这些变化表明行走可以带来重要的，甚至是关键的益处。

行走也可以燃烧热量。获得或失去一磅重量需要消耗 3500 卡热量。因为以中等速度走一小时的路程将会消耗 300 到 360 卡的热量。每隔一天行走一小时，则每月可以减去一磅半的脂肪，或者说一年可以减去 18 磅脂肪，只要您每日摄入的食物量不变。为了更快减去体重，每天行走一小时，那么每月就可以减去 3 磅脂肪，一年就是 36 磅。

不管您的年龄有多大，现在都应该花同样时间考虑身体和养老金或保险。行走是一种关键的抵御疾病和抗衰老的方法。它是自然界给您的一种调整的方式。

21. which

【解析】此空前一句意为“行走就像游泳、骑自行车和跑步是一种有氧运动”，此空所在句意为“……通过增加给皮肤和肌肉的供氧而塑造更大的肺活量和耐力。”由这两句可知，此空应填 which，which 引导定语从句，修饰“anaerobic exercise”。

22. prevention

【解析】本句意为“这样的运动可能是……心脏和血液循环疾病的一个主要因素。”显然，此空应填“防止”。

23. most

【解析】由本句中的“the least strenuous, safest...”可知，此空应填表示程度的最高级，再由 acceptable exercise “接受的运动”可知应填 most。

24. at

【解析】“以舒适的速度行走”英文应是“walking at a comfortable speed”，介词应用 at。

25. by

【解析】显然，由本句句意可知此空应填一个表示“通过”的介词，应用 by。

26. walking

【解析】由上两段可知，该短文主要讲述步行的好处，此处做试验，肯定是测试步行。

27. equal

【解析】equal to 意为“等于”，由句意“显示出……同样年龄的男人每周在同样时段进行 3 次

慢跑。”可知,此空应填“等于”。

28. significantly

【解析】由本句句意“他们的正常心率和身体脂肪减少……”可知,此空应填一个副词,修饰 decreased,该副词意思应为“显著地,明显地”。

29. also

【解析】本句意为“步行……燃烧脂肪。”由上几段可知,这是步行的另一个好处,故此空应填“也”。

30. burn

【解析】本句意为“因为以中等速度走 1 小时的路将会……300 至 360 卡的能量。”显然,此空应填“燃烧”。“燃烧”英文表达为“burn up”。

31. yearly

【解析】由 a pound-and-a-half monthly 可知,18 pounds 必定比 monthly 周期长,而且通过计算可知为 yearly。

32. lose

【解析】本句意为“为了更快…重量,每天走一小时……”,显然,走路是为了减轻重量,而不是增加重量。

33. give

【解析】由此空前面的“...to give your...”可知,此空也应填 give,意为“花同样时间考虑身体和养老金或保险。”

34. against

【解析】本句意为“步行是一种关键的防御……疾病和衰老。”显然,此空应填“抵抗,抵御”。

35. way

【解析】本句意为“这是自然界给你的一种调整的……”显然,此空应填“方式,方法”。

Part B

Text 1

参考译文

一般来说,交流电传输比直流电传输损失的电量要少,因此,交流电成为了工业上的标准。但是一些人却在质疑这个标准,因为从远距离传输来看,高压直流电缆损失的电量比交流电缆少。这不仅能有利于电流的传送,而且通过使用高压直流电缆,人们可以对电网进行改造,从而更加有利于风能发电。如此一来,对于新建更多传统(也是污染的)发电站的需求就会减少。

风能发电存在一些问题。风能不是随处都在,也非随时可得。但是现在哪里有风的问题已经得到解决,因为总有地方在刮风。如果现在西班牙多风而爱尔兰却无风,那么电流就会朝一个方向传送。但是,风在什么时候吹则是一个更微妙的问题。比如说,史密德博士设计的大陆电网的重要一部分就位于挪威。但这并不是因为挪威消费很多的电能,而是这个国家到处都是水电站。利用水电站是可以把如风能等稍纵即逝的能源大量储存起来的方式之一。通过使用这些风能,人们可以把水往上抽到水库中推动水电涡轮。水电站以这个方式就可以随时把水抽上来。史密德博士认为挪威水库容量如此之大,以至于如果欧洲所有的地方都不刮风了——这种现象确实偶尔会发生——挪威的水电站仍然可以继续运转并供应整个欧洲的用电量达四周之久。

如果情况真是这样的话,那么建设一个跨欧洲的电网是势在必行的了。此前没有进行该项目建设是因为交流电缆在进行如此远距离传输的时候会损失大量的电能。而现在人们开始思考用直流电缆来实现这一设想。史密德博士估计,他设想的这种直流电缆能够使风能满足全欧洲至少 30% 的用电需求。此外,这样做也非常可靠——从术语上说,这意味着风能可以被称为是基本负荷型电能供应。

尽管对于风力发电也有反对者,但是如果风能可靠的话,那么其清洁环保的特点足以赢得广泛的支持。实际上,一些挪威的公司已经开始在斯堪的纳维亚、荷兰和德国之间建设高压直流电缆,尽管他们的目的在于销售本国的能源并积累他人的能源。此外,一家爱尔兰风能公司 Airtricity 则计划比挪威的公司们做的更多。该公司提出了一个所谓的超级电网的概念,该电网能够将大西洋、爱尔兰海、北海和波罗的海上的风能电厂与整个北欧的消费者们连接起来。

36. D 【解析】语义题。根据文章第一段,由于在远距离传输方面高压直流电缆损失的电量比交流电缆少,因此通过这个方法能够更加充分地

利用直流电来传输电能，因此答案为 D。

37. C 【解析】语义题。文章第二段指出利用风能存在很多问题，包括风向的时间和地点。而哪里有风的问题相对比较容易解决，但是风在什么时候吹则是一个更加微妙的问题，也就是说，在时间意义上控制风能是比较困难和复杂的，因此 C 选项符合题意。

38. B 【解析】细节题。文章第三段指出，建设直流电电网可以节约在传输过程中浪费的电能，因此对于消费者来说这一方案是较为经济和节约的，也是可行的，因此正确答案为 B。需要指出的是应区分 economic 和 economical 两个词语的区别，economic 的意思是“经济（上）的，经济学的”，是宏观意义上的；而 economical 的意思是“节约的，俭省的”，是微观意义上的。

39. A 【解析】细节题。文章第二段后半部分描述了史密德博士设计的大陆电网，其中指出选择挪威的原因不是因为这个国家缺乏足够的电能，而是这里有足够多的水库可以用来储存由风能转化而成的电能。故选 A。

40. C 【解析】细节题。各个题目的细节均可以在文章最后一段中找到对应的信息。其中提到了欧洲多家能源公司已经在计划建设传输风能的直流电缆，充分说明了风能利用的前景非常好。故选 C。

Text 2

参考译文

度假胜地弗吉尼亚海滩的警察最近开始运用有争议的面孔识别技术操作录像监控摄像机。弗吉尼亚海滩和佛罗里达的坦帕是美国利用这项技术的两个城市，其成本高达 19.7 万美元。警察局副局长格雷格·马伦说：“我们使用监控摄像机之前通过听证会对广大民众进行教育，公民群众和少数派群体也参与了这项活动，他们帮助起草了我们正在使用的方案。”公民审查委员会有权对警察局进行未通知的现场检查，以确保该技术不被滥用。

全市共有十三台摄像机，有三台是全天候与面孔识别系统相连，不过其他几台在需要的时候也可以投入使用。通缉犯的资料每天都有更新。尽管警报响了很多次，但系统迄今尚未抓到一个犯人，也就是说，发出的警报是错误的。它的运作是通过一系列的测量来分析面孔的，譬如测量鼻尖与下巴之间的距离或者两眼之间的距离。批评家说这个系统极不准确，且容易被愚弄。马伦认为这个系统最终会和其他城市，其他州和联邦的执法部门连在一起跟踪罪犯和可疑的恐怖分子，他说：“这个系统不看人的肤色，头发和性别，它排除了人为的偏见。”

“这项技术对犯罪率没有或几乎没有什么作用，但他对人们的行为影响却很大。它使人们感到害怕。”指导这项技术的布鲁斯·斯坦哈德说。尽管测试表明面孔识别只对大约 30% 的情况有效，但是美国公民自由协会被告知该项技术很快会被应用于机场。但同时协会也担心这项技术很可能会被用来控制个人的政治活动，从而骚扰守法公民。

电子情报中心的米歇尔·科舍萨加说这种监督系统应和搭线窃听装置一样受限于相同的程序。执法部门应当证明他们有需要这种系统的正当理由，并应对它严格控制，否则，它很快会成为社会控制的工具。”这样的批评绝不仅仅来自左派政党。保守的卢瑟福德研究所创建人，约翰·怀特海德律师在一篇社论中说，这项技术威胁到美国每个公民参与社会的权利。他写道：“毕竟，那项技术确实就是连续的监控——是十足的潜在威胁。”

41. B 【解析】文章第一段第三句话马伦的话“Before we switched it on, we went through an extensive public education process with hearings...”。这说明警察局对这项技术非常谨慎，为监视摄像机的使用作了充分准备。因此正确答案为 B。

42. C 【解析】文章第二段讲述了面孔识别系统的运行情况，系统迄今尚未抓到一个犯人，这是因为“It works by analyzing faces based on a series of measurements, such as the distance from the tip of the nose to the chin or the space between the eyes.”这说明这个系统不考虑人的具体特征，所以抓不到通缉犯，所以正确答案为 C。

43. A 【解析】文章第三段最后一句话指出

"The organization also fears it could potentially be used to monitor individual's political activities to harass law-abiding citizens."这说明 ACLU 对面孔识别系统心存疑虑,故选 A。

44. A 【解析】文章最后一段最后一句话"After all, that is exactly what constant surveillance is—the ultimate implied threat of coercion."这是约翰博士的观点,这项技术威胁到美国每个公民参与社会的权利。所以 A 项"会干扰人们的隐私",是正确答案。

45. C 【解析】文章讲述了警察局对这项技术非常谨慎,为监视摄像机的使用作了充分准备,但收效甚微。所以反对这项技术的人非常多。有人认为它是潜在的威胁,有人认为会侵犯守法公民,但马伦认为这个系统最终会和其他城市、其他州和联邦的执法部门连在一起跟踪罪犯和可疑的恐怖分子。所以说这项技术充满争议。因此选 C。

Text 3

参考译文

希腊问题的本质,是支出过度、征税太少以及做假账。西班牙和爱尔兰目前身处困境,尽管它们的公共债务占国内生产总值(GDP)的比例远低于德国。意大利也已成为金融市场的靶子,该国背负高额公共债务,但赤字远低于欧元区的平均水平。

这些国家问题的根源,在于它们的物价和工资涨幅远高于其他欧元区成员国。

有两种方法可以减轻痛苦。首先,暂时采取扩张性更强的财政政策。或者,力度更大一点的话,范围更大的欧元区在数年内可以施行扩张性较强的货币政策。第二种方法是"通胀原教旨主义者"(inflation fundamentalists)所无法忍受的。这批由中央银行家、高层经济官员、政界和学术界人士以及记者组成的精英坚持认为,通胀超过 2% 是不能接受的。

在上世纪 30 年代德国恶性通胀和 70 - 80 年代工业化国家的滞胀支持了他们的观点。诚然,温和通胀会节节攀升,直至变为高通胀。但是,通胀原教旨主义也可能带来危害。几乎没有任何经验证据表明,温和的通胀会损害增长。在多数国家,从政治上讲,削减实际工资即便不是完全行不通,也会困难重重。然而有些时候,要重新获得竞争力并实现收支平衡,调整实际工资是势在必行的。通胀水平略有上升,有助于减轻这一痛苦调整所带来的政治冲突。

另一方面,在衰退时期,超低通胀会很容易转化为通缩。物价持续下跌,会鼓励人们推迟消费,从而使形势恶化,并导致税收减少,进而削弱政府的偿债能力。这反过来也将增加债务的规模和成本。

另外,政策制定者如果一味关注通胀,就容易看不清整体形势,忽视资产价格、经济增长状况和就业等方面。结果导致政策不是过紧就是过松——美国在本次危机爆发前的情况就是如此,当时的低通胀被认为是形势良好、安然无虞的征兆。

此外,当经济增长放缓时,超低通胀会降低货币政策的效力,因为利率无法降至零以下的水平。欧元区的危机突显出,有必要对超低通胀的利弊展开更开放的讨论。

46. D 【解析】作者并没有直接指出第二种方法,所以这道题要求在通读全文的基础上进行判断。A 项在文中没有提到。B 项和 C 项是通胀原教旨主义的观点,由第五段可知,作者并不认同这种观点。由第四段最后一句话"A slightly higher level of inflation allows for this painful adjustment with a lower level of political conflict.(通胀水平略有上升,有助于减轻这一痛苦调整所带来的政治冲突。)"可知,作者认同温和的通胀。故选 D。

47. C 【解析】由第四段可知,作者的观点和通胀原教旨主义者的观点相冲突,通胀原教旨主义者认为,通胀超过 2% 就是不能接受的,所以,A 项和 B 项是通胀原教旨主义者的观点。由第四段最后一句话"A slightly higher level of inflation allows for this painful adjustment with a lower level of political conflict.(通胀水平略有上升,有助于减轻这一痛苦调整所带来的政治冲突。)"可知,作者认同温和的通胀。8% 太高了,作者可能不会接受。故选 C。

48. D 【解析】由第四段第四句"There is little

if any empirical evidence that moderate inflation hurts growth.（几乎没有任何经验证据表明，温和的通胀会损害增长。）”可知A项不正确。由第六句“But, to regain competitiveness and balance the books, real wage adjustments are sometimes inevitable.（然而有些时候，要重新获得竞争力并实现收支平衡，调整实际工资是势在必行的。）”可知，B项不正确。由第四句可知，作者并不反对温和的通胀，所以C项不正确。由第三句“But inflation fundamentalism can also hurt.（但是，通胀原教旨主义也可能带来危害。）”可知，作者反对通胀原教旨主义者的观点。故选D。

49. B 【解析】tickets“票券”；accounts“账目”；works“著作”；stamps“邮票”。在文中，“balance the books”意为“持平账目”，故选B。

50. D 【解析】这道题要求在通读全文的基础上进行判断。文章开始提到A项，但是“希腊问题的本质”并不是文章讨论的主要内容，只是引出作者观点的一个引子。由第三段可知，作者提到了两种缓解这些国家痛苦的办法，但是整篇文章主要谈论的是第二点，所以B项也不正确。由第四段的第三句“But inflation fundamentalism can also hurt.（但是，通胀原教旨主义也可能带来危害。）”可知，本文主要谈论的是通胀原教旨主义的危害。故选D。

Part C

参考译文

到目前为止在全球取得超过5亿美元票房的电影《死侍》是一部不太典型的卖座大片，一部满是脏话的反英雄电影，被评为针对成年观众R级（限制级）。但重要的一点是，这部电影与许多好莱坞的最成功电影走的是相同路线，并不依靠某位世界级巨星去支持票房。

(51)与之相比，最近上映的两部“大腕担纲”的电影尽管进行了大力宣传，而且选择于圣诞节当天在美国高调上映，但仍然难以吸引到观众。詹尼弗·劳伦斯主演的《乔伊》和威尔·史密斯主演的《脑震荡》的国内票房均未能赚回电影的制作费，海外票房也相对的糟糕。这是怎么回事？劳伦斯在一些人看来可是好莱坞群星谱中最耀眼的明星。这个非官方头衔多年来也挂在史密斯头上，莫非电影明星已经失去他们部分光华。

从总体上看，电影业似乎像过去一样欣欣向荣。(52)2015年美国票房收入增长6.3%，达创记录的110亿美元。在中国新增的电影观众的推动之下——中国市场去年增长49%——全球票房收入增长4%，达到380亿美元。面对来自主流媒体服务日益激烈的竞争，电影业守住了阵地。主流媒体向人们提供了非常多的选择，可以在家看电影。全球知名度最高的明星，比如汤姆·克鲁斯和莱昂纳多·迪卡普里奥，在利润丰厚的海外市场即刻得到认可。

(53)然而，电影业近来在国内和海外取得大部分成功，源于大手笔制作的特效大片的兴起：《速度与激情》《复仇者联盟》《饥饿游戏》《侏罗纪公园》《007》和《星球大战》。

这样的制作更有可能制造明星，而不是被明星捧红。一名制片厂高管说，在某些大制作的系列电影中，“其实并不需要电影明星”，反正这样的电影总会大卖，何必多花钱呢？

《经济学人》对美国和加拿大过去20年来的票房成绩所进行的分析并没有否认劳伦斯的地位，她依然是最具票房吸引力的明星之一。(54)但从统计数据上看，很难将她个人的号召力与她出演的系列电影所取得的巨大成功区分开。出于同样的道理，电影《乔伊》的糟糕票房或许不应该归咎于她——要是没有詹妮弗·劳伦斯出演，《乔伊》会是一部烂片，彻头彻尾的烂片。

好莱坞的高管仍然一厢情愿地相信明星具有吸引观众前往影院的能力，因此即使在拍出几部烂片之后，他们还会再一次把赌注压在某位大明星身上。近几时年来的学术研究普遍未能找到任何确凿的证据印证制片厂老板对明星号召力的深信不疑。(55)我们自己的分析结果表明，少数明星的确略微增加了票房收入。他们计算结果是，只要明星长得好看，会演戏，他们就不会对票房产生任何影响，顶多只有非常少的几个例外。英雄救美的情节对票房有益，但具体是哪个美人真的不重要。

51. B 【解析】本题位于段首，需重点分析其

后两句。后两句主要介绍劳伦斯和史密斯是好莱坞中较耀眼的明星，然而作者怀疑他们在电影中的作用。B项提到了劳伦斯和史密斯，谈到他们所主演的电影票房惨淡，与后文的反问紧密衔接。

52. E 【解析】本题位于段中，需要参考上下文。前一句说电影业欣欣向荣，后一句讲述电影在海外市场有利可图，E项指出美国票房收入无论是在其本国还是中国市场都在增加。

53. A 【解析】本题空出整个段落，需要参考上下段。其下一段首句出现指示代词 such productions(这样的产品)，说明上文提到了各种各样的产品，A项列举了多部电影，承接下文。

54. F 【解析】本题位于段末，需要分析前一句。前一句分析了劳伦斯的地位，认为她是最具票房吸引力的明星，F项中的人称代词 she 可以跟上文 Lawrence 衔接上，并且F项提到《乔伊》这部电影如果没有劳伦斯，将会是一部烂片(flop)，而下一段首句也提到 a few flops，故F项跟上下文都可以衔接上。

55. D 【解析】本题位于段中，需要分析上下文。上一句说明几十年来的学术研究没能找到结论性的证据，D项中 our own analysis suggests that... 显示出研究结果，与上文研究结果并列，故D项符合题意。

Part D

56. 在我二十出头时，在我减肥的概念中根本没有“理性”一词，我试着每天只吃少量所谓的“健康食品”。

57. 但我所取得的进展并不如原本想象的那样美好。非但没有为自己日渐苗条的身材感到高兴，我反而醉心于那些不能吃的东西。

58. 这好像是我们常听说的放纵饮食的恶性循环。但目前，许多减肥专家以新的积极的方式来看待这种循环。

59. 那些通常摄取富含营养的蔬菜、水果以及谷类粮食的人大多身材苗条。

60. 农业部的科学家们进行了一项营养研究，分析了3,701名来自各阶层的美国人的饮食记录，再加上其他的营养研究，均发现，食物多种多样的人饮食最健康。

第三部分 写作

61. 范文

Credit cards represent a modem living style. It allows us to overdraw our salary in advance, which is much convenient when we are in emergency or temporarily poor financial situation. But it may also lure us to spend more money without our realization. Thus, it is very important for us to use credit cards in a proper way.

As far as I am concerned, we should develop a good habit of using credit card. First of all, it is advisable to make clear the rules of using the particular credit card issued by the certain company. Secondly, we can make full use of the preferential policies of credit card companies. Some of them may give bonus points every time we use their credit card to pay, and when the points are accumulated to some extent, we can exchange them for some presents. Last but not least, we ' d better control our impulse of buying things. This may need some self-discipline.

All in all, credit cards can help us go through financial difficulty and even bring us some benefits. The condition is that we should learn to use them in a wise and proper way.
